The Rt Hon Miatta Fahnbulleh MP
Secretary of State for Energy Security and Net Zero
55 Whitehall
London SW1A 2HP

4 August 2026

Dear Secretary of State,

BWSF/RFI ref. EN010147

I write as chair of an Association that, as an Interested Party, has taken an active part in the recent Examination of the Botley West Solar Farm project by the Planning Inspectorate; and in then responding to Mr. Wheadon`s subsequent Request for Further Information of 14 April. We have made over fifty, detailed, submissions to the Examining Authority and to Mr. Wheadon`s RFI.

There was an undertaking made by your department to publish the responses to the RFI `*as soon as possible after 16 July*`. Can you therefore please explain in some detail why – over two weeks after that date - nothing has yet been published?

We are fast approaching the (already postponed) deadline for decision on the BWSF project by yourself. The ongoing delay is seriously prejudicial for those who have an interest in establishing and examining what relevant information is included in those responses.

Yours sincerely,
