1 Land and Rights Negotiations Tracker Introduction

1.1 Summary

1.1.1 This document has been updated at Deadline 1 to capture the latest information since submission of the Development Consent Order ('DCO') Application. References to other Application documents have not been updated from the original submission. Please refer to the latest version of the Guide to the Application (Document reference 1.3, Volume 1) for the list of current versions of documents.

1.1.2 This Land and Rights Negotiations Tracker ('LRT') has been prepared on behalf of Southern Water Services Limited (hereafter referred to as 'the Applicant') and forms part of the Application to the Secretary of State under the Planning Act 2008 for a DCO for the Hampshire Water Transfer and Water Recycling Project, otherwise referred to as the 'Project'.

1.1.3 The Project comprises the construction, operation and maintenance of the following components:

- Water Recycling Plant and associated pumping stations.
- Pipelines between Budds Farm Wastewater Treatment Works and the Water Recycling Plant site.
- Pipelines between the Water Recycling Plant site and Bedhampton Springs, connecting to pipelines being delivered by Portsmouth Water between Bedhampton Springs and Havant Thicket Reservoir.
- Pipeline between the Water Recycling Plant site and Otterbourne Water Supply Works.
- Above Ground Plant comprising Intermediate Pumping Stations and Break Pressure Tanks located along the Pipeline between the Water Recycling Plant site and Otterbourne Water Supply Works.

1.1.4 The Project would also comprise the use of the following infrastructure:

- Havant Thicket Reservoir (which has been consented separately by Portsmouth Water and is currently under construction) for the storage of recycled water.
- The existing Eastney Long Sea Outfall, Eastney Pumping Station, and associated Eastney Transfer Tunnel for the release of reject water from the WRP site.
- Pipelines and other related works (which have been consented separately by Portsmouth Water) for the transfer of recycled water and source water between Bedhampton Springs and Havant Thicket Reservoir.

1.1.5 The construction and operation of the Project would be supported by other temporary and permanent works.

1.1.6 The Project will require the demolition, disassembly and/or temporary relocation of a number of small structures.

1.1.7 A detailed description of the Project can be found in ES Chapter 3 Description of the Proposed Development, Volume I (Document reference 6.1, DCO Volume 6). The Application Glossary (Document reference 1.7, DCO Volume 1) sets out the abbreviations and definitions used in the DCO application for the Project.

1.2 Part 1 – Category 1 Interests (Owners)

1.2.1 Part 1 of the LRT includes all Category 1 owners identified within the Book of Reference (Document reference 4.3, DCO Volume 4) where the acquisition of freehold land, permanent rights and restrictions and temporary possession is required and the land interest is able to provide proof of title.

1.2.2 Where no interest has come forward, or ownership of unregistered plots has not been proven, negotiations are not ongoing, and the plots have not been included in the LRT. These plots will be kept under review during the Examination and if an interest comes forward, or evidence of ownership is provided, the LRT will be updated accordingly.

1.2.3 Where a land interest is identified within the Book of Reference (Document reference 4.3, DCO Volume 4) as having an assumed interest in respect of subsoil beneath a public adopted highway, such plots are excluded from the LRT as no voluntary land rights are being sought other than engaging with the relevant authority as part of the DCO process.

1.3 Part 2 – Category 1 Interests (Occupiers, Lessees or Tenants) & Category 2 Interests

1.3.1 Part 2 of the LRT will include all Category 1 occupiers, lessees or tenants and Category 2 interests identified within Book of Reference (Document reference 4.3, DCO Volume 4) that have made a relevant representation or where voluntary agreements are being sought separately to Category 1 owners. The Applicant is requesting such interests be signatories to voluntary agreements being sought with Category 1 owners where required.

1.4 Part 3 – Statutory Undertakers and Crown Authorities

1.4.1 Part 3 of the LRT includes interests identified as belonging to statutory undertakers within Part 1 of the Book of Reference (Document reference 4.3, DCO Volume 4) and provides commentary in respect of protective provisions and any voluntary agreements being sought.

1.4.2 While telecommunication operators are not statutory undertakers, they have been included in the table at Part 3 for completeness as persons identified with an interest or apparatus in the Order Limits who are therefore also subject to compulsory acquisition as part of the Application.

1.4.3 Crown authorities have been included where the Applicant understands consent is required pursuant to section 135 of the Planning Act 2008.

1.5 Other Interests

1.5.1 The Applicant is not proposing to enter into any voluntary agreements in respect of land held by Category 3 interests identified in the Book of Reference (Document reference 4.3, DCO Volume 4) where such land lies outside the Order Limits. Consequently, these Category 3 interests have been excluded from the LRT.

1.6 Explanatory Notes

1.6.1 Each tracker contains five sections from A to E, with each section broken down into further subsections.

1.6.2 Section A provides the name of the Affected Party as an individual land interest within the Order Limits, their unique reference number and the name and company of professional representation where applicable.

1.6.3 Section B provides the Examination Library references associated with any Relevant Representation, Written Representation or other document submitted by the Affected Party. Where the Applicant's response is assigned a document reference, this will be updated during Examination with the relevant Examination Library reference number.

1.6.4 Section C provides an overview of the status of any objection as well as a summary of any objection.

1.6.5 Section D provides detailed information in respect of the Affected Party's interest within the Order Limits, including the relevant plot numbers, works numbers and description of rights sought as per the draft DCO (Document reference 3.1, DCO Volume 3). For details on the plots please see the Book of Reference (Document reference 4.3, DCO Volume 4) and Land Plans (Document reference 2.2, DCO Volume 2).

1.6.6 Section E provides a status key and corresponding summary of the status of negotiations in respect of voluntary agreements being sought by the Applicant for the rights sought.

1.6.7 Table 1 explains the status colour provided in the Status of Negotiations column to reflect the following:

Table 1 Status Key

Status Colour	Comment
	Option agreement signed
	Heads of Terms agreed and option agreement in negotiation
	Heads of Terms negotiations ongoing
	Heads of Terms negotiations not commenced
	Heads of Terms agreements unlikely before close of examination
	Heads of Terms negotiations unsuccessful

Status Colour	Comment
	No landowner response to correspondence from the Applicant
	No voluntary agreement being sought

1.6.8 The Tracked Version of the Land and Rights Negotiations Tracker (Document reference 4.4, DCO Volume 4) highlights the updates to land interest information since the previous submission in May 2026 as follows:

a. those entries struck through and highlighted in ~~**red**~~ have been removed;

b. those entries highlighted in **blue** have been added;

c. those entries highlighted **orange** have been changed, for example an updated name.

The Applicant is willing to discuss individual matters in order to reach an agreement and will continue to engage with the landowner to seek feedback. A follow-up letter was issued to the landowner on the 11 May 2026. The Applicant is confident the necessary land and rights can be acquired by voluntary agreement. **Deadline 1** The Applicant continues to engage with the landowner. The Applicant responded to the landowners letter on 21 July 2026 and proposed further amendments to the Heads of Terms on 7th August 2026. The Applicant is currently awaiting further feedback from the landowner. The Applicant remains committed to engage with the landowner throughout Examination to progress a voluntary agreement.	23/11/2026
266341, 266342	Alexander James Charkin & Emily Marion Florence Charkin	Ed Pettit-Mills - BCM Wilson Hill	RR-008				Outstanding	The Relevant Representation raises concerns regarding engagement, route changes that impact the landowner's property, adequacy of evidence for the design changes, the impacts on the landowner's land, the compulsory acquisition of rights, queries regarding site specific safeguards and the impacts on human rights. The objection outlines a request for further engagement with the Applicant to resolve potential issues and for a compulsory acquisition hearing to be held.	Category 1	Owner	22-006	Acquisition of Rights	Work No. 4 - WRP site to Otterbourne WSW Pipeline		The Applicant issued populated Heads of Terms to the landowner on 7 April 2026. The Applicant is now in discussion with the landowner's representative regarding feedback and negotiations continue regarding a voluntary agreement. The Applicant is willing to discuss individual matters in order to reach an agreement and continues to hold positive discussions with the landowner. The Applicant is confident the necessary land and rights can be acquired by voluntary agreement. **Deadline 1** The Applicant has continued to engage with the landowner and their representative. The Applicant prepared a technical note which was issued to the landowner's representatives on the 17 September 2026, which detailed the scheme development process undertaken at their property and responded to queries raised by the landowner. The Applicant then proposed amendments to the Heads of Terms and offered improved commercial terms on 26 October 2026, alongside answers to further queries raised by the landowner. Most recently, the Applicant attended a site meeting on the 13 November 2026 with the landowner and their representative to discuss the Heads of Terms and feedback further.	23/11/2026
271922, 271953	Amanda Louise Jane Finnegan & Shaun Finnegan						n/a		Category 1	Owner	05-015	Acquisition of Rights	Work No. 4 - WRP site to Otterbourne WSW Pipeline		As set out in the Statement of Reasons (Document Reference 4.1, DCO Volume 4), the Applicant's intention in respect of the tunnelled sections of pipeline in urban areas (Section D, which extends from the Water Recycling Plant site to the ridge of Portsdown Hill and north of Portsdown Hill Road) is to exercise powers of compulsory acquisition instead of entering into voluntary agreements with each landowner. This approach ensures that residential properties are not disproportionately impacted by restrictions and administrative burdens set out within a standard option agreement. The Applicant wrote to the Affected Party on 19 May 2026 to explain this position, provide information and seek to agree the compensation payable once the compulsory acquisition powers are utilised. **Deadline 1** There have been no changes since the previous deadline. The Applicant is seeking confirmation that the landowner is content with the suggested approach.	23/11/2026
