23rd May 2017

DCRM Ref. No: WN0902-HZCON-PAC-LET-00002

Dear Kay,

Horizon Nuclear Power Wylfa Limited: Wylfa Newydd New Nuclear Power Station

Notification in accordance with section 46 of the Planning Act 2008

1. I write on behalf of Horizon Nuclear Power Wylfa Limited ("**Horizon**") regarding its proposals for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey ("**Wylfa Newydd Project**").
2. Horizon intends to apply to the Secretary of State ("**SoS**") for a development consent order ("**DCO**") for the Wylfa Newydd Project under section 37 of the Planning Act 2008 ("**Planning Act**"). The application for DCO is anticipated to be submitted in the third quarter of 2017. This letter constitutes formal notification of the SoS pursuant to section 46 of the Planning Act.
3. Horizon is now commencing formal pre-application consultation about the Wylfa Newydd Project with the consultation bodies identified under section 42(1) of the Planning Act and this will run from **24th May 2017** until **22nd June 2017**. This consultation is Horizon's Stage Three pre-application consultation.
4. In accordance with section 46(1) of the Planning Act please see below the Stage Three pre-application consultation documents that have been provided to the section 42 consultation bodies and which have been separately sent to you.
 - (a) Non-technical document:
 - (i) **Consultation Overview Document** – This is a 46 page document providing an overview of the key changes to the project since our Stage 2 pre-application consultation. In accordance with our Welsh language policy this document has been provided in Welsh and English)

(b) Technical document:

- (i) **Main Consultation Document** A 222 page document providing more detailed descriptions of the project changes and how the project has evolved following previous consultation along with associated Preliminary Environmental Information (provided in English only)

5. The main components of the Wylfa Newydd Project are set out in the enclosed section 48 notice and in the Main Consultation Document.
6. Copies of the Stage Three pre-application consultation documents are available to view and to download from www.horizonnuclearpower.com/consultation.
7. Please note that, as set out in the enclosed notice, responses to this consultation must be submitted to us no later than **22 June 2017**.
8. If you have any queries or require any additional information please do not hesitate to contact me.

Yours sincerely

Kieran Somers
Head of Planning

Appendix C.2- Covering letter consulting IACC on the draft SoCC 2017

Dear Mr Williams

Submission of an updated draft Statement of Community Consultation in accordance with Section 47 (2) of the Planning Act 2008 in relation to the proposals by Horizon Nuclear Power for a new nuclear power station at Wylfa

As you are aware Horizon Nuclear Power Wylfa Limited ["Horizon"] is developing proposals for a new nuclear power station on land adjacent to the existing power station at Wylfa on the Isle of Anglesey.

In relation to requirements set out under Section 47 (3) of the Planning Act 2008 ["The Act"]. Horizon Nuclear Power must consult with the local authority about what is to be in the statement and I am writing to formally seek the view of Isle of Anglesey County Council on Horizon's updated draft Statement of Community Consultation for the proposed Wylfa Newydd new nuclear power station project.

The purpose of the Statement of Community Consultation as stated in Section 47 of The Act is to set out how the applicant (Horizon) proposes to consult, about the proposed application.

Please note that the statutory consultation period for this consultation is 28 days, beginning with the day after this letter and statement is received by you. We would appreciate your response no later than 10th April 2017.

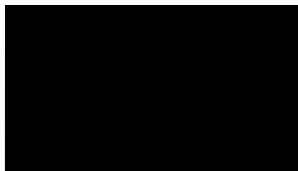

www.horizonnuclearpower.com

Horizon Nuclear Power Limited is a company registered in England & Wales with company number C6660388 and whose registered office is at Sunrise House, 1420 Charlton Court, Gloucester Business Park, Gloucester GL3 4AE

Please find attached the draft SOCC. I would be very grateful if you could email electronic versions of your comments to my colleague Pippa Waterman at Pippa.Waterman.Contractor@Horizonnuclearpower.com.

We look forward to receiving your formal response by 10th April 2017. Please do not hesitate to contact Pippa Waterman in the first instance if you have any queries on the draft statement submitted.

Yours sincerely,

Kieran Somers

Head of Planning (Horizon)

Dyddiad / Date: 10/4/17

Dear Sir,

Isle of Anglesey County Council's Response to Horizon Nuclear Power's Statement of Community Consultation (SOCC) (in accordance with s.47 of the Planning Act 2008).

This letter constitutes the Isle of Anglesey County Council's (IACC) formal response to the Wylfa Newydd Project Statement of Community Consultation (SOCC), which was received on 13th March 2017. In accordance with the provisions of s.47(3) of the Planning Act 2008, the IACC have 28 days to respond beginning the day after which the local authority receives the consultation documents. This deadline is the 10th April 2017.

Since the close of Horizon's Stage 2 consultation (PAC2) on the 25th October 2016, we understand that there have been significant and fundamental changes to the Wylfa Newydd project. This has triggered the need for a Stage 3 consultation (PAC3) so that Horizon can consult publically on these changes. In short, we understand that the project changes can be summarised as:

- i. Change to the scope, design and layout of the power station following 'optimisation'.
- ii. Change in legislation which has resulted in Horizon changing their consenting strategy. The Wales Act 2017, which received Royal Assent on 31 January 2017, introduced changes to the application of the Planning Act 2008 in Wales. Section 43 of the Wales Act permits the inclusion of development commonly referred to as "associated development" within the application for the DCO.
- iii. Significant change in Horizon's Construction Worker Accommodation Strategy. In their informal 'Project Update' consultation in January 2016 and thereafter in PAC2, Horizon consulted on a number of construction worker accommodation options including Land & Lakes (3,500 workers), Madyn A & B (800 workers), Rhosgoch as a 'top up site' if required (1,500 workers) and 500 essential workers accommodated on-site. There has been a fundamental shift in Horizon's Strategy and they now propose to have between 2,500 and 4,000 construction workers on-site. In addition there is now some uncertainty as to whether the consented site at

Land & Lakes will be used as part of this strategy. These changes have the potential to substantially alter the predicted impacts of the construction workers' accommodation and will require detailed consideration. In addition this is likely to be the first time that the communities neighbouring the power station site have been asked to comment on the possibility of having up to 4,000 workers accommodated on site.

Against this setting, the IACC has been formally requested to comment on Horizon's draft revised SOCC which outlines how Horizon propose to undertake the next stages of consultation about their proposed application. However, before the IACC can comment on the revised SOCC (i.e. the how, who, when and where) we must first comment on the 'what' and the 'why' in response to the above project changes.

1. The IACC fully recognise and appreciate that the optimisation process was necessary to make the project commercially viable and investable. The IACC welcome Horizon's openness, dialogue and transparency during this challenging process. This demonstrates the developing maturity in the relationship between Horizon and the IACC and we are eager for this to continue. The IACC would however request confirmation that the optimisation process will not affect the established principles of the (appropriate) community benefit package required for hosting this Nationally Significant Infrastructure Project and will not affect Horizon's 100-year commitment to the residents and communities of Anglesey.
2. The IACC acknowledge Horizon's decision to include the majority of the associated developments within the DCO application. The IACC would however question Horizon's ability to meaningfully consult on all of the associated development elements together with the changes to the power station development within a 28-day consultation period. In PAC2 there was some consideration of the associated development elements but not in the level of detail necessary to allow a complete and meaningful response. Given that lack of detail on associated developments and given that the IACC would have been the determining authority for these applications, the IACC did not make detailed comments on the associated development in its formal response to PAC2. It was anticipated that detailed discussions would have commenced after PAC2 through individual pre-application discussions and consultation (including public consultation). The IACC would therefore strongly encourage Horizon to discuss and liaise with Officers now on the detail of these associated developments and advise that Horizon does not wait until PAC3 before sharing this information.
3. The change in Horizon's Construction Worker Accommodation Strategy is a fundamental change to the project which has the potential to substantially alter the impacts of Wylfa Newydd on North Anglesey. The IACC have always accepted that there will be some essential workers on-site (up to 500 in line with the proposals made by Horizon) but a campus of this scale has never been considered in any detail as it was not put forward as a proposal. With potentially 2,500 – 4,000 workers now proposed in on-site temporary workers accommodation, the IACC and the residents of Anglesey will need time to meaningfully consider these impacts individually and cumulatively. Far more certainty on the proposals for worker accommodation is required to allow meaningful consultation. In the absence of a revised Construction Worker Accommodation Strategy to date, the IACC would request that Horizon clearly outline their worker accommodation strategy in PAC3 and do not consult on worker accommodation options which are not properly reflective of the changes in approach to worker accommodation.

In terms of the structure and contents of the SOCC, the IACC believes that it is broadly fit for purpose and outlines the methodology of how Horizon are going to consult. The SOCC is consistent with previous versions (PAC 2 and January 2016 'Project Update' consultation) which will assist the public in that respect. The IACC do however have a number of comments

on the SOCC, which are further outlined below:

4. Horizon only propose to consult on the changes to the project and not on the project as a whole. The IACC recognise Horizon sharing the draft scope of the consultation and appreciate the logic in the proposed approach. The IACC therefore expect that Horizon will consult on the changes to the Wylfa Newydd site (including worker accommodation), consult on each of the associated developments, the Construction Worker Accommodation Strategy, the Cumulative Impact Assessment and what this means for the Welsh Language. This approach should also be reinforced by Horizon setting out explicitly in their documentation how feedback from previous pre-application consultations has shaped PAC3.
5. As Horizon are fully aware, Local Council and Town and Community Council Elections will take place on 4th May 2017. These elections could potentially result in a significant number of new elected Members who will need time to be briefed on, understand and consider the proposals and influence the various responses. The IACC fully recognise and appreciate Horizon's tight timescale for the consultation process in order to be in a position to submit a Development Consent Order application in 2017. The IACC therefore acknowledges the flexibility Horizon has shown in agreeing to the request to delay the proposed start of the consultation period for three weeks to allow for the post-election bedding in period. However, the 28 days period proposed remains challenging for the IACC to undertake the necessary processes for formal consideration of its PAC3 response. Similarly, the Community Councils have limited capacity to respond during this period. Should the consultation be commenced in May to accord with the revised SOCC timescale then the proposed consultation period requires to be extended to ensure there is sufficient time to consider Horizon's proposals. As an overriding principle, the public should be given as much time as possible to consider and respond to this hugely complex project of national significance and should not be constrained to 28 days around the election when there are already high levels of information being communicated to them and there is a real danger of confusion and consultation fatigue in the public.

Given the scale of the project changes, the IACC believe that a 28-day consultation period is insufficient for PAC3. The IACC would strongly request that Horizon considers a longer consultation period to allow the IACC and the public to meaningfully consider, digest and respond to the project changes. The changes to the design and layout of the power station, changes to the consenting strategy as well as changes to the worker accommodation strategy are significant changes that merit a longer consultation period. In accordance with DCLG Guidance, consultation deadlines should be realistic and proportionate to the project, in this case we do not believe that objective will be met with a 28 day period.

In conclusion, the IACC welcomes the proposed delay in commencement of the consultation period to allow for newly elected Councils to 'bed in'. We also acknowledge your sharing of the scope for the PAC3 consultation. Whilst this will focus on changes post PAC2, it is the IACC's view that these changes would benefit from a consultation period longer than 28 days to allow sufficient time for public consideration and feedback.

I look forward to continuing to develop the positive working relationship between Horizon and the Council over the coming months and to your revised proposal in relation to the consultation strategy.

Yours Sincerely

DYLAN J. WILLIAMS

Dyddiad / Date: 10/4/17

Annwyl Syr,

Ymateb Cyngor Sir Ynys Môn i'r Datganiad o Ymgynghori Cymunedol (y Datganiad) gan Pŵer Niwclear Horizon (yn unol ag Adran 47 Deddf Cynllunio 2008).

Y llythyr hwn yw ymateb ffurfiol Cyngor Sir Ynys Môn (CSYM) i'r Datganiad o Ymgynghori Cymunedol (y Datganiad) ar gyfer Prosiect Wylfa Newydd a dderbyniwyd ar 13 Mawrth 2017. Yn unol â darpariaethau Adran 47 (3) Deddf Cynllunio 2008, mae gan Gyngor Sir Ynys Môn 28 diwrnod i ymateb, gyda'r cyfnod hwnnw'n dechrau ar y diwrnod ar ôl i'r awdurdod lleol dderbyn y dogfennau ymgynghori. Y dyddiad cau felly yw 10 Ebrill 2017.

Ers cau'r ymgynghoriad Cam 2 (PAC2) ar 25 Hydref 2016, 'rydym yn deall y bu newidiadau sylweddol a sylfaenol i'r prosiect Wylfa Newydd. Mae hyn wedi sbarduno'r angen am ymgynghoriad Cam 3 (PAC3) fel y gall Horizon ymgynghori'n gyhoeddus ar y newidiadau hyn. Yn fyr, 'rydym yn deall y gellir crynhoi'r newidiadau i'r prosiect fel a ganlyn:

- I. Newid i sgôp, dyluniad a gosodiad yr orsaf bŵer yn dilyn 'optimeiddio'.
- II. Newid mewn deddfwriaeth sydd wedi golygu bod Horizon wedi newid eu strategaeth ganiatáu. Mae Deddf Cymru 2017, a gafodd Gydsyniad Brenhinol ar 31 Ionawr 2017, wedi cyflwyno newidiadau i'r ffordd o weithredu Deddf Cynllunio 2008 yng Nghymru. Mae Adran 43 y Ddeddf yn caniatáu cynnwys datblygiad y cyfeirir ato'n aml fel "datblygiad cysylltiedig" o fewn y cais am y Gorchymyn Caniatâd Datblygu. (GCD)
- III. Newid sylweddol yn Strategaeth Horizon ar gyfer Lletya Gweithwyr Adeiladu. Yn eu hymgynghoriad anffurfiol 'Diweddariad ar y Prosiect' ym mis Ionawr 2016 ac ar ôl hynny yn PAC2, ymgynghorodd Horizon ar nifer o opsiynau i letya gweithwyr adeiladu, gan gynnwys Land & Lakes (3,500 o weithwyr), Madyn A & B (800 o weithwyr), safle yn Rhosgoch fel safle 'atodol' os bydd angen (1,500 o weithwyr) a 500 o weithwyr hanfodol

yn cael eu lletya ar y safle. Bu newid sylfaenol yn Strategaeth Horizon ac maent bellach yn bwriadu cael rhwng 2,500 a 4,000 o weithwyr adeiladu ar y safle. Yn ogystal, mae yna rywfaint o ansicrwydd erbyn hyn ynghylch defnyddio safle Land & Lakes, sydd wedi derbyn caniatâd cynllunio, fel rhan o'r strategaeth hon. Gall y newidiadau hyn effeithio'n sylweddol ar yr effeithiau a ragwelir yn sgil y llety ar gyfer gweithwyr adeiladu a bydd gofyn rhoi sylw manwl iddynt. Yn ogystal, mae'n debygol mai hwn yw'r tro cyntaf y gofynnir i'r cymunedau sy'n gyfagos i safle'r orsaf bŵer gyflwyno sylwadau ar y posibilrwydd o letya hyd at 4,000 o weithwyr ar y safle.

Yn erbyn y cyd-destun hwn, gofynnwyd yn ffurfiol i Gyngor Sir Ynys Môn gyflwyno sylwadau ar y Datganiad drafft diwygiedig gan Horizon sy'n amlinellu sut mae Horizon yn bwriadu ymgymryd â'r camau ymgynghori nesaf ynghylch eu cais arfaethedig. Fodd bynnag, cyn y gall CSYM wneud sylwadau ar y Datganiad diwygiedig (h.y. sut, pwy, pryd a ble) rhaid i ni wneud sylwadau yn gyntaf ar y 'beth' a'r 'pam' mewn ymateb i'r newidiadau uchod i'r prosiect.

1. Mae CSYM yn cydnabod ac yn deall yn llwyr fod angen y broses optimeiddio i wneud y prosiect yn fasnachol hyfwrdd ac yn ddeniadol i fuddsoddwyr. Mae CSYM yn croesawu agoredrwydd, a thryloywder Horizon yn ystod y broses heriol hon a'r dialog a gafwyd. Mae hyn yn dangos yr aeddfedrwydd sy'n datblygu yn y berthynas rhwng Horizon a CSYM ac rydym yn awyddus i hyn barhau. Fodd bynnag, mae CSYM yn gofyn am gadarnhad na fydd y broses optimeiddio yn effeithio ar egwyddorion a sefydlwyd ar gyfer y pecyn budd cymunedol (priodol) sydd raid wrtho ar gyfer cynnal y Prosiect Seilwaith hwn sydd o Arwyddocâd Cenedlaethol ac na fydd yn effeithio ar ymrwymiad 100 mlynedd Horizon i drigolion a chymunedau Ynys Môn.
2. Mae CSYM yn cydnabod penderfyniad Horizon i gynnwys y rhan fwyaf o'r datblygiadau cysylltiedig o fewn y cais am Orchymyn Caniatâd Datblygu. Fodd bynnag, mae CSYM yn cwestiynu gallu Horizon i ymgynghori'n ystyrlon ar yr holl elfennau datblygiadau cysylltiedig, ynghyd â'r newidiadau i ddatblygiad yr orsaf ynni, o fewn cyfnod ymgynghori o 28 diwrnod. 'Roedd PAC2 yn cynnwys rhywfaint o ystyriaeth o'r elfennau datblygiadau cysylltiedig, ond nid mewn digon o fanylder i ganiatáu ymateb cyflawn ac ystyrlon. O gofio'r diffyg manylion am y datblygiadau cysylltiedig ac o ystyried mai CSYM fyddai wedi bod yn penderfynu'r ceisiadau hynny, ni chyflwynodd CSYM sylwadau manwl ar y datblygiadau cysylltiedig yn ei ymateb ffurfiol i PAC2. Rhagwelwyd y byddai trafodaethau manwl wedi cychwyn ar ôl PAC2 ar ffurf trafodaethau cyn cyflwyno ceisiadau unigol a thrwy ymgynghori (gan gynnwys ymgynghoriad cyhoeddus). Byddai CSYM felly yn annog Horizon yn gryf i drafod a chydgyssylltu â swyddogion yn awr ynghylch manylion y datblygiadau cysylltiedig hyn, gan gynghori na ddylai Horizon aros tan PAC3 cyn rhannu'r wybodaeth hon.
3. Mae'r newid yn y Strategaeth Horizon ar gyfer Lletya Gweithwyr Adeiladu yn newid sylfaenol i'r prosiect sydd â'r potensial i newid yn sylweddol effeithiau Wylfa Newydd ar Ogledd Ynys Môn. Mae CSYM wedi derbyn o'r cychwyn y bydd rhai gweithwyr hanfodol ar y safle (hyd at 500 yn unol â'r cynigion a wnaed gan Horizon) ond nid yw campws ar y raddfa hon erioed wedi cael sylw manwl gan na chafodd ei gyflwyno fel cynnig. Gan y cynigir yn awr y gall bod rhwng 2,500 a 4,000 o weithwyr ar y safle mewn llety gweithwyr dros dro, bydd CSYM a thrigolion Ynys Môn angen amser i ystyried yr effeithiau hyn yn ofalus, sef yr effeithiau yn unigol ac yn gronnol. Mae angen llawer mwy o sicrwydd ynghylch y cynigion ar gyfer llety gweithwyr er mwyn caniatáu ymgynghoriad ystyrlon. Yn absenoldeb Strategaeth ddiwygiedig hyd yma ar gyfer

Lletya Gweithiwr Adeiladu, mae CSYM yn gofyn i Horizon amlinellu'n glir eu strategaeth ar gyfer lletya gweithwyr yn PAC3 ac nad yw'n ymgynghori ar opsiynau llety gweithwyr nad ydynt yn adlewyrchu'n briodol y newidiadau yn y dull o letya gweithwyr.

O ran strwythur a chynnwys y Datganiad, mae CSYM yn credu ei fod yn addas i'r diben yn gyffredinol a'i fod yn amlinellu'r fethodoleg mewn perthynas â sut mae Horizon yn bwriadu ymgynghori. Mae'r Datganiad yn gyson â'r fersiynau blaenorol (PAC 2 a'r ymgynghoriad 'Diweddariad ar Brosiect' yn Ionawr 2016) a bydd hynny o gymorth i'r cyhoedd yn hyn o beth. Fodd bynnag, mae gan CSYM nifer o sylwadau ar y Datganiad fel yr amlinellir ymhellach isod:

4. Nid yw Horizon ond yn cynnig ymgynghori ar y newidiadau i'r prosiect ac nid ar y prosiect yn ei gyfanrwydd. Mae CSYM yn cydnabod Horizon yn rhannu sgôp drafft yr ymgynghoriad ac yn deall y rhesymeg yn y dull arfaethedig o weithredu. Mae CSYM felly yn disgwyl y bydd Horizon yn ymgynghori ar y newidiadau i safle Wylfa Newydd (yn cynnwys llety gweithwyr) ac yn ymgynghori ar bob un o'r datblygiadau cysylltiedig, y Strategaeth Llety Gweithwyr Adeiladu, yr Asesiad o'r Effaith Gronnol a beth mae hyn yn ei olygu ar gyfer yr Iaith Gymraeg. Dylid atgyfnerthu'r dull hwn o weithredu trwy i Horizon ddangos yn gwbl eglur a diamwys yn eu dogfennaeth sut mae atborth a gafwyd o ymgynghoriadau cyn ymgeisio a gynhaliwyd eisoes wedi siapi PAC3.
5. Fel y gŵyr Horizon yn iawn, cynhelir Etholiadau'r Cyngor Sir ac Etholiadau Cyngorau Tref a Chymuned lleol ar 4 Mai 2017. Gallai'r etholiadau hyn arwain at weld nifer sylweddol o Aelodau etholedig newydd a bydd angen amser arnynt i gael eu briffio ac i ddeall ac ystyried y cynigion a dylanwadu ar y gwahanol ymatebion. Mae CSYM yn llwyr sylweddoli ac yn cydnabod bod amserlen Horizon yn dynn ar gyfer y broses ymgynghori er mwyn bod mewn sefyllfa i gyflwyno cais Gorchymyn Caniatâd Datblygu yn 2017. Mae CSYM felly yn cydnabod yr hyblygrwydd a ddangoswyd gan Horizon wrth gytuno i'r cais i ohirio dyddiad cychwyn arfaethedig y cyfnod ymgynghori am dair wythnos i ganiatáu ar gyfer cyfnod o ymsefydlu ar ôl yr etholiad. Fodd bynnag, mae'r cyfnod o 28 diwrnod a gynigir yn parhau i fod yn heriol i CSYM o ran ymgymryd â'r prosesau angenrheidiol ar gyfer ystyried ei ymateb i PAC3 yn ffurfiol. Yn yr un modd, mae capasiti'r Cyngorau Cymuned i ymateb yn ystod y cyfnod hwn yn gyfyngedig hefyd. Os bydd yr ymgynghoriad yn cychwyn ym mis Mai i gyd-fynd â'r amserlen ddiwygiedig ar gyfer y Datganiad, yna bydd angen ymestyn y cyfnod ymgynghori arfaethedig i sicrhau bod digon o amser i ystyried cynigion Horizon. Fel yr egwyddor bwysicaf, dylai'r cyhoedd gael cymaint o amser ag y bo modd i ystyried ac ymateb i'r prosiect hynod gymhleth hwn sydd o arwyddocâd cenedlaethol ac ni ddylid eu cyfyngu i 28 diwrnod o gwmpas yr etholiad pan fyddant eisoes yn cael llawer iawn o wybodaeth a phan fo perygl gwirioneddol o ddryswch a blinder ymgynghori ymysg y cyhoedd.

O ystyried maint y newidiadau i'r prosiect, mae CSYM yn credu nad yw cyfnod ymgynghori 28 diwrnod yn ddigonol ar gyfer PAC3. Dymuniad cryf CSYM yw bod Horizon yn ystyried cyfnod ymgynghori hirach er mwyn rhoi digon o amser i Gyngor Sir Ynys Môn a'r cyhoedd ystyried ac ymateb yn ystyrlon i'r newidiadau i'r prosiect. Mae'r newidiadau i ddyluniad a chynllun yr orsaf bŵer, y newidiadau i'r strategaeth ganiatáu, yn ogystal â newidiadau i'r strategaeth llety gweithwyr, oll yn newidiadau sylweddol sy'n haeddu cyfnod ymgynghori hirach. Yn unol â Chanllawiau DCLG, dylai dyddiadau cau ar gyfer ymgynghoriadau fod yn realistig ac yn gymesur â'r prosiect, ac yn yr achos hwn nid ydym yn credu y bydd modd cwrdd â'r amcan hwnnw gyda chyfnod ymgynghori o 28 diwrnod.

I gloi, mae CSYM yn croesawu'r oedi a gynigir cyn cychwyn y cyfnod ymgynghori er mwyn caniatáu amser i'r Cyngorau etholedig newydd ymsefydlu. 'Rydym hefyd yn cydnabod eich bod yn rhannu'r sgôp ar gyfer yr ymgynghoriad PAC3. Er y bydd hyn yn canolbwyntio ar y newidiadau ar ôl PAC2, mae CSYM o'r farn y byddai cyfnod ymgynghori sy'n hwy na 28 diwrnod o fudd i'r newidiadau hyn, a hynny er mwyn caniatáu digon o amser i'r cyhoedd eu hystyried a chyflwyno sylwadau arnynt.

Rwy'n edrych ymlaen at barhau i ddatblygu'r berthynas waith gadarnhaol rhwng Horizon a'r Cyngor dros y misoedd nesaf ac at eich cynnig diwygiedig mewn perthynas â'r strategaeth ymgynghori.

Yn gywir

DYLAN J. WILLIAMS

WYLF A NEWYDD – GORSAF BŴER NIWCLEAR NEWYDD AR YNYS MÔN

ADRAN 47, DEDDF CYNLLUNIO 2008 – HYSBYSIAD O DDATGANIAD O YMGYNGHORI CYMUNEDOL

Mae Pŵer Niwclear Horizon Wylfa Cyfyngedig (Horizon) yn cynnig adeiladu a gweithredu gorsaf bŵer niwclear newydd ar Ynys Môn gyda chapasiti trydanol o hyd at 2,700 MW. Bydd prif adeiladau a strwythurau'r orsaf bŵer weithredol (Wylfa Newydd) ar dir wrth ymyl Gorsaf Bŵer bresennol Wylfa.

Roedd Horizon wedi datblygu Datganiad o Ymgynghori Cymunedol cyn cam cyntaf ei ymgynghoriad ffurfiol yn 2014 yn unol ag Adran 47 o Ddeddf Cynllunio 2008. Mae'r Datganiad o Ymgynghori Cymunedol yn egluro sut bydd Horizon yn ymgynghori â'r

rheini sy'n byw wrth ymyl y datblygiad arfaethedig a sut gall pobl gael dweud eu dweud ynghylch y cynigion. Ym mis Ionawr 2016 roedd Horizon wedi newid rhywfaint ar ei Ddatganiad o Ymgynghori Cymunedol a chyhoeddodd ail fersiwn.

Mae Horizon wedi gwneud rhagor o ddiweddariadau i'r Datganiad o Ymgynghori Cymunedol cyn ei drydydd cam o ymgynghori cyn ymgeisio a fydd yn agor ddiwedd mis Mai 2017. I gael gwybod rhagor am sut bydd Horizon yn ymgynghori, ewch i'r lleoliadau isod neu ewch ar-lein yn www.horizonnuclearpower.com/ymgyngoriad

Gallwch weld y ddogfen ar-lein yn www.horizonnuclearpower.com/ymgyngoriad ac yn y lleoliadau a restrir isod o Dydd Iau 4 Mai 2017.

WYLFA NEWYDD

Horizon Nuclear Power Public Notice

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY SECTION 47, PLANNING ACT 2008 – STATEMENT OF COMMUNITY CONSULTATION NOTICE

Horizon Nuclear Power Wylfa Limited (Horizon) is proposing to construct and operate a new nuclear power station on Anglesey with an electrical capacity of up to 2,700 MW. The main plant and structures of the operational power station (Wylfa Newydd) will be located on land next to the existing Wylfa Power Station.

Horizon developed a Statement of Community Consultation (SOCC) ahead of its first stage of formal consultation in 2014 in accordance with Section 47 of the Planning Act 2008. The SOCC sets out how Horizon will consult with those that

live in the vicinity of the proposed development and how people can have their say on the proposals. In January 2016 Horizon made some amendments to its SOCC and published a second version.

Horizon has made further updates to its SOCC ahead of its third stage of pre-application consultation opening at the end of May 2017. To find out more about Horizon's approach to consultation please visit the locations below or go online at www.horizonnuclearpower.com/consultation

You can view the document online at www.horizonnuclearpower.com/consultation and at the locations listed below from Thursday 4 May 2017.

Horizon Nuclear Power Public Notice

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY SECTION 47, PLANNING ACT 2008 – STATEMENT OF COMMUNITY CONSULTATION NOTICE

Horizon Nuclear Power Wylfa Limited (Horizon) is proposing to construct and operate a new nuclear power station on Anglesey with an electrical capacity of up to 2,700 MW. The main plant and structures of the operational power station (Wylfa Newydd) will be located on land next to the existing Wylfa Power Station.

Horizon developed a Statement of Community Consultation (SOCC) ahead of its first stage of formal consultation in 2014 in accordance with Section 47 of the Planning Act 2008. The SOCC sets out how Horizon will consult with those that

live in the vicinity of the proposed development and how people can have their say on the proposals. In January 2016 Horizon made some amendments to its SOCC and published a second version.

Horizon has made further updates to its SOCC ahead of its third stage of pre-application consultation opening at the end of May 2017. To find out more about Horizon's approach to consultation please visit the locations below or go online at www.horizonnuclearpower.com/consultation

You can view the document online at www.horizonnuclearpower.com/consultation and at the locations listed below from Thursday 4 May 2017.

Hysbysiad Cyhoeddus Pŵer Niwclear Horizon

WYLFA NEWYDD – GORSAF BŴER NIWCLEAR NEWYDD AR YNYS MÔN
ADRAN 47, DEDDF CYNLLUNIO 2008 – HYSBYSIAD O DDATGANIAD O YMGYNGHORI CYMUNEDOL

Mae Pŵer Niwclear Horizon Wylfa Cyfyngedig (Horizon) yn cynnig adeiladu a gweithredu gorsaf bŵer niwclear newydd ar Ynys Môn gyda chapasiti trydanol o hyd at 2,700 MW. Bydd prif adeiladau a strwythurau'r orsaf bŵer weithredol (Wylfa Newydd) ar dir wrth ymyl Gorsaf Bŵer bresennol Wylfa.

Roedd Horizon wedi datblygu Datganiad o Ymgynghori Cymunedol cyn cam cyntaf ei ymgynghoriad ffurfiol yn 2014 yn unol ag Adran 47 o Ddeddf Cynllunio 2008. Mae'r Datganiad o Ymgynghori Cymunedol yn egluro sut bydd Horizon yn ymgynghori â'r rheini sy'n byw wrth ymyl y datblygiad arfaethedig a sut gall pobl gael dweud

eu dweud ynghylch y cynigion. Ym mis Ionawr 2016 roedd Horizon wedi newid rhywfaint ar ei Ddatganiad o Ymgynghori Cymunedol a chyhoeddodd ail fersiwn.

Mae Horizon wedi gwneud rhagor o ddiweddariadau i'r Datganiad o Ymgynghori Cymunedol cyn ei drydydd cam o ymgynghori cyn ymgeisio a fydd yn agor ddiwedd mis Mai 2017. I gael gwybod rhagor am sut bydd Horizon yn ymgynghori, ewch i'r lleoliadau isod neu ewch ar-lein yn www.horizonnuclearpower.com/ymgyngoriad

Gallwch weld y ddogfen ar-lein yn www.horizonnuclearpower.com/ymgyngoriad ac yn y lleoliadau a restrir isod o Dydd Iau 4 Mai 2017.

Appendix C.5- Published SoCC 2017

Wylfa Newydd Project

Statement of Community Consultation

Version 3: May 2017

Wylfa Newydd Project – A proposed new nuclear power station on Anglesey

This Statement of Community Consultation relates to Horizon Nuclear Power Wylfa Limited's (Horizon's) proposals to develop a new nuclear power station on Anglesey – the Wylfa Newydd Project.

We have produced this update to our January 2016 Statement of Community Consultation as we are proposing some significant changes to the project design. We have decided to carry out a further phase of formal consultation on these changes before the submission of our Development Consent Order (DCO) later in 2017.

In addition to the evolution of the project design there have been changes in the law. The Wales Act 2017 allows developers to include associated developments (such as park and ride facilities or temporary workers' accommodation) within the DCO for the power station. Our further consultation will include a number of associated developments now to be included in the DCO.

Who is Horizon and what is the Wylfa Newydd Project?

The Horizon group of companies, which is ultimately owned by Hitachi, Ltd., is developing a new generation of nuclear power stations to help meet the UK's need for safe, affordable, low carbon energy. Nuclear power can play a vital role in meeting the challenge of maintaining secure energy supplies for the UK, while also tackling the global threat of climate change by meeting emissions reduction targets.

As part of our Project, we are proposing to construct and operate a new nuclear power station, which will be known as 'Wylfa Newydd'. It will comprise two UK Advanced Boiling Water Reactors (supplied by Hitachi-GE Nuclear Energy, Ltd.) and associated plant, structures and features (the Power Station), together with associated development to support its delivery. The Power Station will have a capacity of at least 2,700 megawatts of electricity, producing enough power for around five million homes.

The main plant and structures of the operational Power Station will be situated next to the existing Magnox power station, to the west of Cemaes, on Anglesey. We intend to be generating electricity at Wylfa Newydd by 2025.

Horizon Nuclear Power – Our Vision and Mission

We believe there is a compelling requirement for new nuclear power in the UK to help tackle the vital and complex challenge of delivering a sustainable energy future. Nuclear power is a key element of the UK's energy mix. We will deliver secure, affordable, low carbon energy for present and future generations.

Our mission is to build a new, leading, UK nuclear utility company, successfully developing, constructing and operating UK Advanced Boiling Water Reactors on Anglesey and at Oldbury-on-Severn in South Gloucestershire.

Horizon is committed to working with our host community of Anglesey, and the wider North Wales region, to ensure that these communities benefit from the positive socio-economic impacts of a UK significant infrastructure project. For example, we are committed to recruiting locally and developing skills and the supply chain whilst safeguarding the Welsh language and culture. Horizon recognises that Wylfa Newydd is a 100 year project from development, construction through to operation and eventually decommissioning.

Further information:

www.horizonnuclearpower.com/consultation

What is a Statement of Community Consultation and how does it relate to the consenting process?

The Power Station is a Nationally Significant Infrastructure Project under the Planning Act 2008 and we will need to make an application to the Secretary of State for Business, Energy and Industrial Strategy for a DCO under that Act to authorise it and its associated developments.

Consultation is an important part of the planning and development process and the Planning Act 2008 requires developers to publicise their proposals widely as well as consulting with the local community, local authorities, statutory bodies and persons with an interest in land potentially affected by the proposed Nationally Significant Infrastructure Project. This process is referred to as 'pre-application consultation' and must be carried out before an application for a DCO can be accepted by the Planning Inspectorate on behalf of the Secretary of State.

In particular, section 47 of the Planning Act 2008 requires developers to prepare a Statement of Community Consultation explaining how they will consult with people potentially affected by the development of a Nationally Significant Infrastructure Project, including people living in the vicinity of the proposals. This document is therefore an important part of the consenting process, guiding us through effective consultation on our proposals before making an application for a DCO.

We published our first Statement of Community Consultation in September 2014. In January 2016, we produced an update reflecting changes to our approach to consultation.

Following some significant changes to the project, and emerging changes in the law under the Wales Act 2017, we are now producing this further update. As required by the Planning Act 2008, we have consulted with the relevant local authority, Isle of Anglesey County Council, on a draft of this Statement of Community Consultation and our strategic approach as described in this document.

We will make copies of this Statement of Community Consultation available to people living in the vicinity of our proposals by providing copies on our website and in libraries across Anglesey, Gwynedd and Conwy, and by advertising this in local and regional newspapers.

This Statement of Community Consultation explains:

- **what** we are proposing to develop – comprising a brief description of the Wylfa Newydd Project, including the associated developments;
- **the consenting process** – including our programme and how environmental effects are assessed in order to identify the Project's potential benefits and adverse effects;
- **when** we will be consulting;
- **who** and **where** we will be consulting;
- **how** we will consult with people, groups and community organisations; and
- **how** consultees can respond to the consultation and find out about how feedback has been taken into account.

Figure 1: Indicative location of our Power Station

The Wylfa Newydd Project

The main permanent development we are seeking consent for is the Power Station which will include the two UK Advanced Boiling Water Reactors and supporting buildings together with the steam turbines, electrical generators, and related plant (such as cooling water infrastructure and breakwaters), waste and spent fuel storage buildings, and supporting structures and features (such as roads and landscaping).

A number of other associated developments will be required to support the construction and operation of the Power Station. These include a park and ride facility, temporary workers' accommodation and a logistics centre, all of which would also be included in the DCO application.

It is also anticipated that the DCO will incorporate a marine off-loading facility (MOLF), used for deliveries directly to the Power Station site by sea in addition to other integral off-site facilities for the operation of the Power Station (a mobile emergency equipment garage, an alternative emergency control centre and an environmental survey laboratory) provided locally to, but geographically separate from, the main Power Station development site.

Road improvements will be needed in the north west of the island to support construction and operation of the Power Station and will be consented as associated development either through the DCO application (for new stretches of road) or through an application for planning permission to the Isle of Anglesey County Council (for the improvement of existing roads).

Some enabling works, such as site preparation, may be progressed through applications for planning permission to Isle of Anglesey County Council. We carried out consultation under s.61Z of the Town and Country Planning Act 1990 for some of these early works last year and we may re-consult at a future date separately from the consultation described in this Statement of Community Consultation.

There is a need for the Power Station to be connected to the National Grid electricity transmission network, and consultation on the necessary DCO application to implement a grid connection is being progressed separately by National Grid.

WHAT IS THE CONSENTING PROCESS?

The Wales Act 2017 enables DCOs in Wales to include a wide range of associated development. Previously this was required to be permitted by planning permission from the local planning authority, which in the case of this Project is the Isle of Anglesey County Council.

We now plan to include most of the associated development elements of the Wylfa Newydd Project in our DCO application. This means that as well as the Power Station, the MOLF and the off-site power station facilities, the DCO application will now also include the temporary workers accommodation, a park and ride facility, a logistics centre, and key highway improvements.

A number of other related developments (including site preparation works, improvements to the existing highway and the visitor centre) will be consented through applications for planning permission made to the Isle of Anglesey County Council. Consultations will be held on these applications in due course.

The Planning Inspectorate will need to be satisfied that we have carried out effective pre-application consultation, in accordance with the requirements of the Planning Act 2008. Following acceptance and examination of the DCO application, the Planning Inspectorate will make a recommendation to the Secretary of State for Business, Energy and Industrial Strategy who will make the final determination as to whether to grant a DCO for the Wylfa Newydd Project, in line with policy.

The Secretary of State has set out policies in relation to Nationally Significant Infrastructure Projects in National Policy Statements. The Planning Inspectorate must consider, and the Secretary of State must determine, whether our application for a DCO is in accordance with the following National Policy Statements:

Overarching National Policy Statement for Energy (NPS EN-1)

This National Policy Statement sets out the national framework for energy development. It establishes the urgent need in the UK for new low carbon electricity generation.

National Policy Statement for Nuclear Energy Generation (NPS EN-6)

This National Policy Statement identifies the Wylfa Newydd site as one of a number of sites in the UK that the Government considers to be potentially suitable for the deployment of a new nuclear power station. It also establishes the framework for considering DCO applications for new nuclear projects.

Together, these National Policy Statements establish that there is an urgent need for new electricity generating capacity, including nuclear. EN-6 makes clear that an application for a DCO for a new nuclear power station should be assessed on the basis that “the need for such infrastructure has been demonstrated”. As such, we will not be consulting on the principle of nuclear power, or the suitability of the Wylfa Newydd site for a new nuclear power station; instead the consultation will seek views on the specific proposals that we put forward.

In addition we will need to apply for a Marine Licence (for works in the sea) as well as other environmental permits.

HOW ENVIRONMENTAL EFFECTS ARE ASSESSED

The Power Station is classified as an environmental impact assessment development under Schedule 1 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. This means that an Environmental Statement, describing the environmental effects of the project, must be prepared to accompany the DCO application.

We have provided Preliminary Environmental Information (PEI) and updates to PEI during all our consultation rounds. In our third pre-application consultation we will be providing further updated environmental information, focusing on the effects of the changes to the Project.

Copyright CHUGOKU ELECTRIC POWER CO., INC. 2013 Provided by Hitachi-GE Nuclear Energy, Ltd

Figure 2: Construction of ABWR building at Shimane 3 in Japan

POTENTIAL BENEFITS AND EFFECTS

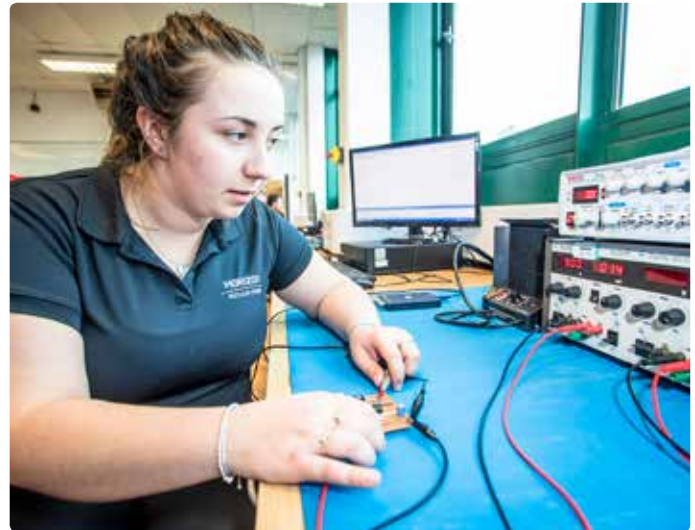

The Wylfa Newydd Project would bring significant (multi-billion pound) investment and benefits to the economy of Anglesey and North Wales during its development, operation and decommissioning.

Already the Project is having a positive impact. Last year, approximately £12.3m was invested in the local supply chain, and these benefits will continue to grow. We expect to deliver:

- **25%** local economic growth during construction;
- **12** more local apprentices starting in 2017, on top of the **10** already recruited;
- development and delivery of 'Futures' – our education engagement programme;
- significant investment in local training facilities, including a **£1 million** investment in Coleg Menai's new Engineering Centre; and
- over **£20 million** every year in wages alone into the local economy throughout 60 years of operation.

A maximum of 9,000 construction workers will work at Wylfa Newydd during peak periods. This includes construction workers at the main Power Station site, off-site Power Station facilities and associated developments. The Project will also create and support further employment and supply chain opportunities in support services and industries.

Once operational, we expect up to 850 permanent jobs at the Power Station across a wide range of roles. Approximately 1,000 additional workers will be required during planned periods of plant outage for maintenance.

The Wylfa Newydd Project would be a large construction scheme, with major activities taking place on the Wylfa Newydd site and surrounding area over a number of years. Once constructed, the Power Station would become a significant feature within the landscape.

We will include information on the potential community and environmental effects of the proposed changes, covering issues such as socio-economics, Welsh language, recreation, traffic and transport, noise, air quality, soils, hydrology, ecology, the marine environment, landscape and views. Information will be included on measures that we propose to reduce any potential adverse effects such as landscaping and the provision of new wildlife features and habitats. Our consultation information will also outline the potential environmental and socio-economic mitigation we will provide to reduce impacts on local communities and enhance the benefits of the Project.

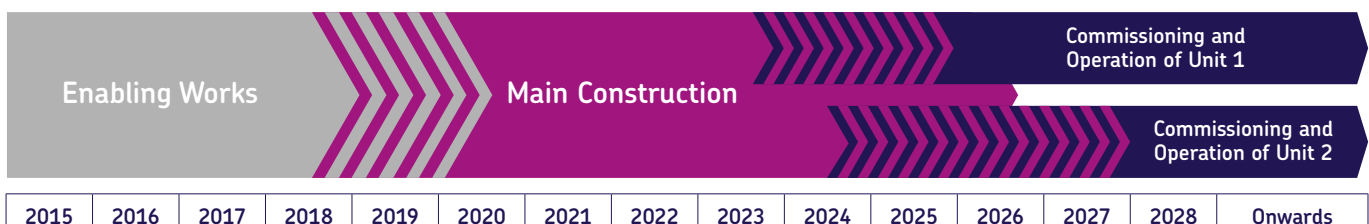

Figure 3: Indicative timeline and phasing of the Wylfa Newydd Project

What and when will we consult on the Wylfa Newydd Project?

In mid-2017, we will be conducting a third stage of pre-application consultation. We are consulting on proposed changes to the Project as a result of ongoing design development, changes in the law and in response to consultation responses received from our previous rounds of consultation. Those changes that we are consulting on are:

- changes to our proposed construction worker accommodation strategy, including a reduction in the number of workers likely to be required to deliver the Project and an increase in number of workers that we are proposing to accommodate on the main Power Station site;
- potential consequential changes to the number of locations where temporary worker accommodation needs to be delivered;
- changes to the design and operation of our proposed park and ride site at Dalar Hir and logistics centre site at Parc Cybi; and
- we are now proposing that the off-site power station facilities, the mobile emergency equipment garage (MEEG), alternative emergency control centre (AECC) and environmental survey laboratory (ESL), would be on the single site previously proposed to accommodate the MEEG, in Llanfaethlu.

In addition we will be sharing our updated plans for the main Power Station site. It will still include the two UK Advanced Boiling Water Reactors and supporting buildings, structures and features; however we have made changes to move the reactors closer together and reduce the footprint of the Power Station.

We will ensure consultation is inclusive and clear by providing consultees with information that can be easily understood, using visual material where appropriate. This will enable constructive and informed comments on the Wylfa Newydd Project. The consultation materials will explain elements of the proposals on which we are actively seeking the views of the local community and stakeholders.

We will publish the details of consultation dates, venues, and where documents can be reviewed on our website www.horizonnuclearpower.com/consultation and in advertisements placed in local newspapers approximately four weeks in advance (depending on local newspaper publication dates).

If necessary we may also carry out additional targeted public consultation on specific issues. Such consultation would also be advertised approximately four weeks in advance.

We also continue to undertake regular community engagement through open surgeries, which are widely advertised in advance in local newspapers and on our website www.horizonnuclearpower.com/consultation, and the Wylfa Newydd Project Liaison Group. Newsletters about the progress of the Wylfa Newydd Project will continue to be delivered regularly to all Anglesey households.

Once we have analysed and taken account of consultation feedback, we propose to make our application for a DCO later in 2017.

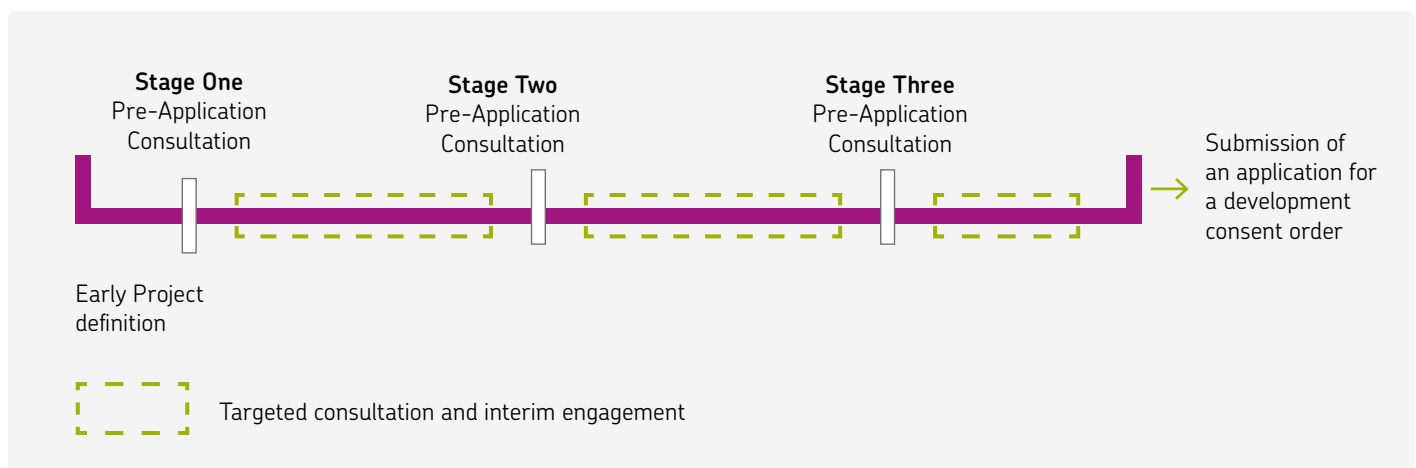

Figure 4: Our consultation approach

Who are we consulting and where?

We will continue to consult with the communities identified below, across Zones A, B and C. However, anyone can provide feedback on our proposals for the Wylfa Newydd Project and written information will be made widely available, to ensure consultation is effective and accessible.

Our consultation process will take place across the three 'zones' which are:

- **Zone A** – Anglesey, which is the area most likely to be directly affected by the Wylfa Newydd Project;
- **Zone B** – Gwynedd (Arfon) area, which includes Bangor and Caernarfon; and
- **Zone C** – North West Wales, as defined by the Welsh Government, including key centres of population and business, such as Llandudno and Porthmadog and the Conwy County Borough Council area.

We recognise that residents, communities, organisations and other stakeholders will have different requirements for information and our process of consultation will reflect this. For example, in Zone A we expect many discussions will focus on the direct effects of construction and operation, whereas in Zone C, interest may well be on broader economic and social matters, such as employment opportunities.

We will target engagement events appropriately at those who are potentially most affected by the Wylfa Newydd Project, whilst recognising that those who are less directly affected may also want to take part in consultation events.

As well as consulting with the wider public and their representatives, we will also work with specific groups, local businesses, community councils, county councils and other community groups and organisations to increase awareness of the consultation process. To help ensure consultation is as accessible as possible, we have developed a Maximising Inclusion Strategy, a copy of which is uploaded on our website, with hard copies available on request. This aims to ensure that we work with organisations across the community to ensure that people have reasonable opportunity to access information about the Wylfa Newydd Project and respond to the consultation should they wish to do so.

In particular, we will continue to work with the Isle of Anglesey County Council to implement locally relevant good consultation practice, such as that developed through the Community Voice project, and to support the work of Community Involvement Officers.

We will work with organisations across the community to provide people with information about our Wylfa Newydd Project and ensure they have appropriate opportunities to respond. This will be an integral part of all our consultation activity.

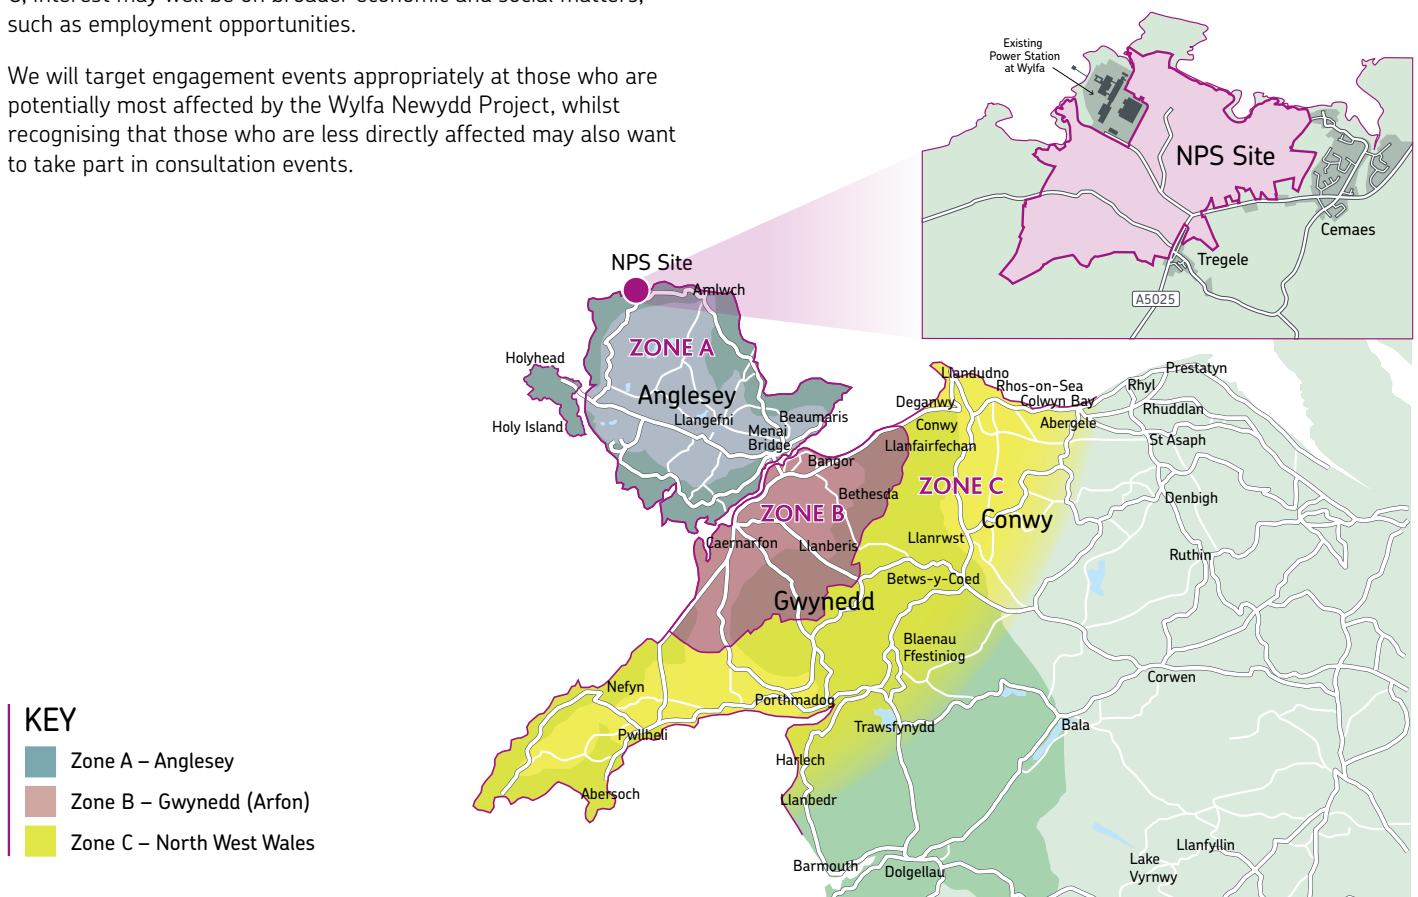

Figure 5: Consultation zones

How will we be consulting?

The Stage Three consultation will focus largely on the changes to the Project which have arisen since previous consultations. It will last for 30 days.

Like Stage One and Stage Two, our Stage Three consultation will be structured around a series of small exhibition events and drop-in sessions that allow people to meet our team, ask questions and provide feedback. These events will be spread across Zones A, B and C and will be targeted at those areas anticipated to be most directly affected by the Wylfa Newydd Project. The consultations will include overview, summary and display materials in Welsh and English, written in clear, easy to read language.

We will seek to pro-actively engage with interested parties by attending local events e.g. markets and hold a number of small pop-up events in locations identified to have high footfall. This will provide opportunities for people who may not otherwise engage with us to learn more about the Project and provide feedback. Members of the community who are interested in the Wylfa Newydd Project will also be able to access information at local libraries and other civic buildings, although these locations will be unstaffed unless otherwise stated.

Any additional targeted consultation focussing on specific issues following Stage Three consultation will be largely based around short summary documents although limited community meetings may be required.

Non-technical materials produced for all consultations and engagement activities will be bilingual. Welsh speakers will be available at staffed events and consultation feedback will be welcomed in both Welsh and English. Our consultation document will include details of how to request information in large print and we have a freephone number to help with enquiries in Welsh and English on **0800 954 9516**.

All consultation documents, including those from past consultations, are available via our website at www.horizonnuclearpower.com/consultation.

HOW WILL THE CONSULTATION BE ADVERTISED?

We use a number of ways to communicate about the consultation process and ensure the community can take part. We will consider all types of suitable media for communication and will work with representative groups, including the Isle of Anglesey County Council Communications Team, to maximise our effectiveness.

As a minimum these will include:

- **newsletters** – Our bilingual Community Update is delivered to around 33,000 households across Anglesey and is also downloadable from our website. It provides detail on the consultation, including how to get involved and where more information can be found. We will publish an edition ahead of the consultation;
- **press adverts** – We will place adverts in a variety of local publications detailing our consultation, including event locations and timings, in Welsh and English language, local and regional media;
- **press releases** – Consultation events will be announced via press releases and we will offer press briefings to local publications and local radio, in Welsh and English;
- **posters** – Posters will be placed in civic buildings such as libraries and community halls and will be issued to community groups and organisations. These will detail event locations and how people can find out more about consultation;
- **Wylfa Newydd Project Liaison Group** – This is an independent stakeholder liaison group and is designed to channel information between us via community representatives to the wider community and vice versa. A meeting will be held at the start of the consultation;
- **stakeholders, groups and organisations** – We will engage with a range of stakeholders and organisations to make them aware of the consultation and, where appropriate, provide details of how people can get involved;
- **website** – All consultation documentation and details of all stages of consultation, including event locations and timings, will be available on our website at www.horizonnuclearpower.com/consultation and the website will be clearly signposted in all literature;
- **social media** – We will use Twitter and YouTube to publicise each stage of consultation with the introduction of other social media channels as appropriate. We will actively engage in the conversations occurring throughout the consultation on social media and will review activity to identify any key issues that may trend in relation to our Project; and
- **other media** – We will contact local media outlets (e.g. radio stations and newspapers) before and during the consultation to ensure local people are kept up to date.

How can I respond?

Your response to our public consultation is a very important part of the pre-application consultation process and can be submitted in either Welsh or English. There are a number of ways in which you can respond:

- **in person**, at any of our events. We will be on hand to help you complete and provide written feedback, ensuring your views are captured completely;
- **via our feedback forms** available at the consultation events and online at: www.horizonnuclearpower.com/consultation. These are available in both Welsh and English;
- **in writing** to our Freepost address (**FREEPOST Horizon Nuclear Power Consultation**); and
- **via email** at wylfaenquiries@horizonnuclearpower.com

We also operate a Freephone number in Welsh and English to answer your questions and queries at any time. You can contact us on: **0800 954 9516**.

WHAT WILL HAPPEN TO MY RESPONSES?

All responses will be recorded, reviewed and considered as part of the consultation process and will be stored securely on our behalf.

A Consultation Report will be submitted with the application for a DCO explaining the process that we have used when considering your consultation response. Where we have not altered our proposals to reflect a response, we will explain our reasoning.

If you would like a large text or alternative version of this document, please contact us on **0800 954 9516** or go to our website: www.horizonnuclearpower.com/consultation

CONTACT US:

If you have any questions or feedback regarding the Wylfa Newydd Project you can contact us on our dedicated Wylfa Newydd freephone hotline and email address, by calling on **0800 954 9516** or emailing **wylfaenquiries@horizonnuclearpower.com**

Dear Sir/Madam

Wylfa Newydd - Stage Three consultation documents

I'm writing to inform you that Horizon Nuclear Power launches its Stage Three pre-application consultation on Wednesday 24 June 2017.

We've enclosed this letter with our hard copy consultation documents. We're providing you with this information in your capacity as someone with an interest in the Project.

The documents are:

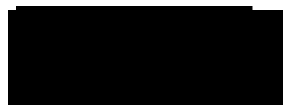

- Consultation Overview Document
- Main Consultation Document

We've also enclosed a USB card containing these documents. The documents can be accessed by unfolding the hinged tab on the card and inserting into any computer's USB port. If you're having any problems using it, please just call the number on the card.

If you'd like to discuss any of these documents in more detail, please contact us via email at wylfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516.

Our consultation closes on Thursday 22 June 2017, so thank you in advance for taking part.

Yours sincerely

Richard Foxhall
Stakeholder Relations Manager
Horizon Nuclear Power

Rhif Cyfeirnod DCRM: HNP-HZCON-PAC-LET-00003

Annwyl Syr/Fadam

Wylfa Newydd - Dogfennau ymgynghori Cam Tri

Rwy'n ysgrifennu i'ch hysbysu bod Pŵer Niwclear Horizon yn lansio ei ymgynghoriad cyn ymgeisio Cam Tri ddydd Mercher 24 Mehefin 2017.

Rydym wedi amgáu'r llythyr hwn gyda'r copïau papur o'n dogfennau ymgynghori. Rydym yn rhoi'r wybodaeth hon i chi oherwydd bod gennych ddiddordeb yn y Prosiect.

Dyma'r dogfennau:

- Dogfen Trosolwg o'r Ymgynghoriad
- Y Brif Ddogfen Ymgynghori

Hefyd rydym wedi amgáu cerdyn USB sy'n cynnwys y dogfennau hyn. Gellir cael gafael ar y dogfennau drwy agor y tab ar y cerdyn a'i roi yn soced USB unrhyw gyfrifiadur. Os byddwch yn cael unrhyw broblemau gyda defnyddio'r USB, ffoniwch y rhif ar y cerdyn.

Os hoffech drafod unrhyw rai o'r dogfennau hyn yn fanylach, cysylltwch â ni ar e-bost ar ymholiadauwylfa@horizonnuclearpower.com neu drwy ffonio 0800 954 9516.

Mae ein hymgyngoriad yn cau ddydd Iau 22 Mehefin 2017, felly diolch i chi ymlaen llaw am gymryd rhan.

Yn gywir

Richard Foxhall

DCRM Ref. No: WN0901-HZCON-PAC-LET-00002

Dear XX,

Wylfa Newydd Stage Three consultation, 24 May - 22 June 2017

I'm writing to inform you that Horizon Nuclear Power is launching Stage Three of its pre-application consultation on Wednesday 24 May. This consultation focuses on updates we've made to our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey, since the previous stage.

Because you own, occupy or have an interest in land near to the proposed site of the park and ride at Dalar Hir, we're providing you with information so you are fully informed on our proposals.

After reviewing our plans, we're proposing to accommodate up to 4,000 construction workers on-site in a single Site Campus. This means these workers won't have to travel to and from work each day. As a result, we've refined our parking and travel plans for all our workers during construction, including updating the design of the park and ride to reduce the number of parking spaces from around 2,700 spaces to around 1,900. We're also proposing minor improvements to Junction 4 of the A55 that will improve traffic flows.

I've enclosed a USB card loaded with a copy of our Consultation Overview Document that summarises the updates we've made, together with the more technical Main Consultation Document. Please note that our technical documents are supplied in English only, in line with Horizon's Welsh language policy. If you would prefer a printed version of either of these, please get in touch and we'd be happy to send you a copy. Alternatively, you can view both documents on our website and at our events.

As part of our consultation, we're holding events across Anglesey and North Wales from Saturday 27 May until Tuesday 20 June, where you can view our proposals in more detail and discuss them with members of the Horizon Nuclear Power team.

You can come along to a public exhibition:

Saturday 27 May
Llangefni Town Hall
Bulkley Square, Llangefni
10am -1pm

Tuesday 30 May
Llanfaethlu Village Hall
Llanfaethlu
1pm -7pm

Wednesday 31 May
The Valley Anglesey
London Road, Valley
1pm -7pm

Friday 2 June
Cemaes Village Hall
High Street, Cemaes Bay
1pm -7pm

www.horizonnuclearpower.com

Saturday 3 June
Amlwch Memorial Hall
18 Market Street,
Amlwch
10am -1pm

Saturday 10 June
Rhosybol Community
Centre, Yr Ysgol,
Rhosybol
10am -1pm

Monday 19 June
Cemaes Village Hall
High Street,
Cemaes Bay
1pm -7pm

We'll also be out and about across Anglesey and North Wales in our consultation bus:

Tuesday 6 June
Douglas Inn
Tregele, Cemaes Bay
4pm-7pm

Wednesday 7 June
Holland Hotel Car Park
Llanfachraeth
4pm-7pm

Thursday 8 June
Conwy Quay
Lower Gate Street, Conwy
4pm-7pm

Monday 12 June
Tesco Extra Car Park
Caernarfon Road, Bangor
4pm-7pm

Tuesday 13 June
Castle Square,
Castle Street,
Beaumaris
4pm-7pm

Wednesday 14 June
Lower Hill Street Car Park,
Newry Street,
Holyhead
10am-1pm

Wednesday 14 June
Holyhead Leisure Centre
Car Park, Kingsland Road,
Holyhead
4pm-7pm

Friday 16 June
Castle Square
Caernarfon
4pm-7pm

Saturday 17 June
Anglesey Farmers' Market
Ysgol David Hughes,
Menai Bridge
8am-1pm

Tuesday 20 June
Douglas Inn
Tregele,
Cemaes Bay
4pm-7pm

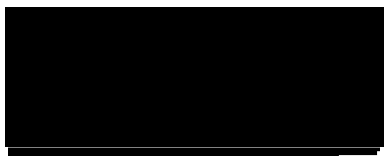

If you're unable to attend an event, we've also provided all the consultation material at www.horizonnuclearpower.com/consultation - and you can also leave us feedback via this website.

If you'd like to discuss any of these documents in more detail or would like to find out more about what we're proposing, please contact us via email at wylyfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516.

If you would prefer not to receive any further information about the Wylfa Newydd Project, then please write to us to let us know. However, it is important to note that if we take you off our consultation list it may mean you lose some of your formal rights to comment on the project at this stage.

Thank you in advance for taking part in our consultation, which closes on Thursday 22 June 2017. Your views are important to us and we hope to see you at one of our events in the coming weeks.

Yours sincerely

DCRM Ref. No: WN0901-HZCON-PAC-LET-00004

Dear XX,

Wylfa Newydd Stage Three consultation, 24 May - 22 June 2017

I'm writing to inform you that Horizon Nuclear Power is launching Stage Three of its pre-application consultation on Wednesday 24 May. This consultation focuses on updates we've made to our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey, since the previous stage.

Because you own, occupy or have an interest in land near to the site we have previously proposed for our Mobile Emergency Equipment Garage (MEEG), we're providing you with information so you are fully informed on our proposals.

After reviewing our plans, we are reducing the number of development sites and putting our essential off-site facilities together on the same site at Llanfaethlu. We're now proposing to locate the Alternative Emergency Control Centre (AECC) and the Environmental Survey Laboratory (ESL) on the same site with the MEEG. Locating these facilities on a single site means that the site footprint has increased from what was previously proposed, to allow for slightly larger buildings and additional parking spaces.

I've enclosed a USB card loaded with a copy of our Consultation Overview Document that summarises the updates we've made, together with the more technical Main Consultation Document. Please note that our technical documents are supplied in English only, in line with Horizon's Welsh language policy. If you would prefer a printed version of either of these, please get in touch and we'd be happy to send you a copy. Alternatively, you can view both documents on our website and at our events.

As part of our consultation, we're holding events across Anglesey and North Wales from Saturday 27 May until Tuesday 20 June, where you can view our proposals in more detail and discuss them with members of the Horizon Nuclear Power team.

23 May 2017

DCRM Ref. No: WN0901-HZCON-PAC-LET-00008

Dear XX,

Wylfa Newydd Stage Three consultation, 24 May - 22 June 2017

I'm writing to inform you that Horizon Nuclear Power is launching Stage Three of its pre-application consultation on Wednesday 24 May. This consultation focuses on updates we've made to our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey, since the previous stage.

Because you live near to the Wylfa Newydd Power Station site, we're providing you with information to keep you up to date on our proposals. After reviewing our plans, we've redesigned the Power Station site layout to move the reactors closer together to reduce the overall site area. This reduces the area of the Power Station and moves the perimeter fence further away from the A5025 and local communities.

As a result of this redesign, some of the other elements of our proposals have changed including our strategy for housing construction workers. We're now proposing to accommodate up to 4,000 workers on-site in a Site Campus with dedicated facilities. We'll construct the Site Campus in phases, with the first two totalling 2,500 beds. The final phase of 1,500 beds will be built only as required. We also need to make some minor improvements to access from the A5025 at the site entrance.

As part of our consultation, we're holding events across Anglesey and North Wales from Saturday 27 May until Tuesday 20 June, where you can view our proposals in more detail and discuss them with members of the Horizon Nuclear Power team.

You can come along to a public exhibition:

If you're unable to attend an event, we've also provided all the consultation material at www.horizonnuclearpower.com/consultation - and you can also leave us feedback via this website.

If you'd like to discuss any of these documents in more detail or would like to find out more about what we're proposing, please contact us via email at wylfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516.

If you would prefer not to receive any further information about the Wylfa Newydd Project, then please write to us to let us know. However, it is important to note that if we take you off our consultation list it may mean you lose some of your formal rights to comment on the project at this stage.

Thank you in advance for taking part in our consultation, which closes on Thursday 22 June 2017. Your views are important to us and we hope to see you at one of our events in the coming weeks.

Yours sincerely

Dear XX,

Wylfa Newydd Stage Three pre-application consultation, 24 May - 22 June 2017

Important – your property rights may be affected

I'm writing to you because you own, occupy or have an interest in land on or near to proposed highway improvements associated with our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey (Wylfa Newydd), or you may have a right to statutory compensation in respect of those improvements.

Horizon Nuclear Power Wylfa Limited is launching Stage Three of its pre-application consultation on Wednesday 24 May. This consultation focuses on updates we've made to Wylfa Newydd, since the previous stage of consultation in Autumn last year.

We are proposing eight sections of highway improvements along the A5025, including new stretches of road at five locations:

- Section 1 - A5/A5025 Valley junction: this work creates a bypass to the east of Valley, between the A5 (south of Valley) and a new junction with the A5025 to the north of Valley.
- Section 3 - Llanfachraeth: this work creates a bypass to the east of Llanfachraeth with a new 2km highway.
- Section 5 - Llanfaethlu: this work creates a bypass of Llanfaethlu and straightens two existing bends near the Black Lion pub and the Old Coffee Shop.
- Section 7 - Llanrhyddlad: this work creates a bypass of two existing bends in Llanrhyddlad between Llanrhyddlad and Cefn Coch. The road leading to Llanfechell to the east of the proposed bypass would be stopped-up and the existing staggered cross-roads along the A5025 between Llanrhyddlad and Llanfechell would be removed.
- Power Station Access Road: this work provides a new roundabout junction from the A5025 to link with the proposed access road to Wylfa Newydd.

We call these new sections of road our "Off-line Highway Improvements". Works in Sections 2, 4, 6 and part of 8 are improvements to the existing highway.

These Off-line Highway Improvements are similar to those that we have consulted on previously. However, after reviewing our plans and undertaking further assessment we are proposing the following refinements:

- Section 1: The bypass has been moved further east to ensure the new highway is located outside the flood zone. (The previous proposal was to raise the road above the flood zone.) A cycling and pedestrian path to the south of the roundabout (away from the carriageway edge) is now proposed.
- Section 3: The bypass will continue to include an elevated viaduct across the Afon Alaw, however the proposed viaduct is now around 25m longer to provide more clearance beyond the riverbanks (which respond to further flood modelling). Additional land to the east is included to allow for Great Crested Newt environmental mitigation.
- Section 5: Additional land to the west of the Llanfaethlu road straightening is now included for Great Crested Newt environmental mitigation.
- Section 7: The carriageway of these road improvements are now narrowed slightly at each end to reduce the need for earthworks and, at the northern end, to avoid earthworks within an area of ancient woodland.
- A new roundabout to connect the Power Station access road to the A5025 south of Treglele.

Following the introduction of the Wales Act 2017, we are now seeking consent for these Off-line Highway Improvements as part of our Development Consent Order for Wylfa Newydd, rather than by a separate planning permission from the Isle of Anglesey County Council as was previously required.

Horizon wishes to acquire the land required for highway improvements through voluntary agreements with landowners. However, if negotiations have not succeeded at the point where Horizon needs to apply for a Development Consent Order it may, as a last resort, apply for compulsory acquisition powers as part of that application.

If you are currently in negotiation with Horizon in respect of your land interests, our preference still remains to reach agreement with you in a timely manner rather than to fall back on powers of compulsory acquisition. If Horizon has previously reached agreement with you in respect of your land interests please be assured that such agreement remains unaffected.

We recommend that you review the enclosed plans showing the red line boundaries relating to the Off-line Highway Improvements to identify whether your land or property may be affected. Should you consider this to be the case I would encourage you to feed in to the Stage Three consultation process at your earliest opportunity so that your comments can be considered. Further details are also provided at pages 32-34 of our Consultation Overview Document.

As part of our consultation, we're holding events across Anglesey and North Wales from Saturday 27 May until Tuesday 20 June, where you can view our proposals in more detail and discuss them with members of the Horizon Nuclear Power team.

You can come along to a public exhibition:

Dear XX,

Wylfa Newydd Stage Three consultation, 24 May - 22 June 2017

I'm writing to inform you that Horizon Nuclear Power is launching Stage Three of its pre-application consultation on Wednesday 24 May. This consultation focuses on updates we've made to our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey, since the previous stage.

Because you own, occupy or have an interest in land near to the proposed site of the logistics centre at Parc Cybi, we're providing you with information so you are fully informed on our proposals.

After reviewing our plans, we've redesigned the layout of the logistics centre and we're now proposing to build a covered inspection bay instead of a warehouse, with additional parking spaces for heavy goods vehicles.

I've enclosed a USB card loaded with a copy of our Consultation Overview Document that summarises the updates we've made, together with the more technical Main Consultation Document. Please note that our technical documents are supplied in English only, in line with Horizon's Welsh language policy. If you would prefer a printed version of either of these, please get in touch and we'd be happy to send you a copy. Alternatively, you can view both documents on our website and at our events.

As part of our consultation, we're holding events across Anglesey and North Wales from Saturday 27 May until Tuesday 20 June, where you can view our proposals in more detail and discuss them with members of the Horizon Nuclear Power team.

You can come along to a public exhibition:

Saturday 27 May
Llangefni Town Hall
Bulkley Square, Llangefni
10am -1pm

Tuesday 30 May

DCRM Ref. No: WN0901-HZCON-PAC-LET-00007

Dear XX,

Wylfa Newydd Stage Three consultation, 24 May - 22 June 2017

I'm writing to inform you that Horizon Nuclear Power is launching its Stage Three pre-application consultation on Wednesday 24 May, and because you own, occupy or have an interest in land near to the Power Station site we wanted to let you know.

This consultation focuses on updates we've made to our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey, since our stage two consultation last autumn. After reviewing our plans, we've redesigned the Power Station site layout to move the reactors closer together. This reduces the area of the Power Station and moves the perimeter fence further away from the A5025 and local communities.

As a result of the redesign, some other elements of our proposals have changed including our strategy for housing construction workers. We're now proposing to accommodate up to 4,000 workers on-site in a temporary Site Campus with dedicated facilities. We'll construct the Site Campus in phases, with the first two totalling 2,500 beds, and the final phase of 1,500 beds being built only as required. We're also proposing a new roundabout where the access road to the temporary worker accommodation joins the A5025.

While the Power Station, once operational, will occupy less space than previously planned, the land needed to build the Power Station has remained largely the same. In addition we have recently added some pockets of land to the Site Development Area to allow the landscaping to be better designed.

I've enclosed a USB card loaded with a copy of our Consultation Overview Document that summarises the updates we've made, together with the more technical Main Consultation Document. Please note that our technical documents are supplied in English only, in line with Horizon's Welsh language policy. If you would prefer a printed version of either of these, please get in touch and we'd be happy to send you a copy. Alternatively, you can view both documents on our website and at our events.

Please ensure that you review the information, along with the Main Consultation Document, to identify whether your land may be affected. Should you consider this to be the case I would encourage you to feed in to the consultation process at your earliest opportunity so that your comments can be taken on board.

As part of our consultation, we're holding events across Anglesey and North Wales from Saturday 27 May until Tuesday 20 June, where you can view our proposals in more detail and discuss them with members of the Horizon Nuclear Power team.

You can come along to a public exhibition:

Saturday 27 May Llangefni Town Hall Bulkley Square, Llangefni 10am -1pm	Tuesday 30 May Llanfaethlu Village Hall Llanfaethlu 1pm -7pm	Wednesday 31 May The Valley Anglesey London Road, Valley 1pm -7pm	Friday 2 June Cemaes Village Hall High Street, Cemaes Bay 1pm -7pm
Saturday 3 June Amlwch Memorial Hall 18 Market Street, Amlwch 10am -1pm	Saturday 10 June Rhosybol Community Centre Yr Ysgol, Rhosybol 10am -1pm	Monday 19 June Cemaes Village Hall High Street, Cemaes Bay 1pm -7pm	

We'll also be out and about across Anglesey and North Wales in our consultation bus:

Tuesday 6 June Douglas Inn Treglele, Cemaes Bay 4pm-7pm	Wednesday 7 June Holland Hotel Car Park Llanfachraeth 4pm-7pm	Thursday 8 June Conwy Quay Lower Gate Street, Conwy 4pm-7pm	Monday 12 June Tesco Extra Car Park Caernarfon Road, Bangor 4pm-7pm
Tuesday 13 June Castle Square, Castle Street, Beaumaris 4pm-7pm	Wednesday 14 June Lower Hill Street Car Park, Newry Street, Holyhead 10am-1pm	Wednesday 14 June Holyhead Leisure Centre Car Park, Kingsland Road, Holyhead 4pm-7pm	Friday 16 June Castle Square Caernarfon 4pm-7pm
Saturday 17 June Anglesey Farmers' Market Ysgol David Hughes, Menai Bridge 8am-1pm	Tuesday 20 June Douglas Inn Treglele, Cemaes Bay 4pm-7pm		

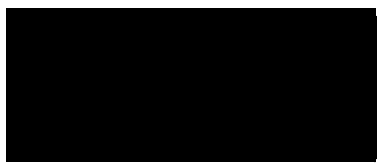

If you're unable to attend an event, we've also provided all the consultation material at www.horizonnuclearpower.com/consultation - and you can also leave us feedback via this website.

If you'd like to discuss any of these documents in more detail or would like to find out more about what we're proposing, please contact us via email at wylfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516.

If you would prefer not to receive any further information about the Wylfa Newydd Project, then please write to us to let us know. However, it is important to note that if we take you off our consultation list it may mean you lose some of your formal rights to comment on the project at this stage.

Thank you in advance for taking part in our consultation, which closes on Thursday 22 June 2017. Your views are important to us and we hope to see you at one of our events in the coming weeks.

Dear XX,

Wylfa Newydd – Stage Three consultation – [13 June – 12 July 2017]

I'm writing to inform you that Horizon Nuclear Power launched Stage Three of its pre-application consultation on Wednesday 24 May. This consultation focuses on updates we've made to our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey, since the previous stage.

After reviewing our plans, we've redesigned the layout to move the reactors closer together to reduce the footprint of the Power Station. As a result, some of the other elements of our proposals have changed, including our strategy for housing construction workers.

Although we have been working hard to ensure that we sent copies of the Stage Three pre-application consultation documents to all persons with a relevant interest in land, it has come to our attention that you own, occupy or have an interest in land near to either the Wylfa Newydd Power Station site itself, or one of the other developments associated with the Wylfa Newydd Project. As such, we're now providing you with information so you are fully informed on our proposals.

I've enclosed a USB card loaded with a copy of our Stage Three pre-application materials that includes a copy of our Consultation Overview Document that summarises the updates we've made, together with the more technical Main Consultation Document. Please note that our technical documents are supplied in English only, in line with Horizon's Welsh language policy. If you would prefer a printed version of either of these, please get in touch and we'd be happy to send you a copy. Alternatively, you can view both documents on our website and at our events.

The additional USB card contains a copy of our Stage Two pre-application materials. Because our Stage Three consultation focuses on updates to the Project, you may wish to also refer to these earlier Stage Two documents for more information. Printed copies of the Stage Two documents can also be provided on request.

As part of our current consultation, we've been holding events across Anglesey and North Wales from Saturday 27 May continuing until Tuesday 20 June, where you can view our proposals in more detail and discuss them with members of the Horizon Nuclear Power team.

We are holding a public exhibition on **Monday 19 June at:**

Cemaes Village Hall, High Street, Cemaes Bay, between 1pm -7pm.

We'll also be out and about across Anglesey and North Wales in our consultation bus:

Wednesday 14 June

Lower Hill Street Car Park,
Newry Street, Holyhead

10am-1pm

Wednesday 14 June

Holyhead Leisure Centre Car
Park, Kingsland Road,
Holyhead

4pm-7pm

Friday 16 June

Castle Square
Caernarfon

4pm-7pm

Saturday 17 June

Anglesey Farmers' Market

Ysgol David Hughes, Menai
Bridge

8am-1pm

Tuesday 20 June

Douglas Inn

Tregele, Cemaes Bay

4pm-7pm

If you're unable to attend an event, we've also provided all the consultation material at www.horizonnuclearpower.com/consultation - and you can also leave us feedback via this website. If you'd like to discuss any of these documents in more detail or would like to find out more about what we're proposing, please contact us via email at wylfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516.

If you would prefer not to receive any further information about the Wylfa Newydd Project, then please write to us to let us know. However, it is important to note that if we take you off our consultation list it may mean you lose some of your formal rights to comment on the project at this stage.

Thank you in advance for taking part in our consultation. Although the main consultation closes on Thursday 22 June 2017, to recognise that you have received documents later in the process we will extend this period to Wednesday 12 July.

Your views are important to us and we hope to see you at one of our events in the coming weeks.

Yours sincerely

12 Mehefin 2017

Rhif Cyfeirnod DCRM: WN0902-HZCON-PAC-LET-00011

Annwyl XX,

Wylfa Newydd – Ymgynghoriad Cam Tri – [13 Mehefin – 12 Gorffennaf 2017]

Rwy'n ysgrifennu i'ch hysbysu bod Pŵer Niwclear Horizon wedi lansio Cam Tri ei ymgynghoriad cyn ymgeisio ar ddydd Mercher 24 Mai. Mae'r ymgynghoriad hwn yn canolbwyntio ar ddiweddariadau rydym wedi eu gwneud i'n cynigion ar gyfer adeiladu Wylfa Newydd, gorsaf pŵer niwclear newydd ar Ynys Môn, ers y cam blaenorol.

Ar ôl adolygu ein cynlluniau, rydym wedi ail gynllunio'r cynllun i symud yr adweithyddion yn nes at ei gilydd er mwyn lleihau ôl troed yr Orsaf Bŵer. O ganlyniad, mae rhai elfennau o'n cynigion wedi newid, gan gynnwys ein strategaeth ar gyfer darparu llety i weithwyr adeiladu.

Er ein bod wedi bod yn gweithio'n galed i sicrhau ein bod yn anfon copïau o'r dogfennau ymgynghori cyn ymgeisio Cam Tri at bawb sydd â diddordeb perthnasol mewn tir, daeth i'n sylw eich bod chi'n berchen ar dir, yn preswyllo ar dir neu â diddordeb mewn tir naill ai ger safle Gorsaf Bŵer Wylfa Newydd ei hun, neu ger un o'r datblygiadau eraill sy'n gysylltiedig â Phrosiect Wylfa Newydd. Felly, rydym nawr yn rhoi gwybodaeth i chi er mwyn i chi fod yn gwbl gyfarwydd â'n cynigion.

Rwyf wedi amgáu cerdyn USB gyda chopi o'n deunyddiau cyn ymgeisio Cam Tri arno, sy'n cynnwys copi o Ddogfennau Trosolwg yr Ymgynghoriad, yn crynhoi'r diweddariadau rydym wedi'u gwneud, ynghyd â'r Brif Ddogfen Ymgynghori fwy technegol. Sylwer bod ein dogfennau technegol yn cael eu cyflenwi yn Saesneg yn unig, yn unol â pholisi iaith Gymraeg Horizon. Os yw'n well gennych gael fersiwn wedi'i argraffu o unrhyw un o'r rhain, cofiwch gysylltu a byddwn yn fwy na pharod i anfon copi atoch. Fel dewis arall, cewch edrych ar y ddwy ddogfen ar ein gwefan ac yn ein digwyddiadau.

Mae'r cerdyn USB ychwanegol yn cynnwys copi o'n deunyddiau cyn ymgeisio Cam Dau. Oherwydd bod ein hymgyngoriad Cam Tri yn canolbwyntio ar ddiweddariadau i'r Prosiect, mae'n bosib yr hoffech gyfeirio at y dogfennau Cam Dau cynharach hyn er gwybodaeth. Mae modd darparu copïau o ddogfennau Cam Dau ar gais.

Fel rhan o'n hymgyngghoriad presennol, rydym wedi bod yn cynnal digwyddiadau ledled Ynys Môn a Gogledd Cymru o ddydd Sadwrn 27 Mai tan ddydd Mawrth 20 Mehefin, ble cewch weld ein cynigion yn fanylach a'u trafod gydag aelodau o dîm Pŵer Niwclear Horizon.

Rydym yn cynnal arddangosfa gyhoeddus ar **ddydd Llun 19 Mehefin yn:**

Neuadd Bentref Cemaes, Stryd Fawr, Cemaes, rhwng 1pm a 7pm.

Hefyd byddwn yn mynd o gwmpas Ynys Môn a Gogledd Cymru ym mws yr ymgynghoriad:

Dydd Mercher 14 Mehefin	Dydd Mercher 14 Mehefin	Dydd Gwener 16 Mehefin
Maes Parcio Lower Hill Street, Stryd Newry, Caergybi 10am-1pm	Maes Parcio Canolfan Hamdden Caergybi, Ffordd Kingsland, Caergybi 4pm-7pm	Y Maes Caernarfon 4pm-7pm
Dydd Sadwrn 17 Mehefin	Dydd Mawrth 20 Mehefin	
Marchnad Ffermwyr Ynys Môn Ysgol David Hughes, Porthaethwy 8am-1pm	Douglas Inn Tregele, Cemaes 4pm-7pm	

Os na fyddwch yn gallu mynd i ddigwyddiad, rydym hefyd wedi rhoi'r holl ddeunydd ymgynghori ar – www.horizonnuclearpower.com/ymgyngghoriad – a gallwch hefyd roi unrhyw adborth drwy'r wefan hon. Os hoffech drafod unrhyw un o'r dogfennau yma yn fanylach, neu os hoffech gael gwybod mwy am yr hyn rydym yn ei gynnig, cysylltwch â ni drwy anfon neges e-bost i ymholiadauwylfa@horizonnuclearpower.com neu drwy ffonio 0800 954 9516.

Os yw'n well gennych beidio â derbyn rhagor o wybodaeth am Brosiect Wylfa Newydd, ysgrifennwch atom i roi gwybod i ni. Er hynny, mae'n bwysig nodi, os byddwn yn tynnu eich enw oddi ar ein rhestr ymgynghori, y gall hynny olygu eich bod yn colli rhai o'ch hawliau ffurfiol i gyflwyno sylwadau ar y prosiect yn y cam hwn.

Diolch i chi ymlaen llaw am gymryd rhan yn ein hymgyngghoriad. Er bod y prif ymgynghoriad yn dod i ben ar ddydd lau 22 Mehefin 2017, er mwyn cydnabod eich bod chi wedi derbyn y dogfennau'n hwyrach yn y broses, byddwn yn ymestyn y cyfnod hwn i ddydd Mercher 12 Gorffennaf.

Mae eich barn yn bwysig i ni ac rydym yn gobeithio eich gweld yn un o'n digwyddiadau yn ystod yr wythnosau sydd i ddod.

Yn gywir

DCRM Ref. No: WN0902-HZCON-PAC-LET-00012

Dear XX,

Wylfa Newydd – Stage Three consultation – [15 June – 14 July 2017]

We wrote to you on 23 May 2017 to let you know that Horizon Nuclear Power launched Stage Three of its pre-application consultation on Wednesday 24 May.

We wrote to you because you own, occupy or have an interest in land near to either the Wylfa Newydd Power Station site itself, or one of the other developments associated with the Wylfa Newydd Project.

The Stage Three consultation focuses on updates we've made to our proposals for building Wylfa Newydd, a new nuclear power station on Anglesey, since our Stage Two consultation held in [Autumn] 2016. Given the changes since that Stage Two consultation in terms of land associated with the Project, it has come to our attention that you may not have received a hard copy of our Stage Two consultation documents at the time that consultation was held.

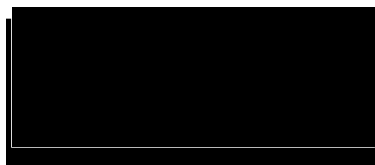

Although the Stage Three materials already sent to you confirmed that those Stage Two documents are available on our website, for completeness I've enclosed a USB card loaded with a copy of our Stage Two documents. Printed copies of the Stage Two documents can also be provided on request.

As set out in our 23 May 2017 letter, our consultation closes on Thursday 22 June 2017. However, to recognise that you have received these Stage Two documents later in the process we will formally extend this period to Friday 14th July 2017 for your responses. However, please do not hesitate to get in contact with us via email at wylfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516 if you have any questions.

If you'd like to discuss any of our consultation documents in more detail or would like to find out more about what we're proposing, please contact us via the email or telephone details provided above.

Your views are important to us and we hope to see you at one of our events in the coming weeks.

Yours sincerely

Kieran Somers
Technical Planning Manager
Horizon Nuclear Power

Appendix C.7- s48 Notices (Publicity)

Appendix C.7- Daily Post 12/05/2017

Pŵer Niwclear Horizon – Hysbysiad Cyhoeddus

WYLFA NEWYDD – GORSAF BŴER NIWCLEAR NEWYDD AR YNYS MÔN

ADRAN 48, DEDDF CYNLLUNIO 2008 – RHEOLIAD 4 RHEOLIADAU CYNLLUNIO SEILWAITH (CEISIADAU: FFURFLENNI A GWEITHDREFNAU RHAGNODEDIG) 2009

CAIS ARFAETHEDIG AM GYDSYNIAD DATBLYGU AR GYFER PROSIECT WYLFA NEWYDD

Anfonwch unrhyw sylwadau i ymateb i'r hysbysiad hwn erbyn 22 Mehefin 2017.

1. Rhoddir hysbysiad drwy hyn fod Horizon Nuclear Power Limited (yr "Ymgeisydd") o Sunrise House 1420 Charlton Court, Gloucester Business Park, Caerloyw / Gloucester, GL3 4AE yn bwriadu gwneud cais i'r Ysgrifennydd Gwladol dan adran 37 o Ddeddf Gynllunio 2008 am orchymyn cydsyniad datblygu ("DCO") ar gyfer adeiladu, gweithredu a chynnal a chadw gorsaf bŵer niwclear newydd a datblygiadau eraill yn Wylfa, Ynys Môn ("Prosiect Wylfa Newydd").
2. Mae'r Ymgeisydd yn rhan o grŵp o gwmnïau Horizon Nuclear Power Limited, ac mae dan berchnogaeth Iwyr Hitachi, Limited, sydd â'i bencadlys yn Tokyo, Japan.
3. Disgwylir i'r cais am Brosiect Wylfa Newydd gael ei gyflwyno yn nhyrddydd chwarter 2017.
4. Mae Prosiect Wylfa Newydd yn Brosiect Seilwaith o Arwyddorâd Cenedlaethol at ddibenion Deddf Cynllunio 2008, ac mae angen cydsyniad datblygu o dan y Ddeddf honno. Mae Horizon yn bwriadu gwneud cais am DCO ar gyfer Prosiect Wylfa Newydd a fyddai'n cynnwys y prif elfennau canlynol:
 - (a) *Development on the main power station site including:*
 - (i) Dau Adweithydd Dŵr Berwedig Uwch y Deyrnas Unedig (UK ABWR) gydag allbwn trydanol cyfun sydd tua 2,700MWe ac offer cysylltiol ar arfordir gogleddol Ynys Môn i'r gorllewin o Gemaes.
 - (ii) Adeiladau adweithydd, rheoli, gwasanaeth a thyrbin, a chyfleusterau, adeiladau, strwythurau, nodweddion a gwaith ategol eraill sy'n rhan hanfodol o'r orsaf gynhyrchu, gan gynnwys
 - (A) Adeiladau i storio gwastraff ymbelydrol a thanwydd sydd wedi cael ei ddefnyddio
 - (B) Cysylltiad trydanol ag is-orsaf y National Grid
 - (C) Gwaith morol sy'n cynnwys system dŵr oeri, cyfleuster dadlwytho morol, morgloddiau, a systemau goleuo a diogelwch ar gyfer mordwyo
 - (D) Adeilad gweinyddol ac adeilad hyfforddi ac efelychu

- (E) Gwaith tirweddau a phlannu gan gynnwys systemau rheoli dŵr wyneb, draenïau a draenïau dŵr budr, a gwaith llwybrau troed
 - (F) Gwaith Mynediad i'r Cyhoedd, gan gynnwys cau a dargyfeirio hawliau tramwy cyhoeddus
 - (G) Ffordd fynediad i'r orsaf bŵer a ffyrdd mewnlol ar y safle
 - (H) Meysydd parcio
 - (I) Safleoedd adeiladu, ardaloedd gosod, ardaloedd gweithio, a gwaith a strwythurau dros dro, ac ardal dros dro i weld y gwaith adeiladu
 - (J) Dargyfeirio cyfleustodau
 - (K) Prif ffens berimedr a ffens adeiladu
- (b) *Cyfleusterau Oddi ar Safle'r Orsaf Bŵer wedi'u cydleo'i ar dir yn Llanfaethlu, yn cynnwys:*
- (i) Canolfan rheoli argyfwng amgen
 - (ii) Labordy arolwg amgylcheddol
 - (iii) Garej offer argyfwng symudol
- (c) *Datblygiadau Cysylltiedig, yn cynnwys:*
- (i) Campws y Safle, sef campws y llety i weithwyr dros dro wedi'i leoli yn Ardal Datblygu Wylfa Newydd
 - (ii) Canolfan logisteg ar dir ym Mharc Cybi
 - (iii) Cyfleuster parcio a theithio ar gyfer gweithwyr adeiladu ar dir yn Dalar Hir
 - (iv) Gwelliannau i brif-ffordd yr A5025 yng nghyffordd y Fali, yn Llanfachraeth, yn Llanfaethlu, yng Nghefn Coch ac wrth fynediad yr orsaf bŵer
- (d) *Gwaith arall yn cynnwys gwaith i hwyluso adeiladu'r elfennau a ddisgrifir uchod*
5. Mae Horizon hefyd yn bwriadu cyflwyno ceisiadau am ganiatâd cynllunio o dan Ddeddf Cynllunio Gwlad a Thref 1990 ar gyfer gwaith sy'n cefnogi'r cais am DCO, ond na fydd yn rhan ohono. Mae'r rhain yn cynnwys ceisiadau ar gyfer:
 - (a) Gwaith Paratoi a Chlirio'r Safle
 - (b) Gwelliannau ar brif-ffordd yr A5025
 - (c) Canolfan i dderbyn ymwelwyr a'r cyfryngau
 - (d) Gwaith galluogi a gwaith cysylltiedig arall yn ôl yr angen i gyflawni'r Prosiect

6. Bydd y DCO arfaethedig hefyd yn ceisio pwerau amrywiol eraill, gan gynnwys darpariaethau sy'n caniatáu pryniant gorfodol buddiannau a hawliau dros dir, defnyddio tir dros dro, ymyrryd â hawliau a chau neu ddargyfeirio strydoedd a hawliau tramwy cyhoeddus eraill gan gynnwys cau Ffordd Cemlyn yn barhaol.
7. Mae'r datblygiad arfaethedig yn "ddatblygiad Asesiad o'r Effaith Amgylcheddol (EIA)" at ddibenion Rheoliadau Cynllunio Seilwaith (Asesu Effaithiau Amgylcheddol) 2009. Cynhelir asesiad o'r effaith amgylcheddol, a chyflwynir datganiad amgylcheddol gyda'r cais arfaethedig. Bydd y datganiad amgylcheddol yn rhoi disgrifiad manwl o'r Prosiect a'i effeithiau arwyddocaol tebygol ar yr amgylchedd.
8. Yn unol â Rheoliad 10 o Reoliadau Cynllunio Seilwaith (Asesu Effeithiau Amgylcheddol) 2009, mae'r Ymgeisydd wedi sicrhau bod Gwybodaeth Amgylcheddol Ragarweiniol (PEI) ar gael, ynghyd â chrynodeb annhechnegol o'r wybodaeth honno (fel rhan o Gam Un a Cham Dau ei ymgynghoriad cyn ymgeisio). Ynglwm wrth y PEI hwn mae'r wybodaeth amgylcheddol ddiweddaraf a gyflwynir yn nogfennau ymgynghori cyn ymgeisio Cam Tri.
9. Paratowyd datganiad o ymgynghoriad cymunedol ("SOCC") sydd wedi'i ddiweddarau i esbonio sut caiff yr ymgynghoriad Cam Tri hwn ei gynnal mewn perthynas â Phrosiect Wylfa Newydd.
10. Dyma'r dogfennau sy'n sail i'r ymgynghoriad cyn ymgeisio Cam Tri:
 - (a) Dogfen Trosolwg o'r Ymgynghoriad (ar gael yn Gymraeg a Saesneg)
 - (b) Y Brif Ddogfen Ymgynghori
11. Bydd copïau cyfeirio o'r dogfennau Cam Tri hyn sy'n dangos natur a lleoliad Prosiect Wylfa Newydd ar gael i'w gweld yn rhad ac am ddim rhwng 24 Mai a 22 Mehefin 2017 yn y llyfrgelloedd a restrir gyferbyn. Mae cyfleusterau copïo ar gael yn y llyfrgelloedd hyn am 15c (A4) a 30c (A3) yn Ynys Môn, 20c (A4) a £1 (A3) yng Ngwynedd, a 60c (A4) a £1 (A3) yng Nghonwy.
12. Bydd copïau am ddim o'r Ddogfen Trosolwg o'r Ymgynghoriad a'r Brif Ddogfen Ymgynghori ar gael hefyd yn yr arddangosfeydd a restrir isod neu gallwch wneud cais amdanynt (manylion cyswllt isod).

13. Bydd copïau o holl ddogfennau ymgynghori Cam Tri a holl ddogfennau'r ymgynghoriadau blaenorol ar gael i'w gweld a'u llwytho i lawr oddi ar www.horizonnuclearpower.com/ymgyngoriad a gellir gofyn amdanynt hefyd ar ddyfais storio digidol yn rhad ac am ddim. Gallwch hefyd wneud cais rhesymol am gopïau papur o holl gynlluniau a dogfennau ymgynghori Cam Tri.
14. Fel rhan o'n hymgyngoriad â'r gymuned, cynhelir digwyddiadau rhwng 27 Mai a 20 Mehefin 2017 yn: Amlwch, Bangor, Biwmares, Caernarfon, Caergybi, Cemaes, Conwy, y Fali, Llanfachraeth, Llanfaethlu, Llangefni, Porthaethwy, Rhosybol a Thregele. Hysbysebir y digwyddiadau'n eang, a cheir rhagor o fanylion ar ein gwefan (mae'r manylion ar gael isod).
15. Cewch gyflwyno sylwadau yn ystod y cyfnod ymgynghori o 28 diwrnod, hyd at 22 Mehefin 2017, a hynny mewn nifer o ffyrdd:
 - (a) Llenwi ffurflen adborth wedi'i hargraffu; gellir cyflwyno hon yn un o'n digwyddiadau, neu drwy ei phostio i'n cyfeiriad rhadbost. **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
 - (b) Llenwi ffurflen adborth ar-lein yn www.horizonnuclearpower.com/ymgyngoriad
 - (c) Anfon neges e-bost at ymholiadauwylfa@horizonnuclearpower
 - (d) Ysgrifennu atom yn ein cyfeiriad rhadbost
16. Dylech gyflwyno eich sylwadau inni erbyn **22 Mehefin 2017** fan bellaf. Mae'r Ymgeisydd yn gofyn i unrhyw ymateb gynnwys enw'r sawl sy'n rhoi'r ymateb ynghyd â chyfeiriad a chod post er mwyn gallu anfon unrhyw ohebiaeth ynglŷn â'r ymateb.
17. Bydd gwybodaeth bersonol sy'n cael ei rhoi i Horizon mewn ymateb i Gam Tri yr ymgynghoriad yn cael ei phrosesu'n gwbl gyfrinachol yn unol â Deddf Diogelu Data 1998.

Horizon Nuclear Power – Public Notice

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY

SECTION 48, PLANNING ACT 2008 – REGULATION 4 INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

PROPOSED APPLICATION FOR DEVELOPMENT CONSENT FOR THE WYLFA NEWYDD PROJECT

Please send any comments in response to this notice by 22 June 2017.

1. Notice is hereby given that Horizon Nuclear Power Wylfa Limited (the "Applicant") of Sunrise House 1420 Charlton Court, Gloucester Business Park, Gloucester, GL3 4AE proposes to apply to the Secretary of State under s37 of the Planning Act 2008 for an order granting development consent ("DCO") for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey ("Wylfa Newydd Project").
2. The Applicant is part of the Horizon Nuclear Power Limited group of companies and is wholly owned by Hitachi, Limited, the headquarters of which is in Tokyo, Japan.
3. The application for the Wylfa Newydd Project is anticipated to be submitted in the third quarter of 2017.
4. The Wylfa Newydd Project is a Nationally Significant Infrastructure Project for the purposes of the Planning Act 2008 and requires development consent under that Act. Horizon proposes to apply for a DCO for the Wylfa Newydd Project which would include the following principal elements:
 - (a) *Development on the main power station site including:*
 - (i) Two UK Advanced Boiling Water Reactors (UK ABWR) with a combined electrical output of approximately 2,700MWe and related plant located on the north coast of Anglesey to the west of Cemaes.
 - (ii) Reactor, control, service and turbine buildings and other supporting facilities, buildings, structures, features and works which are integral to the generating station including:
 - (A) Radioactive waste and spent fuel storage buildings
 - (B) Electrical connection to National Grid substation
 - (C) Marine works comprising a cooling water system, marine off-loading facility, breakwater structures, and navigational lighting and safety systems
 - (D) Administration building and training and simulator building
 - (E) Landscape works and planting including drainage, foul drainage and surface water management systems and footpath works
 - (iii) Public Access works including closure and diversion of public rights of way
 - (iv) A power station access road and internal site roads
 - (v) Car parking
 - (vi) Construction sites, laydown areas, working areas, temporary works and structures, and temporary construction viewing area
 - (vii) Diversion of utilities
 - (viii) Main perimeter fence and construction fence
 - (b) *Off-site Power Station Facilities co-located on land in Llanfaethlu including:*
 - (i) An alternative emergency control centre
 - (ii) An environmental survey laboratory
 - (iii) A mobile emergency equipment garage
 - (c) *Associated Development including:*
 - (i) The Site Campus, being a temporary workers' accommodation campus located on the Wylfa Newydd Development Area
 - (ii) A logistics centre on land at Parc Cybi
 - (iii) A park and ride facility for construction workers on land at Dalar Hir
 - (iv) Offline highways improvements to the A5025 at Valley junction, Llanfachraeth, Llanfaethlu, Cefn Coch and the power station access
 - (d) *Other works including works to facilitate the construction of the elements described above*
5. Horizon also intends to bring forward applications for planning permission under the Town and Country Planning Act 1990 for works which support, but which will not form part of, the DCO application. These include applications for:
 - (a) Site Preparation and Clearance works
 - (b) Online highways improvements on the A5025
 - (c) A visitor and media reception centre
 - (d) Other related and enabling works as needed to support delivery of the Project
6. The proposed DCO will also seek various other powers including provisions permitting the compulsory acquisition of interests and rights in land, the temporary use of land, interference with rights and the closure or diversion of streets and other public rights of way including the permanent closure of Cemlyn Road.
7. The proposed development is "EIA development" for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. An environmental impact assessment is being carried out and an environmental statement will be submitted with the proposed application. The environmental statement will provide a detailed description of the Project and its likely significant environmental effects.
8. In accordance with Regulation 10 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 the Applicant has previously made Preliminary Environmental Information (PEI) available together with a non-technical summary of that information (as part of its Stage One and Stage Two pre-application consultations). This PEI is supplemented by the updated environmental information presented in the Stage Three pre-application consultation documents.
9. An updated statement of community consultation ("SOCC") has been prepared explaining how this Stage Three pre-application consultation will be undertaken in respect of the Wylfa Newydd Project.
10. The documents which support this Stage Three pre-application consultation comprise:
 - (a) A Consultation Overview Document (available in English and Welsh)
 - (b) A Main Consultation Document
11. Reference copies of these Stage Three documents showing the nature and location of the Wylfa Newydd Project will be available for viewing free of charge between 24 May and 22 June 2017 at the library locations listed opposite. Copying facilities are available at these libraries at a cost of 15p (A4) and 30p (A3) in Anglesey, 20p (A4) and £1 (A3) in Gwynedd, and 60p (A4) and £1 (A3) in Conwy.
12. Free copies of the Consultation Overview Document and the Main Consultation Document will also be available from the exhibition events listed below or on request (contact details below).
13. Copies of all Stage Three consultation documents and all previous consultation documents will be available to view and to download from www.horizonnuclearpower.com/consultation and will also be made available on request on a digital storage device at no charge. Printed copies of all Stage Three consultation documents and plans are available upon reasonable request.
14. As part of our community consultation, events are taking place between 27 May and 20 June 2017 at: Amlwch, Bangor, Beaumaris, Caernarfon, Cemaes, Conwy, Holyhead; Llanfachraeth, Llanfaethlu, Llangefni, Menai Bridge, Rhosybol, Tregele and Valley. These events are being widely advertised and further details are available from our website (details below).
15. You will be able to submit comments during the 28 day consultation period, up until 22 June 2017, in a number of ways:
 - (a) Completing a printed feedback form; this can be submitted at one of our exhibitions or by posting to our Freepost address: **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
 - (b) Completing an online feedback form at www.horizonnuclearpower.com/consultation
 - (c) Emailing us at wylfaenquiries@horizonnuclearpower.com
 - (d) Writing to us at our freepost address
16. Your comments should be submitted to us no later than **22 June 2017**. The Applicant requests that any response made indicates who is making the response and includes an address and post code to which any correspondence relating to it may be sent.
17. Personal information that is supplied to Horizon in response to this Stage Three consultation will be processed in strict accordance with the Data Protection Act 1998.

Appendix C.7- Daily Post 19/05/17

Pŵer Niwclear Horizon – Hysbysiad Cyhoeddus

WYLFA NEWYDD – GORSAF BŴER NIWCLEAR NEWYDD AR YNYS MÔN

ADRAN 48, DEDDF CYNLLUNIO 2008 – RHEOLIAD 4 RHEOLIADAU CYNLLUNIO SEILWAITH (CEISIADAU: FFURFLENNI A GWEITHDREFNAU RHAGNODEDIG) 2009

CAIS ARFAETHEDIG AM GYDSYNIAD DATBLYGU AR GYFER PROSIECT WYLFA NEWYDD

Anfonwch unrhyw sylwadau i ymateb i'r hysbysiad hwn erbyn 22 Mehefin 2017.

- Rhoddir hysbysiad drwy hyn fod Horizon Nuclear Power Limited (yr "Ymgeisydd") o Sunrise House 1420 Charlton Court, Gloucester Business Park, Caerloyw / Gloucester, GL3 4AE yn bwriadu gwneud cais i'r Ysgrifennydd Gwladol dan adran 37 o Ddeddf Gynllunio 2008 am orchymyn cydsyniad datblygu ("DCO") ar gyfer adeiladu, gweithredu a chynnal a chadw gorsaf bŵer niwclear newydd a datblygiadau eraill yn Wylfa, Ynys Môn ("Prosiect Wylfa Newydd").
- Mae'r Ymgeisydd yn rhan o grŵp o gwmnïau Horizon Nuclear Power Limited, ac mae dan berchnogaeth Iwyr Hitachi, Limited, sydd â'i bencadlys yn Tokyo, Japan.
- Disgwylir i'r cais am Brosiect Wylfa Newydd gael ei gyflwyno yn nhrydydd chwarter 2017.
- Mae Prosiect Wylfa Newydd yn Brosiect Seilwaith o Arwyddocâd Cenedlaethol at ddibenion Deddf Cynllunio 2008, ac mae angen cydsyniad datblygu o dan y Ddeddf honno. Mae Horizon yn bwriadu gwneud cais am DCO ar gyfer Prosiect Wylfa Newydd a fyddai'n cynnwys y prif elfennau canlynol:
 - Development on the main power station site including:*
 - Dau Adweithydd Dŵr Berwedig Uwch y Deyrnas Unedig (UK ABWR) gydag allbwn trydanol cyfun sydd tua 2,700MWe ac offer cysylltiol ar arfordir gogleddol Ynys Môn i'r gorllewin o Gemaes.
 - Adeiladau adweithydd, rheoli, gwasanaeth a thyrbîn, a chyfleusterau, adeiladau, strwythurau, nodweddion a gwaith ategol eraill sy'n rhan hanfodol o'r orsaf gynhyrchu, gan gynnwys
 - Adeiladau i storio gwastraff ymbelydrol a thanwydd sydd wedi cael ei ddefnyddio
 - Cysylltiad trydanol ag is-orsaf y National Grid
 - Gwaith morol sy'n cynnwys system dŵr oeri, cyfleuster dadlwytho morol, morgloddiau, a systemau goleuo a diogelwch ar gyfer mordwyo
 - Adeilad gweinyddol ac adeilad hyfforddi ac efelychu
 - Gwaith tirweddu a phlannu gan gynnwys systemau rheoli dŵr wyneb, draeniau a draeniau dŵr budr, a gwaith llwybrau troed*
 - Gwaith Mynediad i'r Cyhoedd, gan gynnwys cau a dargyfeirio hawliau tramwy cyhoeddus*
 - Ffordd fynediad i'r orsaf bŵer a ffyrdd mewnol ar y safle*
 - Meysydd parcio*
 - Safleoedd adeiladu, ardaloedd gosod, ardaloedd gweithio, a gwaith a strwythurau dros dro, ac ardal dros dro i weld y gwaith adeiladu*
 - Dargyfeirio cyfleustodau*
 - Prif ffens berimedr a ffens adeiladu*
 - Cyfleusterau Oddi ar Safle'r Orsaf Bŵer wedi'u cydleo'i ar dir yn Llanfaethlu, yn cynnwys:*
 - Canolfan rheoli argyfwng amgen
 - Labordy arolwg amgylcheddol
 - Garej offer argyfwng symudol
 - Datblygiadau Cysylltiedig, yn cynnwys:*
 - Campws y Safle, sef campws y llety i weithwyr dros dro wedi'i leoli yn Ardal Datblygu Wylfa Newydd
 - Canolfan logisteg ar dir ym Mharc Cybi
 - Cyfleuster parcio a theithio ar gyfer gweithwyr adeiladu ar dir yn Dalar Hir
 - Gwelliannau i brif-ffordd yr A5025 yng nghyffordd y Fali, yn Llanfachraeth, yn Llanfaethlu, yng Nghefn Coch ac wrth fynediad yr orsaf bŵer
 - Gwaith arall yn cynnwys gwaith i hwyluso adeiladu'r elfennau a ddisgrifir uchod*
- Mae Horizon hefyd yn bwriadu cyflwyno ceisiadau am ganiatâd cynllunio o dan Ddeddf Cynllunio Gwlad a Thref 1990 ar gyfer gwaith sy'n cefnogi'r cais am DCO, ond na fydd yn rhan ohono. Mae'r rhain yn cynnwys ceisiadau ar gyfer:
 - Gwaith Paratoi a Chlirio'r Safle
 - Gwelliannau ar brif-ffordd yr A5025
 - Canolfan i dderbyn ymwelwyr a'r cyfryngau
 - Gwaith galluogi a gwaith cysylltiedig arall yn ôl yr angen i gyflawni'r Prosiect
- Bydd y DCO arfaethedig hefyd yn ceisio pwerau amrywiol eraill, gan gynnwys darpariaethau sy'n caniatáu pryniant gorfodol buddiannau a hawliau dros dir, defnyddio tir dros dro, ymyrryd â hawliau a chau neu ddargyfeirio strydoedd a hawliau tramwy cyhoeddus eraill gan gynnwys cau Ffordd Cemlyn yn barhaol.
- Mae'r datblygiad arfaethedig yn "ddatblygiad Asesiad o'r Effaith Amgylcheddol (EIA)" at ddibenion Rheoliadau Cynllunio Seilwaith (Asesu Effaithiau Amgylcheddol) 2009. Cynhelir asesiad o'r effaith amgylcheddol, a chyflwynir datganiad amgylcheddol gyda'r cais arfaethedig. Bydd y datganiad amgylcheddol yn rhoi disgrifiad manwl o'r Prosiect a'i effeithiau arwyddocaol tebygol ar yr amgylchedd.
- Yn unol â Rheoliad 10 o Reoliadau Cynllunio Seilwaith (Asesu Effeithiau Amgylcheddol) 2009, mae'r Ymgeisydd wedi sicrhau bod Gwybodaeth Amgylcheddol Ragarweiniol (PEI) ar gael, ynghyd â chrynodeb annhechnegol o'r wybodaeth honno (fel rhan o Gam Un a Cham Dau ei ymgynghoriad cyn ymgeisio). Ynglwm wrth y PEI hwn mae'r wybodaeth amgylcheddol ddiweddaraf a gyflwynir yn nogfennau ymgynghori cyn ymgeisio Cam Tri.
- Paratowyd datganiad o ymgynghoriad cymunedol ("SOCC") sydd wedi'i ddiweddarau i esbonio sut caiff yr ymgynghoriad Cam Tri hwn ei gynnal mewn perthynas â Phrosiect Wylfa Newydd.
- Dyma'r dogfennau sy'n sail i'r ymgynghoriad cyn ymgeisio Cam Tri:
 - Dogfen Trosolwg o'r Ymgynghoriad (ar gael yn Gymraeg a Saesneg)
 - Y Brif Ddogfen Ymgynghori
- Bydd copïau cyfeirio o'r dogfennau Cam Tri hyn sy'n dangos natur a lleoliad Prosiect Wylfa Newydd ar gael i'w gweld yn rhad ac am ddim rhwng 24 Mai a 22 Mehefin 2017 yn y llyfrgelloedd a restrir gyferbyn. Mae cyfleusterau copïo ar gael yn y llyfrgelloedd hyn am 15c (A4) a 30c (A3) yn Ynys Môn, 20c (A4) a £1 (A3) yng Ngwynedd, a 60c (A4) a £1 (A3) yng Nghonwy.
- Bydd copïau am ddim o'r Ddogfen Trosolwg o'r Ymgynghoriad a'r Brif Ddogfen Ymgynghori ar gael hefyd yn yr arddangosfeydd a restrir isod neu gallwch wneud cais amdanynt (manylion cyswllt isod).
- Bydd copïau o holl ddogfennau ymgynghori Cam Tri a holl ddogfennau'r ymgynghoriadau blaenorol ar gael i'w gweld a'u llwytho i lawr oddi ar www.horizonnuclearpower.com/ymgyngghoriad a gellir gofyn amdanynt hefyd ar ddyfais storio digidol yn rhad ac am ddim. Gallwch hefyd wneud cais rhesymol am gopïau papur o holl gynlluniau a dogfennau ymgynghori Cam Tri.
- Fel rhan o'n hymgyngghoriad â'r gymuned, cynhelir digwyddiadau rhwng 27 Mai a 20 Mehefin 2017 yn: Amlwch, Bangor, Biwmares, Caernarfon, Caergybi, Cemaes, Conwy, y Fali, Llanfachraeth, Llanfaethlu, Llangefni, Porthaethwy, Rhosybol a Thregele. Hysbysebir y digwyddiadau'n eang, a cheir rhagor o fanylion ar ein gwefan (mae'r manylion ar gael isod).
- Cewch gyflwyno sylwadau yn ystod y cyfnod ymgynghori o 28 diwrnod, hyd at 22 Mehefin 2017, a hynny mewn nifer o ffyrdd:
 - Llenwi ffurflen adborth wedi'i hargraffu; gellir cyflwyno hon yn un o'n digwyddiadau, neu drwy ei phostio i'n cyfeiriad rhadbost. **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
 - Llenwi ffurflen adborth ar-lein yn www.horizonnuclearpower.com/ymgyngghoriad
 - Anfon neges e-bost at ymholiadauwylfa@horizonnuclearpower
 - Ysgrifennu atom yn ein cyfeiriad rhadbost
- Dylech gyflwyno eich sylwadau inni erbyn **22 Mehefin 2017** fan bellaf. Mae'r Ymgeisydd yn gofyn i unrhyw ymateb gynnwys enw'r sawl sy'n rhoi'r ymateb ynghyd â chyfeiriad a chod post er mwyn gallu anfon unrhyw ohebiaeth ynglŷn â'r ymateb.
- Bydd gwybodaeth bersonol sy'n cael ei rhoi i Horizon mewn ymateb i Gam Tri yr ymgynghoriad yn cael ei phrosesu'n gwbl gyfrinachol yn unol â Deddf Diogelu Data 1998.

Horizon Nuclear Power – Public Notice

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY

SECTION 48, PLANNING ACT 2008 – REGULATION 4 INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

PROPOSED APPLICATION FOR DEVELOPMENT CONSENT FOR THE WYLFA NEWYDD PROJECT

Please send any comments in response to this notice by 22 June 2017.

1. Notice is hereby given that Horizon Nuclear Power Wylfa Limited (the "Applicant") of Sunrise House 1420 Charlton Court, Gloucester Business Park, Gloucester, GL3 4AE proposes to apply to the Secretary of State under s37 of the Planning Act 2008 for an order granting development consent ("DCO") for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey ("Wylfa Newydd Project").
2. The Applicant is part of the Horizon Nuclear Power Limited group of companies and is wholly owned by Hitachi, Limited, the headquarters of which is in Tokyo, Japan.
3. The application for the Wylfa Newydd Project is anticipated to be submitted in the third quarter of 2017.
4. The Wylfa Newydd Project is a Nationally Significant Infrastructure Project for the purposes of the Planning Act 2008 and requires development consent under that Act. Horizon proposes to apply for a DCO for the Wylfa Newydd Project which would include the following principal elements:
 - (a) *Development on the main power station site including:*
 - (i) Two UK Advanced Boiling Water Reactors (UK ABWR) with a combined electrical output of approximately 2,700MWe and related plant located on the north coast of Anglesey to the west of Cemaes.
 - (ii) Reactor, control, service and turbine buildings and other supporting facilities, buildings, structures, features and works which are integral to the generating station including:
 - (A) Radioactive waste and spent fuel storage buildings
 - (B) Electrical connection to National Grid substation
 - (C) Marine works comprising a cooling water system, marine off-loading facility, breakwater structures, and navigational lighting and safety systems
 - (D) Administration building and training and simulator building
 - (E) Landscape works and planting including drainage, foul drainage and surface water management systems and footpath works
 - (F) Public Access works including closure and diversion of public rights of way
 - (G) A power station access road and internal site roads
 - (H) Car parking
 - (I) Construction sites, laydown areas, working areas, temporary works and structures, and temporary construction viewing area
 - (J) Diversion of utilities
 - (K) Main perimeter fence and construction fence
 - (b) *Off-site Power Station Facilities co-located on land in Llanfaethlu including:*
 - (i) An alternative emergency control centre
 - (ii) An environmental survey laboratory
 - (iii) A mobile emergency equipment garage
 - (c) *Associated Development including:*
 - (i) The Site Campus, being a temporary workers' accommodation campus located on the Wylfa Newydd Development Area
 - (ii) A logistics centre on land at Parc Cybi
 - (iii) A park and ride facility for construction workers on land at Dalar Hir
 - (iv) Offline highways improvements to the A5025 at Valley junction, Llanfachraeth, Llanfaethlu, Cefn Coch and the power station access
 - (d) *Other works including works to facilitate the construction of the elements described above*
5. Horizon also intends to bring forward applications for planning permission under the Town and Country Planning Act 1990 for works which support, but which will not form part of, the DCO application. These include applications for:
 - (a) Site Preparation and Clearance works
 - (b) Online highways improvements on the A5025
 - (c) A visitor and media reception centre
 - (d) Other related and enabling works as needed to support delivery of the Project
6. The proposed DCO will also seek various other powers including provisions permitting the compulsory acquisition of interests and rights in land, the temporary use of land, interference with rights and the closure or diversion of streets and other public rights of way including the permanent closure of Cemlyn Road.
7. The proposed development is "EIA development" for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. An environmental impact assessment is being carried out and an environmental statement will be submitted with the proposed application. The environmental statement will provide a detailed description of the Project and its likely significant environmental effects.
8. In accordance with Regulation 10 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 the Applicant has previously made Preliminary Environmental Information (PEI) available together with a non-technical summary of that information (as part of its Stage One and Stage Two pre-application consultations). This PEI is supplemented by the updated environmental information presented in the Stage Three pre-application consultation documents.
9. An updated statement of community consultation ("SOCC") has been prepared explaining how this Stage Three pre-application consultation will be undertaken in respect of the Wylfa Newydd Project.
10. The documents which support this Stage Three pre-application consultation comprise:
 - (a) A Consultation Overview Document (available in English and Welsh)
 - (b) A Main Consultation Document
11. Reference copies of these Stage Three documents showing the nature and location of the Wylfa Newydd Project will be available for viewing free of charge between 24 May and 22 June 2017 at the library locations listed opposite. Copying facilities are available at these libraries at a cost of 15p (A4) and 30p (A3) in Anglesey, 20p (A4) and £1 (A3) in Gwynedd, and 60p (A4) and £1 (A3) in Conwy.
12. Free copies of the Consultation Overview Document and the Main Consultation Document will also be available from the exhibition events listed below or on request (contact details below).
13. Copies of all Stage Three consultation documents and all previous consultation documents will be available to view and to download from www.horizonnuclearpower.com/consultation and will also be made available on request on a digital storage device at no charge. Printed copies of all Stage Three consultation documents and plans are available upon reasonable request.
14. As part of our community consultation, events are taking place between 27 May and 20 June 2017 at: Amlwch, Bangor, Beaumaris, Caernarfon, Cemaes, Conwy, Holyhead; Llanfachraeth, Llanfaethlu, Llangefni, Menai Bridge, Rhosybol, Tregele and Valley. These events are being widely advertised and further details are available from our website (details below).
15. You will be able to submit comments during the 28 day consultation period, up until 22 June 2017, in a number of ways:
 - (a) Completing a printed feedback form; this can be submitted at one of our exhibitions or by posting to our Freepost address: **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
 - (b) Completing an online feedback form at www.horizonnuclearpower.com/consultation
 - (c) Emailing us at wylfaenquiries@horizonnuclearpower.com
 - (d) Writing to us at our freepost address
16. Your comments should be submitted to us no later than **22 June 2017**. The Applicant requests that any response made indicates who is making the response and includes an address and post code to which any correspondence relating to it may be sent.
17. Personal information that is supplied to Horizon in response to this Stage Three consultation will be processed in strict accordance with the Data Protection Act 1998.

PUBLIC NOTICES

Horizon Nuclear Power

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY SECTION 48, PLANNING ACT 2008 – REGULATION 4 INFRASTRUCTURE PLANNING

Please send any comments in response to this notice by 22 June 2017.

1. Notice is hereby given that Horizon Nuclear Power Wylfa Limited (the "Applicant") of Sunrise House 1420 Charlton Court, Gloucester Business Park, Gloucester, GL3 4AE proposes to apply to the Secretary of State under s37 of the Planning Act 2008 for an order granting development consent ("DCO") for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey ("Wylfa Newydd Project").

2. The Applicant is part of the Horizon Nuclear Power Limited group of companies and is wholly owned by Hitachi, Limited, the headquarters of which is in Tokyo, Japan.

3. The application for the Wylfa Newydd Project is anticipated to be submitted in the third quarter of 2017.

4. The Wylfa Newydd Project is a Nationally Significant Infrastructure Project for the purposes of the Planning Act 2008 and requires development consent under that Act. Horizon proposes to apply for a DCO for the Wylfa Newydd Project which would include the following principal elements:

(a) Development on the main power station site including:

(i) Two UK Advanced Boiling Water Reactors (UK ABWR) with a combined electrical output of approximately 2,700MWe and related plant located on the north coast of Anglesey to the west of Cemaes.

(ii) Reactor, control, service and turbine buildings and other supporting facilities, buildings, structures, features and works which are integral to the generating station including:

(A) Radioactive waste and spent fuel storage buildings

(B) Electrical connection to National Grid substation

(C) Marine works comprising a cooling water system, marine off-loading facility,

breakwater structures, and navigational lighting and safety systems

(D) Administration building and training and simulator building

(E) Landscape works and planting including drainage, foul drainage and surface water management systems and footpath works

(F) Public Access works including closure and diversion of public rights of way

(G) A power station access road and internal site roads

(H) Car parking

(I) Construction sites, laydown areas, working areas, temporary works and structures, and temporary construction viewing area

(J) Diversion of utilities

(K) Main perimeter fence and construction fence

(b) Off-site Power Station Facilities co-located on land in Llanfaethlu including:

(i) An alternative emergency control centre

(ii) An environmental survey laboratory

(iii) A mobile emergency equipment garage

(c) Associated Development including:

(i) The Site Campus, being a temporary workers' accommodation campus located on the Wylfa Newydd Development Area

(ii) A logistics centre on land at Parc Cybi

(iii) A park and ride facility for construction workers on land at Dalar Hir

(iv) Offline highways improvements to the A5025 at Valley junction, Llanfachraeth, Llanfaethlu, Cefn Coch and the power station access

(d) Other works including works to facilitate the construction of the elements described above.

5. Horizon also intends to bring forward applications for planning permission under to the Town and Country Planning Act 1990 for works which support, but which will not form part of, the DCO application. These include applications for:

(a) Site Preparation and Clearance works

(b) Online highways improvements on the A5025

(c) A visitor and media reception centre

(d) Other related and enabling works as needed to support delivery of the Project

6. The proposed DCO will also seek various other powers including provisions permitting the compulsory acquisition of interests and rights in land, the temporary use of land, interference with rights and the closure or diversion of streets and other public rights of way including the permanent closure of Cemlyn Road.

7. The proposed development is "EIA development" for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. An environmental impact assessment is being carried out and an environmental statement will be submitted with the proposed application. The environmental statement will provide a detailed description of the Project and its likely significant environmental effects.

8. In accordance with Regulation 10 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 the Applicant has previously made Preliminary Environmental Information (PEI) available together with a non-technical summary of that information (as part of its Stage One and Stage Two pre-application consultations). This PEI is supplemented by the updated environmental information presented in the Stage Three pre-application consultation documents.

9. An updated statement of community consultation ("SOCC") has been prepared explaining how this Stage Three pre-application consultation will be undertaken in respect of the Wylfa Newydd Project.

10. The documents which support this Stage Three pre-application consultation comprise:

(a) A Consultation Overview Document (available in English and Welsh)

(b) A Main Consultation Document

11. Reference copies of these Stage Three documents showing the nature and location of the Wylfa Newydd Project will be available for viewing free of charge between 24 May and 22 June 2017 at the library locations listed below. Copying facilities are available at these libraries at a cost of 15p (A4) and 30p (A3) in Anglesey, 20p (A4) and £1 (A3) in Gwynedd, and 60p (A4) and £1 (A3) in Conwy.

Box shipping recovery relies on ordering restraint

Shipyard capacity is the elephant in the room, says MSI analyst James Frew.

Shipyard overcapacity remains a threat to stability, says James Frew

SHIPYARD capacity is the “elephant in the room” that threatens the recovery of both freight and charter rates unless yards consolidate and owners show restraint, according to MSI analyst James Frew, writes *James Baker*.

Speaking at the Global Liner Shipping conference in Hamburg, Mr Frew said that during the period from 1998 to 2010, freight and charter

rates had normally moved in the same direction.

This changed, however, after 2010 and the two markets became disconnected as the idle fleet either expanded or contracted.

“There was a new phenomenon of having a large number of containerships lying idle,” Mr Frew said. “Before 2010 there was no similar idle fleet.”

While some of the disruption to the connection between freight and charter rates could be attributed to trade growth, this had not always been the case, as in

2013-2014, when there was strong trade growth but a weak charter market.

Internal carrier dynamics also affected the pattern, which could be seen in the carriers holding off from chartering tonnage ahead of the alliance reshuffle, then rushing to secure ships, pushing prices up.

But shipyard capacity was the biggest threat to stability in both freight and charter rates, Mr Frew said.

“Shipyard capacity is the elephant in the room,” he said. “And like elephants, yards have long memories

Container shipping's Power List

Containerisation International's annual review of the movers and shakers in the sector sets out the case for the top 25 most influential people, families and companies in box shipping.

Horizon Nuclear Power – Public Notice

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY

SECTION 48, PLANNING ACT 2008 – REGULATION 4 INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

PROPOSED APPLICATION FOR DEVELOPMENT CONSENT FOR THE WYLFA NEWYDD PROJECT

Please send any comments in response to this notice by 22 June 2017.

1. Notice is hereby given that Horizon Nuclear Power Wylfa Limited (the "Applicant") of Sunrise House 1420 Charlton Court, Gloucester Business Park, Gloucester, GL3 4AE proposes to apply to the Secretary of State under s37 of the Planning Act 2008 for an order granting development consent ("DCO") for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey ("Wylfa Newydd Project").

2. The Applicant is part of the Horizon Nuclear Power Limited group of companies and is wholly owned by Hitachi, Limited, the headquarters of which is in Tokyo, Japan.

3. The application for the Wylfa Newydd Project is anticipated to be submitted in the third quarter of 2017.

4. The Wylfa Newydd Project is a Nationally Significant Infrastructure Project for the purposes of the Planning Act 2008 and requires development consent under that Act. Horizon proposes to apply for a DCO for the Wylfa Newydd Project which would include the following principal elements:

(a) Development on the main power station site including:

- (i) Two UK Advanced Boiling Water Reactors (UK ABWR) with a combined electrical output of approximately 2,700MWe and related plant located on the north coast of Anglesey to the west of Cemaes.
- (ii) Reactor, control, service and turbine buildings and other supporting facilities, buildings, structures, features and works which are integral to the generating station including:
 - (A) Radioactive waste and spent fuel storage buildings
 - (B) Electrical connection to National Grid substation
 - (C) Marine works comprising a cooling water system, marine off-loading facility, breakwater structures, and navigational lighting and safety systems
 - (D) Administration building and training and simulator building
 - (E) Landscape works and planting including drainage, foul drainage and surface water management systems and footpath works
 - (F) Public Access works including closure and diversion of public rights of way
 - (G) A power station access road and internal site roads
 - (H) Car parking
 - (I) Construction sites, laydown areas, working areas, temporary works and structures, and temporary construction viewing area
 - (J) Diversion of utilities
 - (K) Main perimeter fence and construction fence

(b) Off-site Power Station Facilities co-located on land in Llanfaethlu including:

- (i) An alternative emergency control centre
- (ii) An environmental survey laboratory
- (iii) A mobile emergency equipment garage

(c) Associated Development including:

- (i) The Site Campus, being a temporary workers' accommodation campus located on the Wylfa Newydd Development Area
- (ii) A logistics centre on land at Parc Cybi
- (iii) A park and ride facility for construction workers on land at Dalar Hir
- (iv) Offline highways improvements to the A5025 at Valley junction, Llanfachraeth, Llanfaethlu, Cefn Coch and the power station access

(d) Other works including works to facilitate the construction of the elements described above.

5. Horizon also intends to bring forward applications for planning permission under the Town and Country Planning Act 1990 for works which support, but which will not form part of, the DCO application. These include applications for:

- (a) Site Preparation and Clearance works
- (b) Online highways improvements on the A5025
- (c) A visitor and media reception centre
- (d) Other related and enabling works as needed to support delivery of the Project

6. The proposed DCO will also seek various other powers including provisions permitting the compulsory acquisition of interests and rights in land, the temporary use of land, interference with rights and the closure or diversion of streets and other public rights of way including the permanent closure of Cemlyn Road.

7. The proposed development is "EIA development" for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. An environmental impact assessment is being carried out and an environmental statement will be submitted with the proposed application. The environmental statement will provide a detailed description of the Project and its likely significant environmental effects.

8. In accordance with Regulation 10 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 the Applicant has previously made Preliminary Environmental Information (PEI) available together with a non-technical summary of that information (as part of its Stage One and Stage Two pre-application consultations). This PEI is supplemented by the updated environmental information presented in the Stage Three pre-application consultation documents.

9. An updated statement of community consultation ("SOCC") has been prepared explaining how this Stage Three pre-application consultation will be undertaken in respect of the Wylfa Newydd Project.

10. The documents which support this Stage Three pre-application consultation comprise:

- (a) A Consultation Overview Document (available in English and Welsh)
- (b) A Main Consultation Document

11. Reference copies of these Stage Three documents showing the nature and location of the Wylfa Newydd Project will be available for viewing free of charge between 24 May and 22 June 2017 at the library locations listed below. Copying facilities are available at these libraries at a cost of 15p (A4) and 30p (A3) in Anglesey, 20p (A4) and £1 (A3) in Gwynedd, and 60p (A4) and £1 (A3) in Conwy.

Horizon Nuclear Power – Public Notice

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY
SECTION 48, PLANNING ACT 2008 – REGULATION 4 INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009
PROPOSED APPLICATION FOR DEVELOPMENT CONSENT FOR THE WYLFA NEWYDD PROJECT

Please send any comments in response to this notice by 22 June 2017.

- Notice is hereby given that Horizon Nuclear Power Wylfa Limited (the "Applicant") of Sunrise House 1420 Charlton Court, Gloucester Business Park, Gloucester, GL3 4AE proposes to apply to the Secretary of State under s37 of the Planning Act 2008 for an order granting development consent ("DCO") for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey ("Wylfa Newydd Project").
- The Applicant is part of the Horizon Nuclear Power Limited group of companies and is wholly owned by Hitachi, Limited, the headquarters of which is in Tokyo, Japan.
- The application for the Wylfa Newydd Project is anticipated to be submitted in the third quarter of 2017.
- The Wylfa Newydd Project is a Nationally Significant Infrastructure Project for the purposes of the Planning Act 2008 and requires development consent under that Act. Horizon proposes to apply for a DCO for the Wylfa Newydd Project which would include the following principal elements:
 - Development on the main power station site including:
 - Two UK Advanced Boiling Water Reactors (UK ABWR) with a combined electrical output of approximately 2,700MWe and related plant located on the north coast of Anglesey to the west of Cemaes.
 - Reactor, control, service and turbine buildings and other supporting facilities, buildings, structures, features and works which are integral to the generating station including:
 - Radioactive waste and spent fuel storage buildings
 - Electrical connection to National Grid substation
 - Marine works comprising a cooling water system, marine off-loading facility, breakwater structures, and navigational lighting and safety systems
 - Administration building and training and simulator building
 - Landscape works and planting including drainage, foul drainage and surface water management systems and footpath works
 - Public Access works including closure and diversion of public rights of way
 - A power station access road and internal site roads
 - Car parking
 - Construction sites, laydown areas, working areas, temporary works and structures, and temporary construction viewing area
 - Diversion of utilities
 - Main perimeter fence and construction fence
 - Off-site Power Station Facilities co-located on land in Llanfaethlu including:
 - An alternative emergency control centre
 - An environmental survey laboratory
 - A mobile emergency equipment garage
 - Associated Development including:
 - The Site Campus, being a temporary workers' accommodation campus located on the Wylfa Newydd Development Area
 - A logistics centre on land at Parc Cybi
 - A park and ride facility for construction workers on land at Dalar Hir
 - Offline highways improvements to the A5025 at Valley junction, Llanfachraeth, Llanfaethlu, Cefn Coch and the power station access
 - Other works including works to facilitate the construction of the elements described above
- Horizon also intends to bring forward applications for planning permission under the Town and Country Planning Act 1990 for works which support, but which will not form part of, the DCO application. These include applications for:
 - Site Preparation and Clearance works
 - Online highways improvements on the A5025
 - A visitor and media reception centre
 - Other related and enabling works as needed to support delivery of the Project
- The proposed DCO will also seek various other powers including provisions permitting the compulsory acquisition of interests and rights in land, the temporary use of land, interference with rights and the closure or diversion of streets and other public rights of way including the permanent closure of Cemlyn Road.
- The proposed development is "EIA development" for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. An environmental impact assessment is being carried out and an environmental statement will be submitted with the proposed application. The environmental statement will provide a detailed description of the Project and its likely significant environmental effects.
- In accordance with Regulation 10 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 the Applicant has previously made Preliminary Environmental Information (PEI) available together with a non-technical summary of that information (as part of its Stage One and Stage Two pre-application consultations). This PEI is supplemented by the updated environmental information presented in the Stage Three pre-application consultation documents.
- An updated statement of community consultation ("SOCC") has been prepared explaining how this Stage Three pre-application consultation will be undertaken in respect of the Wylfa Newydd Project.
- The documents which support this Stage Three pre-application consultation comprise:
 - A Consultation Overview Document (available in English and Welsh)
 - A Main Consultation Document
- Reference copies of these Stage Three documents showing the nature and location of the Wylfa Newydd Project will be available for viewing free of charge between 24 May and 22 June 2017 at the library locations listed below. Copying facilities are available at these libraries at a cost of 15p (A4) and 30p (A3) in Anglesey, 20p (A4) and £1 (A3) in Gwynedd, and 60p (A4) and £1 (A3) in Conwy.
- Free copies of the Consultation Overview Document and the Main Consultation Document will also be available from the exhibition events listed below or on request (contact details below).
- Copies of all Stage Three consultation documents and all previous consultation documents will be available to view and to download from www.horizonnuclearpower.com/consultation and will also be made available on request on a digital storage device at no charge. Printed copies of all Stage Three consultation documents and plans are available upon reasonable request.
- As part of our community consultation, events are taking place between 27 May and 20 June 2017 at: Amlwch, Bangor, Beaumaris, Caernarfon, Cemaes, Conwy, Holyhead, Llanfachraeth, Llanfaethlu, Llangefni, Menai Bridge, Rhosybol, Tregle and Valley. These events are being widely advertised and further details are available from our website (details below).
- You will be able to submit comments during the 28 day consultation period, up until 22 June 2017, in a number of ways:
 - Completing a printed feedback form; this can be submitted at one of our events or by posting to our Freepost address: **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**

Appendix C.7- The London Gazette 19/05/2017 - 21/05/17

midnight on 16 June 2017. Any person submitting any correspondence is advised that your personal data and correspondence will be passed to the applicant/agent to be considered. If you do not wish your personal data to be forwarded, please state your reasons when submitting your correspondence.
S Zamenzadeh, Casework Manager (2787289)

DEPARTMENT FOR TRANSPORT TOWN AND COUNTRY PLANNING ACT 1990

The Secretary of State gives notice of the proposal to make an Order under section 247 of the above Act to authorise the stopping up of two northern part widths of Rowden Drive, an area of footpath to the north of Rowden Drive, an area of footway to the north and north west of Banners Grove at Erdington in the City of Birmingham.

If made, the Order would authorise the stopping up only to enable development as permitted by Birmingham City Council, under references 2010/04319/PA, 2012/07153/PA and 2012/07153/PA.

Copies of the draft Order and relevant plan will be available for inspection during normal opening hours at Erdington Library, Orphanage Road, Birmingham B24 9HP in the 28 days commencing on 19 May 2017, and may be obtained, free of charge, from the address stated below (quoting NATTRAN/WM/S247/2813).

Any person may object to the making of the proposed order by stating their reasons in writing to the Secretary of State at nationalcasework@dtf.gsi.gov.uk or National Transport Casework Team, Tyneside House, Skinnerburn Road, Newcastle upon Tyne NE4 7AR, quoting the above reference. Objections should be received by midnight on 16 June 2017. Any person submitting any correspondence is advised that your personal data and correspondence will be passed to the applicant/agent to be considered. If you do not wish your personal data to be forwarded, please state your reasons when submitting your correspondence.

G Patrick, Casework Manager (2787290)

HORIZON NUCLEAR POWER WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY SECTION 48, PLANNING ACT 2008 – REGULATION 4 INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 PROPOSED APPLICATION FOR DEVELOPMENT CONSENT FOR THE WYLFA NEWYDD PROJECT

Please send any comments in response to this notice by 22 June 2017.

1. Notice is hereby given that Horizon Nuclear Power Wylfa Limited (the "Applicant") of Sunrise House 1420 Charlton Court, Gloucester Business Park, Gloucester, GL3 4AE proposes to apply to the Secretary of State under s37 of the Planning Act 2008 for an order granting development consent ("DCO") for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey ("Wylfa Newydd Project").

2. The Applicant is part of the Horizon Nuclear Power Limited group of companies and is wholly owned by Hitachi, Limited, the headquarters of which is in Tokyo, Japan.

3. The application for the Wylfa Newydd Project is anticipated to be submitted in the third quarter of 2017.

4. The Wylfa Newydd Project is a Nationally Significant Infrastructure Project for the purposes of the Planning Act 2008 and requires development consent under that Act. Horizon proposes to apply for a DCO for the Wylfa Newydd Project which would include the following principal elements:

- (a) Development on the main power station site including:
 - (i) Two UK Advanced Boiling Water Reactors (UK ABWR) with a combined electrical output of approximately 2,700MWe and related plant located on the north coast of Anglesey to the west of Cemaes.
 - (ii) Reactor, control, service and turbine buildings and other supporting facilities, buildings, structures, features and works which are integral to the generating station including:
 - (A) Radioactive waste and spent fuel storage buildings
 - (B) Electrical connection to National Grid substation
 - (C) Marine works comprising a cooling water system, marine off-loading facility, breakwater structures, and navigational lighting and safety systems
- (D) Administration building and training and simulator building

- (E) Landscape works and planting including drainage, foul drainage and surface water management systems and footpath works
- (F) Public Access works including closure and diversion of public rights of way

- (G) A power station access road and internal site roads
- (H) Car parking

- (I) Construction sites, laydown areas, working areas, temporary works and structures, and temporary construction viewing area
- (J) Diversion of utilities

- (K) Main perimeter fence and construction fence
- (b) Off-site Power Station Facilities co-located on land in Llanfaethlu including:

- (i) An alternative emergency control centre
- (ii) An environmental survey laboratory
- (iii) A mobile emergency equipment garage

- (c) Associated Development including:
 - (i) The Site Campus, being a temporary workers' accommodation campus located on the Wylfa Newydd Development Area
 - (ii) A logistics centre on land at Parc Cybi
 - (iii) A park and ride facility for construction workers on land at Dalar Hir

- (iv) Offline highways improvements to the A5025 at Valley junction, Llanfachraeth, Llanfaethlu, Cefn Coch and the power station access
- (d) Other works including works to facilitate the construction of the elements described above.

- 5. Horizon also intends to bring forward applications for planning permission under to the Town and Country Planning Act 1990 for works which support, but which will not form part of, the DCO application. These include applications for:

- (a) Site Preparation and Clearance works
- (b) Online highways improvements on the A5025
- (c) A visitor and media reception centre
- (d) Other related and enabling works as needed to support delivery of the Project

- 6. The proposed DCO will also seek various other powers including provisions permitting the compulsory acquisition of interests and rights in land, the temporary use of land, interference with rights and the closure or diversion of streets and other public rights of way including the permanent closure of Cemlyn Road.

- 7. The proposed development is "EIA development" for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. An environmental impact assessment is being carried out and an environmental statement will be submitted with the proposed application. The environmental statement will provide a detailed description of the Project and its likely significant environmental effects.

- 8. In accordance with Regulation 10 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 the Applicant has previously made Preliminary Environmental Information (PEI) available together with a non-technical summary of that information (as part of its Stage One and Stage Two pre-application consultations). This PEI is supplemented by the updated environmental information presented in the Stage Three pre-application consultation documents.

- 9. An updated statement of community consultation ("SOCC") has been prepared explaining how this Stage Three pre-application consultation will be undertaken in respect of the Wylfa Newydd Project.

- 10. The documents which support this Stage Three pre-application consultation comprise:

- (a) A Consultation Overview Document (available in English and Welsh)
- (b) A Main Consultation Document

- 11. Reference copies of these Stage Three documents showing the nature and location of the Wylfa Newydd Project will be available for viewing free of charge between 24 May and 22 June 2017 at the library locations listed below. Copying facilities are available at these libraries at a cost of 15p (A4) and 30p (A3) in Anglesey, 20p (A4) and £1 (A3) in Gwynedd, and 60p (A4) and £1 (A3) in Conwy.

12. Free copies of the Consultation Overview Document and the Main Consultation Document will also be available from the exhibition events listed below or on request (contact details below).

13. Copies of all Stage Three consultation documents and all previous consultation documents will be available to view and to download from www.horizonnuclearpower.com/consultation and will also be made available on request on a digital storage device at no charge. Printed copies of all Stage Three consultation documents and plans are available upon reasonable request.

14. As part of our community consultation, events are taking place between 27 May and 20 June 2017 at: Amlwch, Bangor, Beaumaris, Caernarfon, Cemaes, Conwy, Holyhead; Llanfachraeth, Llanfaethlu, Llangefni, Menai Bridge, Rhosybol, Tregele and Valley. These events are being widely advertised and further details are available from our website (details below).

15. You will be able to submit comments during the 28 day consultation period, up until 22 June 2017, in a number of ways:

(a) Completing a printed feedback form; this can be submitted at one of our events, or by posting to our Freepost address: **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**

(b) Completing an online feedback form at www.horizonnuclearpower.com/consultation

(c) Emailing us at wylfaenquiries@horizonnuclearpower.com

(d) Writing to us at our Freepost address

16. Your comments should be submitted to us no later than 22 June 2017. The Applicant requests that any response made indicates who is making the response and includes an address and post code to which any correspondence relating to it may be sent.

17. Personal information that is supplied to Horizon in response to this Stage Three consultation will be processed in strict accordance with the Data Protection Act 1998.

You can contact Horizon at any time.

ROAD RESTRICTIONS

City of Westminster

BLenheim TERRACE

THE CITY OF WESTMINSTER (PARKING PLACES) (C ZONE) (AMENDMENT NO. *) ORDER 201*

1. NOTICE IS HEREBY GIVEN that Westminster City Council proposes to make the above Order under sections 45, 46, 49 and 124 of and Part IV of Schedule 9 to the Road Traffic Regulation Act 1984 as amended.

2. The general effect of the Order would be, in connection with the redevelopment of Nos. 15 to 19 Blenheim Terrace, to:

(a) replace a residents' parking space on the south-east side of Blenheim Terrace, adjacent to Nos. 15 to 19, with 7 metres of single yellow line waiting restrictions (operating between 8.30 a.m. and 6.30 p.m. on Mondays to Fridays); and

(b) relocate the residents' parking space referred to in (a) above to the north-west side of Blenheim Terrace, adjacent to Pizza Express, No. 39 Abbey Road, to replace 5 metres of single yellow line waiting restrictions.

3. The proposed Order and other documents giving more detailed particulars of the Order are available for inspection until six weeks have elapsed from the date on which either the Order is made or the Council decides not to make the Order between 9 a.m. and 5 p.m. on Mondays to Fridays inclusive at WSP, Palace Gardens Suite, 27th Floor, Portland House, Bressenden Place, London, SW1E 5RS.

4. Further information may be obtained by telephoning the Council's agents, WSP, telephone number (020) 3116 5996. Details are also available at <http://westminstertransportationservices.co.uk/notices>.

5. **Any objections or other representations about the proposals should be sent in writing to the Council's agents, WSP, Palace Gardens Suite, 27th Floor, Portland House, Bressenden Place, London, SW1E 5RS, or by email at tmo.westminster@wspgroup.com quoting reference 7293/LH, by 12th June 2017. All objections must specify the grounds on which they are made.**

JONATHAN ROWING, Head of Road Management (The officer appointed for this purpose)

Dated 19th May 2017.

(2787296)

City of Westminster

LODGE ROAD

1. NOTICE IS HEREBY GIVEN that Westminster City Council proposes to make the following Orders under sections 6, 45, 46, 49 and 124 of and Part IV of Schedule 9 to the Road Traffic Regulation Act 1984, as amended:

- The City of Westminster (Free Parking Places) (Disabled Permit Parking Places) (Amendment No. *) Order 201*;
- The City of Westminster (Motorcycle Parking Places) (Amendment No. *) Order 201*;
- The City of Westminster (Parking Places) (B Zone) (Amendment No. *) Order 201*;
- The City of Westminster (Waiting and Loading Restriction) (Amendment No. *) Order 201*;

2. The general effect of the Orders would be, in connection with the introduction of a local safety scheme, to revise parking and waiting restrictions, as follows:

(a) to relocate the shared-use parking space (15 metres) on the north-west side of Lodge Road, adjacent to the Church of Our Lady, 15 metres north-eastward (to be replaced with double yellow line "at any time" waiting restrictions);

(b) to replace the existing motorcycle parking place (3 metres) and the redundant disabled "white badge" parking bay (5 metres) on the north-west side of Lodge Road, outside No. 52, with shared-use parking;

Dear Sir/Madam,

**Wylfa Newydd - Stage Three consultation Section 48 notice; Infrastructure Planning
(Environmental Impact Assessment) Regulations 2009, Regulation 11**

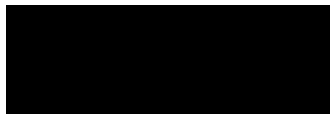

We're contacting you in your capacity as an Environmental Impact Assessment (EIA) consultation body, for the purposes of complying with the above-mentioned Regulation. The enclosed notice concerns the Wylfa Newydd Project, a proposed new nuclear power station on Anglesey.

You're invited to comment on the proposals described in the notice in the statutory 28 day consultation period, which ends on **22nd August 2017**. Information about how to respond and gain access to consultation material is contained in the notice.

If you would like to discuss our Project in more detail, please contact us via email at wylfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516.

We look forward to receiving your feedback on the Wylfa Newydd Project.

Yours sincerely,

Richard Foxhall
Stakeholder Relations Manager
Horizon Nuclear Power

Annwyl Syr/Fadam,

**Wylfa Newydd - Ymgynghoriad Cam Tri - Hysbysiad Adran 48; Rheoliadau Cynllunio Seilwaith
(Asesiad o'r Effaith Amgylcheddol) 2009, Rheoliad 11**

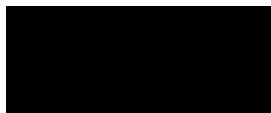

Rydyn ni'n cysylltu â chi yn rhinwedd eich capasiti fel corff ymgynghori Asesiad o'r Effaith Amgylcheddol, er mwyn cydymffurfio â'r Rheoliad a nodir uchod. Mae'r hysbysiad amgaeedig yn ymwneud â Phrosiect Wylfa Newydd, gorsaf bŵer niwclear newydd a gynigir ar Ynys Môn

Fe'ch gwahoddir i gyflwyno sylwadau ynghylch y cynigion sy'n cael eu disgrifio yn yr hysbysiad yn y cyfnod ymgynghori 28 diwrnod statudol, a ddaw i ben ar **22ain Awst 2017**. Mae gwybodaeth am sut mae ymateb a chael gafael ar ddeunyddiau'r ymgynghoriad ar gael yn yr hysbysiad.

Os hoffech chi drafod ein Prosiect yn fanylach, cysylltwch â ni drwy anfon e-bost at ymholiadauwylfa@horizonnuclearpower.com neu drwy ffonio 0800 954 9516.

Edrychwn ymlaen at gael eich adborth ar Brosiect Wylfa Newydd.

Yn gywir,

Richard Foxhall
Rheolwr Cysylltiadau Rhanddeiliaid
Pŵer Niwclear Horizon

DCRM Ref. No: WN0902-HZCON-PAC-LET-00017

Dear Sir/Madam,

**Wylfa Newydd - Stage Three consultation Section 48 notice; Infrastructure Planning
(Environmental Impact Assessment) Regulations 2009, Regulation 11**

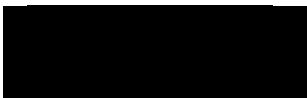

We previously wrote to you on 1st June 2017 enclosing a notice under section 48 of the Planning Act, pursuant to the above-mentioned Regulation. However, it has come to our attention that we did not provide you with the statutory 28 day period in which to respond to the information contained in the notice, as required by section 45 of the Planning Act 2008.

We are therefore providing you with a further opportunity to respond to the section 48 notice and have provided you with the requisite 28 day period in which to respond. The deadline for responding is **22nd August 2017**, as set out in the notice. The notice also contains information about how to respond.

If you have already responded to our consultation then that response will remain valid and will be considered as part of the Stage Three consultation.

If you would like to discuss our Project in more detail, please contact us via email at wylfaenquiries@horizonnuclearpower.com or by calling 0800 954 9516.

Yours sincerely,

Richard Foxhall

Annwyl Syr/Fadam,

Wylfa Newydd - Ymgynghoriad Cam Tri - Hysbysiad Adran 48; Rheoliadau Cynllunio Seilwaith (Asesiad o'r Effaith Amgylcheddol) 2009, Rheoliad 11

Roedden ni wedi ysgrifennu atoch chi ar 1af Mehefin 2017 gan amgáu hysbysiad o dan adran 48 o'r Ddeddf Cynllunio, yn unol â'r Rheoliad a nodir uchod. Fodd bynnag, rydym wedi cael ar ddeall nad oeddem wedi rhoi'r cyfnod statudol o 28 diwrnod i chi er mwyn i chi ymateb i'r wybodaeth a oedd yn yr hysbysiad, fel sy'n ofynnol gan adran 45 o Ddeddf Cynllunio 2008.

Rydym felly'n rhoi cyfle arall i chi ymateb i'r hysbysiad adran 48 ac rydym wedi darparu'r cyfnod gofynnol o 28 diwrnod er mwyn i chi gael ymateb. Y dyddiad cau ar gyfer ymateb ydy **22ain Awst 2017**, fel y nodir yn yr hysbysiad. Mae'r hysbysiad hefyd yn cynnwys gwybodaeth am sut mae ymateb.

Os ydych chi eisoes wedi ymateb i'n hymgynghoriad, bydd yr ymateb hwnnw'n dal yn ddilys a bydd yn cael ei ystyried fel rhan o'r ymgynghoriad Cam Tri.

Os hoffech chi drafod ein Prosiect yn fanylach, cysylltwch â ni drwy anfon e-bost at ymholiadauwylfa@horizonnuclearpower.com neu drwy ffonio 0800 954 9516.

Yn gywir,

Richard Foxhall

Pŵer Niwclear Horizon – Hysbysiad Cyhoeddus

WYLFFA NEWYDD – GORSAF BŴER NIWCLEAR NEWYDD AR YNYS MÔN

ADran 48, DEDDF CYNLLUNIO 2008 – RHEOLIAD 4 RHEOLIADAU CYNLLUNIO SEILWAITH
(CEISIADAU: FFURFLENNI A GWEITHDREFNAU RHAGNODEDIG) 2009

CAIS ARFAETHEDIG AM GYDSYNIAD DATBLYGU AR GYFER PROSIECT WYLFFA NEWYDD

Anfonwch unrhyw sylwadau i ymateb i'r hysbysiad hwn erbyn 22 Awst 2017.

1. Rhoddir hysbysiad drwy hyn fod Horizon Nuclear Power Limited (yr "Ymgeisydd") o Sunrise House 1420 Charlton Court, Gloucester Business Park, Caerloyw / Gloucester, GL3 4AE yn bwriadu gwneud cais i'r Ysgrifennydd Gwladol dan adran 37 o Ddeddf Gynllunio 2008 am orchymyn cydsyniad datblygu ("DCO") ar gyfer adeiladu, gweithredu a chynnal a chadw gorsaf bŵer niwclear newydd a datblygiadau eraill yn Wylfa, Ynys Môn ("Prosiect Wylfa Newydd").
 2. Mae'r Ymgeisydd yn rhan o grŵp o gwmnïau Horizon Nuclear Power Limited, ac mae dan berchnogaeth lwy'r Hitachi, Limited, sydd â'i bencadlys yn Tokyo, Japan.
 3. Disgwylir i'r cais am Brosiect Wylfa Newydd gael ei gyflwyno yn nhrydydd chwarter 2017.
 4. Mae Prosiect Wylfa Newydd yn Brosiect Seilwaith o Arwyddocâd Cenedlaethol at ddibenion Deddf Cynllunio 2008, ac mae angen cydsyniad datblygu o dan y Ddeddf honno. Mae Horizon yn bwriadu gwneud cais am DCO ar gyfer Prosiect Wylfa Newydd a fyddai'n cynnwys y prif elfennau canlynol:
 - (a) *Development on the main power station site including:*
 - (i) Dau Adweithydd Dŵr Berwedig Uwch y Deyrnas Unedig (UK ABWR) gydag allbwn trydanol cyfun sydd tua 2,700MW ac offer cysylltiol ar arfordir gogleddol Ynys Môn i'r gorllewin o Gemaes.
 - (ii) Adeiladau adweithydd, rheoli, gwasanaeth a thyrbîn, a chyfleusterau, adeiladau, strwythurau, nodweddion a gwaith ategol eraill sy'n rhan hanfodol o'r orsaf gynhyrchu, gan gynnwys
 - (A) Adeiladau i storio gwastraff ymbelydrol a thanwyddol sydd wedi cael ei ddefnyddio
 - (B) Cysylltiad trydanol ag is-orsaf y National Grid
 - (C) Gwaith morol sy'n cynnwys system dŵr oeri, cyfleuster dadlwytho morol, morgloddiau, a systemau goleuo a diogelwch ar gyfer mordwyo
 - (b) *Cyfleusterau Oddi ar Safle'r Orsaf Bŵer wedi'u cydlooli ar dir yn Llanfaethlu, yn cynnwys:*
 - (i) Canolfan rheoli argyfwng amgen
 - (ii) Labordy arolwg amgylcheddol
 - (iii) Garej offer argyfwng symudol
 - (c) *Datblygiadau Cysylltiedig, yn cynnwys:*
 - (i) Campws y Safle, sef campws y llety i weithwyr dros dro wedi'i leoli yn Ardal Datblygu Wylfa Newydd
 - (ii) Canolfan logisteg ar dir ym Mharc Cybi
 - (iii) Cyfleuster parcio a theithio ar gyfer gweithwyr adeiladu ar dir yn Dalar Hir
 - (iv) Gwelliannau i brif-ffordd yr A5025 yng nghyffordd y Fali, yn Llanfachraeth, yn Llanfaethlu, yng Nghefn Coch ac wrth fynediad yr orsaf bŵer
 - (d) *Gwaith arall yn cynnwys gwaith i hwyluso adeiladu'r elfennau a ddisgrifir uchod*
 - (D) Adeiladu hysbysyddol ac adeilad hyfforddi ac efelychu
 - (E) Gwaith tirweddau a phlannu gan gynnwys systemau rheoli dŵr wyneb, draenïau a draenïau dŵr budr, a gwaith llwybrau troed
 - (F) Gwaith Mynediad i'r Cyhoedd, gan gynnwys cau a dargyfeirio hawliau tramwy cyhoeddus
 - (G) Ffordd fynediad i'r orsaf bŵer a ffordd mewol ar y safle
 - (H) Meysydd parcio
 - (I) Safleoedd adeiladu, ardaloedd gosod, ardaloedd gweithio, a gwaith a strwythurau dros dro, ac ardal dros dro i weld y gwaith adeiladu
 - (J) Dargyfeirio cyfleustodau
 - (K) Prif ffens berimedr a ffens adeiladu
 5. Mae Horizon hefyd yn bwriadu cyflwyno ceisiadau am ganiatâd cynllunio o dan Ddeddf Cynllunio Gwlad a Thref 1990 ar gyfer gwaith sy'n cefnogi'r cais am DCO, ond na fydd yn rhan ohono. Mae'r rhain yn cynnwys ceisiadau ar gyfer:
 - (a) Gwaith Paratoi a Chlirio'r Safle
 - (b) Gwelliannau ar brif-ffordd yr A5025
 - (c) Canolfan i dderbyn ymwelwyr a'r cyfryngau
 - (d) Gwaith galluogi a gwaith cysylltiedig arall yn ôl yr angen i gyflawni'r Prosiect
 6. Bydd y DCO arfaethedig hefyd yn ceisio pwerau amrywiol eraill, gan gynnwys darpariaethau sy'n caniatâd pryniant gorfodol buddiannau a hawliau dros dir, defnyddio tir dros dro, ymyrryd â hawliau a chau neu ddargyfeirio strydoedd a hawliau tramwy cyhoeddus eraill gan gynnwys cau Ffordd Cemlyn yn barhaol.
 7. Mae'r datblygiad arfaethedig yn "datblygiad Asesiad o'r Effaith Amgylcheddol (EIA)" at ddibenion Rheoliadau Cynllunio Seilwaith (Asesu Effeithiau Amgylcheddol) 2009. Cynhelir asesiad o'r effaith amgylcheddol, a chyflwynir datganiad amgylcheddol gyda'r cais arfaethedig. Bydd y datganiad amgylcheddol yn rhoi disgrifiad manwl o'r Prosiect a'i effeithiau arwyddocaol tebygol ar yr amgylchedd.
 8. Yn unol â Rheoliad 10 o Reoliadau Cynllunio Seilwaith (Asesu Effeithiau Amgylcheddol) 2009, mae'r Ymgeisydd wedi sicrhau bod Gwybodaeth Amgylcheddol Ragarweiniol (PEI) ar gael, ynghyd â chrynodeb annhechnegol o'r wybodaeth honno (fel rhan o Gam Un a Cham Dau ei ymgynghoriad cyn ymgeisio). Ynglwm wrth y PEI hwn mae'r wybodaeth amgylcheddol ddiweddaraf a gyflwynir yn nogfennau ymgynghori cyn ymgeisio Cam Tri.
 9. Paratowyd datganiad o ymgynghoriad cymunedol ("SOCC") sydd wedi'i ddiweddarau i esbonio sut caiff yr ymgynghoriad Cam Tri hwn ei gynnal mewn perthynas â Phrosiect Wylfa Newydd.
 10. Dyma'r dogfennau sy'n sail i'r ymgynghoriad cyn ymgeisio Cam Tri:
 - (a) Dogfen Trosolwg o'r Ymgynghoriad (ar gael yn Gymraeg a Saesneg)
 - (b) Y Brif Ddogfen Ymgynghori
 11. Mae copïau cyfeirio o'r dogfennau Cam Tri hyn sy'n dangos natur a lleoliad Prosiect Wylfa Newydd ar gael i'w gweld yn rhad ac am ddim yn y llyfrgelloedd a restrir gyferbyn. Mae cyfleusterau copïo ar gael yn y llyfrgelloedd hyn am 15c (A4) a 30c (A3) yn Ynys Môn, 20c (A4) a £1 (A3) yng Ngwynedd, a 60c (A4) a £1 (A3) yng Nghonwy.
 12. Mae copïau o holl ddogfennau ymgynghoriad Cam Tri a holl ddogfennau'r ymgynghoriadau blaenorol ar gael i'w gweld a'u llwytho i lawr oddi ar www.horizonnuclearpower.com/ymgynghoriad a gellir gofyn amdanynt hefyd ar ddyfais storio digidol yn rhad ac am ddim. Gallwch hefyd gwneud cais rhesymol am gopïau papur o holl gynlluniau a dogfennau ymgynghori Cam Tri.
 13. Cewch gyflwyno sylwadau ar-lein neu drwy'r post yn ystod y cyfnod ymgynghori o 28 diwrnod:
 - (a) Anfon neges e-bost at ymholiadauwylfa@horizonnuclearpower
 - (b) Ysgrifennu atom yn ein cyfeiriad rhadbotl **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
 14. Dylai eich sylwadau ein cyrraedd erbyn **22 Awst 2017** fan bellaf. Gwnedch yn siŵr bod unrhyw ymateb yn cynnwys enw'r sawl sy'n rhoi'r ymateb ynghyd â chyfeiriad a chod post er mwyn gallu cofnodi unrhyw ohebiaeth ynghlŷn â'r ymateb.
 15. Bydd gwybodaeth bersonol sy'n cael ei rhoi i Horizon mewn ymateb i Gam Tri yn ymgynghoriad yn cael ei phrosesu'n gwblgyfrinachol yn unol â Deddf Diogelu Data 1998.

Horizon Nuclear Power – Public Notice

WYLFA NEWYDD – A NEW NUCLEAR POWER STATION ON ANGLESEY

SECTION 48, PLANNING ACT 2008 – REGULATION 4 INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

PROPOSED APPLICATION FOR DEVELOPMENT CONSENT FOR THE WYLFA NEWYDD PROJECT

Please send any comments in response to this notice by 22 August 2017.

1. Notice is hereby given that Horizon Nuclear Power Wylfa Limited (the “Applicant”) of Sunrise House 1420 Charlton Court, Gloucester Business Park, Gloucester, GL3 4AE proposes to apply to the Secretary of State under s37 of the Planning Act 2008 for an order granting development consent (“DCO”) for the construction, operation and maintenance of a new nuclear power station and other development, at Wylfa, Anglesey (“Wylfa Newydd Project”).

2. The Applicant is part of the Horizon Nuclear Power Limited group of companies and is wholly owned by Hitachi, Limited, the headquarters of which is in Tokyo, Japan.

3. The application for the Wylfa Newydd Project is anticipated to be submitted in the third quarter of 2017.

4. The Wylfa Newydd Project is a Nationally Significant Infrastructure Project for the purposes of the Planning Act 2008 and requires development consent under that Act. Horizon proposes to apply for a DCO for the Wylfa Newydd Project which would include the following principal elements:

(a) *Development on the main power station site including:*

(i) Two UK Advanced Boiling Water Reactors (UK ABWR) with a combined electrical output of approximately 2,700MWe and related plant located on the north coast of Anglesey to the west of Cemaes.

(ii) Reactor, control, service and turbine buildings and other supporting facilities, buildings, structures, features and works which are integral to the generating station including:

(A) Radioactive waste and spent fuel storage buildings

(B) Electrical connection to National Grid substation

(C) Marine works comprising a cooling water system, marine off-loading facility, breakwater structures, and navigational lighting and safety systems

(D) Administration building and training and simulator building

(E) Landscape works and planting including drainage, foul drainage and surface water management systems and footpath works

(F) Public Access works including closure and diversion of public rights of way

(G) A power station access road and internal site roads

(H) Car parking

(I) Construction sites, laydown areas, working areas, temporary works and structures, and temporary construction viewing area

(J) Diversion of utilities

(K) Main perimeter fence and construction fence

(b) *Off-site Power Station Facilities co-located on land in Llanfaethlu including:*

(i) An alternative emergency control centre

(ii) An environmental survey laboratory

(iii) A mobile emergency equipment garage

(c) *Associated Development including:*

(i) The Site Campus, being a temporary workers’ accommodation campus located on the Wylfa Newydd Development Area

(ii) A logistics centre on land at Parc Cybi

(iii) A park and ride facility for construction workers on land at Dalar Hir

(iv) Offline highways improvements to the A5025 at Valley junction, Llanfachraeth, Llanfaethlu, Cefn Coch and the power station access

(d) *Other works including works to facilitate the construction of the elements described above*

5. Horizon also intends to bring forward applications for planning permission under to the Town and Country Planning Act 1990 for works which support, but which will not form part of, the DCO application. These include applications for:

(a) Site Preparation and Clearance works

(b) Online highways improvements on the A5025

(c) A visitor and media reception centre

(d) Other related and enabling works as needed to support delivery of the Project

6. The proposed DCO will also seek various other powers including provisions permitting the compulsory acquisition of interests and rights in land, the temporary use of land, interference with rights and the closure or diversion of streets and other public rights of way including the permanent closure of Cemlyn Road.

7. The proposed development is “EIA development” for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009. An environmental impact assessment is being carried out and an environmental statement will be submitted with the proposed application. The environmental statement will provide a detailed description of the Project and its likely significant environmental effects.

8. In accordance with Regulation 10 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2009 the Applicant has previously made Preliminary Environmental Information (PEI) available together with a non-technical summary of that information (as part of its Stage One and Stage Two pre-application consultations). This PEI is supplemented by the updated environmental information presented in the Stage Three pre-application consultation documents.

9. An updated statement of community consultation (“SOCC”) has been prepared explaining how this Stage Three pre-application consultation will be undertaken in respect of the Wylfa Newydd Project.

10. The documents which support this Stage Three pre-application consultation comprise:

(a) A Consultation Overview Document (available in English and Welsh)

(b) A Main Consultation Document

11. Reference copies of these Stage Three documents showing the nature and location of the Wylfa Newydd Project are available for viewing free of charge at the library locations listed opposite. Copying facilities are available at these libraries at a cost of 15p (A4) and 30p (A3) in Anglesey, 20p (A4) and £1 (A3) in Gwynedd, and 60p (A4) and £1 (A3) in Conwy.

12. Copies of all Stage Three consultation documents and all previous consultation documents are available to view and to download from **www.horizonnuclearpower.com/consultation** and will also be made available on request on a digital storage device at no charge. Printed copies of all Stage Three consultation documents and plans are available upon reasonable request.

13. You will be able to submit comments online or by post during the 28 day consultation period:

(a) Emailing us at **wylfaenquiries@horizonnuclearpower.com**

(b) Writing to us at our freepost address **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**

14. Your comments should arrive with us no later than **22 August 2017**. Please make sure that any response indicates who is making the response and includes an address and post code to which any correspondence relating to it may be sent.

15. Personal information that is supplied to Horizon in response to this Stage Three consultation will be processed in strict accordance with the Data Protection Act 1998.

DCRM Ref. No: WN0902-HZCON-PAC-LET-00018

Dear Librarian,

Wylfa Newydd - Stage Three consultation documents

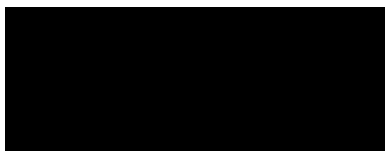

Please find enclosed additional copies of two documents that provide more information on our proposals for a new nuclear power station on Anglesey.

If you don't already have these on display, we'd be very grateful if you could make these reference copies publically accessible in your library until further notice. The two documents are our 'Consultation Overview Document' and 'Main Consultation Document'. As part of the requirements for effective consultation, we need to make reference copies of these available in the vicinity.

While we've clearly marked these copies as 'For Reference Only', if you find that they are removed or lost please get in touch on 0800 954 9516 or at wylfaenquiries@horizonnuclearpower.com and we will be happy to supply a replacement. Similarly, if making these documents available in your library may be an issue, please let us know.

Thank you again for your assistance, and if you have any further queries please feel free to get in touch and we'll be very happy to help.

Yours sincerely,

Richard Foxhall
Stakeholder Relations Manager
Horizon Nuclear Power

Annwyl Lyfrgellydd,

Wylfa Newydd - Dogfennau ymgynghori Cam Tri

Rwy'n amgáu copïau ychwanegol o ddwy ddogfen sy'n rhoi rhagor o wybodaeth am ein cynigion ar gyfer gorsaf bŵer niwclear newydd ar Ynys Môn.

Os nad ydych chi'n arddangos y rhain yn barod, byddem yn ddiolchgar iawn petai modd i chi ddarparu'r copïau cyfeirio hyn ar gyfer y cyhoedd yn eich llyfrgell nes y rhoddir gwybod i chi fel arall. 'Dogfen Trosolwg o'r Ymgynghoriad' ac 'Y Brif Ddogfen Ymgynghori' ydy'r ddwy ddogfen hyn. Fel rhan o'r gofynion i ymgynghori'n effeithiol, mae angen i ni ddarparu copïau cyfeirio o'r rhain yn yr ardal.

Er ein bod wedi nodi 'Copïau Cyfeirio' yn glir ar y copïau hyn, os byddan nhw'n diflannu neu'n mynd ar goll, cysylltwch â ni ar 0800 954 9516 neu yn ymholiadauwyylfa@horizonnuclearpower.com a byddwn yn fwy na bodlon anfon copi arall atoch chi. Yn yr un modd, os ydy darparu'r dogfennau hyn yn eich llyfrgell yn achosi problem, rhowch wybod i ni.

Diolch i chi unwaith eto am eich help, ac os oes gennych chi unrhyw gwestiynau mae croeso cynnes i chi gysylltu a byddwn yn fwy na bodlon helpu.

Yn gywir,

Richard Foxhall
Rheolwr Cysylltiadau Rhanddeiliaid
Pŵer Niwclear Horizon

Appendix C.8- List of consultation activities

1-1.1 Formal consultation activities 2017

1-1.1.1 The table below lists the formal (statutory) consultation activities that took place in 2017 in relation to the Project.

Event	Date
PAC3 Public Exhibition – Llangefni Town Hall	27 May 2017
PAC3 Public Exhibition – Llanfaethlu Village Hall	30 May 2017
PAC3 Public Exhibition – The Valley Anglesey	31 May 2017
PAC3 Public Exhibition – Cemaes Village Hall	02 June 2017
PAC3 Public Exhibition – Amlwch Memorial Hall	03 June 2017
PAC3 Van Event – Douglas Inn	06 June 2017
PAC3 Van Event – Holland Hotel Car Park	07 June 2017
PAC3 Van Event – Conwy Quay	08 June 2017
PAC3 Van Event – Older People’s Council, Canolfan Byron Gwalchmai	09 June 2017
PAC3 Public Exhibition – Rhosybol Community Centre	10 June 2017
PAC3 Van Event – Tesco Extra Car Park	12 June 2017
PAC3 Van Event - Ysgol Uwchradd Bodedern	12 June 2017
PAC3 Van Event – Castle Square	13 June 2017
PAC3 Van Event – Gaerwen Livestock Market	13 June 2017
PAC3 Van Event – Lower Hill Street Car Park (10am - 1pm)	14 June 2017
PAC3 Van Event – Holyhead Leisure Centre (4pm – 7pm)	14 June 2017
PAC3 Van Event – Castle Square	16 June 2017
PAC3 Van Event – Anglesey Farmer’s Market	17 June 2017
PAC3 Public Exhibition – Cemaes Village Hall	19 June 2017
PAC3 Van Event – Douglas Inn	20 June 2017
PAC3 Van Event – Ysgol Gyfun Llangefni	20 June 2017
PAC3 Van Event - Ysgol Syr Thomas Jones	21 June 2017

Appendix C.9- Sample consultation materials (Eng and Cym)

Appendix C.9- PAC3 feedback form

Wylfa Newydd Project Consultation Feedback Form

STAGE 3

This form is to provide feedback on Horizon Nuclear Power's plans for a new nuclear power station on Anglesey, to the west of Cemaes and south-west of the existing Magnox power station. Key information about our proposals can be found in the Consultation Overview Document and on our website: www.horizonnuclearpower.com/consultation.

Consultation with all interested parties has a vital role to play in helping shape our proposals and no matter what your opinion of our proposals may be, your views count. We would like to hear your feedback on the current proposals for the Wylfa Newydd Project, but if there are sections that you feel are more relevant to you and you only want to comment on these, please do so.

You can submit this feedback form in the following ways:

- by putting this form in the feedback box at one of our events
- by posting this form free of charge to: **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
- by registering on our website www.horizonnuclearpower.com/consultation and completing the online form

Please submit your feedback by 22 June 2017

Please note: Horizon Nuclear Power is not consulting on proposals for improvements needed to the electricity network as a result of a new power station at Wylfa. Consultation on these proposals is being conducted separately by the organisations responsible for them.

About you (Please complete this section in capital letters using blue or black ink):

Surname:	
Age group: <input type="checkbox"/> under 25 <input type="checkbox"/> 25 - 40 <input type="checkbox"/> 41 - 60 <input type="checkbox"/> over 60	
Are you responding on behalf of an organisation: <input type="checkbox"/> Yes <input type="checkbox"/> No	
If yes, organisation name:	
Job title:	
Address:	
Town / Village:	
Post code:	
Email address:	

Data Protection Statement

The information that you provide will be shared by Horizon Nuclear Power Wylfa Limited with third party providers, contractors or advisors who provide services to us and used in connection with the subsequent planning applications for the Wylfa Newydd Project. Copies may be made available, in due course, to the relevant planning authority so it can note your comments. We will however, request that your personal details are not placed on public record. Your personal details will be held securely by Horizon Nuclear Power Wylfa Limited and those third party providers, contractors or advisors who provide services to us in accordance with the Data Protection Act 1998.

Accommodating our construction workers

After carrying out a review and listening to your previous feedback, we have updated our Construction Workers Accommodation Strategy. We are now proposing to create a temporary Site Campus, next to the Power Station Site, with dedicated accommodation and facilities for up to 4,000 workers.

As a result we no longer need to build construction worker accommodation anywhere else on Anglesey. However, as we have previously proposed, we are still looking to house other workers in private homes and tourism accommodation.

1. Do you agree with our plans to provide campus style temporary worker accommodation on site in the Site Campus?

☐ Yes

☐ No

☐ Unsure

☐ No preference

Please give your reasons:

Reducing the potential effects of the Site Campus

2. If the Site Campus is developed for construction workers, what do you think should be our priorities for reducing any potential effects on local communities?

Please rank in order from 1 (most important to you) to 7 (least important to you)

☐ Good management of workers

☐ Controlling traffic movements

☐ Keeping workers separate from communities

☐ Reducing noise

☐ Encouraging workers to be part of communities

☐ Quality of landscaping

☐ Other (please tell us here):

Our essential off-site facilities

We continue to look for ways to reduce the impact of our Project and one way is to reduce the total number of development sites. We are now proposing to put the essential Off-Site Power Station Facilities all together on the same site at Llanfaethlu.

This means we no longer need the sites at Cefn Coch or Llanrhyddlad.

3. Do you prefer the new proposals to put all of the Off-Site Power Station Facilities at Llanfaethlu?

☐ Yes

☐ No

☐ Unsure

☐ No preference

Please give your reasons:

Priorities for reducing effects of our development at Llanfaethlu

4. If the site at Llanfaethlu is developed for Off-Site Power Station Facilities, what do you think should be our priorities for reducing any potential effects on local residents?

Please rank in order from 1 (most important to you) to 7 (least important to you)

☐ Good management of workers

☐ Controlling traffic movements

☐ Keeping workers separate from communities

☐ Reducing noise

☐ Encouraging workers to be part of communities

☐ Quality of landscaping

☐ Other (please tell us here):

Park and ride at Dalar Hir

We have reduced the number of spaces at the temporary park and ride facility at Dalar Hir and increased the parking provision on the Wylfa Newydd Site. However, to manage any effects, we will encourage sustainable transport usage including incentivising car sharing. Together with the proposed Site Campus this will aim to reduce the number of bus journeys to and from site (as fewer construction workers will be commuting from elsewhere every day).

5. Do you prefer these proposals to reduce the number of car parking spaces at the park and ride facility by replacing them with additional parking spaces on the Wylfa Newydd Site?

☐ Yes

☐ No

☐ Unsure

☐ No preference

Please give reasons:

Logistics Centre at Parc Cybi

As a result of our ongoing work to understand traffic effects, we have updated our proposals for the temporary logistics centre at Parc Cybi by replacing the proposed warehouse with a covered inspection bay and increasing the number of heavy goods vehicles (HGV) parking spaces. This means that if there is an incident on local roads we can hold more HGVs at the logistics site.

6. What do you think should be our priorities for reducing potential effects at the Parc Cybi site?

Please rank in order from 1 (most important to you) to 4 (least important to you)

☐ Quality of landscaping

☐ Changing the layout of the HGV parking

☐ Reducing noise impacts

☐ Other (please tell us here):

Improvements to A5025

We need to improve the A5025 between Valley and the Wylfa Newydd site. While our proposals have stayed largely the same, we have made amendments to the detailed design of these new (Off-Line) highway improvements. We have also included the development of a roundabout at the proposed Power Station access road.

7a. Do you prefer the new design and layout of the updated proposals for A5025 - Valley junction?

☐ Yes☐ No☐ Unsure☐ No preference

Please give reasons:

7b. Do you prefer the new design and layout of the updated proposals for A5025 – Llanfachraeth?

☐ Yes☐ No☐ Unsure☐ No preference

Please give reasons:

Proposed improvements to A5025 – continued

7c. Do you prefer the new design and layout of the updated proposals for A5025 - Llanfaethlu?

- ☐ Yes ☐ No ☐ Unsure ☐ No preference

Please give reasons:

7d. Do you prefer the new design and layout of the updated proposals for A5025 – Cefn Coch?

- ☐ Yes ☐ No ☐ Unsure ☐ No preference

Please give reasons:

7e. Do you prefer the new design and layout of the updated proposals for the A5025 - Power Station access road?

- ☐ Yes ☐ No ☐ Unsure ☐ No preference

Please give reasons:

A Welsh Language and Culture Coordinator

At our Stage Two consultation, we pledged to support and contribute to enhancing the Welsh Language and culture. We will employ a Welsh Language Coordinator to support focus on the development of Welsh language skills in the construction and operational workforce and oversee the workforce mitigation and enhancement measures.

8. What do you think the priorities for our Welsh Language and Culture Co-ordinator should be?

Please rank in order from 1 (most important to you) to 5 (least important to you)

- ☐ considering what level of Welsh language skills are required for each job role
 - ☐ helping with the identification of any additional educational language resource needs as a result of our workers
 - ☐ developing and adopting Welsh language training for our workers
 - ☐ support for community language services
 - ☐ Other (please tell us here):

Community benefits

We have been working with Isle of Anglesey County Council and other stakeholders to develop a package of community benefits. We have identified a number of ways in which funds might be distributed in order to support local communities.

9. Please identify which types of project are of most importance to you.

Please rank in order from 1 (most important to you) to 8 (least important to you)

- | | |
|---|---|

| <input type="checkbox"/> Other (please tell us here): | |

Any other comments

10. Do you have any other general comments on the Wylfa Newydd Project?

Please tell us here:

Thank you for completing this feedback form.

We will be reviewing all the feedback we receive and using it, wherever possible, to shape the ongoing development of our proposals.

If you have any questions about the Wylfa Newydd Project you can contact us at any time in the following ways:

Ymgynghoriad Prosiect Wylfa Newydd Ffurflen Adborth

CAM 3

Gallwch ddefnyddio'r ffurflen hon i roi adborth ar gynlluniau Pŵer Niwclear Horizon ar gyfer gorsaf bŵer niwclear newydd ar Ynys Môn, i'r gorllewin o Gemaes ac i'r de-orllewin o orsaf bŵer bresennol Magnox. Mae gwybodaeth allweddol am ein cynigion ar gael yn y Ddogfen Trosolwg o'r Ymgynghoriad ac ar ein gwefan: www.horizonnuclearpower.com/ymgyngghoriad.

Mae ymgynghori â phawb sydd â diddordeb yn hollbwysig er mwyn helpu i siapia ein cynigion. Dim ots beth yw eich barn ynghylch ein cynigion, mae eich safbwyntiau'n cyftri. Hoffem glywed eich adborth ar y cynigion presennol ar gyfer Prosiect Wylfa Newydd, ond os oes rhannau rydych chi'n meddwl sy'n fwy perthnasol i chi, a'ch bod chi eisiau rhoi sylwadau ar y rheini'n unig, yna mae croeso i chi wneud hynny.

Gallwch gyflwyno eich adborth drwy'r dulliau canlynol:

- drwy roi'r ffurflen hon yn y blwch adborth yn un o'n digwyddiadau
- drwy bostio'r ffurflen hon am ddim i: **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
- drwy gofrestru ar ein gwefan www.horizonnuclearpower.com/ymgyngghoriad a llenwi'r ffurflen ar-lein

Cyflwynwch eich adborth erbyn 22 Mehefin 2017 os gwelwch yn dda

Cofiwch: Dydd Pŵer Niwclear Horizon ddim yn ymgynghori ar gynigion ar gyfer y gwelliannau sydd eu hangen i'r rhwydwaith trydan o ganlyniad i orsaf bŵer newydd yn Wylfa. Mae ymgynghoriad arall yn cael ei gynnal ar wahân ar y cynigion hyn gan y sefydliadau sy'n gyfrifol amdanyn nhw.

Amdanoch chi (Llenwch yr adran hon mewn priflythrennau gan ddefnyddio inc du neu las):

Datganiad Diogelu Data

Bydd y wybodaeth rydych chi'n ei rhoi yn cael ei rhannu gan Horizon Nuclear Power Wylfa Limited â darparwyr, contractwyr neu gynghorwyr trydydd parti sy'n darparu gwasanaethau i ni, a bydd yn cael ei defnyddio ar y cyd gyda'r ceisiadau cynllunio dilynol ar gyfer Prosiect Wylfa Newydd. Efallai bydd copïau'n cael eu darparu, maes o law, i'r awdurdod cynllunio perthnasol er mwyn iddo allu nodi eich sylwadau. Serch hynny, byddwn yn gofyn iddo beidio â rhoi eich manylion personol ar gofnod cyhoeddus. Bydd eich manylion personol yn cael eu cadw'n ddiogel gan Horizon Nuclear Power Wylfa Limited a'r darparwyr, y contractwyr neu'r cynghorwyr trydydd parti hynny sy'n darparu gwasanaethau i ni yn unol â Deddf Diogelu Data 1998.

Sicrhau llety i'n gweithwyr adeiladu

Ar ôl cynnal adolygiad a gwrandao ar eich sylwadau blaenorol, rydym wedi diweddarau ein Strategaeth Llety Gweithwyr Adeiladu. Rydym nawr yn bwriadu creu Campws dros dro ar y Safle, nesaf at Safle'r Orsaf Bŵer, gyda llety a chyfleusterau penodol i hyd at 4,000 o weithwyr.

O ganlyniad, ni fydd raid i ni adeiladu llety gweithwyr adeiladu yn unrhyw le arall ar Ynys Môn. Fodd bynnag, fel rydym wedi'i gynnig yn flaenorol, rydym yn dal i chwilio am lety i weithwyr eraill mewn cartrefi preifat a llety twristiaeth.

1. Ydych chi'n cytuno â'n cynlluniau i ddarparu llety gweithwyr dros dro ar ffurf campws ar Gampws y Safle?

☐ Ydw

☐ Nac ydw

☐ Ansicr Dim hoff ddewis

☐ Rhowch eich rhesymau

Rhowch eich rhesymau:

Lleihau effeithiau posib Campws y Safle

2. Os caiff Campws y Safle ei ddatblygu ar gyfer gweithwyr adeiladu, beth ddylai ein blaenoriaethau fod yn eich barn chi er mwyn lleihau unrhyw effeithiau posib ar gymunedau lleol?

Rhowch y rhain mewn trefn o 1 (y pwysicaf i chi) i 7 (y lleiaf pwysig i chi):

☐ Rheolaeth dda ar weithwyr

☐ Rheoli symudiadau traffig

☐ Cadw gweithwyr ar wahân i gymunedau

☐ Lleihau sŵn

☐ Annog gweithwyr i fod yn rhan o gymunedau

☐ Ansawdd y tirlunio

☐ Arall (rhowch fanylion yma):

Ein cyfleusterau oddi ar y safle hanfodol

Rydym yn parhau i chwilio am ffyrdd o leihau effaith ein Prosiect ac un ffordd o wneud hyn yw drwy leihau cyfanswm y safleoedd datblygu. Rydym yn awr yn cynnig rhoi'r Cyfleusterau Oddi ar Safle'r Orsaf Bŵer sy'n hanfodol i gyd gyda'i gilydd ar yr un safle yn Llanfaethlu

Mae hyn yn golygu nad oes arnom angen y safle yng Nghefn Coch neu Lanrhuddlad mwyach.

3. Ydych chi'n ffafrio'r cynigion newydd yn Llanfaethlu?

☐ Ydw

☐ Nac ydw

☐ Ansicr Dim hoff ddewis

☐ Rhowch eich rhesymau

Rhowch eich rhesymau:

Lleihau'r effeithiau posib yn Llanfaethlu

4. Os caiff y safle yn Llanfaethlu ei ddatblygu ar gyfer Cyfleusterau Oddi ar Safle'r Orsaf Bŵer, beth ddylai ein blaenoriaethau fod yn eich barn chi er mwyn lleihau unrhyw effeithiau posib ar drigolion lleol?

Rhowch y rhain mewn trefn o 1 (y pwysicaf i chi) i 7 (y lleiaf pwysig i chi):

☐ Rheolaeth dda ar weithwyr

☐ Rheoli symudiadau traffig

☐ Cadw gweithwyr ar wahân i gymunedau

☐ Lleihau effeithiau sŵn

☐ Annog gweithwyr i fod yn rhan o gymunedau

☐ Ansawdd y tirlunio

☐ Arall (rhowch fanylion yma):

Parcio a theithio yn Dalar Hir

Rydym wedi lleihau nifer y llefydd parcio yn y cyfleuster parcio a theithio dros dro yn Dalar Hir ac wedi cynyddu'r ddarpariaeth barcio ar Safle Wylfa Newydd. Fodd bynnag, er mwyn rheoli unrhyw effeithiau yn sgil y newid hwn, byddwn yn cynnwys mesurau i annog defnydd o drafnidiaeth gynaliadwy a bydd hyn yn cynnwys cymell rhannu ceir. Ochr yn ochr â'r Campws arfaethedig ar y Safle, bydd hyn yn lleihau nifer y siwrneiau bws i ac o'r safle (oherwydd bydd llai o weithwyr yn cymudo o lefydd eraill bob dydd).

5. Ydych chi'n ffafrio'r cynigion hyn i leihau nifer y llefydd parcio yn y cyfleuster parcio a theithio drwy sicrhau gofod parcio ychwanegol ar Safle Wylfa Newydd yn eu lle?

☐ Ydw☐ Nac ydw☐ Ansicr Dim hoff ddewis☐ Rhowch eich rhesymau

Rhowch eich rhesymau:

Canolfan Logisteg ym Mharc Cybi

O ganlyniad i'n gwaith parhaus i ddeall effeithiau traffig, rydym wedi diweddaru ein cynigion ar gyfer y Ganolfan Logisteg dros dro ym Mharc Cybi drwy newid y warws arfaethedig am fae arolygu dan do a chynyddu nifer y llefydd parcio i gerbydau nwyddau trwm. Mae hyn yn golygu y bydd lle i fwy o gerbydau nwyddau trwm ar y safle logisteg os bydd digwyddiad ar ffyrdd lleol.

6. Beth ddylai ein blaenoriaethau fod yn eich barn chi ar gyfer lleihau'r effeithiau posib ar safle Parc Cybi?

Rhowch y rhain mewn trefn o 1 (y pwysicaf i chi) i 4 (y lleiaf pwysig i chi):

☐ Ansawdd y tirlunio

☐ Newid cynllun y maes parcio i gerbydau nwyddau trwm

☐ Lleihau effeithiau sŵn

☐ Arall (rhowch fanylion yma):

Gwelliannau i'r A5025

Mae'n rhaid i ni wella'r A5025 rhwng y Fali a safle Wylfa Newydd. Er bod ein cynigion yn parhau'r un fath i raddau helaeth, rydym wedi diwygio cynllun manwl y gwelliannau priffyrdd newydd (Presennol) hyn ac wedi cynnwys datblygu cylchfan ar ffordd fynediad arfaethedig yr Orsaf Bŵer.

3

Helo, a chroeso i'r digwyddiad ymgynghori Cam Tri hwn.

Rydyn ni eisiau darparu gorsaf bŵer sydd gyda'r mwyaf blaenllaw yn y byd a fydd wrth galon yr economi a'r gymuned leol.

Ers ein hymgyngoriad cyhoeddus hydref diwethaf, rydyn ni wedi bod wrthi'n brysur yn adolygu'r adborth ac yn mireinio ein cynlluniau ar gyfer Wylfa Newydd ymhellach. Mae llawer o'n cynigion heb newid ers 2016 ond, er mwyn gwneud yn siŵr bod y prosiect cystal ag y gall fod, rydyn ni'n cynnig rhai newidiadau i gynllun yr orsaf bŵer, ac yn diweddarau rhai agweddau eraill, fel sut byddwn ni'n cartrefu ac yn rheoli'r gweithlu adeiladu dros dro.

Cyn i ni gyflwyno ein cais i adeiladu Wylfa Newydd yn nes ymlaen eleni, hoffem egluro mwy am ein cynlluniau diweddaraf a gwrando ar eich barn chi yma heddiw. Cofiwch siarad ag aelod o dîm ein prosiect, a fydd yn fodlon helpu i egluro mwy am beth sydd wedi newid, a beth fydd yn aros yr un fath.

Ar ran Horizon, hoffwn ddiolch eto am yr holl adborth rydych chi wedi'i roi ar ein Prosiect hyd yma; rydyn ni'n gwerthfawrogi'r amser y mae'n rhaid ei roi i wneud hyn.

Edrychwn ymlaen unwaith eto at gael eich safbwyntiau ynghylch ein cynigion diweddaraf.

Duncan Hawthorne

Prif Weithredwr
Pŵer Niwclear Horizon

Hello and welcome to this Stage Three consultation event.

We want to deliver a world-leading power station which is at the heart of the local economy and community.

Since our public consultation last autumn, we've been busy reviewing feedback and further refining our plans for Wylfa Newydd. Much of our proposals remain as we set out in 2016 but, to make sure the project is the best it can be, we're proposing some changes to the power station layout, and updating some other aspects, such as how we house and manage the temporary construction workforce.

Before we submit our application to build Wylfa Newydd later this year, we'd like to explain more about our latest plans and listen to your views here today. Please do speak with a member of our project team, who'll be happy to help explain more about what's changed and what's stayed the same.

On behalf of Horizon, I'd like to thank you again for all the feedback you've provided on our Project so far; we don't underestimate the time this takes.

We look forward once again to getting your views on our updated proposals.

Duncan Hawthorne

Chief Executive
Horizon Nuclear
Power

Beth sydd wedi newid, a beth fydd yn aros yr un fath
What's changed and what's staying the same

CAM
STAGE (3)

Beth sydd wedi newid?

Rydyn ni wedi ailddylunio cynllun yr orsaf bŵer i'w wneud yn llai. Mae hyn yn golygu ein bod wedi gallu symleiddio ein hamserlen adeiladu ac wedi lleihau nifer y gweithwyr adeiladu y bydd eu hangen.

Rydyn ni hefyd wedi diweddaru elfennau eraill o'r prosiect:

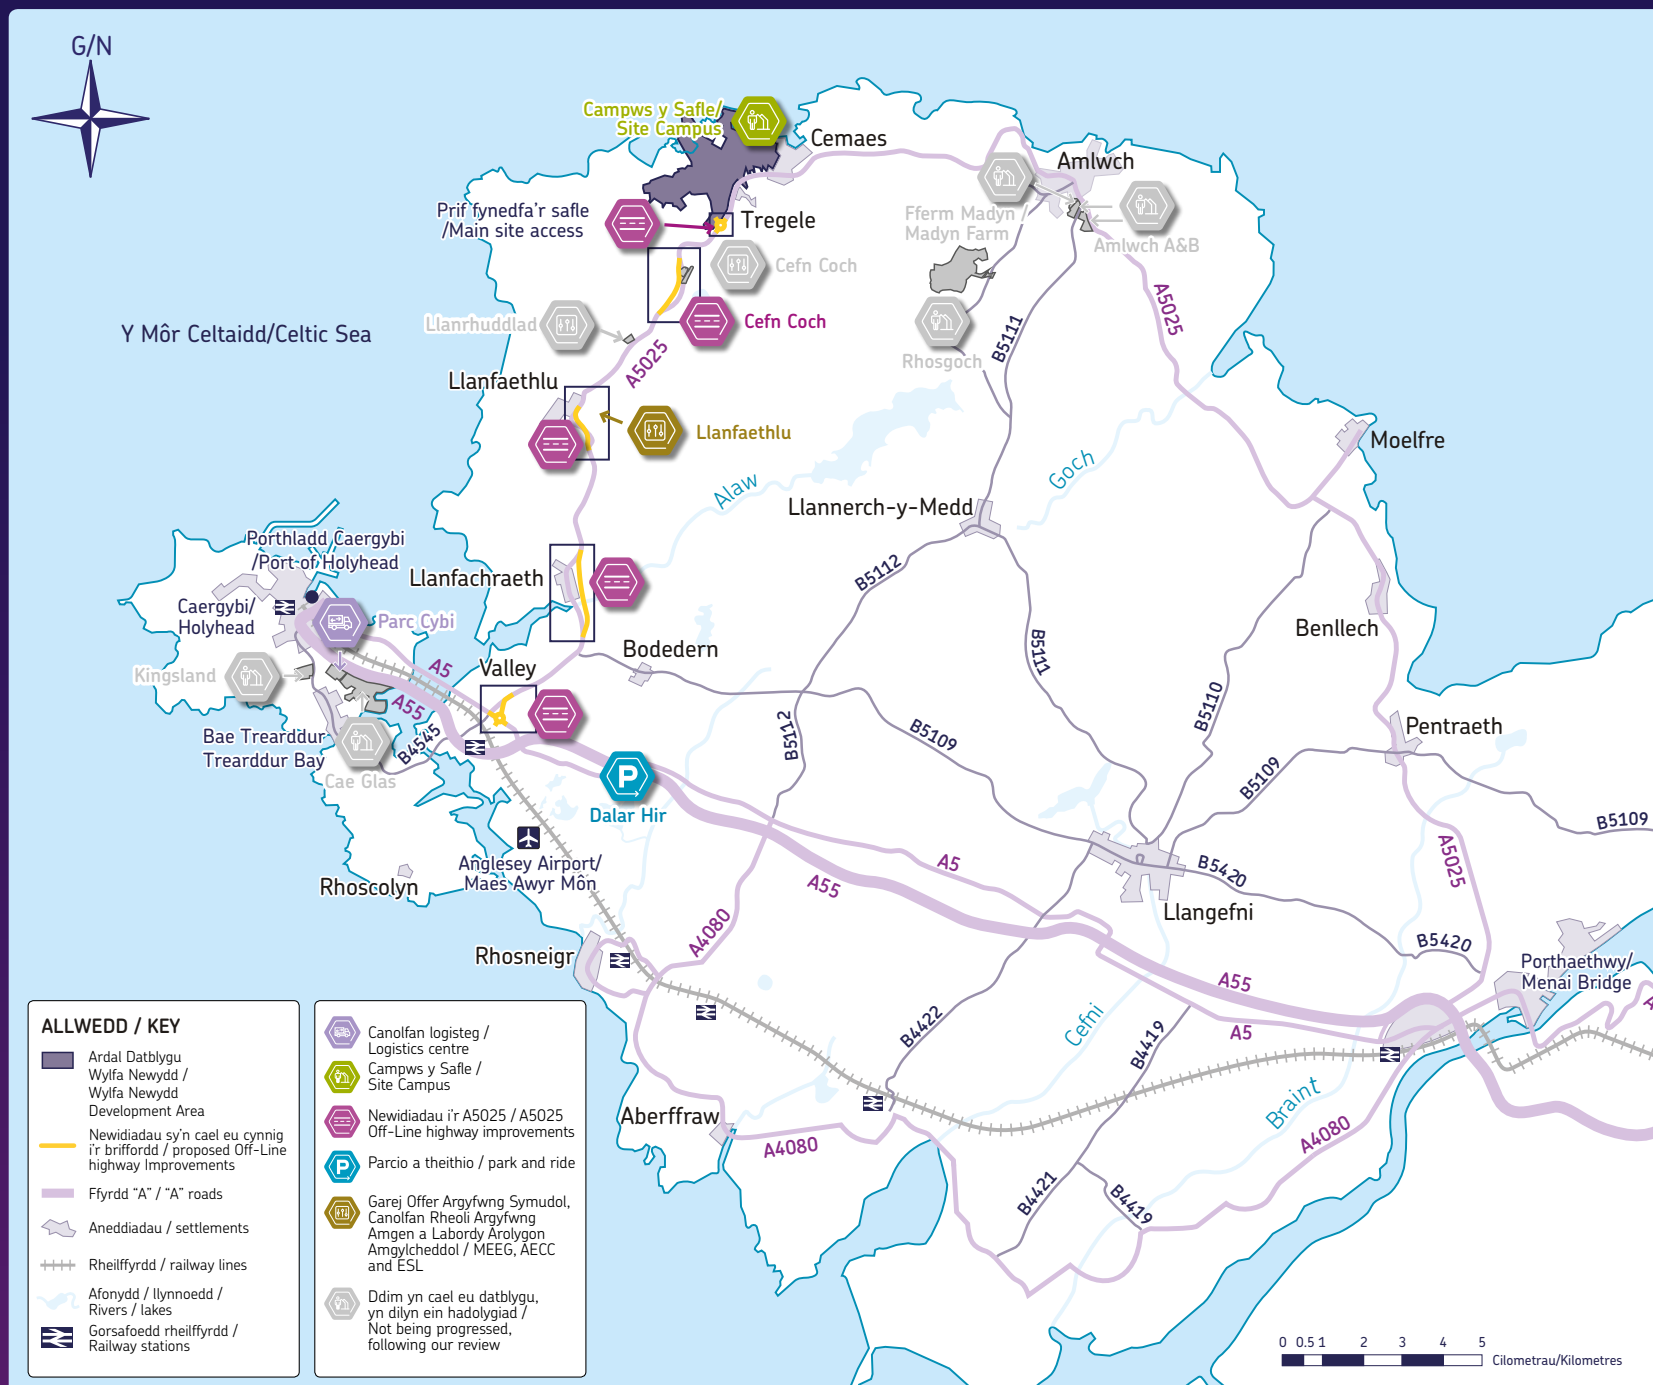

- rydyn ni wedi lleihau nifer y lleoliadau ar gyfer llety gweithwyr dros dro ac rydyn ni rŵan yn cynnig un Campws Safle ar safle Wylfa Newydd. Bydd hyn yn lleihau ein heffaith mewn llyfydd eraill ar Ynys Môn, ac mae'n golygu y bydd llai o weithwyr adeiladu yn gorfod teithio yn ôl ac ymlaen i'r safle bob dydd
- rydyn ni hefyd wedi lleihau nifer y safleoedd datblygiadau cysylltiedig, gan gyfuno ein cyfleusterau oddi ar safle'r orsaf bŵer gyda'i gilydd yn Llanfaethlu

Beth fydd yn aros yr un fath?

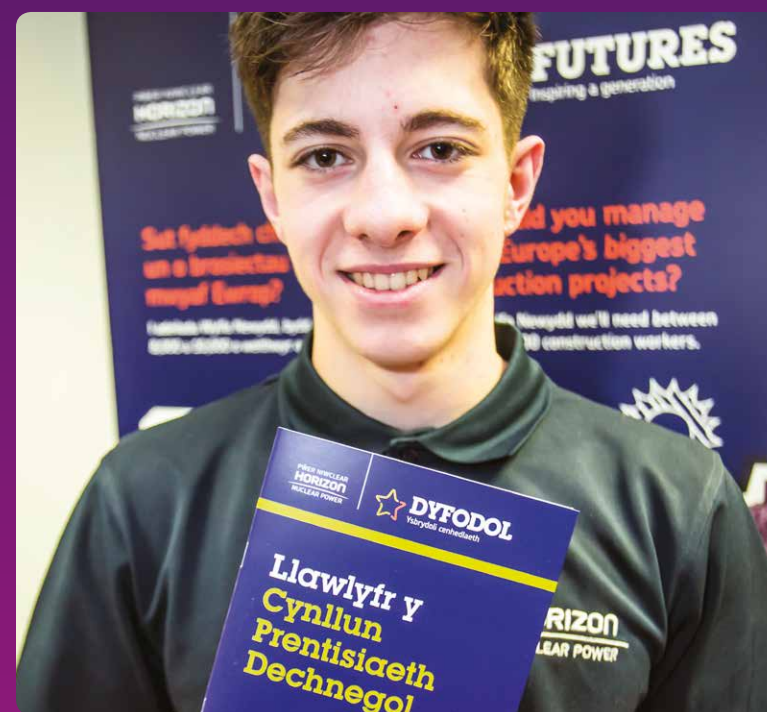

Mae llawer o'n cynigion heb newid ers 2016:

- gwella'r A5025 rhwng y Fali a safle Wylfa Newydd
- lleoliad y cyfleuster parcio a theithio yn Dalar Hir a'r ganolfan logisteg ym Mharc Cybi
- ein hymrwymiad i'r iaith Gymraeg a'i diwylliant, i ddatblygu'r gadwyn gyflenwi leol ac i gefnogi ysgolion a cholegau lleol
- ein hymrwymiad i ddarparu manteision cymunedol sy'n helpu i sicrhau etifeddiaeth gadarnhaol hirdymor

Er ein bod bob amser yn croesawu sylwadau ar bob agwedd o'n Prosiect, byddem yn croesawu eich sylwadau yn arbennig am y newidiadau rydyn ni wedi'u gwneud

Crynodeb o'r hyn sydd wedi newid ers ein hymgyngoriad cyn ymgeisio Cam Dau
Summary of what's changed since our Stage Two Pre-Application Consultation

What's changed?

We have redesigned the layout of the power station to make it more compact. This means we've been able to streamline our construction schedule and reduce construction worker numbers.

We've also updated other elements of the project:

- we've reduced the number of locations for temporary worker accommodation and we are now proposing a single Site Campus on the Wylfa Newydd site. This will reduce our impact elsewhere on Anglesey and means that fewer construction workers will have to travel to and from the site each day
- we've also reduced the number of associated development sites, combining our essential off-site power station facilities together at Llanfaethlu

What's staying the same?

Much of our proposals remain as we set out in 2016:

- improvements to the A5025 between Valley and the Wylfa Newydd site
- the location of a park and ride facility at Dalar Hir and logistics centre at Parc Cybi
- our commitment to the Welsh language and culture, developing the local supply chain and supporting local schools and colleges
- our commitment to providing community benefits that help deliver a lasting positive legacy

While your views on all areas of the Project are always welcome, we'd particularly welcome your views on the changes we're proposing

Darparu llety i'n gweithwyr adeiladu
Accommodating our construction workers

Campws Safle yn Wylfa Newydd
gyda chyfleusterau pwrpasol.

Rydyn ni bellach yn cynnig lleihau nifer y safleoedd llety y byddwn ni'n eu hadeiladu, o saith i un, a darparu llety i hyd at 4,000 o weithwyr yn ystod y cyfnod adeiladu prysuraf ar Gampws Safle.

Caiff hwn ei adeiladu a'i dynnu mewn camau: bydd y ddau gam gyntaf yn cynnwys cyfanswm o 2,500 o welyau, a bydd y cam terfynol, 1,500 o welyau, yn cael ei adeiladu yn ôl y galw'n unig. Bydd hyn yn lleihau'r effaith ar fathau o lety sydd ar gael yn barod, fel y sector rhent preifat.

Byddwn hefyd yn darparu cyfleusterau pwrpasol ar y safle er mwyn lleihau ein heffaith ar gyfleusterau a gwasanaethau lleol, gan gynnwys:

- adeilad gwasanaethau a fydd yn cynnwys bwyty, caffi, derbynfa, campfa a mannau cymdeithasol eraill
- gwasanaeth iechyd cynhwysfawr i sicrhau iechyd y gweithlu, a mesurau eraill er mwyn osgoi unrhyw effaith ar y cyfleusterau cymunedol presennol
- mannau yn yr awyr agored a fydd yn cynnwys tair ardal gweithgareddau, seddi a man agored

Y gweithlu a fydd ei angen arnom ni:

- bydd tua chwarter y gweithlu yn drigolion lleol a fydd yn teithio bob dydd o'u cartrefi
- bydd tua 3,000 o weithwyr adeiladu yn byw mewn llety sydd ar gael ar y farchnad agored, neu yn y sectorau rhent preifat a thwristiaeth
- bydd hyd at 4,000 yn byw yng Nghampws y Safle

Rhowch wybod i ni beth ydy eich barn ar y newidiadau i'n cynigion ar gyfer darparu llety i weithwyr adeiladu, a sut rydych chi'n meddwl y gallwn gynyddu unrhyw fanteision neu leihau unrhyw effeithiau tebygol o ganlyniad i'r newid hwn ?

Cyfleusterau a Llety ar y safle / On-site Accommodation and Facilities

Golygfa CGI o'r Llwybr Arfordir Cymru / CGI view from the Wales Coast Path

A Site Campus at Wylfa Newydd
with dedicated facilities.

We're now proposing to reduce the number of accommodation sites that we build from seven to one, and accommodate up to 4,000 workers, at the peak of construction, on a Site Campus.

This will be built and removed in phases: the first two phases will total 2,500 beds, and the final phase of 1,500 beds will be built only as required. This will minimise the impact on existing forms of accommodation such as the private rental sector.

We'll also provide dedicated facilities on-site to minimise our impact on local facilities and services including:

- a services building including a restaurant, café, reception area, gym and other social space
- a comprehensive health service to ensure the workforce is in good health, and other measures to avoid impacting existing community facilities
- outdoor space including three activity areas, seating and open space

The workforce we'll need:

- approximately a quarter of the workforce will be local residents commuting daily from their homes
- around 3,000 construction workers will live in accommodation on the open market or in the private rental and tourist sectors
- up to 4,000 will live in our Site Campus.

Please tell us what you think of the changes to our proposals for accommodating construction workers and how you think we can improve any benefits or reduce any likely effects as a result of this change ?

Symud pobl a deunyddiau
Moving people and materials

CAM | STAGE 3

Rydyn ni wedi mireinio cynllun ein canolfan logisteg a'r cyfleuster parcio a theithio

Byddwn ni'n darparu system drafnidiaeth a fydd yn cael cyn lleied o effaith â phosibl ar gymunedau a'r amgylchedd, yn ogystal â chynnwys dewisiadau teithio diogel a chynaliadwy.

Cyfleuster parcio a theithio yn Dalar Hir

Rydyn ni wedi lleihau nifer y llefydd parcio yn ein cyfleuster parcio a theithio arfaethedig yn Dalar Hir, o tua 2,700 i 1,900. Bydd hyn yn golygu datblygu llai o dir maes glas dros dro.

Ar ôl gorffen adeiladu Wylfa Newydd, byddwn ni'n dychwelyd y safle i'w ddefnydd presennol, gyda'r glaswelltir, y waliau cerrig a ffiniau'r caeau'n dychwelyd, fel rydyn ni eisoes wedi cynnig. Rydyn ni'n dal yn cynnig gweithredu llwybrau bysiau gwennol i weithwyr lleol.

Canolfan logisteg ym Mharc Cybi

Rydyn ni wedi ailddylunio ein canolfan logisteg ym Mharc Cybi i dynnu'r mwyafrif o'r warysau. Byddwn ni'n gwneud yn siŵr bod llwythi danfon ein cyflenwyr mor llawn â phosibl pan fyddant yn cychwyn ar eu siwrnai, a fydd yn lleihau'r traffig ar y rhwydwaith ffyrdd ehangach. Byddwn ni'n rheoli'r llif cerbydau ar hyd yr A5025 i osgoi confois o gerbydau danfon.

We've refined the designs of our logistics centre and park and ride

We'll provide a transport system that minimises the effect on communities and the environment, as well as incorporating safe, sustainable travel options.

Park and ride facility at Dalar Hir

We've reduced the number of parking spaces at our proposed Dalar Hir park and ride facility from around 2,700 to 1,900. This will mean less temporary development of greenfield land.

Once Wylfa Newydd has been built, we'll return the site to its current use with grassland, stone walling and field boundaries put back in place as we've already proposed.

We're still proposing to operate shuttle bus routes for home-based workers.

Logistics centre at Parc Cybi

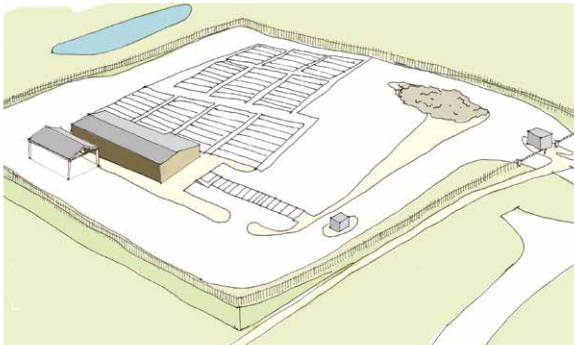

We've redesigned our logistics centre at Parc Cybi to remove most of the warehouses. We'll ensure our suppliers make sure their delivery loads are as full as possible when they set off, reducing traffic on the wider road network.

We'll manage the flow of vehicles along the A5025 to avoid convoys of delivery vehicles.

Hoffem gael eich barn ar y newidiadau rydyn ni wedi'u gwneud i'n cynigion ar gyfer cludo gweithwyr a deunyddiau i'r safle

We'd like your views on the changes we've made to our proposals for getting workers and materials to site

Cyfleusterau oddi ar y safle

Off-site facilities

CAM

STAGE

3

Gweithredu Wylfa Newydd yn

ddiogel ac yn effeithlon

Mae angen i ni gael nifer o gyfleusterau a fydd ar wahân i Safle'r Orsaf Bŵer ond ddim yn rhy bell i ffwrdd oddi wrtho, er mwyn gweithredu Wylfa Newydd yn ddiogel ac yn effeithlon.

Dyma'r cyfleusterau oddi ar safle'r Orsaf Bŵer rydyn ni eu hangen:

- **Canolfan Rheoli Argyfwng Amgen:** a fydd yn darparu cyfleusterau rheoli a chyfathrebu amgen; ni fydd staff yno o ddydd i ddydd
- **Labordy Arolygon Amgylcheddol:** cyfleusterau i reoli arolygon radiolegol yn yr ardal leol; bydd dau aelod o staff yno yn ystod gweithrediadau arferol
- **Garej Offer Argyfwng Symudol:** storio a rhoi gwasanaeth sylfaenol i'r cerbydau a'r offer; ni fydd staff yno o ddydd i ddydd

Ar ôl gwrandao ar yr adborth o'n ymgynghoriadau blaenorol, rydyn ni bellach yn cynnig cyfuno'r tri chyfleuster hanfodol hyn yn Llanfaethlu, y safle yr oedden ni wedi'i nodi ar gyfer y Garej Offer Argyfwng Symudol o'r blaen. Mae hyn yn golygu nad ydyn ni angen y safleoedd a nodwyd yn flaenorol yng Nghefn Coch a Llanrhuddlad erbyn hyn.

Operating Wylfa Newydd safely

and efficiently

We need a number of facilities that are geographically separate from, but near to, the Power Station Site to operate Wylfa Newydd safely and efficiently.

The off-site Power Station facilities we need are:

- **Alternative Emergency Control Centre (AECC):** providing alternative command and communications facilities; not staffed day-to-day
- **Environmental Survey Laboratory (ESL):** facilities to manage radiological surveys in the local area; staffed by two people during normal operations
- **Mobile Emergency Equipment Garage (MEEG):** storage and basic servicing of the vehicles and equipment; not staffed day-to-day

After listening to feedback from our previous consultations we are now proposing to combine these three essential facilities at Llanfaethlu, the site we had previously identified for the MEEG. This means we no longer need the sites previously identified at Cefn Coch or Llanrhyddlad.

Rhowch wybod i ni beth ydy eich barn ar ein cynigion i leoli ein cyfleusterau oddi ar y safle hanfodol gyda'i gilydd yn Llanfaethlu

Please tell us what you think of our proposals to put our essential off-site facilities together at Llanfaethlu

Braslun 3D dangosol o safle Llanfaethlu / Indicative 3D sketch of Llanfaethlu

Rhan o'r gymuned
A part of the community

Rydyn ni wedi ymrwymo i'r iaith Gymraeg a'i diwylliant, ac i sicrhau manteision cymunedol a fydd yn gadael eu hól mewn ffordd gadarnhaol.

Bydd prosiect mawr fel Wylfa Newydd yn sicrhau manteision pwysig i'r DU drwyddi draw, gan gynnwys cyflenwad diogel a sicr o drydan. Serch hynny, rydyn ni'n cydnabod y gallai'r Prosiect gael rhai effeithiau niweidiol ar gymunedau lleol, ac mae angen i ni ddeall yr effeithiau hynny er mwyn i ni eu hosgoi neu eu lleihau pan fydd hynny'n bosibl.

Cyfleoedd Addysg a Sgiliau

Rydyn ni'n cynnig darparu cyllid i wella cyfleusterau gwyddoniaeth a thechnoleg mewn ysgolion uwchradd i hyrwyddo'r pynciau STEM – Gwyddoniaeth, Technoleg, Peirianteg a Mathemateg. Rydyn ni hefyd yn cefnogi'r gwaith o greu Gwasanaeth Cyflogaeth a Sgiliau Wylfa Newydd er mwyn cynyddu'r cyfleoedd i bobl leol.

Y Gymraeg a'i Diwylliant

Rydyn ni'n recriwtio Cydlynnydd Iaith Gymraeg a'i Diwylliant i weithredu fel hyrwyddwr er mwyn cynnal a gwella ei hyfywedd.

Cadwyn Gyflenwi Leol

Rydyn ni'n datblygu Cynllun Gweithredu Cadwyn Gyflenwi i sicrhau bod cwmnïau lleol yn y sefyllfa orau bosibl i gystadlu am gontractau. Mae gennym ni eisoes tua 500 o gwmnïau wedi cofrestru drwy ein rhaglen Ymgysylltu â Chontractwyr yn Gynnar.

Y Cynllun Cymorth Cymunedol a Nawdd

Ers mis Ebrill 2016, rydyn ni wedi rhoi dros £80,000 i fwy na 40 o brosiectau cymunedol ar draws Ynys Môn a Gogledd Cymru. Dros y 12 mis diwethaf rydyn ni wedi cyfrannu cyllid at feiciau trydanol ar gyfer Canolfan Hamdden Biwmares, fan drydanol newydd ar gyfer Banc Bwyd Gwledig Ynys Môn ac wedi cefnogi Parc Chwaraeon Trefol newydd Llangefni.

Hoffem wybod yn arbennig beth ydy eich barn ar sut mae'r newidiadau rydyn ni'n eu cynnig i'n prosiect yn effeithio ar sut dylem ni ystyried manteision cymunedol, a'r iaith Gymraeg a'i diwylliant

We're committed to the Welsh language and culture, and providing community benefits that leave a lasting positive legacy.

A large project such as Wylfa Newydd will bring important benefits to the UK as a whole, including safe and secure electricity supplies. However, we recognise that the Project may result in some adverse effects for local communities, which we need to understand so we can avoid or minimise where possible.

Education and Skills opportunities

We're proposing to provide funding to improve science and technology facilities in secondary schools to promote of Science, Technology, Engineering and Maths (STEM) subjects. We are also supporting the creation of a Wylfa Newydd Employment and Skills Service to maximise opportunities for local people.

Welsh Language and Culture

We are recruiting a Welsh Language and Culture Coordinator to act as a champion to maintain and enhance its vitality.

Local Supply Chain

We are developing a Supply Chain Action Plan to ensure local companies are in the best possible position to compete for contracts. We already have around 500 companies registered through our Early Contractor Engagement programme.

Community Support and Sponsorship scheme

Since April 2016, we've donated more than £80,000 to more than 40 community projects across Anglesey and North Wales. In the last 12 months we've part-funded electric bikes for Beaumaris Leisure Centre, a new electric van for Anglesey Rural Food Bank and supported Cylch Meithrin Cemaes and the new Llangefni Urban Sports Park.

We'd particularly like to know how you think the changes we're proposing to our project affects how we should consider community benefits, and the Welsh language and culture

Have your say

CAM
STAGE
3

Hoffem wybod beth ydy eich barn
cyn i ni gyflwyno ein cais yn nes
ymlaen eleni.

**Gallwch roi'ch adborth i ni drwy wneud
y canlynol:**

- Llenwi ffurflen adborth yma heddiw, neu ei hanfon atom ar y cyfeiriad rhadbost:
FREEPOST HORIZON NUCLEAR POWER CONSULTATION
- Llenwi ffurflen adborth ar-lein yn **www.horizonnuclearpower.com/ymgynghoriad**
- Anfon neges e-bost i **ymholiadauwylfa@horizonnuclearpower**
- Ysgrifennu atom yn ein cyfeiriad rhadbost

Beth nesaf?

Pan fydd ein hymgynghoriad yn dod i ben ar **22 Mehefin 2017**, byddwn ni'n adolygu'r holl adborth rydym wedi'i gael ac yn ystyried y pwyntiau a godwyd wrth i ni gwblhau ein cynlluniau'n derfynol.

Yn nes ymlaen yn 2017 rydyn ni'n bwriadu gwneud cais am Orchymyn Cydsyniad Datblygu, a bydd yr Ysgrifennydd Gwladol yn penderfynu a ddylid rhoi caniatâd i ni adeiladu Wylfa Newydd.

Ymgynghoriadau eraill

Ar ôl i'n prif ymgynghoriad Cam Tri ddod i ben, byddwn ni'n ymgynghori ar wahân am agweddau eraill ar ein Prosiect. Mae'r rhain yn cynnwys gwella'r A5025 rhwng y Fali a safle Wylfa Newydd, a'r wybodaeth ddiweddaraf am ein cynigion i baratoi a chlirio'r safle. Y rheswm am hyn ydy bod angen i ni gyflwyno cais ar wahân i Gyngor Sir Ynys Môn i gael caniatâd cynllunio ar gyfer y rhannau hyn o'r Prosiect.

Os ydych chi'n byw yn un o'r ardaloedd lle mae'r cynlluniau hyn yn cael eu cynnig, byddwn ni'n rhoi rhagor o fanylion i chi yn nes at yr amser.

We'd like to hear what you think,
before we submit our application
later this year.

You can give us your feedback by:

- Filling out a feedback form here today or sending it to our Freepost address:
FREEPOST HORIZON NUCLEAR POWER CONSULTATION
- Completing an online feedback form at **www.horizonnuclearpower.com/consultation**
- Emailing us at **wylfaenquiries@horizonnuclearpower.com**
- Writing to us at our Freepost address

What happens next?

When our consultation closes on **22 June 2017**, we'll review all of the feedback we've received and consider the points raised as we finalise our plans.

Later in 2017, we plan to apply for a Development Consent Order (DCO), the Secretary of State will decide whether to grant us permission to build Wylfa Newydd.

Other consultations

After our main Stage Three consultation closes, we'll be consulting separately on other aspects of our Project. This includes improvements to the existing A5025 between Valley and the Wylfa Newydd site, and an update on our site preparation and clearance proposals. This is because we need to apply separately to Isle of Anglesey County Council for planning permission for these parts of the Project.

If you live in the one of the areas where these schemes are proposed, we'll provide you with more details nearer the time.

Appendix C.9- Join the conversation leaflet

Ymunwch yn y sgwrs!

Rydyn ni wedi diweddarau ein cynlluniau ar gyfer Wylfa Newydd, gorsaf bŵer niwclear newydd ar Ynys Môn.

Rydyn ni eisiau clywed eich barn am y cynigion diweddaraf hyn yn ein hymgynghoriad nesaf, rhwng dydd Mercher 24 Mai 2017 a dydd lau 22 Mehefin 2017, cyn i ni gyflwyno cais am ganiatâd i adeiladu'r Orsaf Bŵer yn nes ymlaen eleni.

ARDDANGOSFEYDD CYHOEDDUS:

Byddwn yn cynnal arddangosfeydd ar draws Ynys Môn er mwyn i chi allu gweld y cynlluniau ar gyfer Wylfa Newydd a chwrdd â'n tîm. Felly dewch draw i ddweud eich dweud.

Join the conversation!

We've updated our plans for Wylfa Newydd, a new nuclear power station on Anglesey.

We want to hear your views on these latest proposals in our next consultation, from Wednesday 24 May to Thursday 22 June 2017, before we submit an application for permission to build the Power Station later this year.

PUBLIC EXHIBITIONS:

We're holding exhibitions across Anglesey so you can view the plans for Wylfa Newydd and meet our team. So please come along and have your say.

SATURDAY 27 MAY 2017

Llangefni Town Hall
Bulkley Square, Llangefni
(10am – 1pm)

TUESDAY 30 MAY 2017

Llanfaethlu Village Hall
Llanfaethlu (1pm – 7pm)

WEDNESDAY 31 MAY 2017

The Valley Anglesey
London Road, Valley (1pm – 7pm)

FRIDAY 2 JUNE 2017

Cemaes Village Hall
High Street, Cemaes Bay (1pm – 7pm)

SATURDAY 3 JUNE 2017

Amlwch Memorial Hall
18 Market Street, Amlwch
(10am – 1pm)

SATURDAY 10 JUNE 2017

Rhosybol Community Centre
Yr Ysgol, Rhosybol
(10am – 1pm)

MONDAY 19 JUNE 2017

Cemaes Village Hall
High Street, Cemaes Bay
(1pm – 7pm)

OUT AND ABOUT:

We'll also be in the community and at local events in our consultation bus.

TUESDAY 6 JUNE 2017

Douglas Inn
Tregele, Cemaes Bay (4pm – 7pm)

WEDNESDAY 7 JUNE 2017

Holland Hotel Car Park
Llanfachraeth (4pm – 7pm)

THURSDAY 8 JUNE 2017

Conwy Quay
Lower Gate Street, Conwy
(4pm – 7pm)

MONDAY 12 JUNE 2017

Tesco Extra Car Park
Caernarfon Road, Bangor
(4pm – 7pm)

TUESDAY 13 JUNE 2017

Castle Square
Castle Street, Beaumaris
(4pm – 7pm)

WEDNESDAY 14 JUNE 2017

Lower Hill Street Car Park
Newry Street, Holyhead
(10am – 1pm)

WEDNESDAY 14 JUNE 2017

Holyhead Leisure Centre Car Park
Kingsland Road, Holyhead
(4pm – 7pm)

FRIDAY 16 JUNE 2017

Castle Square
Caernarfon (4pm – 7pm)

SATURDAY 17 JUNE 2017

Anglesey Farmers' Market
Ysgol David Hughes, Menai Bridge
(8am – 1pm)

TUESDAY 20 JUNE 2017

Douglas Inn
Tregele, Cemaes Bay (4pm – 7pm)

For more information about how we consult, or for a copy of this list of events, please visit our website www.horizonnuclearpower.com/consultation or call us on **0800 954 9516**.

More information will be available on our website and in local public places when our consultation opens on Wednesday 24 May 2017.

[DATE] 2017

DCRM Ref. No: WN0901-HZ-PAC-LET-00001

Dear XX,

Following on from the work by Community Involvement Officers in 2016, we have continued to build stronger partnerships with communities and the organisations that support them in North Wales.

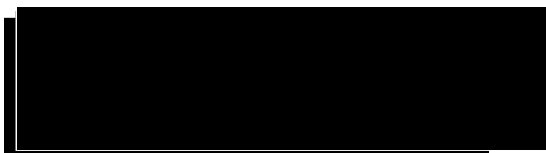

As you may already know, we are holding a Stage Three pre-application consultation (PAC3) between 24 May and 22 June 2017 focusing on the changes that have been made to our proposals for Wylfa Newydd. Our focus is to make sure we deliver a viable project that is high-quality, safe, affordable and a good neighbour to the local community.

As before, we'll be promoting the consultation in a wide variety of ways, including posters, radio advertisements and by sending a newsletter to every household on Anglesey. We'll also be holding exhibits and, for the first time, going to local events and into local communities in our consultation bus.

It's important to us that we involve as many people as possible in the local community. So if you are aware of people or a group who may need help accessing our consultation in a particular way, please contact me and we will work with you to help ensure they and you have an opportunity to be involved.

If you would like to discuss this further, I would be very pleased to hear from you. You can contact me at delyth.owen@horizonnuclearpower.com or by calling 0800 954 9516.

Yours faithfully,

Delyth Owen
Community Involvement Officer
Horizon Nuclear Power

[DATE] 2017

Cyfeirnod DCRM: WN0901-HZ-PAC-LET-00001

Annwyl XX,

Yn dilyn gwaith Swyddogion Cynnwys y Gymuned yn 2016, rydyn ni wedi parhau i feithrin cysylltiadau cryfach gyda chymunedau a'r mudiadau sy'n eu cefnogi yng Ngogledd Cymru.

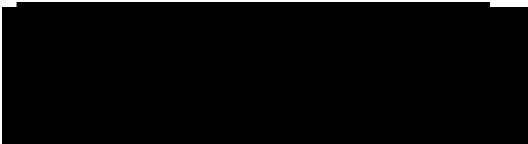

Fel bydd nifer ohonoch chi'n gwybod yn barod, rydyn ni'n cynnal ymgynghoriad cyn ymgeisio Cam Tri (PAC3) rhwng 24 Mai a 22 Mehefin 2017 sy'n canolbwyntio ar y newidiadau sydd wedi cael eu gwneud i'n cynigion ar gyfer Wylfa Newydd. Ein ffocws ydy sicrhau ein bod yn darparu prosiect dichonadwy sydd o ansawdd uchel, yn ddiogel, yn fforddiadwy ac yn gymydog da i'r gymuned leol.

Fel o'r blaen, byddwn ni'n hyrwyddo'r ymgynghoriad mewn nifer o ffyrdd, gan gynnwys posterï, hysbysebion radio a drwy anfon cylchlythyr i bob cartref ar Ynys Môn. Byddwn ni hefyd yn cynnal arddangosfeydd ac, am y tro cyntaf, byddwn ni'n mynd i ddigwyddiadau lleol ac i gymunedau lleol ar ein bws ymgynghori.

Mae hi'n bwysig ein bod yn cynnwys cynifer o bobl â phosibl yn y gymuned leol. Felly os ydych chi'n gwybod am bobl neu grŵp y gallai fod angen help arnynt i gymryd rhan yn ein hymgyngoriad mewn ffordd benodol, cysylltwch â mi ac fe wnawn ni weithio gyda chi i helpu i sicrhau eu bod nhw a'ch bod chi yn cael cyfle i gymryd rhan.

Os hoffech chi drafod hyn ymhellach, byddwn yn falch iawn o glywed gennych chi. Gallwch chi gysylltu â fi yn delyth.owen@horizonnuclearpower.com neu drwy ffonio 0800 954 9516.

Yn gywir,

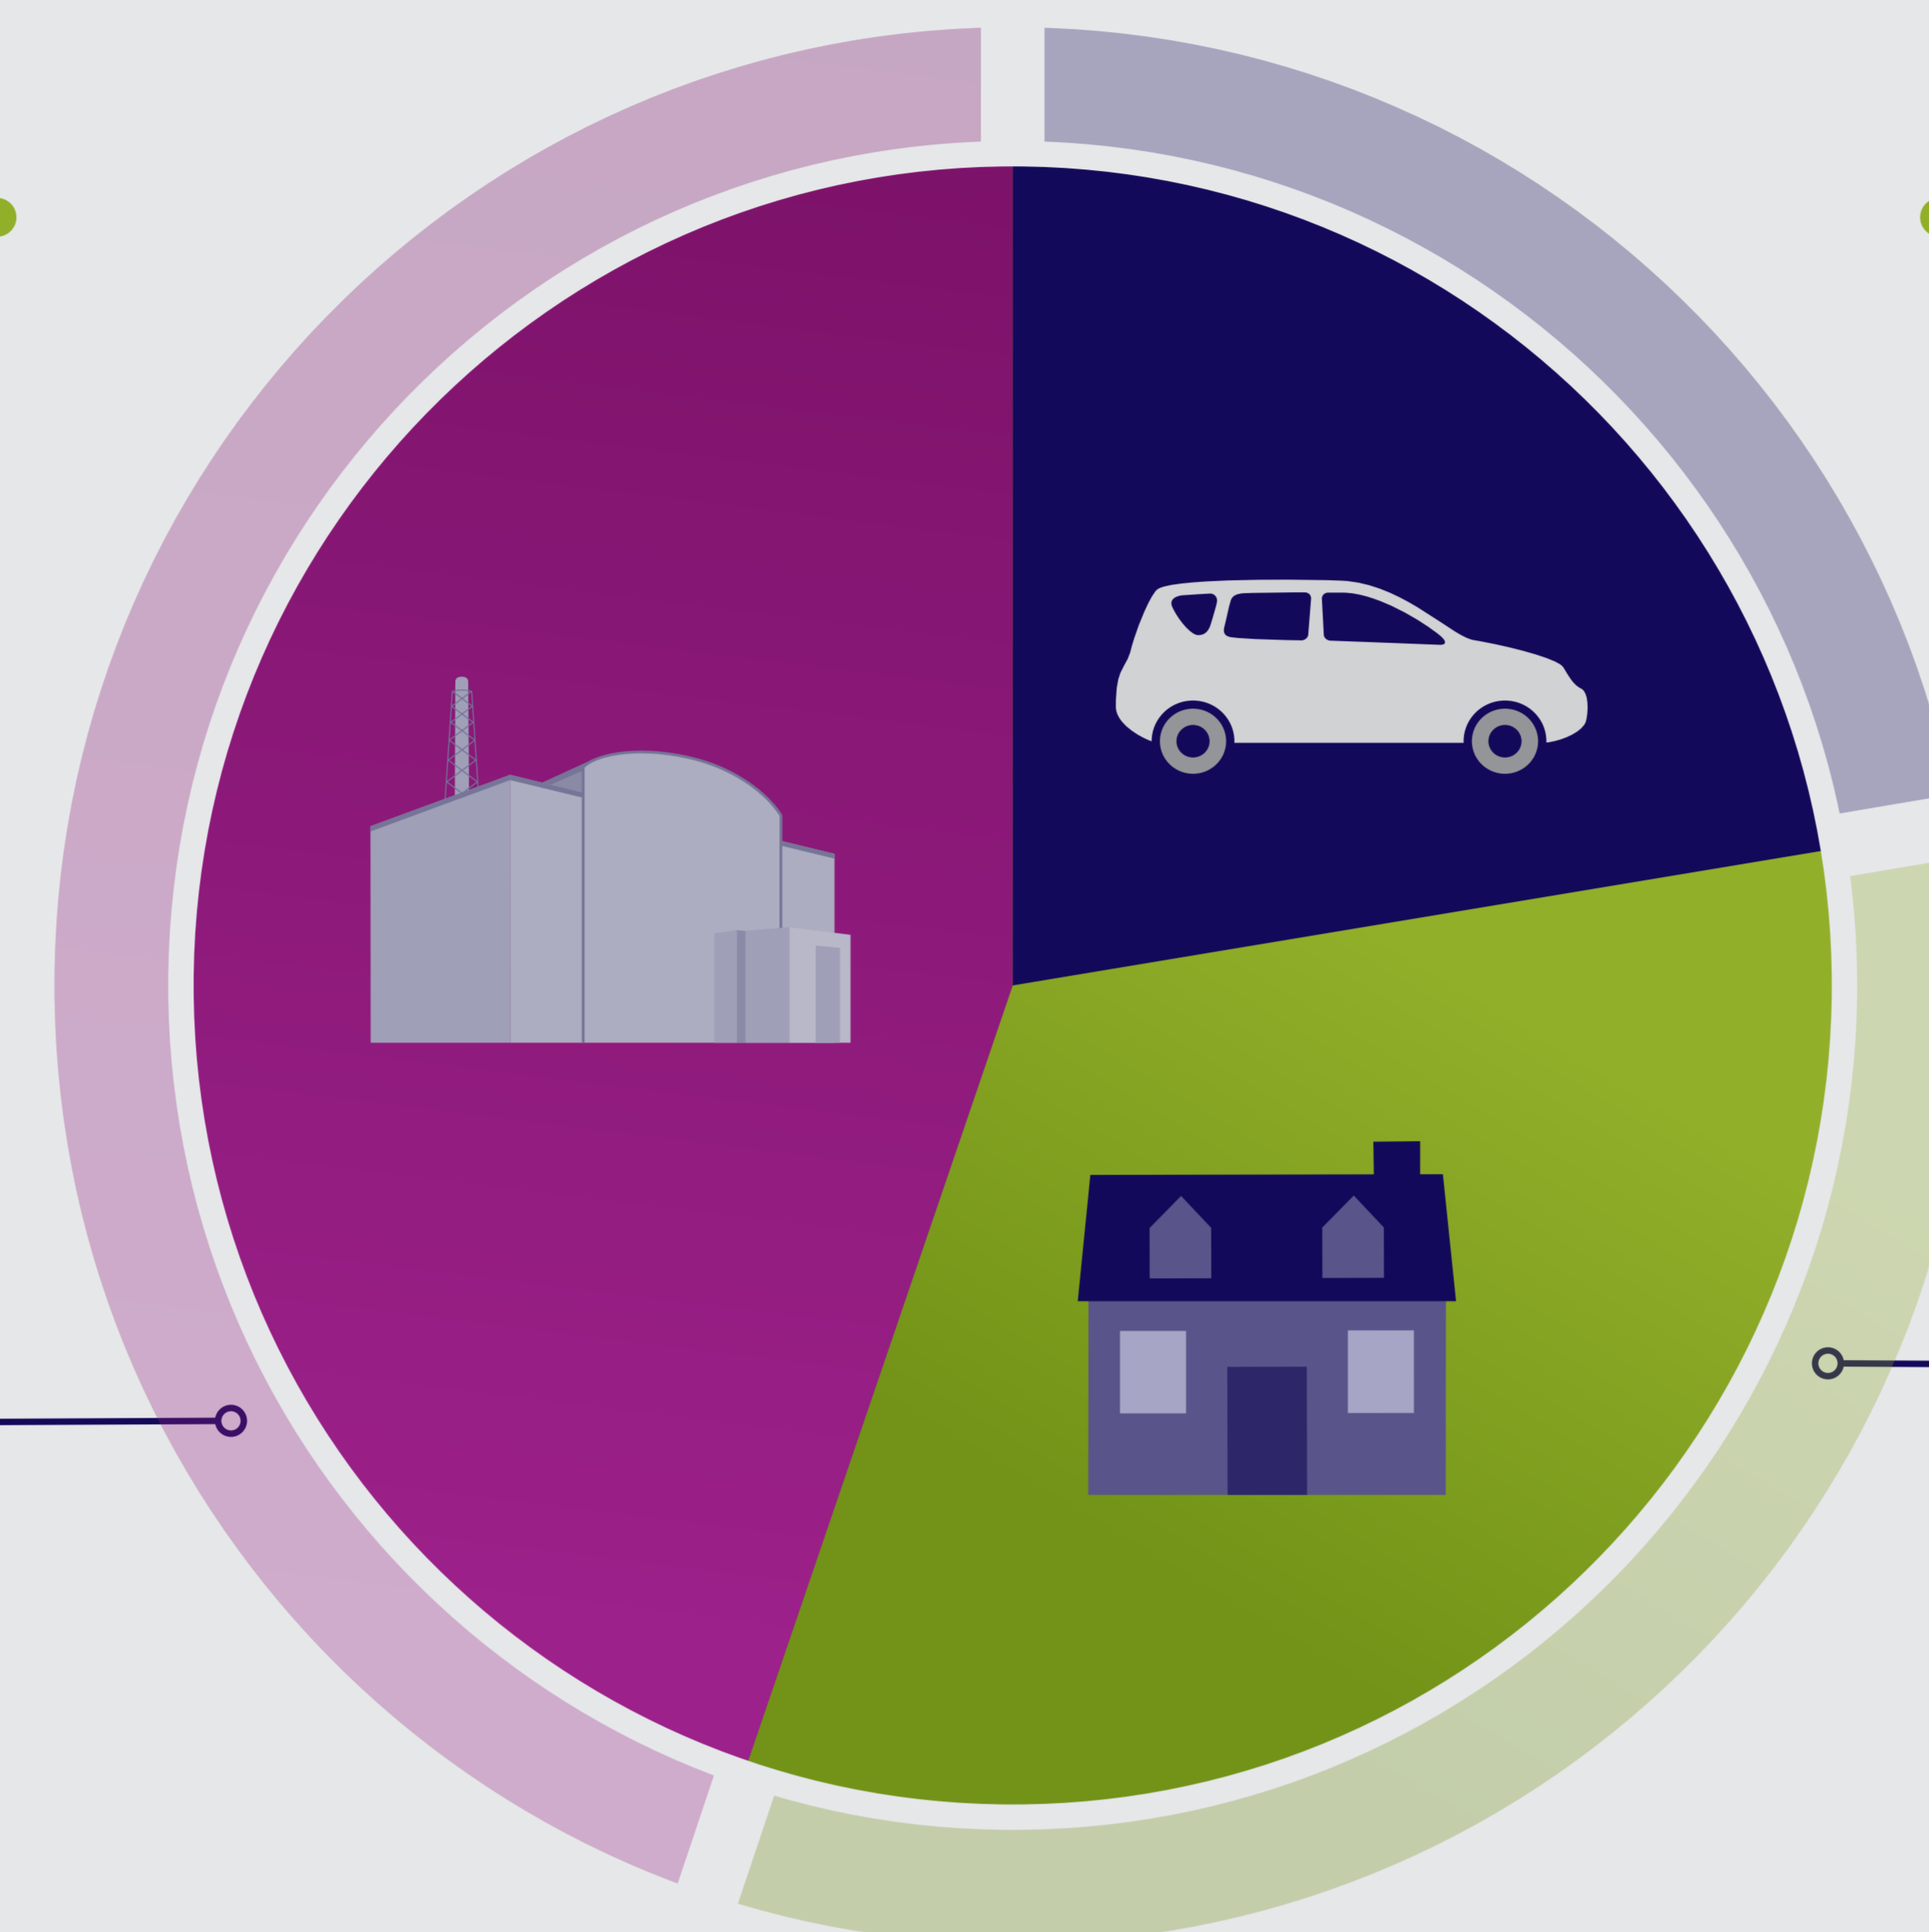

Delyth Owen
Swyddog Cynnwys y Gymuned
Pŵer Niwclear Horizon

CYFLEUSTERAU HANFODOL ODDI AR
Y SAFLE

Cyfuno tri chyfleuster hanfodol yn Llanfaethlu:

- > **Canolfan Rheoli Argyfwng Amgen:**
cyfleusterau rheoli a chyfathrebu eraill; ni fyddai staff yno o ddydd i ddydd
- > **Labordy Arolwg Amgylcheddol:**
cyfleusterau i reoli arolygon radiolegol yn yr ardal leol; bydd dau aelod staff yn gweithio yno
- > **Garej Offer Argyfwng Symudol:**
lle storio a gwasanaethu offer a cherbydau arbenigol; ni fyddai staff yno o ddydd i ddydd

ESSENTIAL OFF-SITE FACILITIES

Combined three essential facilities at Llanfaethlu:

- > **Alternative Emergency Control Centre (AECC):**
alternative command and communications facilities; it would not be staffed day-to-day
- > **Environmental Survey Laboratory (ESL):**
facilities to manage radiological survey in the local area, staffed by two people
- > **Mobile Emergency Equipment Garage (MEEG):**
storage and basic servicing of specialist vehicles and equipment; not staffed day-to-day

PARCIO A THEITHIO YN DALAR HIR

- > **Rydym wedi lleihau manau parcio**
o tua 2,700 i 1,900

PARK AND RIDE AT DALAR HIR

- > **We've reduced parking spaces**
from around 2,700 to 1,900

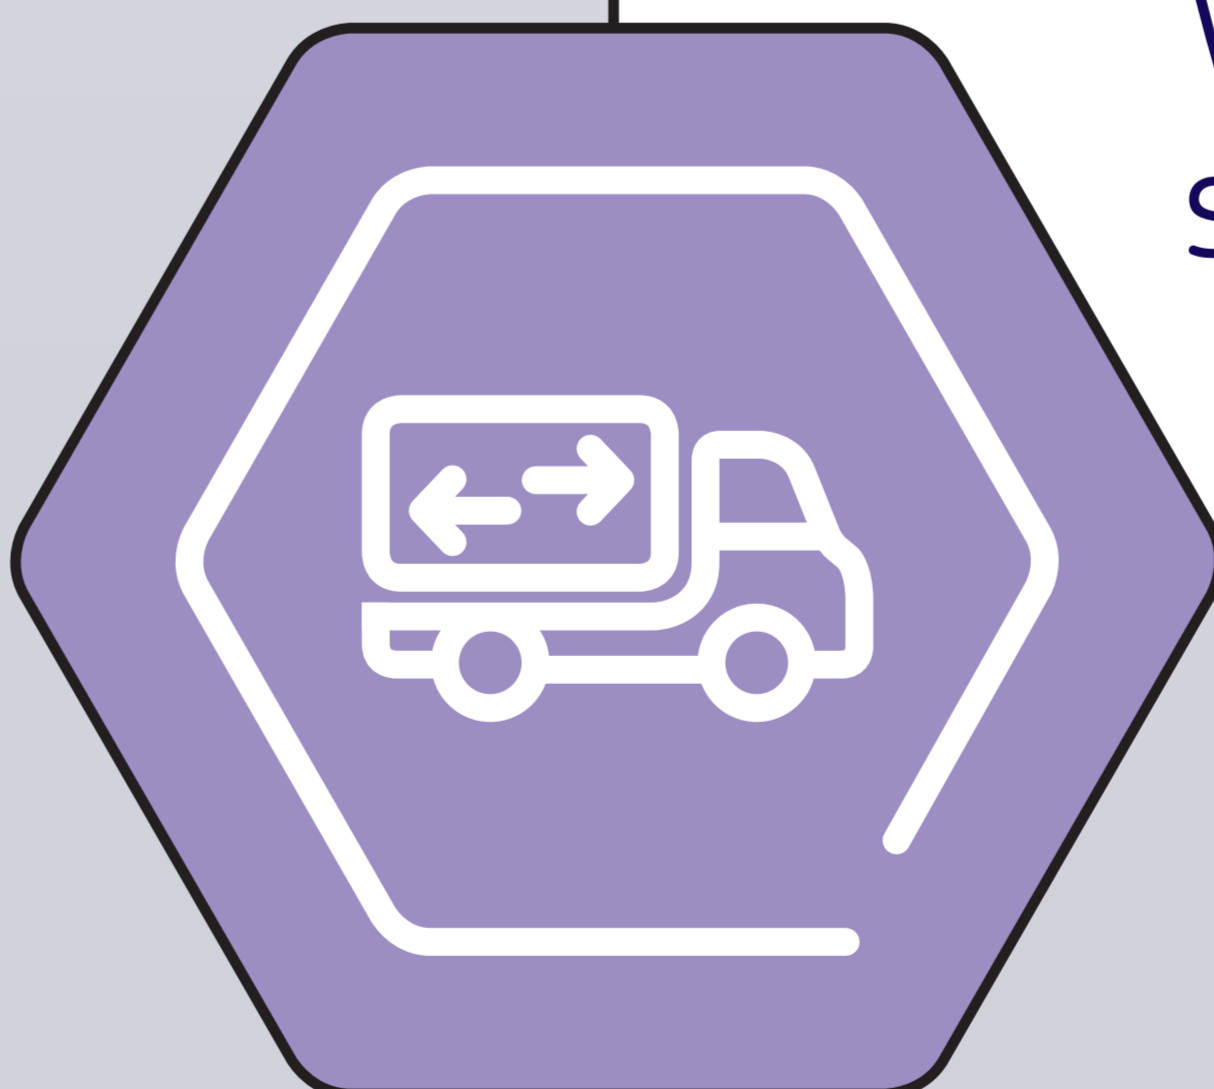

CANOLFAN LOGISTEG YM MHARC CYBI

- > **Rydym wedi cael gwared â'r warws.**
Rydym hefyd wedi cynyddu nifer y lleoedd ar gyfer HGVs i leihau tagfeydd traffig

LOGISTICS CENTRE AT PARC CYBI

- > **We've removed the warehouse.**
We've also increased the number of HGV spaces to manage traffic congestion

Horizon to consult on updated Wylfa Newydd proposals

People in North Wales are being invited to have their say on updated proposals for Wylfa Newydd, a new multi-billion pound power station on Anglesey.

Beginning on 24 May, Horizon Nuclear Power will carry out a smaller scale consultation focusing on aspects of its Project which have been updated including redesigning the power station layout to reduce its overall footprint.

The consultation continues the progress made by Horizon since its first two stages of major consultation in 2014 and 2016, providing another opportunity for local people to give their feedback before the company submits an application to build the power station later this year.

Duncan Hawthorne, Chief Executive Officer for Horizon, said: "As we move towards submitting an application to build the power station, we're continually reviewing our proposals to ensure they are the best they can be for everyone with a stake in the project, including those living and working on Anglesey now and for generations to come.

"Our latest proposals include a more compact site layout that means more activities can be carried out closer to the power station. Many aspects of our proposals remain the same, including our commitment to the residents and communities of Anglesey, and to the Welsh language and culture. It's really important for us to involve local people in shaping and refining our plans, so I'd like to thank everyone again for all of the feedback they've provided so far, and look forward to hearing their thoughts on our updates."

As well as holding events at venues across Anglesey, Horizon will also be out and about in a consultation bus visiting popular locations such as shopping centres and markets across North Wales.

Horizon's island events will be held on the following dates:

Public exhibitions		
Saturday 27 May	10am - 1pm	Llangefni Town Hall
Tuesday 30 May	1pm - 7pm	Llanfaethlu Village Hall
Wednesday 31 May	1pm - 7pm	The Valley Anglesey
Friday 2 June	1pm - 7pm	Cemaes Village Hall
Saturday 3 June	10am - 1pm	Amlwch Memorial Hall
Saturday 10 June	10am - 1pm	Rhosybol Community Centre, Yr Ysgol
Monday 19 June	1pm - 7pm	Cemaes Village Hall

consultation bus will be out and about at locations across North Wales on the following dates:

Consultation bus events		
Tuesday 6 June	4pm – 7pm	Douglas Inn Car Park, Tregale
Wednesday 7 June	4pm – 7pm	Holland Hotel Car Park, Llanfachraeth
Thursday 8 June	4pm - 7pm	Conway Quay
Monday 12 June	4pm - 7pm	Tesco Extra Car Park , Bangor
Tuesday 13 June	4pm - 7pm	Castle Square, Beaumaris
Wednesday 14 June	10am-1pm	Lower Hill Street Car Park, Newry Street, Holyhead
Wednesday 14 June	4pm - 7pm	Holyhead Leisure Centre Car Park
Friday 16 June	4pm - 7pm	Castle Square, Caernarfon
Saturday 17 June	8am-1pm	Anglesey Farmers' Market, Ysgol David Hughes, Menai Bridge
Tuesday 20 June	4pm – 7pm	Douglas Inn car park, Tregale

to meet the Horizon team face-to-face, or who wants to find out more, can visit Horizon's consultation website at www.horizonnuclearpower.com/consultation. Information will be available from Wednesday 24 May, along with a feedback form so comments can be submitted online.

-ENDS-

For more information contact:

Richard Foxhall – 07807 769265 or richard.foxhall@horizonnuclearpower.com

Notes to editors:

- Horizon Nuclear Power was formed in 2009 to develop new nuclear power stations in the UK. The company was acquired by Hitachi Ltd of Japan in November 2012.

- Horizon's development on Anglesey will represent a multibillion pound investment in North Wales, creating high-quality, long term employment opportunities and unlocking lasting economic and social benefits for the region.
- Horizon will publicise its latest Statement of Community Consultation (SOCC) from Wednesday 26 April, with the revised document being available in libraries and online from Thursday 4 May. The SOCC explains how the company will formally consult with people living in the vicinity of the proposed development at Wylfa Newydd and how people can have their say on its plans.
- The consultation material will be available to view on the Horizon website at www.horizonnuclearpower.com/consultation from Wednesday 24 May. Consultation will close on Thursday 22 June.

Appendix C.9- Consultation overview document

Wylfa Newydd Project Pre-Application Consultation – Stage Three

STAGE 3

Consultation Overview Document

Foreword

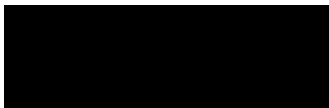

Since last year's update and second stage pre-application consultation, we have been busy reviewing feedback and further developing Wylfa Newydd. Our focus is to design a Power Station Project that's high quality, deliverable, safe, affordable and reflects local community views.

I am one hundred per cent focused on making this a reality. Wylfa Newydd will bring hundreds of millions of pounds of investment to North Wales through construction, operation and, ultimately, decommissioning. I'm also well aware of the scale of the Project and our responsibility to manage the impact of the construction phase in particular on the way of life, the language and culture and the environment in this beautiful part of Wales. We are working closely with representatives from across the community and the country, including the Welsh Government, Isle of Anglesey County Council and neighbouring authorities to establish as much consensus as possible on how best to deliver this great Project.

A number of aspects have been updated since our last consultation, the Power Station site layout being one, our construction worker accommodation strategy being another. You'll find details on the changes we're proposing in this document and you'll be able to discuss them with the Horizon team at local events and the crew of our roaming consultation bus which will help us meet more people in more communities.

You can read more about this next stage of consultation, and how you can have your say, on our website www.horizonnuclearpower.com/consultation.

As ever we are grateful for your time and we look forward to hearing your views.

Duncan Hawthorne

Chief Executive
Horizon Nuclear Power

OUR VISION

We believe there is a compelling requirement for new nuclear power in the UK to help tackle the vital and complex challenge of delivering a sustainable energy future. Horizon will safely deliver secure, affordable, low carbon energy for present and future generations.

All of the details about our events and other consultation activities over the next few months will be listed on our website at www.horizonnuclearpower.com/consultation and we'll continue to keep it up to date as we have interesting or new information to share.

Indicative Power Station Site layout

More information

Please look out for these icons throughout this document:

WHAT'S CHANGED?

Look out for the blue "What's changed?" boxes like this one throughout. These help to highlight where we've updated aspects of our Project. See page 5 for more details.

QUESTION

We have included questions about elements of the Project where your input could be particularly helpful. The question mark indicates when to refer to the feedback form.

MORE INFORMATION

This provides more detailed information about the Project.

DID YOU KNOW?

This highlights particular aspects of our Project that you might find interesting.

A guide to our consultation

1

Find the information you're interested in

We have reviewed our Project since our Stage Two pre-application consultation in Autumn 2016, and we'd now like your feedback on the changes we've made. This handy guide will help you find the information you need quickly and easily. We've also made sure we take other important factors into account, including:

WELSH LANGUAGE AND CULTURE

We continue to recognise that the Welsh language and culture are integral to the communities of Anglesey, and central to many people's sense of identity. We also recognise the connection between a strong economy, jobs and the well-being of the Welsh language and culture on Anglesey. We value Welsh language skills at all levels within our workforce and we are committed to supporting the use of the language across Anglesey's communities.

We are continuing our work to understand how our proposals could affect the Welsh language, culture and traditions – this is called a Welsh Language Impact Assessment.

THE ENVIRONMENT

The changes to the Project will have different effects for communities and the environment across Anglesey. Within the Main Consultation Document the Preliminary Environmental Information presents the changes to the project since Stage Two. We're also carrying out a Habitats Regulations Assessment to consider the potential effects of the Wylfa Newydd Project on European Designated Sites. The progress on this is summarised in Chapter 9 of the Main Consultation Document.

HEALTH AND WELL-BEING

As we've presented in previous consultations, when large projects such as ours are built in Wales, it is good practice, and suggested by national and local policy, to complete an assessment to understand how the project may affect health and well-being. The current status and findings of our Health Impact Assessment are described in Chapter 9 of the Main Consultation Document.

BENEFITS OF THE PROJECT

From page 35 you can find information about our approach to delivering economic, educational and community benefits and other ways that we intend to enhance the positive, and reduce the negative, effects of our Project.

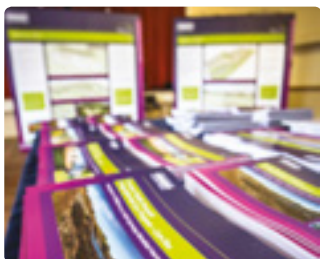

MORE INFORMATION

If you'd like more detailed information on any of the changes we're proposing, you can read our Main Consultation Document, available online and at our events.

2

Attending events...

The best way to get involved is to talk to us in person and complete a feedback form.

EXHIBITIONS

We're holding exhibitions across Anglesey throughout May and June. At these events, you'll be able to view information about the Project and meet the experts from our team. Welsh speakers will be available at all events.

OUT AND ABOUT

We'll also be out and about across North Wales in our consultation bus, so you can meet the team and see our plans.

POP-UP EVENTS

Throughout the consultation period, we'll be out and about in busy places across North Wales such as workplaces and local events. You can come along to speak to us and find out more in places that are convenient for you.

3

Tell us what you think

All of the Stage Three pre-application consultation materials are available on our website at www.horizonnuclearpower.com/consultation and will be available in hard copy at our events.

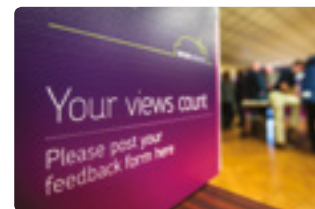

The most important thing is to tell us what you think about our proposals. Your views count!

You can send us your feedback in several different ways and in either Welsh or English. Please make sure you send us your feedback by 22 June.

FILL OUT OUR FEEDBACK FORM ONLINE

Go to our website and complete our online form at www.horizonnuclearpower.com/consultation

FILL OUT OUR PAPER FEEDBACK FORM

Fill out a paper feedback form and give it to us at one of our events. You can also post it to us free of charge.

WRITE TO US

Send us your thoughts in an email to wylfaenquiries@horizonnuclearpower.com or a letter to **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**

A summary of what's changed

Since our public consultation last autumn, we've been busy reviewing feedback and further refining our plans for Wylfa Newydd. Many of our proposals remain as we set out in 2016 but, to make sure the project is the best it can be, we're proposing some changes to the Power Station layout, and other aspects, such as how we house and manage the temporary construction workforce.

We've carried out a thorough review of our plans and redesigned the layout of the Power Station to make it more compact overall. This means we've been able to streamline our construction schedule and reduce construction worker numbers, which is expected to peak at a maximum of 9,000 for a few months at the end of 2023. This is fewer than the previous peak.

We've also updated other elements of the project:

- we've reduced the number of locations of temporary worker accommodation sites and we are now proposing to accommodate up to 4,000 workers in a specially designed single Site Campus on the Wylfa Newydd site. This will reduce our impact elsewhere on Anglesey
- we've refined our parking and travel plans to reflect our revised approach to housing construction workers as Site Campus workers won't need to travel to and from work each day
- we've changed the design of the Logistics Centre at Parc Cybi, and the park and ride at Dalar Hir
- we've also reduced the number of Associated Development sites, combining our essential off-site Power Station Facilities together at Llanfaethlu

WHAT'S STAYING THE SAME?

Many of our proposals remain as we set out in 2016:

- improvements to the A5025 between Valley and the Wylfa Newydd site
- the location for a park and ride at Dalar Hir
- the location for a Logistics Centre at Parc Cybi
- our commitment to the Welsh language and culture
- our commitment to providing community benefits that help deliver a positive socio-economic legacy to Anglesey but also the wider North Wales region

DID YOU KNOW?

We'll construct the Site Campus in phases, with the first two totalling 2,500 beds. The final phase of 1,500 beds will be built only as required.

MORE INFORMATION

The construction workforce is now anticipated to peak at around 8,500. However, to ensure that the Project can be flexible to the pressures of unforeseen increased demand, we are basing our assessments on 9,000 workers. This is a reduction from our Stage Two pre-application consultation estimate of peak working numbers, which is also in response to concerns expressed in previous consultations.

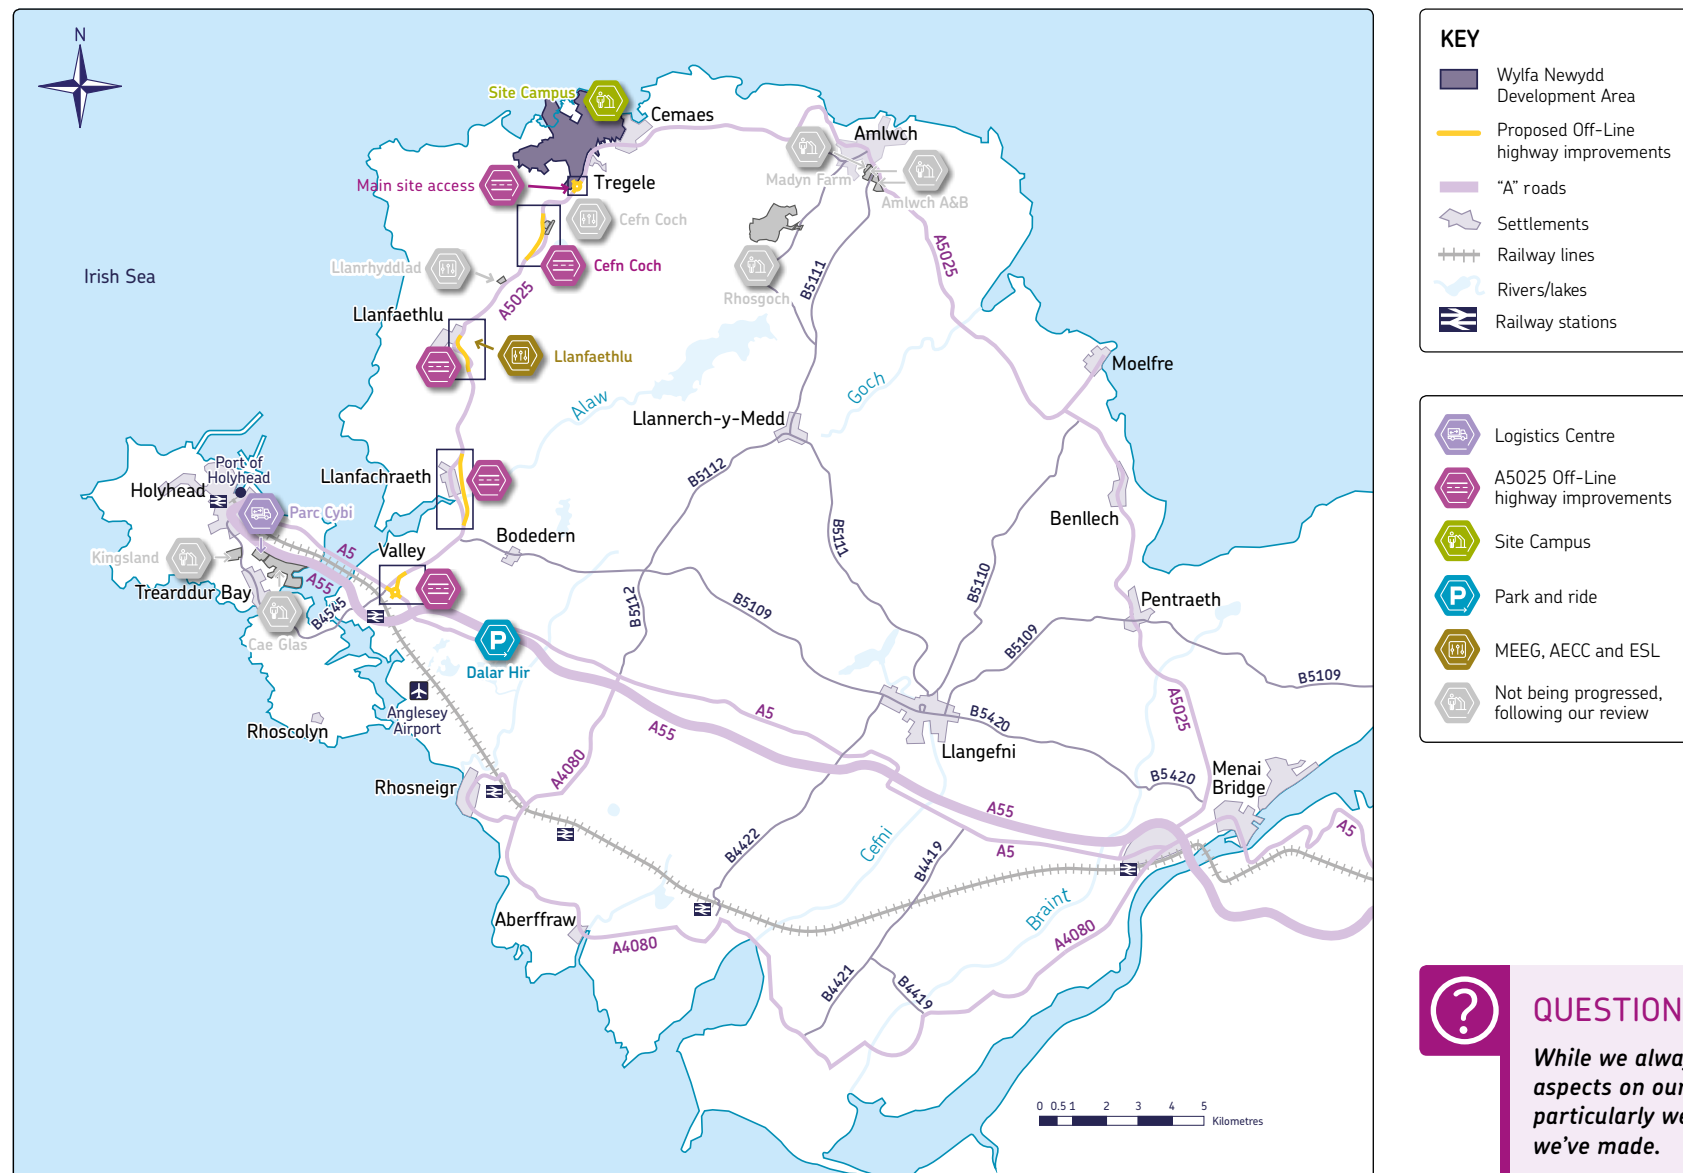

DOCUMENTS RELATING TO THIS CONSULTATION

We have two documents that explain the details of this consultation:

- Consultation Overview Document (*this document*). This non-technical document is available in Welsh and English
- Main Consultation Document. As a technical document, this is available in English only in line with our Welsh Language policy

These documents can be downloaded from Horizon's website: www.horizonnuclearpower.com/consultation. They are also available in hard copy form at libraries and Council offices on Anglesey, in Gwynedd and Conwy, and the Anglesey Business Centre. Non-technical documents are available on request in both large text and audio versions by calling 0800 954 9516 or emailing wylfaenquiries@horizonnuclearpower.com

QUESTION – GENERAL

While we always welcome comments on all aspects on our Project, for this consultation we'd particularly welcome your view on the changes we've made.

Project introduction

The UK faces significant energy challenges in the coming years and needs investment in low carbon electricity generation.

To support this, we are planning to construct and operate a new nuclear power station on Anglesey, to the west of Cemaes and south-west of the existing Magnox power station. The Wylfa Newydd Power Station would generate 2,700 megawatts of electricity, providing enough secure, low carbon power for around five million homes for decades to come. It will involve substantial investment in the area and create significant short, medium and long-term employment opportunities and economic benefits for Anglesey and North Wales.

This document provides an update to the Wylfa Newydd Project, which has gone through an important period of review since the previous consultation in the autumn of 2016. Ongoing design work and your feedback has allowed us to improve the balance between a project which is deliverable and one that increases local opportunities while minimising impacts as far as possible on communities and the environment.

This consultation explains the changes to the Project since our previous Stage Two consultation and any significant individual or collective changes that are likely to occur. Where changes have not been made from the proposals we set out in our Stage Two pre-application consultation, we have not repeated that information. This can be found at www.consultation.horizonnuclearpower.com/stage-2/overview

The Project includes our proposals for the Power Station, Off-Site Power Station Facilities and Associated Development.

THE POWER STATION

The new nuclear Power Station will include two UK Advanced Boiling Water Reactors (UK ABWRs) supplied by Hitachi-GE Nuclear Energy Ltd (Hitachi-GE), associated plant, ancillary structures and features that will be constructed and operated on Anglesey.

Construction works will be needed on the land around the Power Station and in the sea at Porth-y-pistyll. This will include creation of a permanent landscaped setting for the Power Station as well as construction of our cooling water system, associated breakwaters and Marine Off-Loading Facility (MOLF).

As part of the construction and subsequent operation of the facility we are committed to encouraging local employment and increasing the skills base on Anglesey and in North Wales. These initiatives will be directly aligned with the promotion of the Welsh language and culture.

OFF-SITE POWER STATION FACILITIES

We also have to develop some facilities that are geographically separate from, but local to and part of, the Power Station. These are an alternative emergency control centre, an environmental survey laboratory for the Power Station, and a garage to store specialist vehicles. You can find more about this on page 17.

ASSOCIATED DEVELOPMENT

Associated Development supports the delivery and operation of the Power Station. This includes new sections of the A5025, temporary accommodation for construction workers, a park and ride facility, and a Logistics Centre. You can find more information on these starting on page 24.

ENABLING WORKS

We are also proposing to undertake enabling works which include:

- **Site Preparation and Clearance works** – this is to prepare the site for the Main Construction stage. Works include demolishing existing buildings, constructing fencing, clearing vegetation and treating contaminated land
- **On-Line Highways Improvements** – this is work to improve the existing A5025 and includes widening, reconstructing and resurfacing the road from Valley to the Power Station Site

Proposed timeline and phasing of the Wylfa Newydd Project

Update on consultation and engagement activities

WHERE WE ARE NOW

We have previously asked for your views in autumn 2014, January 2016 and autumn 2016. Feedback from previous consultations has been important in helping us to refine our Project to respond to your comments. This has helped us develop our proposals for the numbers and accommodation for temporary construction workers, and proposals to enhance benefits and to reduce or avoid the negative effects of the Project.

We are also continuing to engage on Project proposals with technical consultees such as Isle of Anglesey County Council, Welsh Government, Natural Resources Wales, Gwynedd Council, Conwy County Borough Council, Design Commission for Wales and the Office for Nuclear Regulation.

At the same time as updating our proposals, we have been continuing to develop initiatives that encourage local training and education. We've also continued to work on our commitment to the Welsh language and culture to support understanding within the construction and operational workforce.

DID YOU KNOW?

We will appoint a Welsh Language and Culture Coordinator to develop a behavioural based programme aligned to the goals of the consultation recommendations.

MORE INFORMATION

Our updated Statement of Community Consultation outlines how we are consulting on our Project proposals. You can find it on our website at: www.horizonnuclearpower.com/consultation.

CHANGES TO THE CONSENTING PROCESS

At the time of our Stage Two consultation, under the Town and Country Planning Act 1990, we were required to submit several individual planning applications for our Associated Development to Isle of Anglesey County Council.

A change in the law (known as the Wales Act 2017) means that we are now able to include our Associated Development in our main application for Wylfa Newydd Power Station, known as a Development Consent Order (DCO). This means that the multiple sites which form the Project can be considered and controlled 'in the round' as one main application. We will still need separate marine licenses for work we do in the marine environment.

WHAT'S CHANGED?

Our Associated Development proposals will now be included as part of our main application, called a Development Consent Order (DCO), following recent changes in legislation.

MORE INFORMATION

Feedback received from our Stage Two pre-application consultation can be found in Chapter 2 of the Main Consultation Document.

CONSULTATION ON ENABLING WORKS

We will be submitting planning applications for our enabling works to Isle of Anglesey County Council in 2017. We held a series of information events in spring and autumn 2016 to present our proposals as they stood at that time.

Since then, we have reduced the scope of the Site Preparation and Clearance proposals. We have also refined our proposed improvements to the existing A5025 between Valley and our site, known as On-Line Highways. We will be consulting separately on both of these in summer 2017.

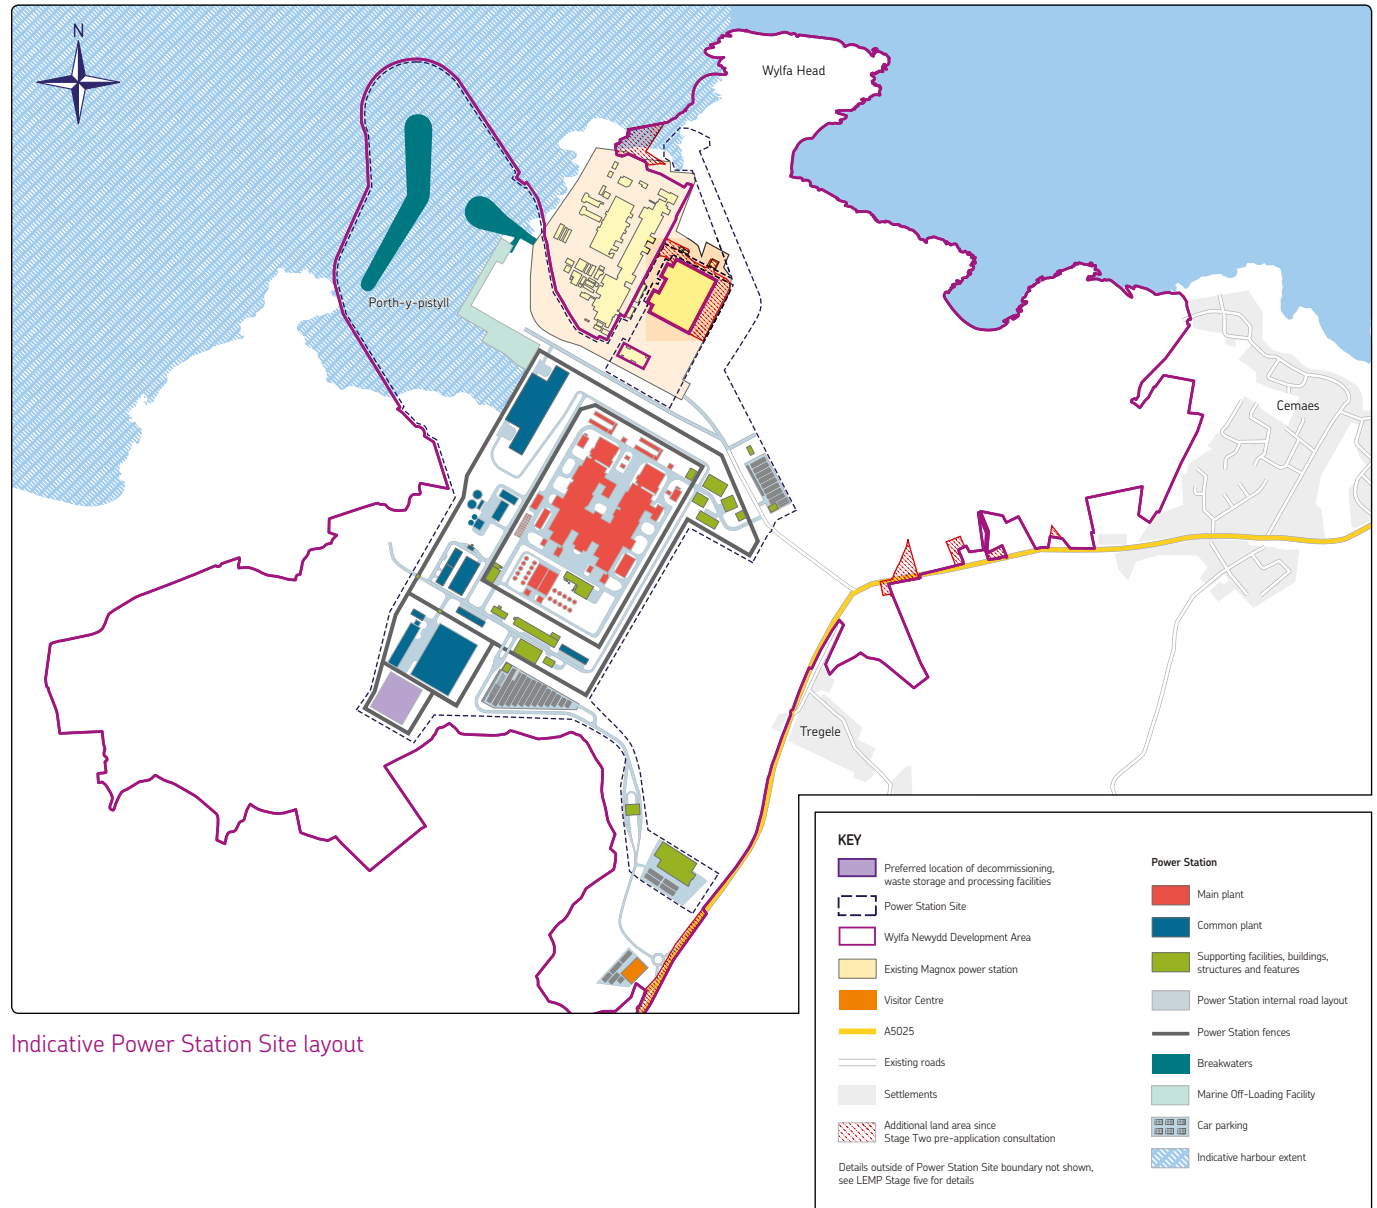

Project proposals

PROJECT LOCATION AND AREA

The area of land needed to build the Power Station has remained largely the same. However, additional pockets of land have recently been added to the Wylfa Newydd Development Area to allow the landscaping to be improved. The main buildings for operation of the Power Station will be located in the Power Station Site. As well as this, we need other areas to locate the Off-Site Power Station Facilities and Associated Development.

We use different terms to refer to where parts of our Project will be built:

- Power Station Site:** the indicative area of land and sea within which the majority of the permanent Power Station buildings, plant and structures will be located. This includes the two nuclear reactors, steam turbines, the cooling water system intake, outfall structures, breakwaters and the Marine Off-Loading Facility (MOLF)
- Wylfa Newydd Development Area:** the indicative areas of land and sea including the Power Station Site, and the surrounding areas that will be used for construction and operation of the Power Station. It will also include the onsite temporary workers accommodation known as the Site Campus. This area is representative of the maximum area that will be physically affected by construction activities related to the Power Station and used to form the setting and landscaping features of the operational Power Station. Additional land that has been included in this area since the previous consultation is highlighted in the layout figure
- Off-Site:** the areas of land needed for the Project that fall outside of the Wylfa Newydd Development Area. Components that will be off-site include most of the Associated Development and the Off-Site Power Station Facilities

Indicative Power Station Site layout

POWER STATION SITE

The design of the Power Station Site has been refined since our previous consultation, informed by the appointment of Menter Newydd to help construct and deliver the Project. Permanent development at the Power Station Site includes the main operational plant and structures comprising:

- **main plant:** the parts of the Power Station that enable generation of power. This includes a single power island containing the two UK ABWRs and directly associated buildings
- **common plant:** the parts of the Power Station that service the generation of power but are shared between the two UK ABWRs
- **supporting facilities, buildings, structures and features:** the parts of the Power Station necessary to support the operation and maintenance of the Power Station, including offices, security facilities, and the MOLF
- **marine works:** the components of the Project required in the marine environment to support construction and operation of the Power Station, including the cooling water system intake, the outfall, and two breakwater structures

DID YOU KNOW?

Horizon recently finalised its Engineering Procurement and Construction Joint Venture with Hitachi Nuclear Energy Europe, Bechtel Management Company and JGC Corporation (UK). It will be overseen by Horizon and known as Menter Newydd, and they will build the power station.

Further details on the involvement of Menter Newydd are set out in Chapter 1 of the Main Consultation Document. This can be found on our website at: www.horizonnuclearpower.com/consultation

WHAT'S CHANGED?

- *The main plant buildings are now located on a single 'power island' - the Power Station buildings contain the main plant needed to generate power - rather than two independent areas. This has reduced the overall site area and created a more sustainable Project*
- *Some of the buildings, structures and features needed to generate power or support the Power Station have been reduced in number and redesigned to make the Power Station more efficient and deliverable. This reduces the area of the Power Station and moves the perimeter fence further away from the A5025 and local communities*
- *The construction process now adopts a more modular technique (i.e. components pre-constructed off-site) which reduces the construction programme and requires less construction workers on site*
- *The training and simulator building has been relocated to the south of the Power Station to a new location further from the village of Tregle*
- *To allow us to refine the design and layout of the site further and make sure construction can take place as smoothly as possible, we will seek flexibility as to the precise locations of some of these supporting buildings on the Power Station Site in our DCO application*
- *A temporary viewing area will be built during the construction period to provide a safe area for visitors to see the construction. It is still our intention to construct a permanent Visitor Centre on site*

WYLFA NEWYDD DEVELOPMENT AREA AND SURROUNDINGS

Temporary development within the Wylfa Newydd Development Area to support construction of the Power Station includes:

- **on-site temporary workers' accommodation (the Site Campus):** providing temporary accommodation and key services for up to 4,000 construction workers
- **construction laydown areas, working areas, car parking, access roads and internal site roads:** construction infrastructure to enable the development of the Power Station
- **interim landscape works, drainage, fencing and closure and diversion of public rights of way:** aspects of the construction works designed to reduce effects as far as possible and described within our Landscape and Environmental Masterplan (LEMP)

One of the ways that we're managing the effects of the Project is through our LEMP. We are continuing to develop a comprehensive plan for the Wylfa Newydd Development Area as it sets out the environmental context, landscape and seascape settings for the Power Station. The LEMP shows how we plan to adapt the environment within the Wylfa Newydd Development Area and the permanent changes to the landscape we expect to make.

The LEMP incorporates preliminary environmental assessment work, and outlines proposals for drainage; ecology; recreation and agricultural use; and landscaping. More preliminary environmental information on the LEMP is in Chapter 3 of the Main Consultation Document.

WHAT'S CHANGED?

- *The Site Campus provides temporary workers accommodation and key services for up to 4,000 workers on the Wylfa Newydd Development Area. This means we no longer need to provide campus style temporary workers' accommodation elsewhere on Anglesey*
- *The construction and working areas have continued to evolve including provision of additional parking for construction workers on the site*

WHAT'S CHANGED?

- *The landscape mounds have been reviewed to give a more natural shape to the landscape, in keeping with the existing surrounding drumlins. They will help screen the Power Station from surrounding viewpoints and will appear more consistent with the existing landscape*
- *Particular focus has been given to the profile and height of mounding where it is closest to existing communities and the Site Campus*
- *The Wales Coast Path would be diverted inland of the Power Station mainly due to the technical, safety, and security challenges of providing a footbridge over the cooling water intake structure*
- *Most of the public rights of way and access to Fisherman's Car Park will remain open during the early Site Preparation and Clearance works*

OFF-SITE POWER STATION FACILITIES

The Off-Site Power Station Facilities will be physically separate from, but local to, the Power Station Site and are an integral part of our emergency arrangements. These include:

- **Alternative Emergency Control Centre (AECC):** to provide back-up command and communication facilities
- **Environmental Survey Laboratory (ESL):** to provide facilities to manage radiological surveys in the local area, including radiation monitoring equipment controls
- **Mobile Emergency Equipment Garage (MEEG):** to house a number of specialist vehicles

WHAT'S CHANGED?

All three Off-Site Power Station Facilities have been consolidated on to the site at Llanfaethlu (an existing bus depot). This means we no longer need the Cefn Coch or Llanrhyddlad sites. This reduces the number of development sites associated with our Project.

ASSOCIATED DEVELOPMENT

Associated Development supports the delivery of the Power Station and includes:

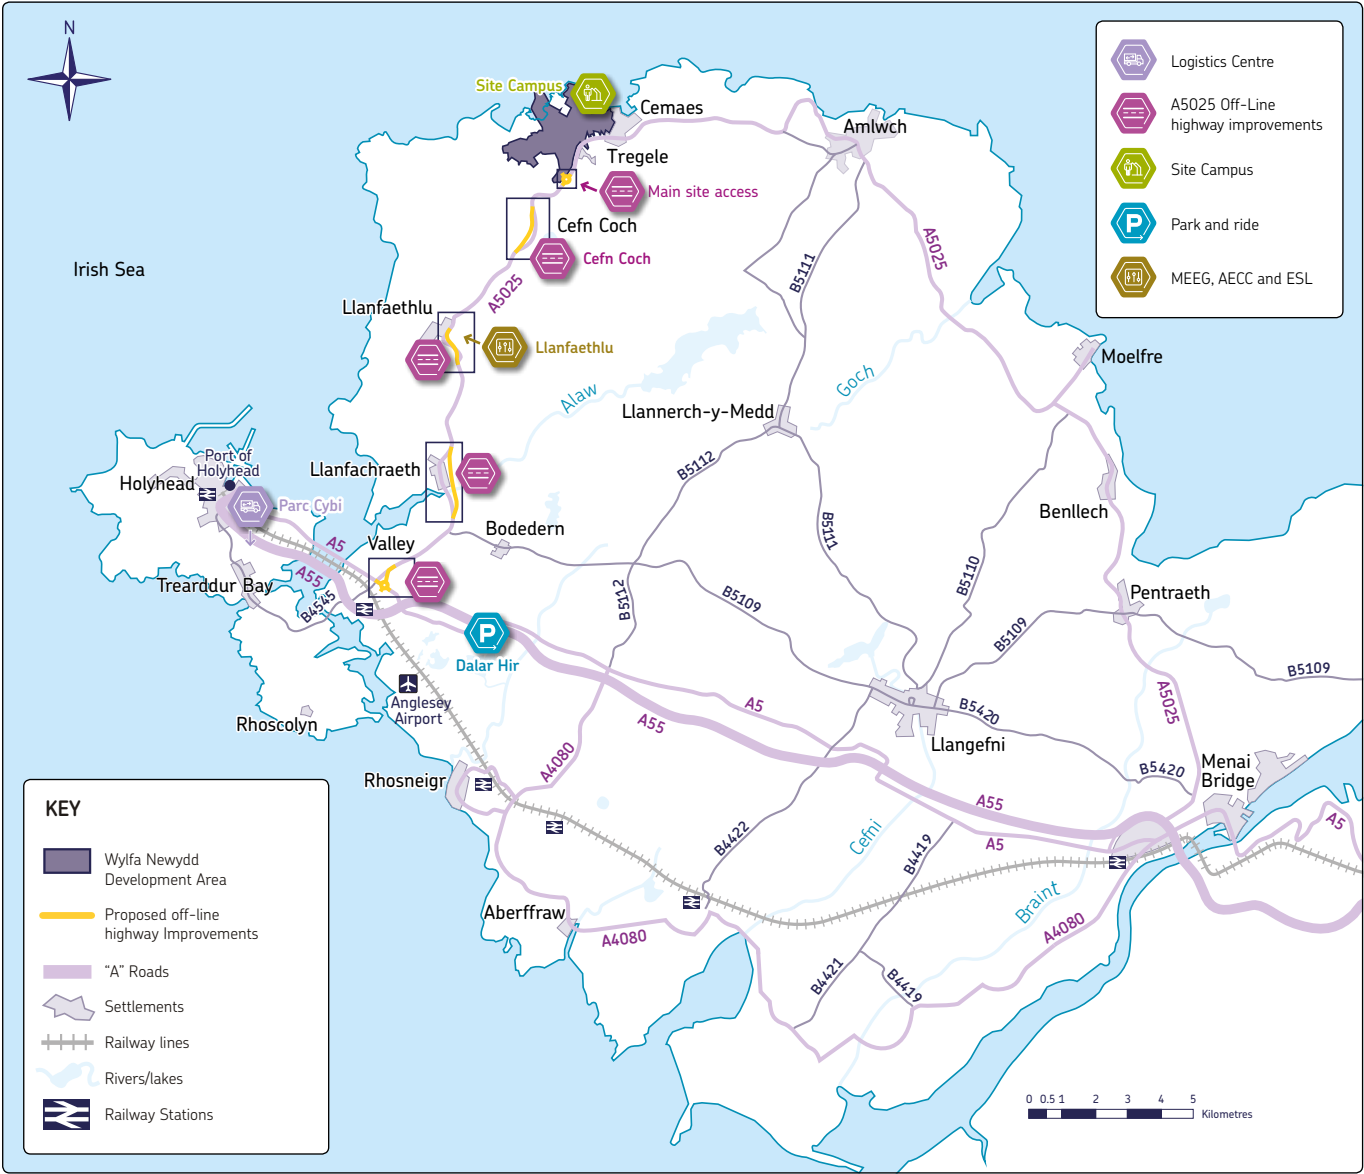

- **Off-Line highway improvements:** these comprise new sections of road along the A5025 between Valley and the Power Station Site to improve access and safety
- **park and ride facility:** a temporary hub for the transfer of construction workers from private vehicles onto shared transport to reduce Project traffic on local roads
- **Logistics Centre:** a temporary secure facility where we can manage lorry movements to the Power Station Site to reduce effects on communities

WHAT'S CHANGED?

We have amended our proposals for Associated Development including:

- *Changes to the Off-Line highways improvement proposals are described in more details at page 32 of this document*
- *We have made changes to the facilities located on the park and ride and the Logistics Centre sites, see pages 27 – 29 for additional detail*

Preferred indicative locations for Off-Site Power Station Facilities and Associated Development

Update on construction, operation and decommissioning

ENABLING WORKS

To prepare the site for the Main Construction Stage, the land will need to be cleared of many existing features such as buildings, walls and hedges. We will also need to make improvements to the A5025 between Valley and the Power Station Site. Both of these will be subject to separate planning applications to be submitted in summer 2017.

The Site Preparation and Clearance works will include demolishing existing buildings, clearing many features, and creating several construction compounds and two new road crossings. A section of an existing watercourse will also be realigned. We have identified historic contamination in several locations of the site and this will be treated using specialist techniques.

We intend to keep public rights of way open for much of the period of the works, and any construction fencing needed will include gaps for public access on permitted routes.

If for any reason we are not granted a DCO for Wylfa Newydd, we would restore the site to a condition to be agreed with Isle of Anglesey County Council.

The required changes to the existing A5025 between Valley and the Power Station Site are known as “On-Line highway improvements”. These works include:

- **widening:** the road to an overall width of 7.3 metres (with only a handful of locations where this is not possible)
- **reconstruction:** remove and replace the layers which make up the highway surface. We have undertaken tests to assess the condition of different layers of the road to help us understand the sections that need to be reconstructed and strengthened
- **resurfacing:** resurfacing the base layers of the road where, even though it may look acceptable, we know through testing that the base conditions are poor

The stretch of the A5025 from Valley to the Power Station Site will also require improvements that are unable to be accommodated along the line of the existing road. These new sections of road, known as Off-Line highway improvements, are explained in Chapter 32 of the Main Consultation Document.

MORE INFORMATION

As part of our surveys of the Wylfa Newydd Development Area several locations of archaeological interest have been identified. We will be investigating these areas during 2017 and 2018 to understand their importance and will be sharing the findings with local communities.

MAIN CONSTRUCTION

The Main Construction stage is anticipated to start in 2020 and would last for around eight to nine years.

The types of main construction activities remain largely unchanged since the previous consultation and continue to include:

- bulk earthworks including site levelling and grading, leading to the creation of building platforms and construction laydown areas
- construction of a new Power Station access road
- establishment of large temporary construction compounds to allow for storage of materials and temporary construction buildings
- construction of haul roads and bridges
- construction of a concrete batching plant
- marine construction including the breakwaters, cooling water intake and outfall and a Marine Off-Loading Facility (MOLF)
- construction and occupation of the Site Campus
- deep excavations and tunnelling for construction of the foundations of the main plant
- general construction of all Power Station buildings, facilities and structures, and installation of all major equipment

More information on Main Construction is at Chapter 3 of the Main Consultation Document.

MARINE WORKS

The Project continues to include development within the marine environment in two locations:

- at Porth-y-pistyll, where the breakwaters, cooling water intake, MOLF, and other structures will be located; and
- the cooling water outfall which is located in the same position as the outfall structure of the existing Magnox power station

These works include:

- a MOLF to provide berths for bulk vessels which will facilitate delivery of materials directly to the Power Station Site by sea during construction
- two breakwaters to form the harbour area and provide protection to the cooling water intake and vessels using the MOLF
- shore protection to prevent erosion
- dredging to provide sufficient water depths for navigation of vessels using the MOLF
- cooling water intake, including screening and fish deterrent systems, and a cooling water outfall
- dredged material disposed at sea and/or re-use for construction

Since the previous consultation we have changed the proposed design of both breakwaters (the eastern and the western breakwater as shown on page 9). We intend to retain some flexibility in our proposals to allow for some further refinement in the final design of the breakwaters. Overall, however:

- We anticipate the eastern breakwater to be larger than previously proposed (with a length of around 150 metres)

- The western breakwater is anticipated to be smaller than previously proposed (with a reduced length of around 500 metres). It will also be located slightly further out to sea

We will need to obtain marine licences from Natural Resources Wales to undertake these works.

WHAT'S CHANGED?

- *The sizes and location of the breakwaters have been refined to allow for flexibility and the western breakwater is now around 20 metres further out to sea*
- *The cooling water intake is larger to make the system more efficient and better able to protect fish and marine mammals*

MORE INFORMATION

More information on our marine works, the marine licenses and preliminary environmental information about the marine environment can be found in Chapter 3 of the Main Consultation Document.

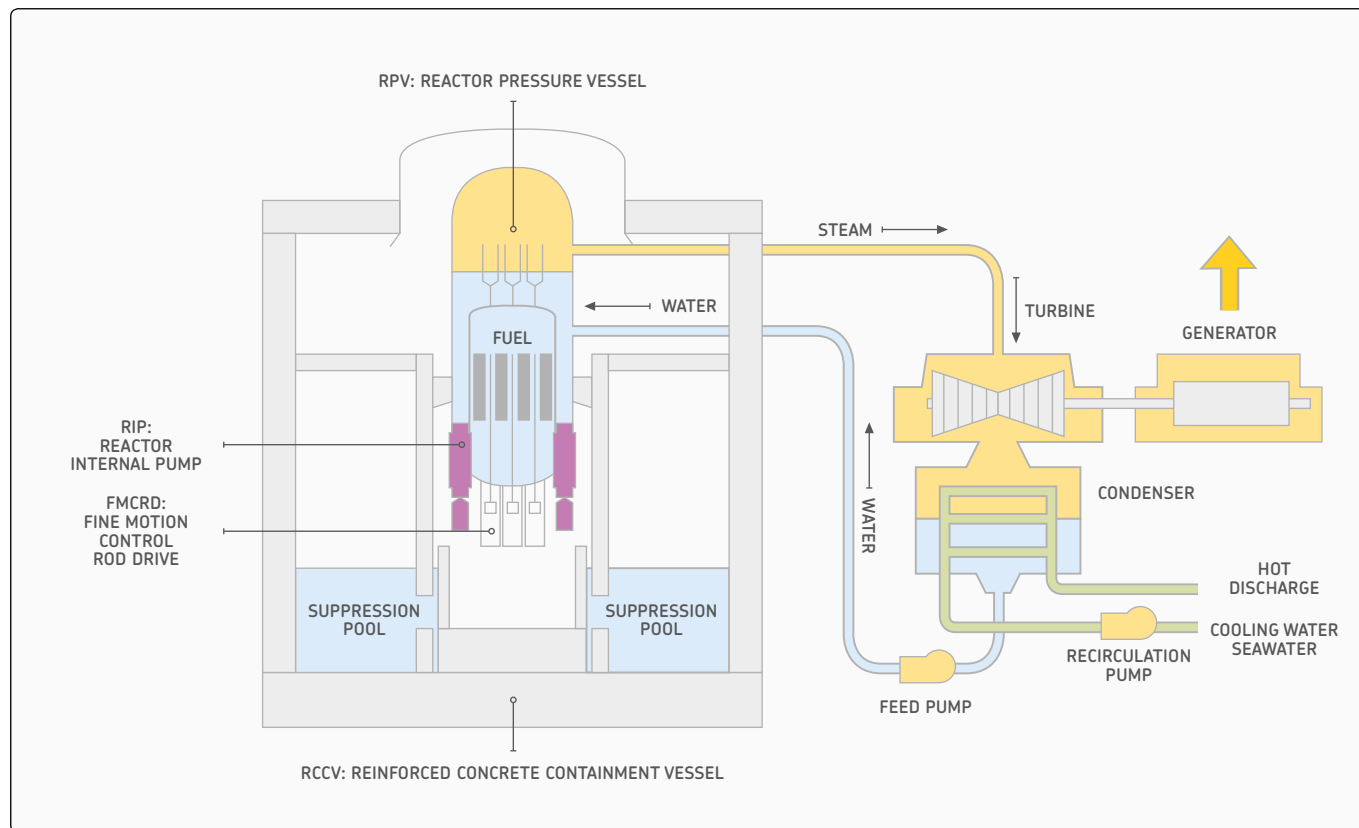

COMMISSIONING THE POWER STATION

Commissioning is a period of testing to ensure all systems in all parts of the Power Station operate as intended. It will continue to occur in three phases: construction testing, pre-operational testing, and start-up testing. We expect commissioning to take around three years for each UK ABWR. Commissioning of the first UK ABWR will begin during the final stages of construction of the second UK ABWR. There are no significant changes to this part of the Project since the previous consultation.

OPERATING THE POWER STATION

We are proposing to operate two UK ABWRs, each with an expected operational life of 60 years. We continue to expect to employ around 850 people at the Power Station during operation, with recruitment beginning early in the construction phase to ensure we have a highly-skilled workforce in place in time for operation of the Power Station.

In accordance with requirements set out by regulators, we are developing plans for operational and emergency preparedness. A requirement of our Nuclear Site Licence is for us to have adequate emergency preparedness plans in place, and our operational emergency plan will need to be in place before bringing nuclear fuel to the Power Station Site. This plan will include a phased approach to emergency response identifying actions to be taken at the Power Station Site, in the local communities, across the region and then across the UK. This has not changed since our previous consultation.

Indicative image of how the UK ABWR works, provided by Hitachi-GE

DID YOU KNOW?

In March 2017 we applied to the Office for Nuclear Regulation (ONR) for a Nuclear Site Licence, one of the main permissions we need to build and operate the Power Station. If the licence is granted, Horizon will then be regulated by the ONR for the full lifecycle of the site from construction to decommissioning.

DECOMMISSIONING THE POWER STATION

As set out in our Stage Two consultation, at the end of the operating phase, the Power Station will be decommissioned. We will remove buildings from the site while responsibly managing all spent fuel and radioactive wastes. The end state of the site will be agreed with regulators and uses other than nuclear could be approved. While we will have a decommissioning programme available at the early stage of the Project, decommissioning activities will be planned in detail closer to actually decommissioning the Power Station. We will need to apply for additional permissions at that time, and prepare an assessment of the potential effects on the environment.

MANAGEMENT OF RADIOACTIVE WASTE AND SPENT FUEL

Once operational the Power Station will create radioactive wastes which need to be treated and stored before they are ready to be removed from the Power Station Site.

Our main plant buildings include a facility to process and manage radioactive waste for both UK ABWRs. This will be constructed during the Main Construction phase of the Project for use through commissioning and at the start of operation of the Power Station.

In addition, Government policy requires us to have facilities for 'interim' longer term storage of spent fuel, intermediate level waste and dry high level radioactive waste at the Power Station Site. Our proposals now include two radioactive waste storage buildings to provide safe and secure storage facilities until the radioactive waste can be repackaged for transfer to a national radioactive waste disposal facility being planned by the UK government.

We estimate radioactive waste could remain on the Power Station Site for up to 140 years after the end of electricity generation, although we are still studying how this time might be reduced.

The radioactive waste storage buildings are located immediately to the south-west corner of the Power Station Site and will be constructed in time to receive the relevant waste.

WHAT'S CHANGED?

- *We're now proposing one larger radioactive waste building to serve both reactors, rather than two smaller buildings. The height of the building has stayed the same*
- *Instead of three buildings, we're now proposing two longer-term storage buildings for radioactive waste*

Off-Site Power Station Facilities

As part of our emergency planning arrangements, a number of buildings will need to be geographically separate from, but near to, the Power Station Site. The requirements for these buildings are established by the Office for Nuclear Regulation.

Since our Stage Two pre-application consultation, we have been working closely with the regulators and have made further progress in understanding our needs for these Off-Site Power Station Facility requirements. Based on feedback received, we have refined our proposals.

The Off-Site Power Station Facilities we need are:

- **Alternative Emergency Control Centre (AECC):** which would provide alternative command and communications facilities in the unlikely event that the main Emergency Control Centre on the Power Station Site is inaccessible
- **Environmental Survey Laboratory (ESL):** which would provide facilities to manage radiological surveys in the local area, including radiation monitoring equipment controls
- **Mobile Emergency Equipment Garage (MEEG):** which would provide storage and basic servicing of the vehicles and equipment that would be used to respond to an unlikely emergency event at the Power Station Site

We previously consulted on an undeveloped site at Cefn Coch for the AECC and ESL facilities and a potential alternative previously developed site at Llanrhyddlad, which was identified shortly before the previous consultation. We also consulted on a previously developed site at Llanfaethlu for the MEEG facility only.

We are now proposing to group all three facilities together at the Llanfaethlu site and not develop the Cefn Coch or Llanrhyddlad sites. Consultation feedback was generally positive for development on the Llanfaethlu site as it is developed land. Llanfaethlu was understood to be too far away from the Power Station Site to be a possibility for the AECC and ESL facilities, but we have subsequently met with the Office for Nuclear Regulation and agreed that this is not the case.

Details of the grouped facilities include:

- the AECC could be occupied by up to 25-30 staff during an emergency event, but would not be staffed day-to-day
- the ESL could be occupied by two staff during normal operations, increasing to 12 during an emergency event
- the MEEG could be occupied by approximately 20 staff during an emergency event, but would not be staffed day-to-day. During periodic vehicle checks (typically one every six months), staff would be on site
- approximately 16 parking spaces (including 12 for cars, 2 for disabled drivers and 2 for motorcycles)
- approximately 50 additional/overspill parking spaces for use in an emergency, using land not previously identified for development
- access for large vehicles
- drainage
- security features including: fencing, retaining walls combined with vegetation barriers, CCTV, and lighting

The existing buildings on the site would be demolished.

MORE INFORMATION

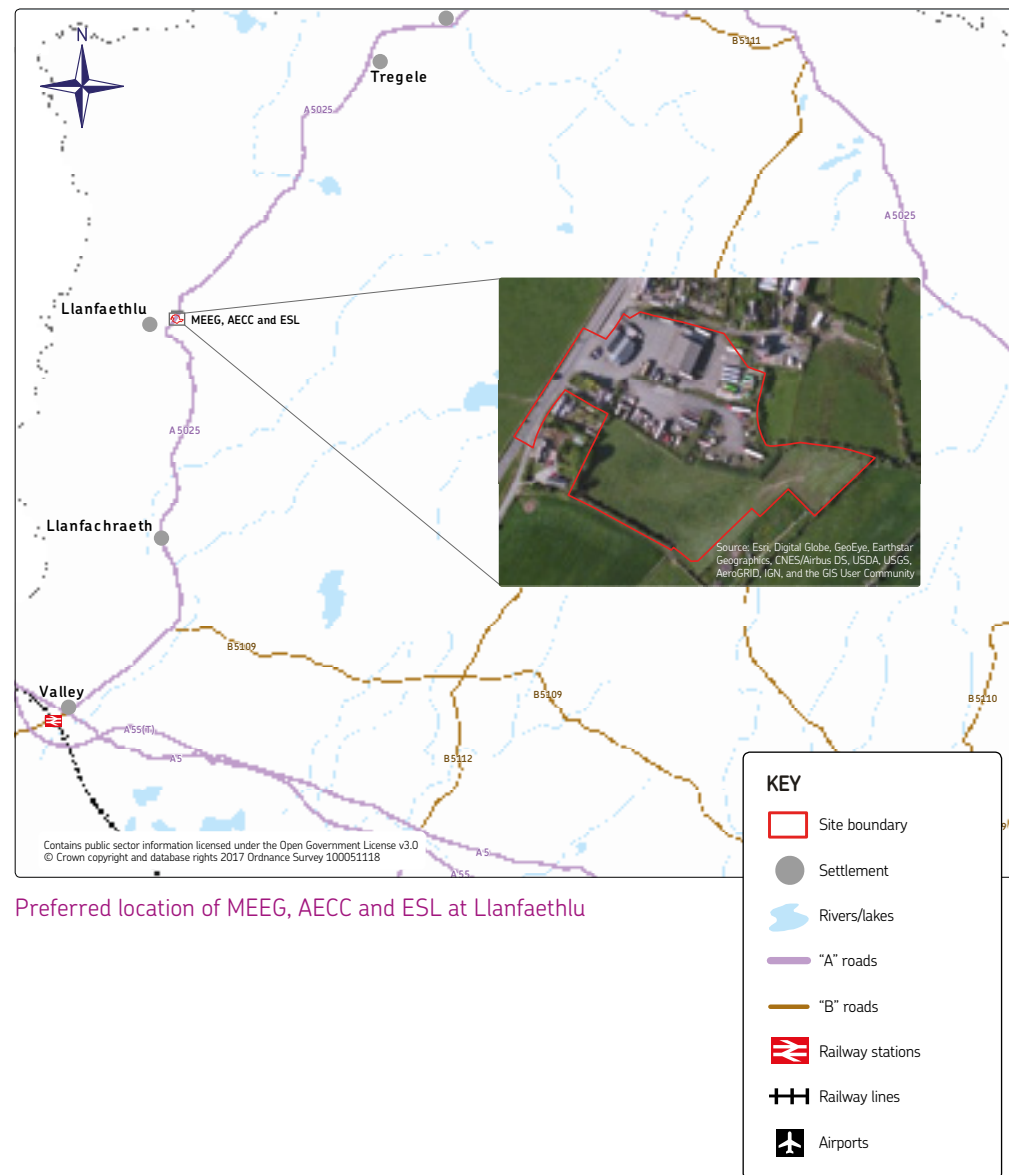

Additional plans and illustrations of the Llanfaethlu site can be found in Chapter 4 of the Main Consultation Document. Preliminary environmental information is also set out in this chapter.

Indicative 3D sketch of MEEG, AECC and ESL at Llanfaethlu

Indicative image of MEEG, AECC and ESL at Llanfaethlu

Preferred location of MEEG, AECC and ESL at Llanfaethlu

WHAT'S CHANGED?

- Our proposals are now to group the MEEG, AECC and ESL facilities together on the same site at Llanfaethlu. This will allow us to reduce the overall land used for these Off-Site Power Station Facilities elsewhere. This means we no longer need the sites at Cefn Coch or Llanrhyddlad
- Locating these facilities on a single site means that the site footprint has increased from what we previously proposed to allow for additional parking spaces

KEY

- Staff parking
- Pedestrian areas
- Portable office pod
- Potential container storage
- Refuse building
- Substation
- External plant area
- Fuelling station
- Retained stone walling
- Access barrier
- Grassland - species rich
- Native woodland
- Hedgerow planting

Managing the construction workforce

We recognise that the number of workers needed to construct our Project is a key concern of communities across Anglesey and North Wales.

We have been continuing our work to understand the number and profiles of the construction workforce that we will need, by working closely with our supply chain.

This is also a key factor in determining our strategies to minimise effects, including through our Construction Worker Accommodation Strategy and commitments to protecting and enhancing Welsh language and culture, and local public services. It will also be important to increase local access to specialist training programmes and educational opportunities.

TYPE OF WORKER	DEFINITION	APPROXIMATE NUMBER OF WORKERS (AT PEAK IN 2023)
Horizon construction project management	All workers from Horizon Development Company	274
Horizon operational staff	Workers responsible for operation of the Power Station	424
UK ABWR (Unit 1 and 2) project management and construction workforce	All workers and management staff for the construction of the Power Station (during Main Construction)	7,783
Associated Development operational workforce	Facilities management staff to operate the Associated Development sites	519
TOTAL		9,000

Estimated breakdown of peak workforce during the construction period

NUMBER OF CONSTRUCTION WORKERS

Key to calculating the number of workers for a complex infrastructure project like ours is a clear understanding of the approach to construction and timings. We continue to work with our supply chain to build upon their experience gained during the construction of ABWR plants in Japan, adapting that experience to the engineering and construction challenges presented for the Wylfa Newydd Project.

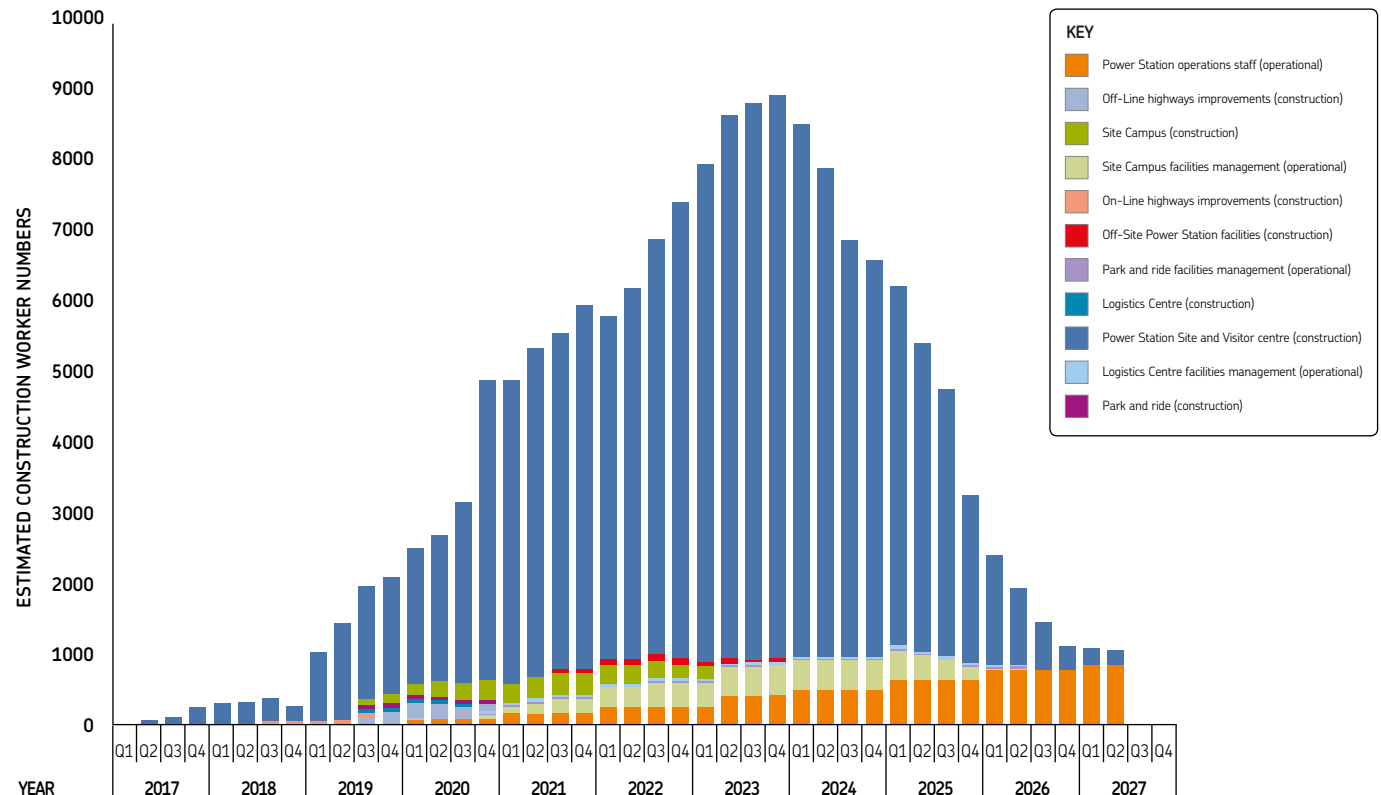

For the construction phase, we will aim to recruit as many workers from Anglesey and North Wales as we can, although we anticipate that a significant proportion will need to be recruited from elsewhere. To ensure our assessments are based on a worst case scenario (particularly for our assessments of housing) we are assuming a minimum of around 22% of our workers during the construction phase will be from Anglesey and North Wales. However, we will seek to maximise this number.

Our commitment to the Welsh language, through our existing policy and emerging Welsh Language and Culture Mitigation and Enhancement Strategy, will form an important element of our recruitment process.

WHAT'S CHANGED?

For assessment purpose we use 9,000 workers. However, we anticipate a peak workforce of around 8,500 for a few months at the end of 2023, this is a reduction from the previously anticipated peak at 10,720.

Likely distribution of workers from beginning of construction into operation

WORKER ACCOMMODATION MANAGEMENT SERVICE

We know that there is a lot of interest in offering private accommodation for use by construction workers. In response to feedback we've received, we have established the principles of our Worker Accommodation Management Service (previously called the Construction Worker Accommodation Management Portal) to manage available accommodation during construction. This service will allow local people to register a room or property with us and we will require all of our construction workers to arrange their accommodation through this service. The aim is to match workers with accommodation in a way that avoids or reduces impact on local residents (especially those renting privately) and tourist accommodation.

The service will ensure registered accommodation meets quality and safety standards and offers bed spaces in accessible locations, ideally as close as possible to the site. It will also distribute the construction workforce across accommodation types and locations.

CONSTRUCTION WORKER ACCOMMODATION STRATEGY

We are continuing to work on our Construction Worker Accommodation Strategy to determine how we house our construction workers.

In our Stage Two consultation, we received a number of different views about our Construction Worker Accommodation, which we considered very carefully. We have now revised our Strategy to balance where workers can be most appropriately accommodated. For the purposes of our housing assessments we have assumed:

- approximately a quarter of the workforce (around 2,000 workers) will be local residents commuting daily from their existing homes
- approximately 3,000 construction workers living in accommodation that is on the open market, or in the private rental and tourist sectors
- up to 4,000 construction workers will live in the Site Campus

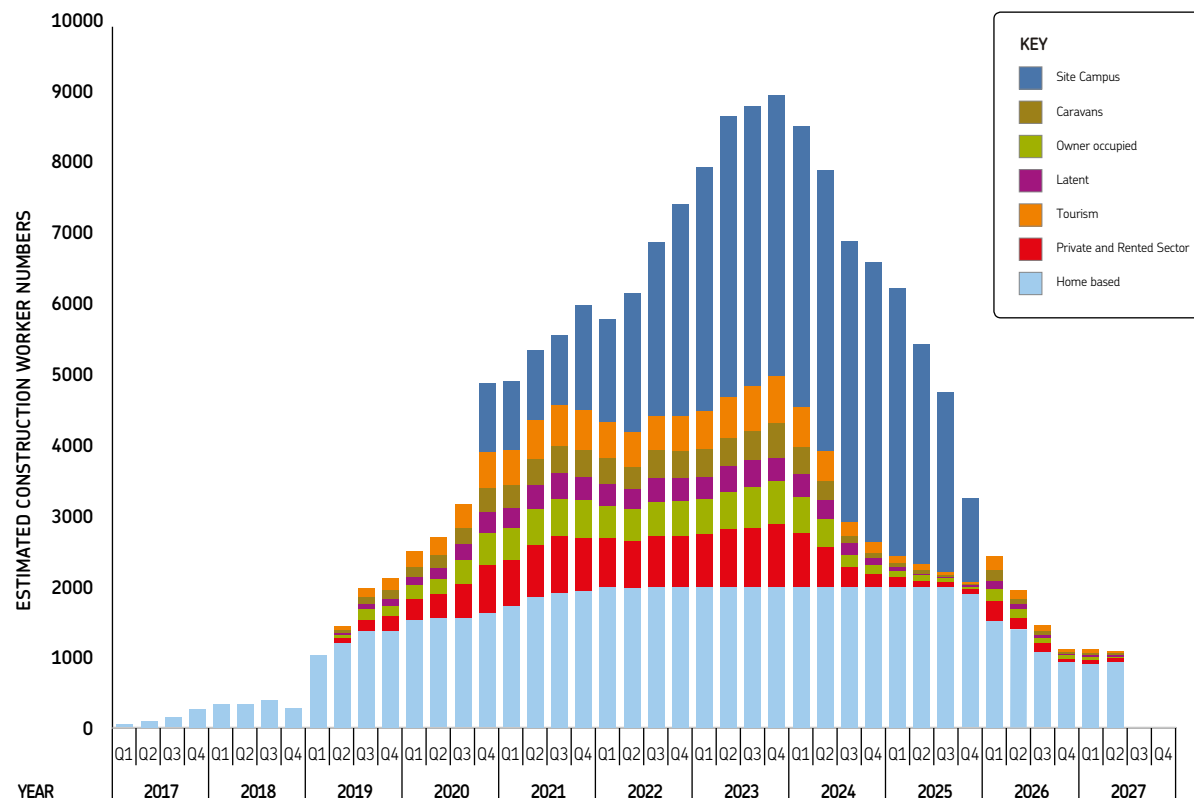

Our current proposal for the Site Campus removes the need for temporary workers' accommodation at other locations including Cae Glas (Holyhead), Rhosgoch, and an alternative area in Amlwch.

We are also no longer proposing to house construction workers in the proposed permanent housing at Kingsland (Holyhead). We are also no longer proposing Madyn Farm (Amlwch) as part of our application for the DCO.

The benefits of this approach to accommodating construction workers are:

- reducing the number of locations of temporary workers accommodation from seven to a single on-site campus. This will reduce our impact elsewhere on Anglesey, addressing concerns that we received from previous consultation feedback
- reduction in the number of construction workers travelling to and from work each day on local roads
- reducing travel times for many workers, which will increase on-site productivity and reduce health and safety risks
- allowing key workers to have immediate and easy access to the Power Station Site so they can respond to emergencies and out-of-hours site needs
- providing shared dedicated facilities for all workers at the Site Campus, irrespective of where they live. This will enable a greater opportunity for workers to interact, socialise and bond – all of which improve the workers' well-being
- significantly improving the overall efficiency of providing temporary workers' accommodation for the Project

More details on the Site Campus are included from page 24 of this document.

Distribution of construction workers across accommodation type

**DID YOU KNOW?**

'Latent' accommodation is made up of bed space which is available locally, such as an annexe or spare room. A survey conducted across Anglesey in 2015 indicated there are around 400 such bed spaces available on Anglesey.

**MORE INFORMATION**

More details of our Construction Worker Accommodation Strategy can be found in Chapter 6 of the Main Consultation Document.

SHIFT WORKING

Our proposed shift patterns remain as follows:

ACTIVITY	INDICATIVE WORKING HOURS AND SHIFT PATTERN
Main Construction works	11-day fortnight, i.e. 11 days on, three days off, including a stagger
Staggered day shifts	three start times at 07:00, 07:30 and 08:00
Staggered night shifts	starting at 16:30, 17:00 and 17:30*

*Some trades will be required to work through the night, for example when continuous concrete pours are needed

Further information on shift patterns can be found at Chapter 6 of the Main Consultation Document.

We will continue to work with Menter Newydd and our supply chain to finalise the shift pattern. We will take into consideration the construction schedule, the safety and well-being of the construction workforce as well as effects on communities.

We recognise the importance of reducing negative impacts of proposed shift patterns. We are already taking into account school hours, traffic peaks on the Britannia Bridge and peak travel to work times. We will continue to engage with key stakeholders including trade unions and emergency services, and respond to the outcomes of our ongoing environmental impact assessment.

The Site Campus

The Site Campus would house up to 4,000 construction workers in modular type accommodation blocks, providing an independent living space for each worker, with shared campus-style amenities.

The Site Campus will be a temporary facility, completed in phases with the first phase providing 1,000 bed spaces. Subsequent phases would include additions of up to 1,500 bed spaces, taking into account demand. This would ensure that housing units would not be constructed unnecessarily, reducing the potential for unnecessary environmental effects.

We expect most of the temporary residential buildings to be four storeys in height. Some buildings in later phases may be up to seven storeys in height, although due to their location toward the lower end of a sloping landscape, our aim is for all of the temporary residential buildings to appear at broadly the same height when viewed from a distance.

The accommodation would be supported by a variety of facilities, including:

- An amenity building including a restaurant, café, reception area, gym, bar and other social space
- Outdoor social areas including three sports pitches (multi-use games areas), outdoor seating and open space
- A comprehensive occupational health service to ensure the workforce is in good health. This will be complemented by other services such as primary care GP. We anticipate that dentistry and pharmacy provision will be from existing community facilities that we would look to support. This is to be agreed with local health stakeholders. (e.g. Betsi Cadwaladr University Health Board, Public Health Wales, the Welsh Ambulance Service)

Minor injuries would be treated at the on-site facility and it would also be used if there was a major incident. Any serious injuries would be transferred to hospital.

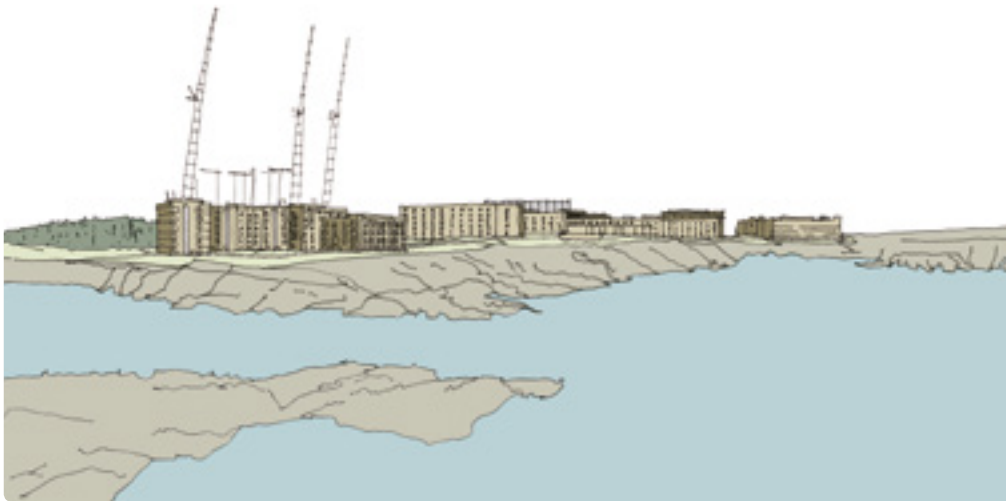

We considered a number of locations on the Wylfa Newydd Development Area to locate the Site Campus. We previously identified this land for development of some accommodation and materials storage during Stage Two consultation.

This site was chosen because it maximises the distance of the accommodation from the active construction site while avoiding constraints on construction activities. It is also located away from neighbouring communities and in a location which will be screened by our LEMP proposals.

Whilst the Site Campus is near some environmental features (including Tre'r Gof Site of Special Scientific Interest, designated ancient woodland, and the existing bat barn) the detailed design will ensure that effects on these sites will be avoided or minimised. Further preliminary environmental information about the Site Campus can be found at Chapter 6 of the Main Consultation Document.

Site Campus preferred location

KEY	
	Site boundary
	Wylfa Newydd Development Area
	Settlement
	Rivers/lakes
	"A" roads
	"B" roads
	Railway stations
	Railway lines

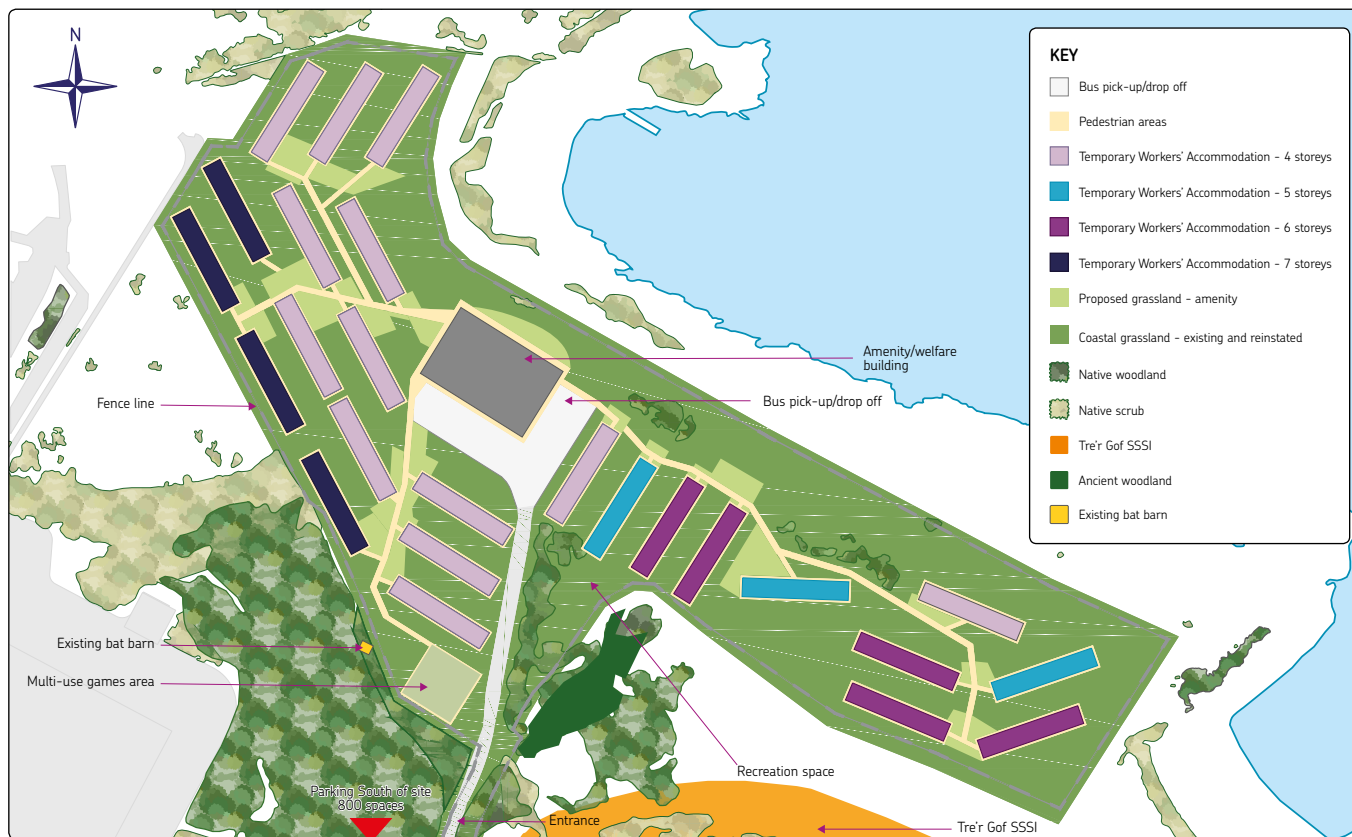

While this accommodation would be used throughout the period of Main Construction of the Power Station, the site would not be fully developed for the full period of Main Construction. We anticipate it will be at peak capacity for a short period of time, following which the amount of accommodation will be reduced again. When construction of the Power Station is complete, the Site Campus will be removed and the area will be restored in line with the LEMP, as shown on page 44 of this document.

The detailed design of the Site Campus will seek to minimise visual impacts. Landscape mounding as part of the LEMP will provide visual screening of the Site Campus from Tregele and partially from Cemaes. Horizon will apply a Site Campus Management Plan to avoid disruption to local communities, and a community liaison officer will be available should any queries arise.

WHAT'S CHANGED?

- *Up to 4,000 workers at peak will now be accommodated on a single temporary Site Campus within the Wylfa Newydd Development Area*
- *Reducing the number of locations of temporary workers' accommodation from seven sites to one reduces our impact elsewhere on Anglesey*
- *Dedicated on-site facilities such as a comprehensive health service and leisure facilities will be provided to minimise effects on existing capacity in local communities*

Indicative Site Campus layout

MORE INFORMATION

Additional plans, illustrations and viewpoints of the Site Campus can be found in Chapter 6 of the Main Consultation Document. Environmental information is also set out in the same chapter.

Integrated approach to traffic and transport

Through our integrated approach to traffic and transport, we are committed to improving the transport system while reducing adverse effects on communities and the environment.

Our approach sets out how we intend to transport construction workers and materials to the Power Station Site by road, rail and sea. It shows our commitment to road safety; promoting sustainable travel by making fewer journeys; and leaving a lasting transport legacy after the construction phase of the Project.

Indicative image of Logistics Centre site – Parc Cybi

TRANSPORT STRATEGY

At the peak of construction, in addition to workers travelling from the Site Campus, up to around 5,000 workers could be commuting in shifts (as described on page 23) to the Power Station Site each day from across Anglesey and the mainland.

When the Power Station becomes operational, we will require a workforce of around 850, with up to 1,000 additional workers to carry out routine maintenance during annual outage periods.

The transport strategy for the operational phase will encourage sustainable travel and promote the legacy benefits of improved roads, and pedestrian and cycling routes.

FREIGHT AND LOGISTICS

We will need to transport over five million tonnes of construction materials and welfare goods to the Power Station Site.

MARINE OFF-LOADING FACILITY (MOLF)

Our transport strategy includes measures to significantly reduce the number of heavy goods vehicles on the roads. We continue to propose the construction of a MOLF at Porth-y-pistyll for sea freight, which is anticipated to carry 60% to 80% of all construction materials for the Power Station.

We aim to complete construction of the MOLF in time for the first significant deliveries for construction of the Power Station.

LOGISTICS CENTRE: PARC CYBI

As set out in our previous consultation, we are proposing that the remaining materials will be delivered by road and controlled through our Logistics Centre. We have established routes by which construction-related traffic would have to travel to the Logistics Centre from locations such as the mainland and Holyhead Port.

The Logistics Centre will be a temporary secure facility from where deliveries to the Power Station Site are managed to reduce traffic on and impacts to the local road network. The dispatch of lorries would be controlled to relieve traffic to the Wylfa Newydd Development Area. Robust logistics management will ensure that we can avoid convoys of delivery vehicles traveling along the A5025 and reduce queuing of vehicles entering the Power Station Site.

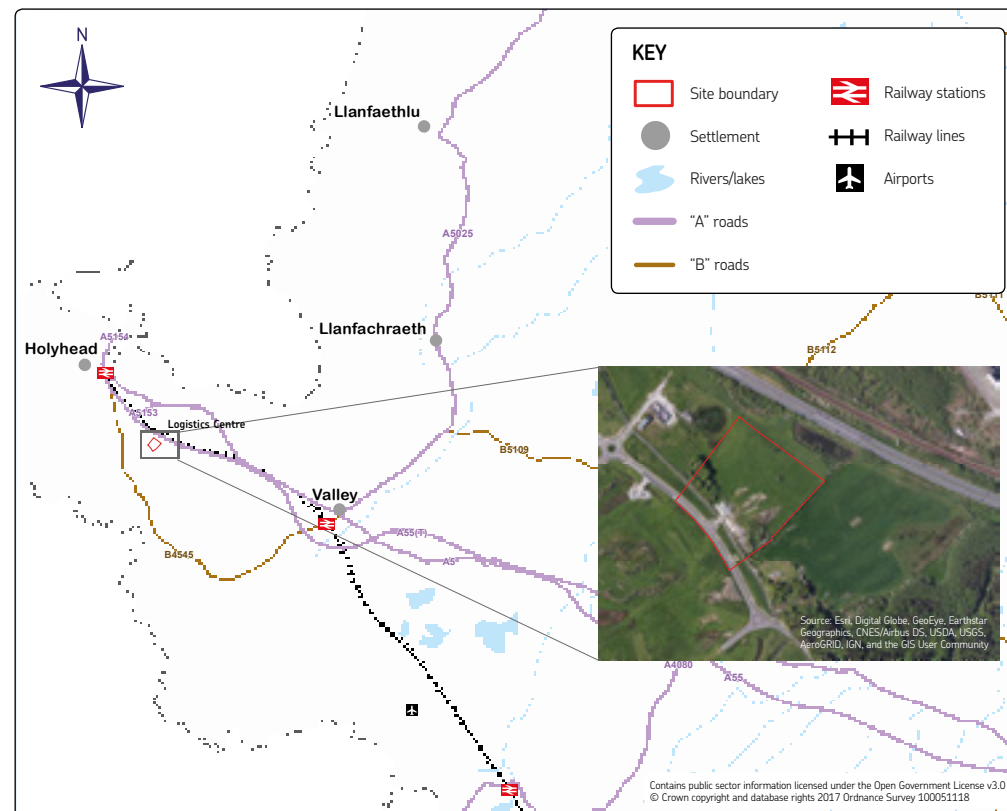

Following changes, the logistics centre will now have:

- around 14 full-time employees
- welfare/security building and kiosks, covered inspection bay, laydown/storage areas
- working hours of generally 7.5 hours a day, 5 days a week during construction of the Logistics Centre, increasing to 24 hours a day once the Logistics Centre is operational
- up to 100 heavy goods vehicles on-site at any one time
- a peak of around 40 vehicles per hour and 160 vehicles per day arriving at the Logistics Centre. A similar number would depart and the vehicles would consist of a combination of light goods vehicles, medium goods vehicles and heavy goods vehicles
- 14 staff parking spaces available (including disabled)
- security features including: paladin fencing (2.4 metres high) with controlled access barriers and systems, CCTV and lighting

Once construction of the Power Station is complete, the serviced site will remain and would be available for redevelopment as warehousing or an alternative employment use.

Indicative Logistics Centre site layout – Parc Cybi

Logistics Centre preferred location – Parc Cybi

Indicative 3D sketch of Logistics Centre site – Parc Cybi

WHAT'S CHANGED?

The warehouse building previously proposed has been replaced by a covered inspection bay as it is no longer considered appropriate to consolidate smaller freight loads into larger vehicles here. Instead, we will require our suppliers to make sure the delivery loads are as full as possible when they start their journey, to reduce traffic on the wider road network.

WHAT'S CHANGED?

Additional parking spaces are provided to allow up to 100 heavy goods vehicles to be located at the Logistics Centre at any one time. This allows us to hold additional vehicles on site in the event of an incident on the road network.

PARK AND RIDE: DALAR HIR

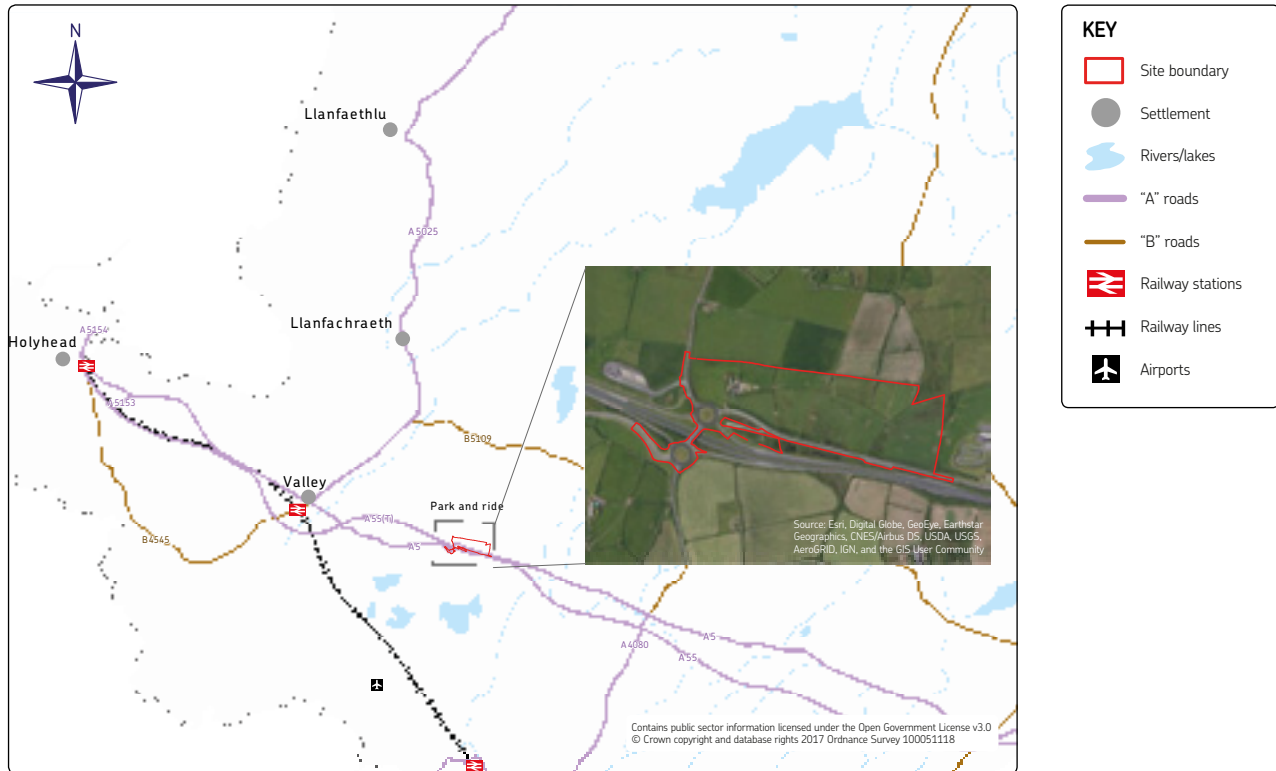

The park and ride is a temporary facility where workers can park their vehicles securely and transfer to our shuttle buses, which will take them to the Power Station Site. The site is designed to include a zone for buses to collect and drop off passengers, with a management office and parking for staff (working at the park and ride facility).

Details of the facility include:

- 10 staff to operate the park and ride facility and 15 bus drivers
- approximately 1,900 parking spaces (including disabled and mini-bus) plus spaces for motorcycles and bicycles
- up to 40 return bus movements from the facility to the Power Station Site daily
- a bus transport facility building providing transport information, a waiting area, welfare facilities, a bus driver canteen and management office facilities

We are also proposing a new roundabout located within the Dalar Hir site, near the existing junction 4 of the A55, which will be the main entrance to the park and ride. Minor layout improvements will be needed to junction 4 to make sure there is no impact on traffic.

The site will be needed for the duration of construction of the Power Station, then will be decommissioned and returned to its current use, with grassland, stone walling and field boundaries reinstated.

Park and ride preferred location – Dalar Hir

WHAT'S CHANGED?

- **Parking spaces reduced from around 2,700 to 1,900, resulting in less vehicle movements and less temporary development of greenfield land**
- **Minor improvements to Junction 4 of the A55 to improve traffic flows**

MORE INFORMATION

We are continuing to do a lot of assessment to consider how construction and operation may affect the Dalar Hir Stream which runs into a Site of Special Scientific Interest to the south of this site. We understand that there are badgers on site and we're working to reduce or avoid any impacts to them. We will plant trees to provide visual screening and we will provide directional lighting to reduce environmental effects.

Indicative 3D sketch of park and ride site Dalar Hir

Indicative image of park and ride site Dalar Hir

Indicative park and ride site layout – Dalar Hir

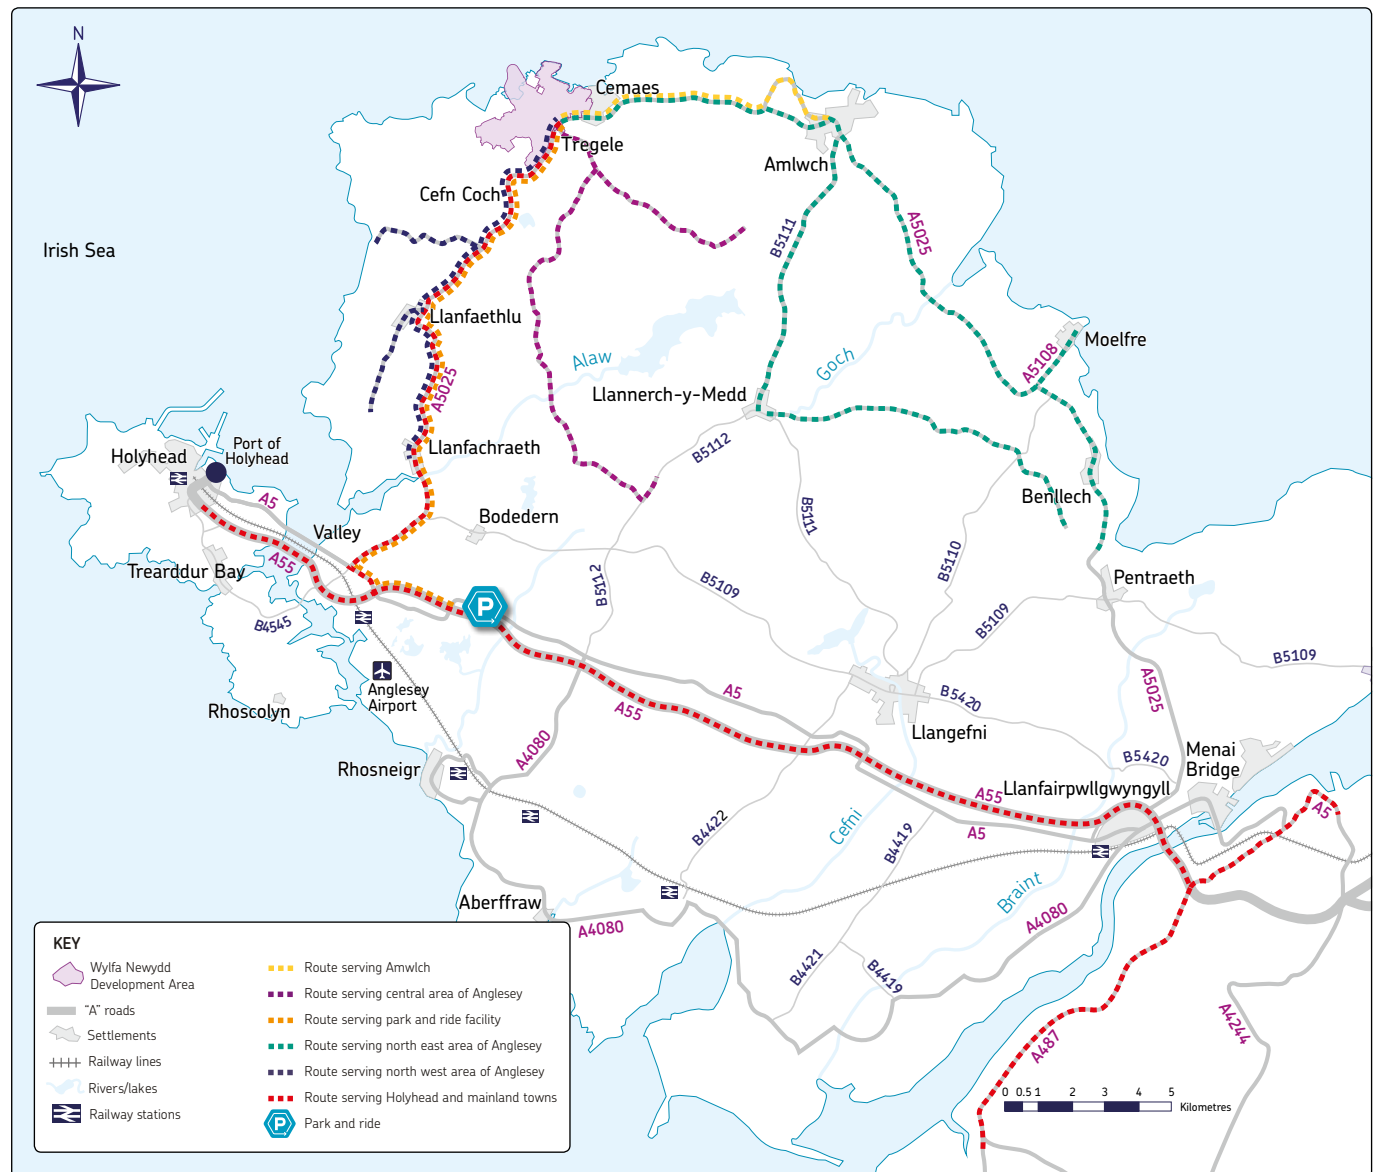

SUSTAINABLE TRAVEL FOR WORKERS

We are continuing to develop a range of proposals for sustainable travel to move workers between their accommodation and the Power Station Site.

Our plans include:

- a park and ride facility at Dalar Hir
- shuttle bus services to collect workers who are home-based or living in private, tourist, or rental accommodation, with agreed routes of travel
- shuttle bus services to the Site Campus from key transport interchanges with agreed routes of travel
- a Worker Accommodation Management Service which enables car share arrangements and have easy access to information on local travel services
- promotion and incentivisation of Horizon's car sharing policy
- promoting the use of cycling to get to the Power Station Site

We will continue to engage with Isle of Anglesey County Council, Welsh Government and other relevant stakeholders to develop transport management strategies.

Indicative workers shuttle bus routes

Off-Line Highway Improvements

The A55, A5 and A5025 are the main routes from the mainland and the Port of Holyhead to Wylfa Newydd. These roads are critical to the successful delivery of the construction phase of the Project.

We are working with Isle of Anglesey County Council to identify a range of improvements to the existing A5025 (On-Line) and the need for additional new sections of highway (Off-Line).

These highway improvements are generally similar to those that we have consulted with you on previously. We are proposing the following new sections of road:

- A5/A5025 Valley junction improvements
- Llanfachraeth bypass
- Llanfaethlu road straightening
- Llanrhyddlad to Cefn Coch road straightening
- Power Station Site access

Some changes to the detailed layout have been summarised in the box to the right. In addition, the works to the site access are now formally identified as a further Off-Line highway improvement.

We will apply for the Off-Line highway improvements as part of our DCO. Once approved, we expect these works to commence soon after grant of the DCO and take around 18 months to complete.

WHAT'S CHANGED?

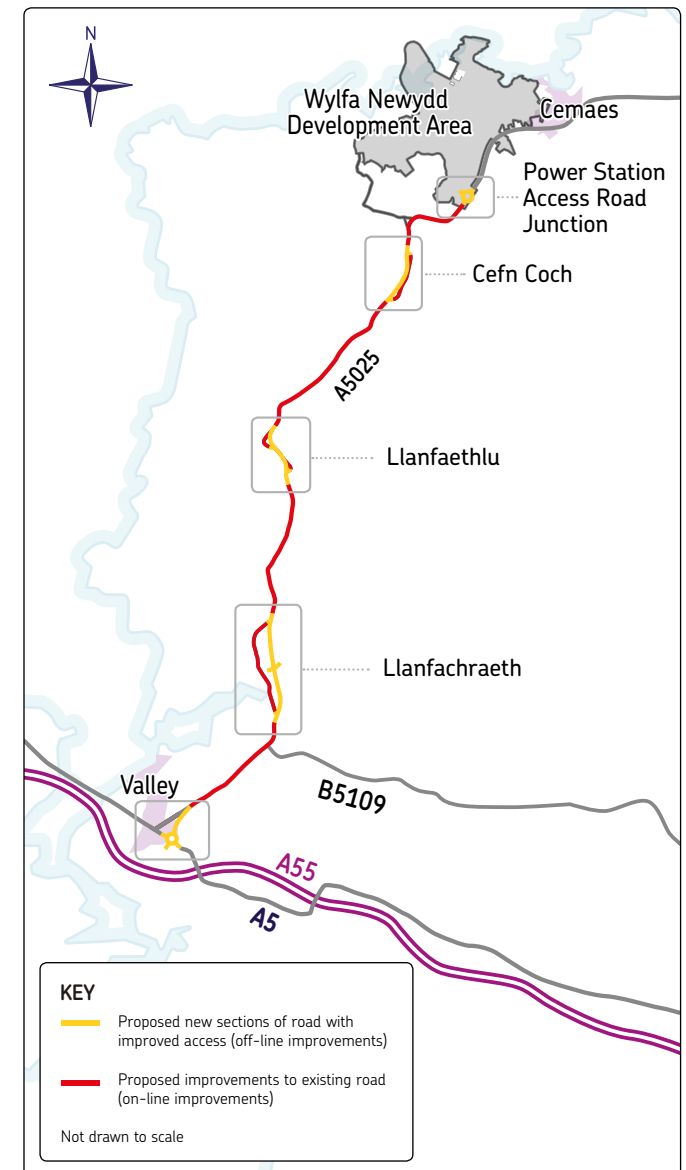

As a result of previous consultation feedback and further technical review, we have made the following changes:

- *The new junction and access road at Valley is now outside of the flood zone. The previous proposal was to raise the road above the flood zone*
- *The Llanfachraeth bypass now includes extra land for great crested newts and the viaduct now has more clearance beyond the riverbanks*
- *The Llanfaethlu road straightening now includes extra land for great crested newts*
- *The Llanrhyddlad to Cefn Coch road improvements are now narrowed slightly at each end to avoid the need for earthworks in areas including an ancient woodland*
- *Access to the Site Campus will be via the existing Magnox power station access road. No improvements are required to the A5025 in this location*

Britannia and Menai Bridges

Following previous consultation feedback, we have sought to better understand the impacts of the Project on traffic using the Britannia Bridge. We have gathered preliminary traffic data for the bridge and have now conducted comprehensive traffic data collection of the network around both the Britannia and Menai bridges.

Traffic modelling undertaken shows that the Project causes no significant impact on traffic congestion on the Britannia and Menai Bridges. With the reduced worker numbers, impacts are likely to reduce further. For more information on traffic impacts, see section 6 of the Main Consultation Document.

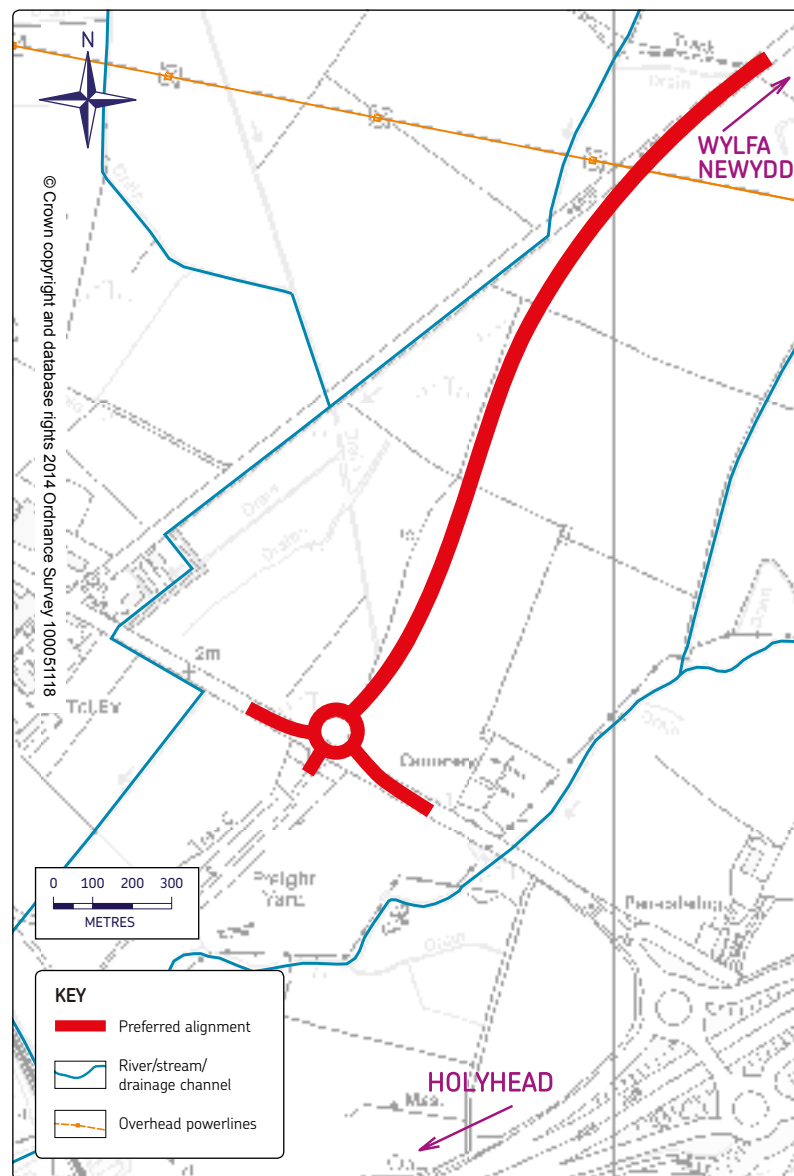

On and Off-Line highway improvements

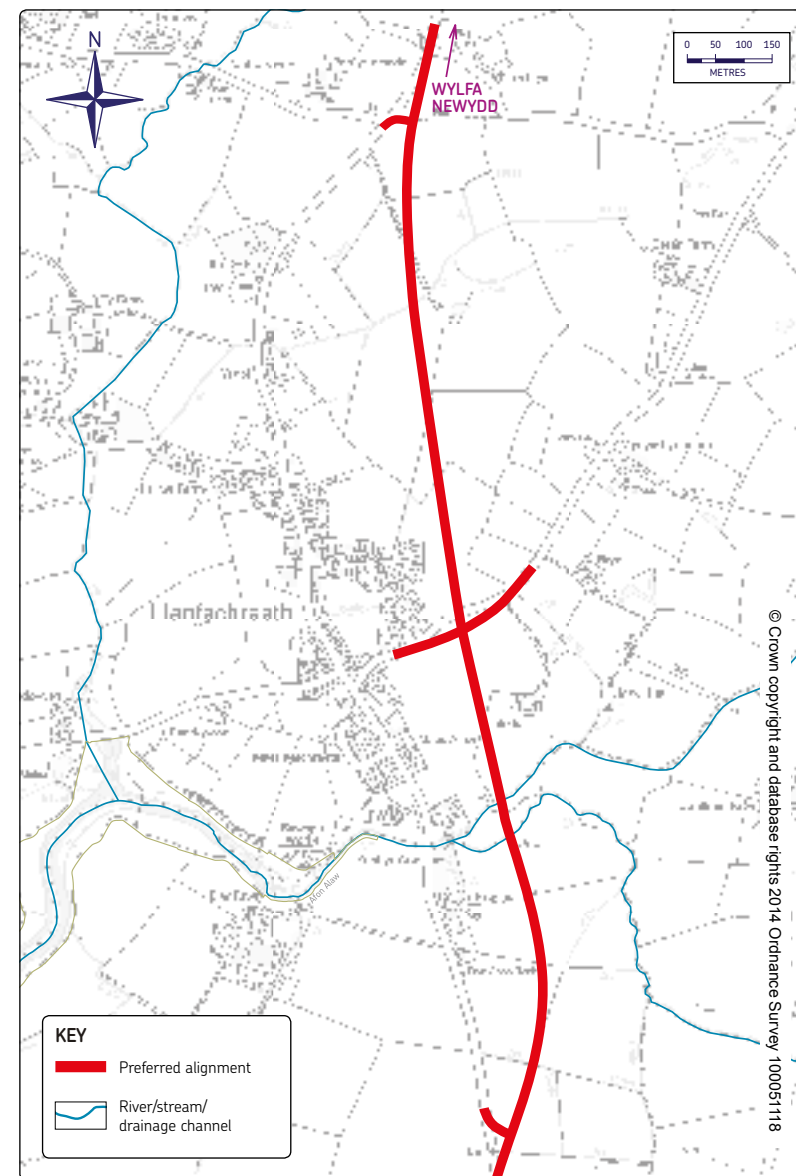

MORE INFORMATION

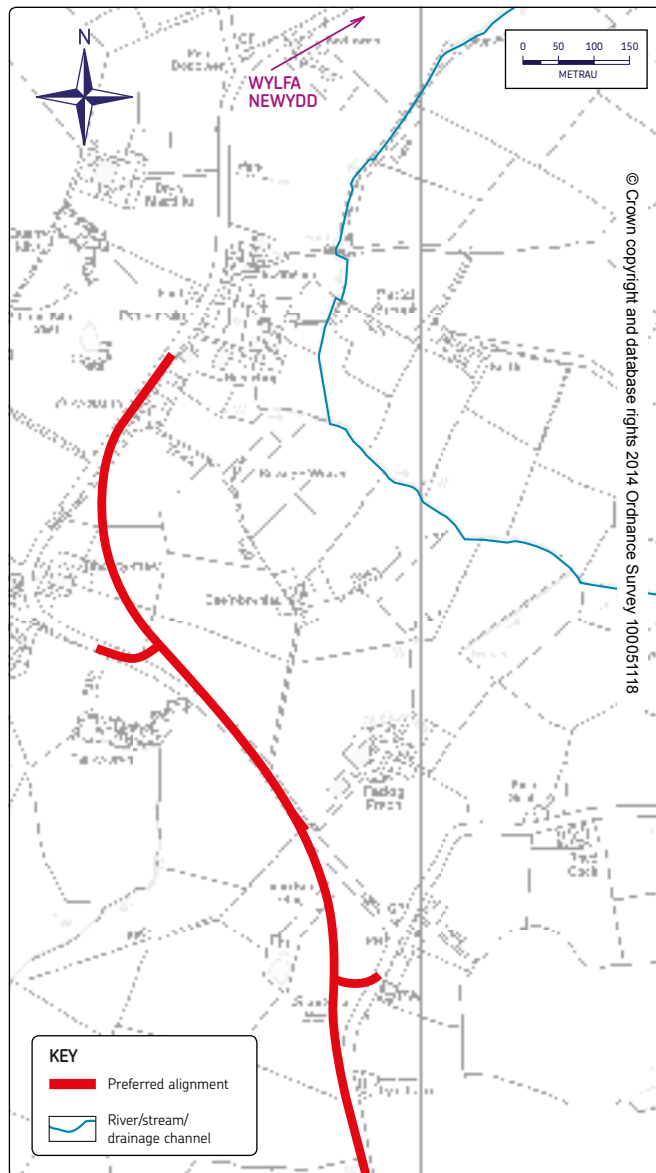

More details of the layout of the road improvements is included in the Main Consultation Document at Chapter 7.

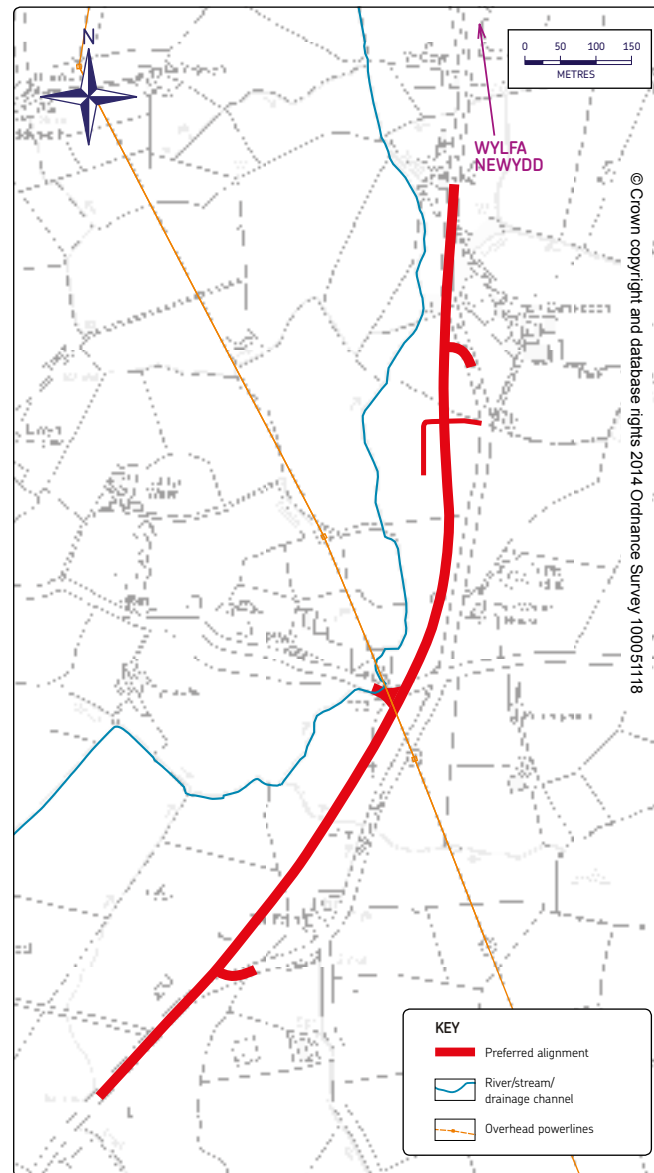

Indicative proposed highway alignment – Valley

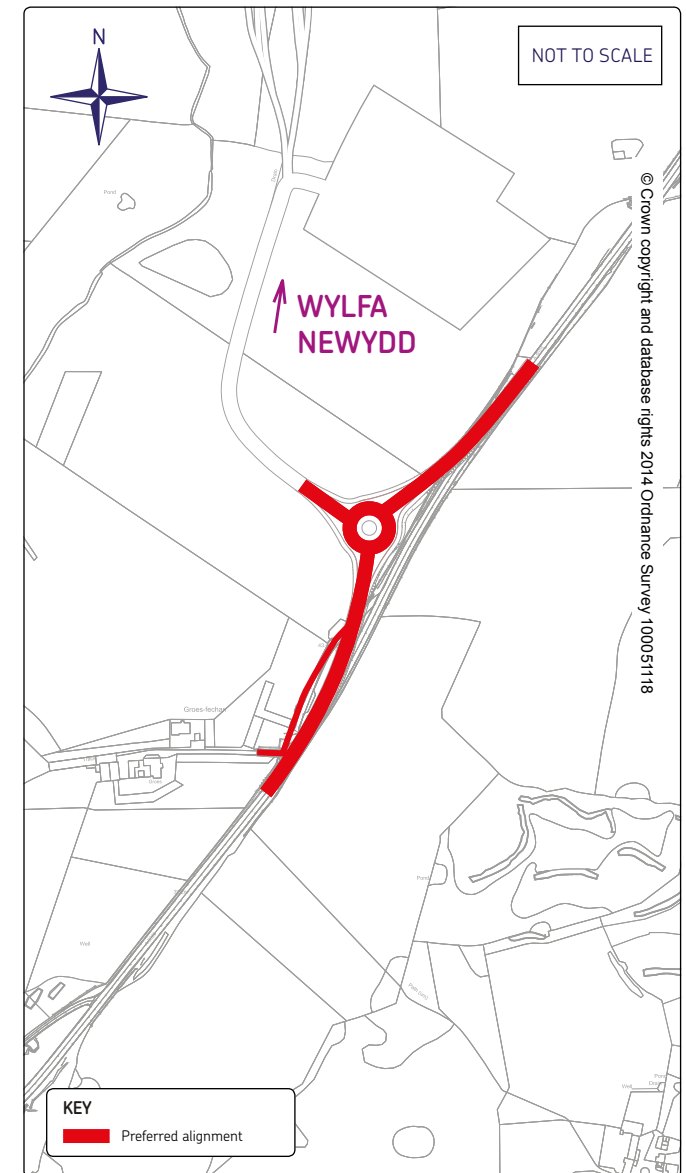

Indicative proposed highway alignment – Llanfachraeth

Indicative proposed highway alignment – Llanfaethlu

Indicative proposed highway alignment – Cefn Coch

Indicative proposed highway alignment – Site Access

Jobs, skills and supply chain

Since the previous consultation, we have continued to progress our strategies for jobs, skills, education and the supply chain. We are continuing to work hard to make sure young people in North Wales have the opportunities and information they need to become the next generation of skilled workers, and develop successful careers as part of the Wylfa Newydd Project.

WORKING IN PARTNERSHIP

We are continuing to work with stakeholders including Isle of Anglesey County Council, Gwynedd Council, Welsh Government, Conwy County Borough Council, Grŵp Llandrillo Menai, Bangor University, Energy Island Partnership and North Wales Economic Ambition Board (NWEAB).

We are focusing on improving the skills in the local supply chain and maximising the opportunities for local people to obtain jobs associated with the Project. This will help to transform some of the economically deprived areas in the region. In addition, effects on key issues such as Welsh language and culture, which is currently under pressure due to the outward migration of young people, will be reduced.

Horizon is looking at a number of other routes to securing local jobs for local people, and includes establishing a Wylfa Newydd Jobs & Skills Service for the construction phase of the Project.

In the longer term, our ambition is that we will contribute towards a generational improvement in Welsh language and culture, by transforming the local economy with long-term employment growth, including a significant focus on attracting skilled people back to the region who have previously moved away to find employment.

DEVELOPING JOBS AND SKILLS

In developing the Project, we will look to recruit individuals from a range of backgrounds and will maximise the number of routes into jobs and careers at Wylfa Newydd. Key to the transformation of jobs and skills across the island and North Wales is the early and frequent engagement of young people at school, regardless of the routes they subsequently choose to pursue. Engaging young people early on in their learning helps to inform choices as well as helping to encourage applications from typically underrepresented groups.

By developing apprenticeships, work placements, graduate opportunities and skills training for local people from all backgrounds, Horizon will leave a legacy of skilled workers equipped to support future projects and initiatives throughout North Wales.

EDUCATION FUTURES

We are engaging with schools on Anglesey and across North Wales to increase awareness of the Project, to promote the importance of Science, Technology, Engineering and Mathematics (STEM) subjects and to highlight the choices children must make in school to access relevant career paths through Further and Higher Education.

We are working with Isle of Anglesey County Council, Coleg Menai, Anglesey schools and key partners to implement a programme that inspires school children and enables future job opportunities at Wylfa Newydd. This applies to students already studying (including mature students), or planning to study a discipline that could lead to a future job at the Power Station. Examples include STEM vocational subjects at Coleg Menai and engineering at Bangor University.

We have recently launched our Primary Outreach Resource programme, which has been developed in partnership with a number of Anglesey primary school teachers. The programme has been mapped to the curriculum in Wales, has all supporting materials needed for teachers to deliver it independently, and supports the development of key skills from a young age. In March 2017, we visited primary schools across Anglesey engaging with over 320 Key Stage 2 pupils and hope to reach many more schools across the wider North Wales region.

Following the success of last year's Work Insight Week, we will be offering an opportunity at the Energy Centre (Coleg Menai) for up to 28 young people (Years 11-13) from Anglesey and North Gwynedd to meet members of Horizon from a range of departments to gain a better understanding of the Project and future career opportunities.

We continue to develop educational resources for primary and secondary schools and have introduced a new education brand, "Futures". The Futures programme will take a young person all the way from the Primary sector to Further and Higher Education, as it incorporates all aspects of our educational engagement. To support the development of Futures, we have developed an education page on the Horizon website, which will house all our educational resources, signpost other relevant websites and offer careers-related information.

TECHNICAL APPRENTICESHIP SCHEME

In partnership with Grŵp Llandrillo Menai, Horizon launched its Technical Apprenticeship Scheme in 2016 with an initial intake of 10 apprentices and is recruiting for a further 12 apprentices for the academic year 2017/18. This three year programme represents the start of Horizon's long-term commitment to recruiting driven, talented people to work on the Wylfa Newydd Project. Horizon is also working with Grŵp Llandrillo Menai in order to secure suitable Level 3 and Level 4 apprenticeships in related fields for Wylfa Newydd and this work will help to secure high quality provision not just for Horizon but also for other businesses in the local area.

Horizon has a long history of cooperation with Grŵp Llandrillo Menai and over the past four years has provided £360,000 of funding for Cwmni Prentis Menai, aimed at providing employment and apprenticeships for young people before the Horizon Technical Apprenticeship scheme was operational.

It is not just in the area of apprenticeships that Horizon has developed a fruitful relationship with Grŵp Llandrillo Menai.

Horizon has invited lecturers from the Grŵp to sit nuclear training courses and attend nuclear events to help contextualise the project. In 2016, Horizon contributed £1 million towards the development and relocation of the Engineering provision at Grŵp Llandrillo Menai to Llangefni as well as providing advice and assistance in specification of the facility. This early investment in skills is seen as a crucial part of our strategy to upskill young people in the local area and prepare for the operation of Wylfa Newydd.

We have also been instrumental in the involvement of the wider Hitachi Group which has seen the Heavy Plant Centre concept at Coleg Menai revised and to which Hitachi Construction Machinery contributes earth moving equipment and construction machinery for use in the centre. In late 2016, Hitachi Power Tools donated £25,000 of power tools to the Grŵp which are in use by students. Horizon sees the development of these relationships with the Grŵp and other stakeholders as very important.

Horizon is looking at the feasibility of introducing degree apprenticeships in conjunction with Grŵp Llandrillo Menai and Bangor University in order to provide another route for local young people to enter the workforce at Wylfa Newydd.

GRADUATE DEVELOPMENT PROGRAMME

Horizon operates a Graduate Development Programme from our corporate headquarters in Gloucester across the business. The scheme aims to recruit and develop young talent to deploy across Horizon's sites. Horizon has a Memoranda of Understanding with the University of Bangor and maintains contact with Bangor and Wrexham Glyndŵr universities in North Wales along with a number of others across England. Horizon is working with Bangor University to add a nuclear context to some of their existing courses.

OTHER ROUTES TO EMPLOYMENT

In addition to the entry routes mentioned above, Horizon is looking at a number of other routes to a career at Wylfa Newydd. This includes, but is not limited to: those looking to change their career direction; those undergoing resettlement from HM Armed Forces; and, the long-term unemployed. Horizon is working with NWEAB and the Department of Work and Pensions to develop these routes further.

TRAINING AND SIMULATOR BUILDING

As part of our plans to provide a skilled workforce for the operational Power Station, we are continuing to propose a Training and Simulator Building close to the Wylfa Newydd site which will house full scope simulators, classrooms and teaching workshops. The facility will need to be up and running prior to commercial operation, in order to ensure that the first crews are ready and qualified to take over operation of the plant at the appropriate time.

The proposed location of the Training and Simulator Building has moved from the east of the Power Station to the south and is now further from the village of Tregele.

SUPPLY CHAIN AND BUSINESS ENGAGEMENT

We recognise that the supply chain is a key element in delivering the Project as well as delivering the benefits of the Project locally.

We have established a number of initiatives to promote the engagement of local and regional businesses and we now have an active programme of activities, including:

- planning a national supply chain event in either Bangor or Venue Cymru, Llandudno, with key partners in attendance
- developing a Supply Chain Action Plan outlining timelines and key activities including identification of categories to maximise opportunities locally
- participating in programmes set up by the Welsh and UK Governments to identify and develop potential suppliers across the whole UK supply chain
- continuing to work collaboratively with agencies such as Construction Future Wales, North Wales Business Council, Enterprise Zones, the local branch of the Federation of Small Businesses and the Confederation of British Industry North Wales
- working closely with Grŵp Llandrillo Menai to develop initiatives such as funding and support towards construction of a new Engineering Centre at Coleg Menai. In addition we are developing additional construction skills capacity in North Wales, collaborating with both Grŵp Llandrillo Menai and Coleg Cambria

- trialling the Wylfa Newydd Employment and Skills Service and developing an overall strategy for the service, this is an initiative led by the Department for Work and Pensions, in partnership with North Wales Economic Ambition Board, Grŵp Llandrillo Menai and Isle of Anglesey County Council
- partnering with the North Wales Economic Ambition Board, CBI North Wales and CBI Regional Council

We continue to promote local businesses and encourage their participation in tendering and many have already been awarded contracts (Balfour Beatty/Jones Bros, Corvus Security Ltd. and DU Construction), which is a reflection of their ability to compete in the UK market.

Community benefits

Our Project will bring important benefits to the UK as a whole including safe and secure electricity supplies, for which there is a nationally recognised need. The Project has the potential to deliver benefits to local communities, and to North Wales in general, through employment and training opportunities and the demand for local goods and services.

We remain committed to ensuring that the Project delivers long-term benefits and enhancements for communities throughout the life of the Power Station. We also want to be a good neighbour and continue to support local communities, including our ongoing commitments to provide charitable donations, community support and sponsorship and effective stakeholder engagement.

We are in the process of preparing a detailed and comprehensive package that will comprise tangible benefits measures, obligations and payments that recognise the communities that will host the proposed Power Station.

We are intending to deliver these benefits in three ways:

- **Inherent Benefits** are benefits that the Project will deliver as part of the project itself, such as local jobs and support to local schools and colleges
- **Statutory Benefits** are benefits secured by requirements on our DCO, planning conditions on the grant of planning permission, and by section 106 planning agreements. These types of benefits are likely to relate to offsetting any adverse effects from the Wylfa Newydd Project and will be informed by our environmental, Welsh language and health impact assessment work. We may also set up a small scale fund to mitigate specific community impacts
- **Voluntary Community Benefits** are contributions (of funds, time or resources) that we make to the local community. Small scale voluntary community benefits are already delivered through our Charitable Donations, Community Support and Sponsorship scheme

We will develop our community benefits package in conjunction with Isle of Anglesey County Council (IACC) and other stakeholders to take into account the following:

- Objectives included in Isle of Anglesey County Council's 2014 Supplementary Planning Guidance for new nuclear build
- The emerging Joint Local Development Plan
- Appropriate benefits shaped by feedback from engagement and communications channels

At this stage, proposed benefits are likely to include the following areas:

- **Education** programmes to create opportunities for young people in the communities local to the Project development sites, support through a capital investment programme for all five secondary schools on Anglesey, and to help promote the take up of STEM subjects
- **Jobs and Supply Chain** the creation and operation of an Employment and Skills Service with the North Wales Economic Ambition Board to promote jobs and skills training opportunities. We're also establishing a supply chain contracts service for businesses to engage in the Wylfa Newydd supply chain
- **Transport** a funding package to allow IACC to deliver highway improvements on the A5025
- **Health and Well-being** delivery of a project health and welfare programme to ensure that community health and welfare services and resources used by local residents are not adversely affected by the Project. We will work with Betsi Cadwaladr University Health Board and other healthcare providers on this

- **Accommodation Strategy** including the creation and operation of the Worker Accommodation Management Service acting as a link between workers seeking accommodation and accommodation providers (more information is available in Chapter 5 of the Main Consultation Document). Horizon will also provide funding to support a capital investment programme for the provision of new build social and affordable housing, initially focusing on increasing the housing stock in the Wylfa and Amlwch area. We also intend to increase the available stock of housing to rent by funding a scheme to identify accommodation available for its workers and by providing funds to support IACC's existing empty homes scheme to bring vacant properties back into use

- **Welsh language and culture** we will appoint a Welsh Language and Culture Coordinator to develop a behavioural based programme aligned to the goals of the consultation recommendations and implementation of our Welsh Language and Culture Mitigation and Enhancement Strategy

Horizon is already contributing to the vitality of the Welsh language and culture. The Co-ordinator will work with other key Horizon staff and stakeholders, to make sure our activities that support the Welsh language and culture are maintained and enhanced. They will also play an important role in further developing and implementing mitigation and enhancement measures to address effects on the Welsh language and culture

- **Tourism** we will operate a temporary visitor facility area during the construction programme. We also intend to apply for planning permission for a permanent Visitor and Media Reception Centre for the operational phase of the Project. We will also establish a tourism fund to support and fund tourism initiatives on Anglesey

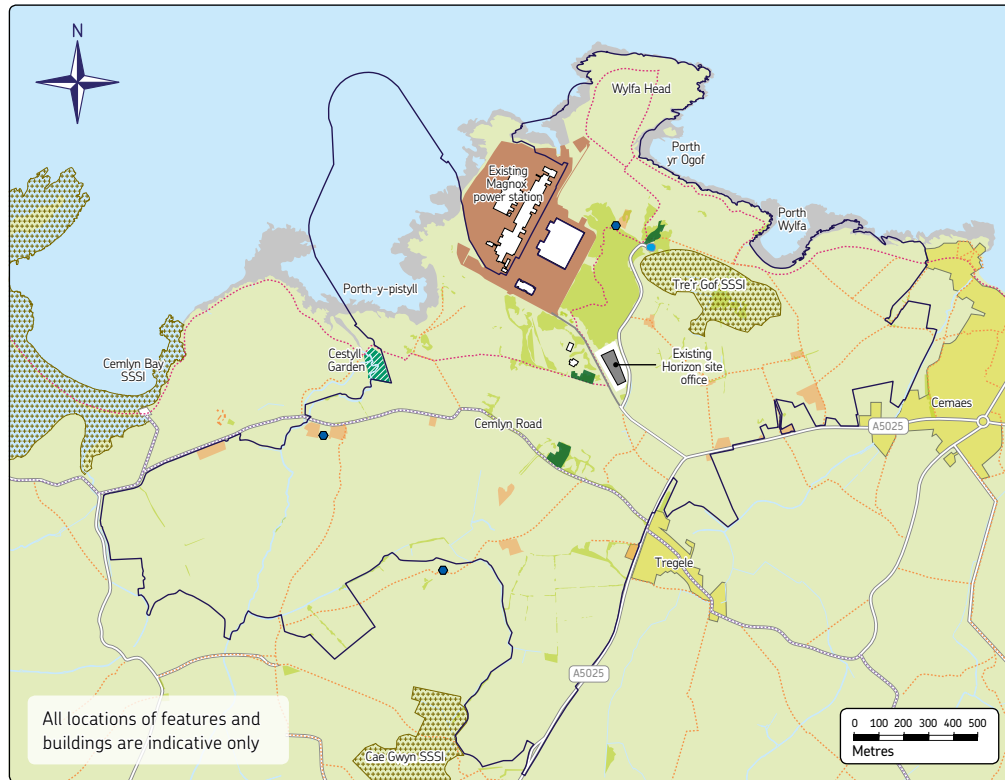

MORE INFORMATION

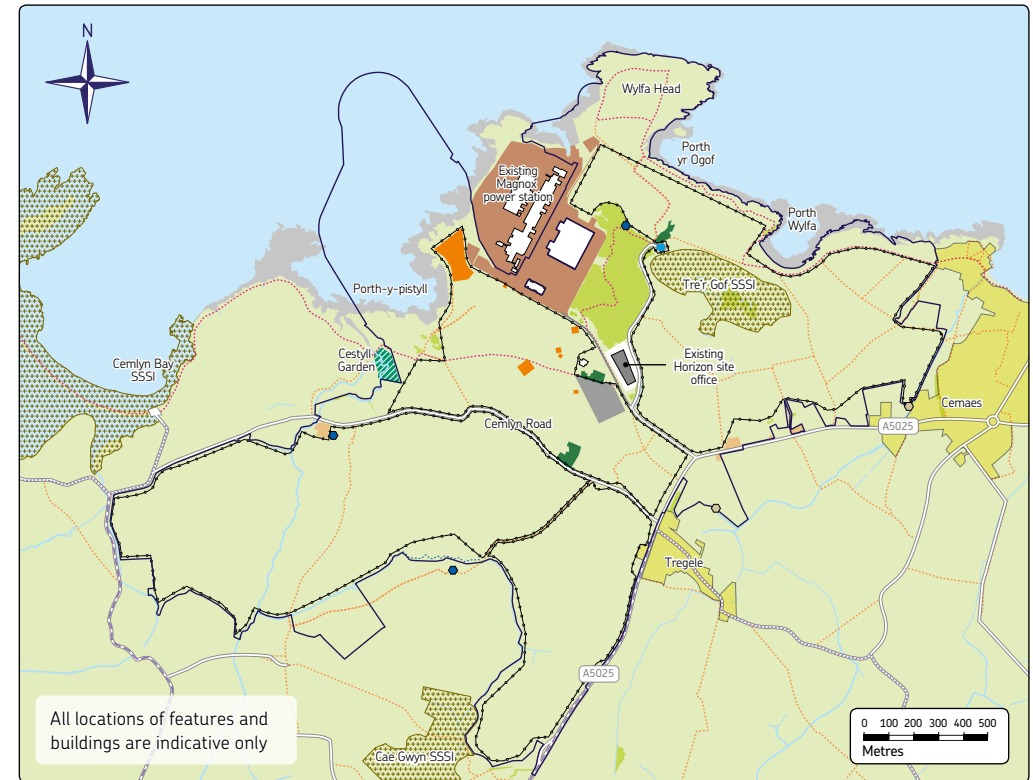

More information on our community benefits specific proposals is set out in Chapter 8 of the Main Consultation Document.

In moving towards the formal Development Consent Order application we will, in partnership with Isle of Anglesey County Council and other stakeholders, continue to develop a delivery-focused community benefits package.

How to respond to this consultation and next steps

There are two documents available as part of the Stage Three pre-application consultation. These are the **Consultation Overview Document (this document)** and our **technical summary, the Main Consultation Document**.

Both of these documents are available to view and download from our website at www.horizonnuclearpower.com/consultation. They are also available to view at our Stage Three consultation events.

These are also available in hard copy form at libraries and Council offices throughout Anglesey, Gwynedd and Conwy. Non-technical documents are available on request in both large text and audio versions by calling **0800 954 9516** or emailing wylfaenquiries@horizonnuclearpower.com

NEXT STEPS

Since the close of the second stage of pre-application consultation in October 2016, Horizon has continued to consult and engage with both statutory and non-statutory bodies. This work has helped us to shape the proposals that are part of this Stage Three pre-application consultation.

Horizon has established a systematic process for the receipt, recording, coding and analysis of all responses received during consultation. Our next step is to review your responses and consider potential refinements to the Project proposals. As part of the application for Development Consent Order, we are required to submit a Consultation Report, which will outline all feedback received and how we have taken it into account. The matters raised in consultation will be shared throughout our organisation and with our technical consultants to inform the final proposals that we submit as part of our application for Development Consent Order later this year.

HOW TO SUBMIT YOUR FEEDBACK

Your response is a very important part of our overall consultation process and can be submitted in either Welsh or English. We look forward to receiving your views at one of our events or in writing. As a reminder, please ensure you have sent your feedback to us by Thursday 22 June 2017.

There are a number of ways in which you can respond:

- **via feedback form**, in Welsh or English, available at our events and information points at locations across Anglesey and in North Wales
- **via our online feedback form**, in Welsh or English, available on our website at www.horizonnuclearpower.com/consultation
- in writing to our freepost address **FREEPOST HORIZON NUCLEAR POWER CONSULTATION**
- via email at wylfaenquiries@horizonnuclearpower.com

We also operate a Freephone number in Welsh and English to answer your questions and queries at any time. You can contact us on **0800 954 9516**.

[illegible]

CONTACT US:

If you have any questions or feedback regarding the Wylfa Newydd Project you can contact us on our dedicated Wylfa Newydd Freephone hotline and email address, by calling on **0800 954 9516** or emailing **wylfaenquiries@horizonnuclearpower.com**

Appendix C.9- PAC3 what's changed

↔ Crynodeb o'r hyn sydd wedi newid

CAM 3

Ers ein hymgyngghoriad cyhoeddus hydref diwethaf, rydyn ni wedi bod wrthi'n brysur yn adolygu'r adborth ac yn mireinio ein cynlluniau ar gyfer Wylfa Newydd ymhellach. Mae llawer o'n cynigion yr un fath ag oedden nhw yn 2016 ond, er mwyn gwneud yn siŵr bod y prosiect cystal ag y gall fod, rydyn ni'n cynnig rhai newidiadau i gynllun yr Orsaf Bŵer, ac agweddau eraill, fel sut byddwn ni'n cartrefu ac yn rheoli'r gweithlu adeiladu dros dro.

Rydyn ni wedi cynnal adolygiad trwyadl o'n cynlluniau ac wedi ail-ddylunio cynllun yr Orsaf Bŵer i'w wneud yn llai yn gyffredinol. Mae hyn yn golygu ein bod wedi gallu symleiddio ein hamserlen adeiladu ac wedi lleihau nifer y gweithwyr adeiladu, y mae disgwyl i'r nifer gyrraedd 9,000 ar ei uchaf am ychydig o fisoedd ddiwedd 2023. Mae hyn yn is na'r ffigur uchaf blaenorol.

Rydyn ni hefyd wedi diweddaru elfennau eraill o'r prosiect:

- rydyn ni wedi lleihau nifer y lleoliadau ar gyfer safleoedd llety gweithwyr dros dro ac rydyn ni rŵan yn cynnig darparu llety ar gyfer hyd at 4,000 o weithwyr mewn un Campws Safle a fydd yn cael ei ddylunio'n arbennig ar safle Wylfa Newydd
- Byddwn yn adeiladu Campws y Safle fesul cam, gyda'r ddau gam cyntaf yn rhoi 2,500 o welyau. Bydd y cam olaf o 1,500 o welyau yn cael ei adeiladu dim ond os bydd angen. Bydd hyn yn lleihau ein heffaith ar lefydd eraill ar Ynys Môn
- rydyn ni wedi mireinio ein cynlluniau parcio a theithio er mwyn adlewyrchu ein dull gweithredu diwygiedig ar gyfer darparu llety i weithwyr adeiladu gan na fydd angen i weithwyr Campws y Safle deithio yn ôl ac ymlaen i'r gwaith bob dydd
- rydyn ni wedi newid dyluniad y Ganolfan Logisteg ym Mharc Cybi a'r safle parcio a theithio yn Dalar Hir
- rydyn ni hefyd wedi lleihau nifer y safleoedd Datblygiadau Cysylltiedig, gan gyfuno ein Cyfleusterau Oddi ar Safle'r Orsaf Bŵer gyda'i gilydd yn Llanfaethlu

BETH FYDD YN AROS YR UN FATH?

Mae llawer o'n cynigion heb newid ers 2016:

- ein hymrwymiad i wella'r A5025 rhwng y Fali a safle Wylfa Newydd
- lleoliad safle parcio a theithio yn Dalar Hir
- lleoliad Canolfan Logisteg ym Mharc Cybi
- ein hymrwymiad i'r Gymraeg a'i diwylliant
- ein hymrwymiad i ddarparu manteision cymunedol sy'n helpu i sicrhau manteision economaidd-gymdeithasol cadarnhaol i'r dyfodol yn Ynys Môn ond hefyd i ranbarth ehangach Gogledd CymruPower Station Facilities together at Llanfaethlu

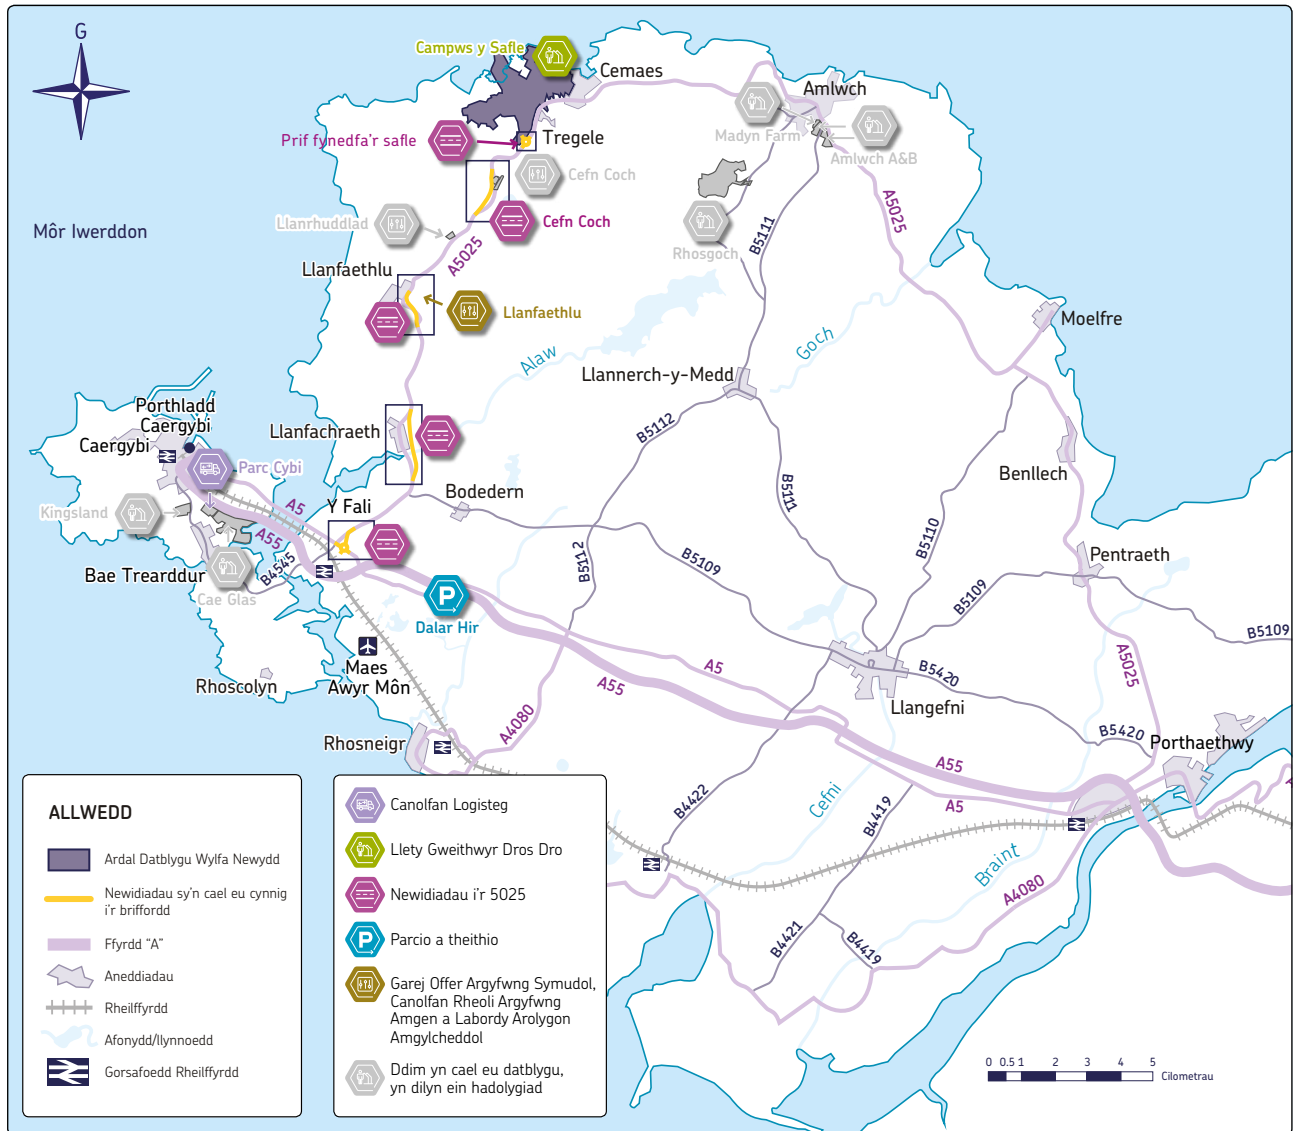

RHAGOR O WYBODAETH

Mae disgwyl rŵan i'r gweithlu adeiladu fod yn 8,500 ar ei uchaf. Serch hynny, er mwyn sicrhau bod y Prosiect yn gallu bod yn hyblyg i bwysau o gynnydd yn y galw na fydd modd ei ragweld, rydyn ni'n seilio ein hasesiadau ar 9,000 o weithwyr. Mae hyn yn is na'r amcangyfrif yn ein hymgyngghoriad cyn ymgeisio Cam Dau, sydd hefyd yn ymateb i'r pryderon a fynegwyd yn yr ymgynghoriad ynghylch nifer y gweithwyr.

Crynodeb o'r hyn sydd wedi newid ers ein hymgyngoriad cyn ymgeisio Cam Dau

DOGFENNAU SY'N YMWNEUD Â'R YMGYNGHORIAD HWN

Mae gennym ddwy ddogfen sy'n egluro manylion yr ymgynghoriad hwn:

- Dogfen Trosolwg o'r Ymgynghoriad
- Y Brif Ddogfen Ymgynghori

Mae modd llwytho'r dogfennau hyn i lawr o wefan Horizon:

↔ A summary of what's changed

STAGE 3

Since our public consultation last autumn, we've been busy reviewing feedback and further refining our plans for Wylfa Newydd. Many of our proposals remain as we set out in 2016 but, to make sure the project is the best it can be, we're proposing some changes to the Power Station layout, and other aspects, such as how we house and manage the temporary construction workforce.

We've carried out a thorough review of our plans and redesigned the layout of the Power Station to make it more compact overall. This means we've been able to streamline our construction schedule and reduce construction worker numbers, which is expected to peak at a maximum of 9,000 for a few months at the end of 2023. This is fewer than the previous peak.

We've also updated other elements of the project:

- we've reduced the number of locations of temporary worker accommodation sites and we are now proposing to accommodate up to 4,000 workers in a specially designed single Site Campus on the Wylfa Newydd site
- we'll construct the Site Campus in phases, with the first two totalling 2,500 beds. The final phase of 1,500 beds will be built only as required. This will reduce our impact elsewhere on Anglesey
- we've refined our parking and travel plans to reflect our revised approach to housing construction workers as Site Campus workers won't need to travel to and from work each day
- we've changed the design of the Logistics Centre at Parc Cybi, and the park and ride at Dalar Hir
- we've also reduced the number of Associated Development sites, combining our essential off-site Power Station Facilities together at Llanfaethlu

WHAT'S STAYING THE SAME?

Many of our proposals remain as we set out in 2016:

- our commitment to improving the A5025 between Valley and the Wylfa Newydd site
- the location for a park and ride at Dalar Hir
- the location for a Logistics Centre at Parc Cybi
- our commitment to the Welsh language and culture
- our commitment to providing community benefits that help deliver a positive socio-economic legacy to Anglesey but also the wider North Wales region

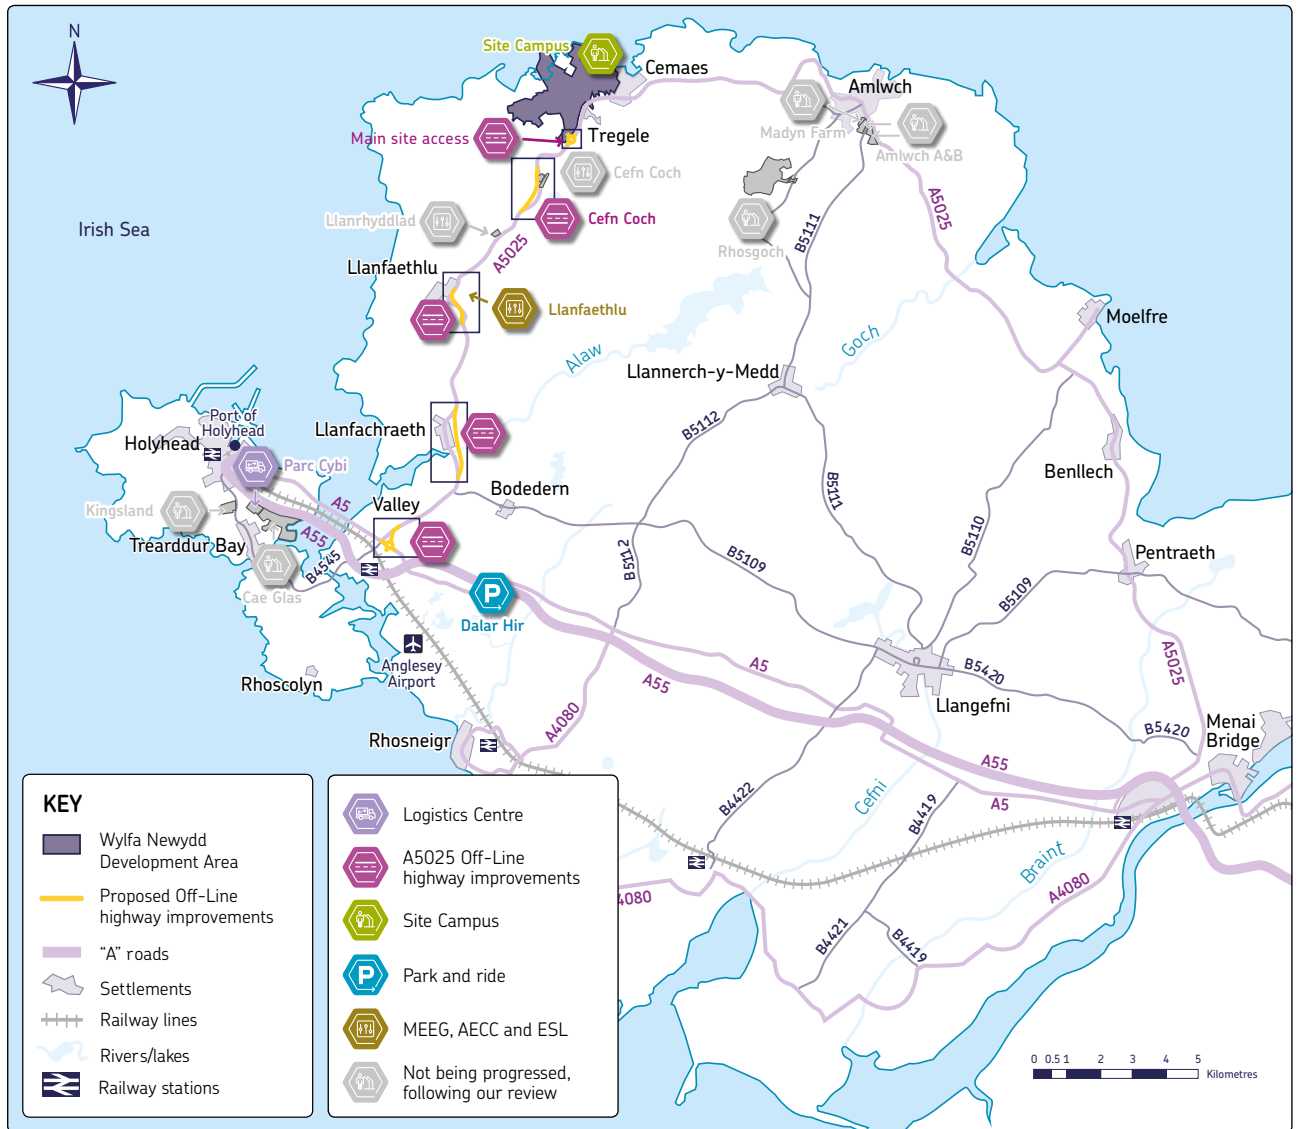

MORE INFORMATION

The construction workforce is now anticipated to peak at around 8,500. However, to ensure that the Project can be flexible to the pressures of unforeseen increased demand, we are basing our assessments on 9,000 workers. This is a reduction from our Stage Two pre-application consultation estimate of peak working numbers, which is also in response to concerns expressed in previous consultations.

Summary of what's changed since our Stage Two pre-application consultation

DOCUMENTS RELATING TO THIS CONSULTATION

We have two documents that explain the details of this consultation:

- Consultation Overview Document
- Main Consultation Document

These documents can be downloaded from Horizon's website:
