Subject: Re Wylfa Newydd B; Request to appear and speak at the hearings held under Section 91 of the Planning Act 2008
Date: 04 December 2018 20:01:01

FAO Kay Sully.

Dear Ms Sully,

In relation to:

Planning Act 2008

Application by Horizon Nuclear Power Limited for an Order Granting Development Consent for the Wylfa Newydd Nuclear Power Station

We are an Environmental NGO, based in Ireland and have been following the progress of Wylfa B for some years. We wish to appear and speak at the hearings held under Section 91 of the Planning Act 2008.

We will speak on the following subjects:

- Obligations in respect of Climate Change
- Obligations in respect of Waste Management
- The transboundary impacts of the development
- Compliance with and obligations under EU law
- Compliance with and obligations under international law
- Obligations under the UNECE
- Obligations under the following EU Directives
 - EIA Directive
 - Water Framework Directive
 - Marine Strategy Framework Directive
 - The Birds Directive
 - The Waste Directive
- Air quality obligations

Having regard to the timetable of the Issue Specific Hearings we believe that the Hearings on:

Wednesday 9 January 2019
Issue Specific Hearing on The Draft Development Consent Order

Thursday 10 January 2019
Issue Specific Hearing on Biodiversity / HRA / Flood Risk (Marine & Terrestrial)

would be the most suitable. If you feel that all of the subjects listed above could be covered on a single date, we would be open to any suggestions that you may make.

We will present experts and specialists in the various headings.

I would be obliged if you could let us know of any requirements regarding making presentations to the hearings e.g. number of hard copies of documents to present. We will provide electronic versions of any presentations that we make.

Yours sincerely

Justin Byrne

Chair
