1	Horizon's Response to National Grid Electricity Transmission's Written Representation	1
1.1	Introduction	1
1.2	Written Representation	1

[This page is intentionally blank]

1 Horizon's Response to National Grid Electricity Transmission's Written Representation

1.1 Introduction

- 1.1.1 This report provides Horizon's response to the Written Representation submitted by National Grid Electricity Transmission ("NGET") at Deadline 2 (4 December 2018) [REP2-312].
- 1.1.2 For ease, cross-references are provided (where appropriate and feasible) and the response generally follows the structure and sequence of the Written Representation received. Horizon has endeavoured to respond to the key matters raised in this Written Representation. Where Horizon has not responded to a particular point or issue raised by an Interested Party, this should not necessarily be taken as agreement with that point.

1.2 Written Representation

Ongoing engagement with NGET

- 1.2.1 The Wylfa Newydd DCO Project is being promoted by Horizon and the North Wales Connection Project is being promoted by NGET. The interrelationship between these two projects is detailed in NGET's Written Representation at paragraph 2 and the draft Statement of Common Ground submitted at Deadline 2 [REP2-044].
- 1.2.2 Given this relationship, Horizon and NGET have been working together from an early stage of project inception to discuss the interaction between the two overlapping DCOs and agree ways of working on areas of the project with physical interdependencies and information sharing.
- 1.2.3 Horizon appreciates NGET's continued engagement through Examination and expects to continue to work closely with NGET through further meetings and the Statement of Common Ground process to ensure there are no areas of concern between the two DCO projects.

Specific points raised by NGET

- 1.2.4 NGET raises a number of specific matters in its Written Representation. Horizon is aware of these matters and all are being progressed through the ongoing discussion between Horizon and NGET including the recent meeting of 30 November 2018. Horizon makes the following comments in respect of these matters.
- 1.2.5 **Protective provisions:** Horizon appreciates NGET's concerns regarding the need to ensure adequate protection of apparatus. The parties are agreed that protective provisions are the appropriate mechanism for achieving this protection and the parties have been engaging on this.
- 1.2.6 **Access to the substation:** Horizon appreciates NGET's need for sufficient assurances regarding ongoing access to its substation site. Horizon and NGET are in discussions as to the appropriate mechanism for achieving this.

- 1.2.7 **Third party service connections:** Horizon is aware of the third party services that are currently provided to the Substation Site from the Existing Power Station site. As NGET notes, discussions are ongoing regarding the relocation of these.
- 1.2.8 **Extent of land and rights proposed to be acquired:** Discussions are ongoing regarding the extent of NGET's land and/or rights in land that Horizon is seeking powers of compulsory acquisition in respect of. Horizon is reviewing NGET's composite list of plots provided and will respond to NGET in due course.
- 1.2.9 **Meteorological mast:** Horizon clarified in the meeting of 30 November 2018 that the mast is not under Horizon's control, rather it is managed and maintained by Magnox Ltd. Horizon acknowledges NGET's need for the relocation of the mast and will continue to work with both Magnox Ltd and NGET to find a solution through its removal or relocation.
