### Statement of Common Ground with National Grid

Dear Examining Authority

This document needs to either be revised, to remove all reference to overhead transmission lines, or deleted from the public record.

To leave it unaltered would be an abuse of the planning process.

National Grid should not be allowed to get "approval by stealth".

I live on the island and we depend on the beauty of our island for so much of our economy, please do not ruin this and spoil the ONLY large industry we have left.

With regards

Angharad Westmore
