Summary of key points discussed and advice given	<p>Project Update (Horizon)</p> <ul style="list-style-type: none"> Isle of Anglesey County Council (IACC) and Horizon signing final Planning Performance Agreement (PPA) PPA in October 2011. PPA covers Wylfa B New Nuclear Power Station and associated development but not the National Grid electricity connection. IACC are considering preparing Position Statements (PSs) to support interim policy and planning guidance as the Local Development Plan (LDP) is not due to be submitted until 2016. Horizon to consult on nationally significant infrastructure project (NSIP) and enabling works/associated development concurrently making clear the distinction between the separate consenting regimes. A Statutory Working Group (SWOG) including IACC, Environment Agency Wales, Countryside Council for Wales, Cadw, Welsh Government Marine Consents Unit provides a high level overview and co-ordination of relevant development works and activities. <p>Anticipated Timescales (Horizon)</p> <ul style="list-style-type: none"> October 2011: IOCC deadline for comments on draft Statement of Community Consultation (SoCC) December 2011: publish SoCC Around the end of the year: decision on technology Early 2012: stage 1 pre-application consultation (s42 and s47) (PAC1)
