## 1 INTRODUCTION

### 1.1 Purpose

1.1.1 This document is provided on the request of the Examining Authority (ExA) to assist in understanding areas of commonality across the Statements of Common Ground (SoCGs) for the Sizewell C Project.

1.1.2 It comprises SZC Co.'s understanding of the stakeholders' positions, as set out in the SoCG submitted by SZC Co. at Deadline 2. This document also provides an update on the status of each of the SoCG.

1.1.3 For a more detailed understanding of the respective stakeholders' positions in relation to the topics covered, reference should be made to the SoCG submitted at Deadline 2.

1.1.4 This document will be updated during the examination to reflect any changes to the SoCGs through further discussions with Interested Parties.

### 1.2 Structure

1.2.1 This document is structured as follows:

- **Section 2** provides an introduction to the drafting of the SoCG along with a summary of their structure;
- **Section 3** provides an up to date list of the SoCG and their status; and
- **Section 4** details the commonality between the SoCG.

## 2 STATEMENTS OF COMMON GROUND

2.1.1 SZC Co. has sought SoCG with Interested Parties in line with the ExA's Rule 6 letter [\[PD-011\]](#)<sup>1</sup>. The purpose of the SoCG is to set out the position of the parties on all relevant matters relating to the Application, including the construction and operation of the Sizewell C nuclear power station and its associated development. The SoCG cover matters raised within the relevant representations of the Interested Parties, topics listed within the ExA's Rule 6 letter [\[PD-011\]](#), the ExA's first round of written questions [PD-016 to PD-022] and any other issues raised over the course of the

<sup>1</sup> As requested by the ExA in the Rule 6 letter [\[PD-011\]](#), SZC Co. invited the Suffolk Preservation Society (SPS) to enter into a SoCG. SPS later confirmed that it '*will not be making further representations or taking any further involvement in the examination process*'. Responses to comments raised by SPS are therefore provided within the **Relevant Representations Report** [\[REP1-013\]](#).

examination process. A full list of the SoCG and their status is provided within **Section 3**.

**2.1.2** To ensure consistency in the approach taken to documenting matters agreed, matters subject to ongoing discussions or matters not agreed, the SoCG generally adopt a standard format in order to provide clarity. Each SoCG is broadly structured as follows:

- a brief introduction, setting out the status of the SoCG, purpose of the document, an explanation of the statutory role of the Interested Party and the structure of the SoCG;
- a table(s) setting out the current position of the Interested Party and SZC Co. – for most SoCG this is set out by topic with areas of agreement, disagreement and discussions ongoing stated under each topic or matter; and
- a summary of engagement undertaken on the SoCG.

**2.1.3** The following SoCG do not follow this standard format, either because they relate to limited topics, or because the SoCG party wished to follow a different format:

- Natural England;
- Network Rail; and
- Department for Transport.

## 3 LIST AND STATUS

**3.1.1** This section provides a list and a summary of the status of each SoCG at Deadline 2.

**3.1.2** **Table 3.1** provides a high-level position of the SoCG and where necessary includes further detail to aid understanding by the ExA. In summary, the high-level positions used in **Table 3.1** are as follows:

- **Signed SoCG** – The final version of the SoCG has been signed by both parties and there are no matters outstanding.
- **Draft agreed SoCG with matters outstanding** – The draft SoCG has been agreed by both parties, but there remain matters outstanding that SZC Co. and the other party(ies) agree to continue engage on through the examination. The matters outstanding have defined actions to resolve in the main.

- **SoCG in draft (reflecting individual positions)** – The SoCG was drafted by SZC Co., it has been shared with the other party and comments have been provided, but it has not been possible to fully close out comments and / or reach full agreement with the other party that the document is a mutually agreed draft. These drafts are considered to be an accurate representation of the individual positions of the SoCG parties.
- **SoCG in draft (SZC Co. drafted, awaiting comments)** – The SoCG was drafted by SZC Co. and issued to the other party, however, comments are awaited. The SoCG represents SZC Co.'s position.

**3.1.3** **Table 3.1** will be updated at subsequent deadlines to provide an update on the progress made with finalising the SoCG.

## 4 COMMONALITY

### 4.1 Summary

4.1.1 This section provides a summary of the principal issues covered in the SoCG and demonstrates where there is commonality in the topics or matters being discussed with the various parties.

4.1.2 **Table 4.1** has been presented in such a way to show topics covered within the various SoCG and how these are relevant to each Interested Party, using the colour coding detailed in **Plate 4.1**.

**Plate 4.1: Key to colour coding used in the commonality table**

Matter agreed	
Matter subject to ongoing discussion	
Matter not agreed	
Matter not relevant to a particular SoCG party	

4.1.3 Where a matter is marked as agreed (coloured in green), this may be conditional on mitigation being secured either through requirements within the **DCO** or through planning obligations within the **Draft Deed of Obligation** (Doc Ref. 8.17(C)). Where this is the case, this is set out in the SoCG. Details on the matters agreed, not agreed and subject to ongoing discussion are provided within the individual SoCG.
