

I wish to submit an objection to Sizewell C. As a landowner here for over 20 years I have invested in this area largely because of its visitor appeal and unspoiled character. .The construction work over many years for this environmentally destructive oversized Sizewell C project will damage what makes this part of Suffolk so appealing to visitors: its peace, beauty, and calm. Visitors will be repelled by ugliness, noise, pollution, eyesores, closed footpaths and beaches and the influx of enormous numbers of construction workers from outside the area will wreck the friendly community spirit and bring in bad behaviour as happened during the building of the current power station. It will wreck the important local industry of tourism to the Area of Outstanding Natural Beauty (AONB).

Sizewell C would be too large for the site and damage the environment including the habitat of the endangered marsh harrier.

I would like to express my objection and dismay in the strongest terms

Sincerely

j. Woolf
