---

Dear Sirs

I strongly object to the proposed Sizewell C. It will be the largest construction site in Europe carving out this beautifully fragile environment of the Eastern coast.

The destruction of this part of Suffolk will be catastrophic on all accounts, the benefits to man and beast negligible.

I know that there is a better, safer way forward for our environment and a solution to climate change. We have but 1 life and Sizewell C should not be constructed.

Yours sincerely  
Chris Collie
