Subject: Objection to Sizewell C
Date: 19 June 2021 07:09:11

I object to Sizewell C as it is the wrong project in the wrong place and will not help the UK achieve its objectives:

- It will not generate any power until 2034
- It is expensive and costs are likely to increase
- It won't contribute to net zero carbon until 2040
- All EDF projects are over budget and running late
- No one knows how Sizewell C will be paid for
- China General Nuclear is mired in controversy
- Nuclear energy is not green energy.
- There are no long term solutions to nuclear waste
- Sizewell C is more likely to damage the local economy than to provide jobs
- Accommodation and facilities for workers are inadequate
- Our local tourism industry will suffer
- There will be around 12,000 extra vehicles a day on the A12, including 700 HGVs
- The site is on an eroding coastline and surrounded by protected wildlife habitats
- The site is within the Suffolk Coasts and Heaths Area of Outstanding Natural Beauty and adjoins the famous RSPB Minsmere Reserve.

Yours faithfully
Sheila Parry
