Dear Sirs,

I do so hope that Sizewell C is not approved, many people feel it is a foregone conclusion and that everything will be rubber stamped so to speak. I hope this is not so as there are so many things wrong with the proposal. This is a beautiful area of Suffolk but is going to be ruined for ever, nobody in their right mind will want to holiday here anymore, there will be many nicer places to go, you only have to look at Hinckley and surely don't approve it at a time when even the French are not going ahead with Nuclear Power. There are many people against it in Suffolk please listen to them

Yours sincerely
Sally Evans (Mrs)
