Subject: Objections to Sizewell C Plans
Date: 07 August 2021 16:54:58

To the planning inspectorate

I was born and raised in Suffolk and still a huge part of my heart and my family are there.

I am so concerned about the plans to build Sizewell C and the impact that it will have on the local environment.

In a time when there is so much advancement in creating other forms of renewable energy please could you not consider suspending this expansion plan and focusing on other solutions.

This area is unique and precious and once compromised; we have lost something that cannot be reclaimed.

Please can you count this email as an objection to the proposal.

Best Wishes

Kate
