Subject: STOP sizewell
Date: 06 August 2021 17:46:53

Hello

I have signed all the petitions and want to add to the emails you are receiving because in this day and age, Sizewell is a serious step backwards and is something that simply can't be allowed to happen.

You must forbid them planning permission. Please do your bit for this dying world and listen to your conscience.

This proposal is absurd and EDF want to tax us every day workers to do it?! We've all lost so much during the pandemic, we simply can't afford to be taxed even more.

Their proposal to tanker in water for a year is disgusting with everything going on in the world already. Is there big enough pollution?!

EDF and other big companies need to be held accountable and should be pioneering ways to save the planet and produce safe, clean, green energy.

They are a disgrace and I truly hope you will not allow them to proceed.

Kindest Regards

Penny
