ESIDB Comments on additional information/submissions received by D8 and D9

### **Schedule of Other Consents, Licences and Agreements [REP8-048]**

ESIDB has provided (22 September 2021) a list of proposed additions to the Schedule of Other Consents which are accepted by SZC Co. and will be included in the Deadline 10 version of this document.

### **Volume 2 Main Development Site Chapter 2 Appendix 2A: Drainage Strategy [REP8-050]**

ESIDB notes that there is the potential for discharge to a watercourse from the campus. While not unacceptable in theory, additional information on how the campus will connect to said watercourse would be useful.

### **Volume 3 Chapter 2 Environmental Statement Addendum Groundwater and Surface Water Appendices, Appendix 2.14.A: Water Monitoring and Response Strategy [REP8-067]**

### **Draft Deed of Obligation [REP8-088]**

### **Draft Water Monitoring and Management Plan [REP8-107]**

ESIDB acknowledges the extensive changes made to the three documents listed above and considers that the previous comments (D8) made by the Board regarding the inconsistency between the previous version of The Water Monitoring and Response Strategy and the Water Monitoring Plan [REP7-075], as well as the comment regarding the governance structure behind the Water Monitoring Plan have been suitably addressed and clarified.
