A non-material change (“NMC”) application to amend the DCO has been submitted to the Secretary of State for Energy Security and Net Zero (DESNZ) by Projco 1 and Projco 2.

Previous NMC applications have already been submitted to (and approved by) the Secretary of State for the following changes to the DCO:

- on 17 June 2022, to increase the maximum permitted hammer energy during the installation of the wind turbine and electricity substation (platform) structures.³

A further NMC application is now being sought to amend the wording of certain definitions, articles and paragraphs of schedules, to allow the two parts of the development (known as the Dogger Bank A Offshore Windfarm Project, or DBA, and the Dogger Bank B Offshore Windfarm Project, or DBB) to be considered as distinct from one another, and for the discharge and enforcement of each project’s relevant requirements (including the acquisition of each project’s transmission assets) to be distinct from the other project.

² The Dogger Bank Creyke Beck Offshore Wind Farm (Amendment) Order 2020.

³ The Dogger Bank Creyke Beck Offshore Wind Farm (Amendment) Order 2022.

3. you are a person who may be directly affected by the changes proposed in the NMC.

Alongside this letter we have included the Regulation 6 Notice that has been published in Fishing News, Bridlington Free Press and The Holderness and Hornsea Gazette.

It is possible to access all of the application documents at the “documents” tab on the National Infrastructure Planning Portal (Dogger Bank Creyke Beck) page here: <https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010021>.

Dear Planning Inspectorate,

Re.:

**The Dogger Bank Creyke Beck Offshore Wind Farm (Amendment) Order 2025 -
Application for a Non-material Change**

Historic England Advice

Historic England can confirm, in reviewing the proposed amendments, that we accept they would constitute a non-material change to the DCO. As they are seeking for the two parts of the project to be considered separately, and for the discharge and enforcement of the relevant requirements on that basis.

We therefore have no further comment to offer.

Yours sincerely,

Dear Sir/Madam,

Dogger Bank Creyke Beck Offshore Wind Farm 2015 – Non-material Change Application

The Planning Inspectorate has consulted Natural England in letter dated 11 April 2025 regarding the application by Dogger bank Offshore Wind Farm Project 1 Projco Limited ("Projco 1") and Dogger bank Offshore Wind Farm Project 2 Projco Limited ("Projco 2") to make a Non-Material Change (NMC) to the Dogger Bank Creyke Beck (Dogger Bank A&B) Development Consent Order (DCO).

The following constitutes Natural England's formal statutory response.

Natural England note that the Applicants are seeking to apply for a further NMC to the 2015 Order, as amended, to allow the DBA Project and the DBB Project to be considered separately, and for the discharge and enforcement of each project's relevant requirements to be entirely severable approaching completion of the Development. The proposed changes will allow for transmission arrangements to be progressed separately.

Natural England consider that the NMC as proposed is unlikely to have any tangible implication on any of the designated sites of conservation interest that fall within our role and remit.

Natural England notes that there are no changes proposed for the associated transmission deemed Marine Licences (dML's) contained in Schedules 10 and 11 of the DCO, noting that a variation to these would likely fall within the Marine Management Organisations (MMO) remit.

We query whether there is intent to vary the dML's at a later date, in consultation with the MMO.

For any queries relating to the content of this letter please contact me using the details provided below.

Yours faithfully,

Operations Delivery Higher Officer Marine, Northumbria and NNS Offshore Wind Team.

Dear Sir/Madam,

I am writing in response to your letter to MCA dated 11 April 2025 requesting comments on the consultation for a non-Material Change to the made Dogger bank Creyke Beck Project. It is understood the change is "to amend the wording of certain definitions, articles and paragraphs of schedules, to allow the two parts of the development (known as the Dogger Bank A Offshore Windfarm Project, or DBA, and the Dogger Bank B Offshore Windfarm Project, or DBB) to be considered as distinct from one another, and for the discharge and enforcement of each project's relevant requirements (including the acquisition of each project's transmission assets) to be distinct from the other project".

I can confirm the MCA does not have any comments on the non-material change.

Yours faithfully,
