You don't often get email from [REDACTED]@orsted.com. [Learn why this is important](#)

Dear Vaishali,

Thank you for your email.

In principle HOW04 has no significant concerns regarding the increase in hammer energy, on the assumption that cumulative effects are included within the Site Integrity Plan (SIP). We request that HOW04 is notified of Dogger Bank C's intention to submit the SIP at least 30 business days prior to submission, and that HOW04 are consulted on the content of the document.

Many thanks,

Jemima

Best regards,

Dear all,

Apologies for sending another email.

We would be grateful if you would acknowledge safe receipt of email (see below) sent on the 22nd August and its enclosures.

Many thanks,
Vaishali

Subject: Fw: Dogger Bank C Offshore Wind Farm – Non-Material Change application to the DCO - Stakeholder Consultation Request

Dear All,

I'm writing to you on behalf of Dogger Bank Teesside A Offshore Wind Farm (now known as Dogger Bank C Offshore Wind Farm). The Project has submitted a Non-Material Change (NMC) to the Development Consent Order (DCO) to increase the maximum hammer energy used for pin-piles in the Offshore Substation Platform Foundation installation to 3,000 kJ from the originally consented 1,900 kJ.

You have been identified as a party to consult on this application in accordance with Regulation 7 of the Infrastructure Planning Regulations 2011 as you were previously consulted about the DCO application and you are formally being consulted on this.

Please find enclosed in support of this NMC Application:

- a Cover Letter
- an Environmental Report
- a Marine Mammal Technical Report
- a Draft Amendment Order, containing the changes to the DCO that the Project Company is seeking; and
- a Tracked Change version of the DCO, showing the effect of the amendment order on the DCO
- a Regulation 6 Notice
- a Regulation 7 Letter

If you have any issues accessing the documents then please let me know.

Kind regards,

Vaishali Phippen MSc
