Subject: RE: East Anglia Three Offshore Wind Farm Primary Radar Mitigation Scheme Consultation Letter [SG23419]

[REDACTED]

Whilst there remains some integration and validation work to be completed this can't be fully undertaken until after the turbines are up and turning therefore NATS are content that for the purposes of the Order the requirements of paragraph 5 of the Primary Mitigation Scheme have been met.

NATS are therefore content that from our perspective construction can continue above the transition piece without detrimentally affecting our operation.

Regards,

[REDACTED]
