Dear Planning Inspectorate

Natural England do not have comments to make on the application to make a non-material change to the Ferrybridge Multifuel 2 Power Station NSIP (EN010061), application letter dated 19 December 2024.

This advice is based on the information provided in the application letter which states that there will be no material change to air quality impacts from the development, including no changes to emissions dispersion profile or traffic movements (paragraph 5.4).

Kind regards

Lisa Sheldon
