30 November 2021

Dear Rynd Smith,

Planning Act 2008, Scottish Power Renewables, Proposed East Anglia One North (EA1N) Offshore Windfarm Order

MMO comments on the request for information by the Secretary of State's (SoS) letter date 02 November 2021

The MMO received a letter from the SoS dated 02 November 2021 requesting further information on various matters. The MMO has reviewed the matters presented by the SoS and consider that only one section requires our response as an Interested Party, this being Section 6 "Offshore Ornithology". The MMO has provided comments below.

Offshore Ornithology

The MMO notes that the Examining Authority has requested that the Interested Parties provide comments on the current Offshore Ornithology Cumulative and In Combination Collision Risk and Displacement Update, which was submitted by the Applicant in response to Deadline 13 at the end of the Examination period. The MMO defers to Natural England on this point as it has done previously on matters related to Offshore Ornithology and In-Combination/Cumulative impacts.

This written representation is submitted without prejudice to any future representation the MMO may make about the DCO Application. This representation is also submitted without prejudice to any decision the MMO may make on any associated application for consent, permission, approval or any other type of authorisation submitted to the MMO either for the works in the marine area or for any other authorisation relevant to the proposed development.

Yours Sincerely,
