DEADLINE 4 SUBMISSION

Video of the Local Ecology Threatened by the construction of EAN1 & EA2

Dear Examining Authority,

Please find below a link to a video presentation of the local ecology and wildlife that will be threatened by the onshore construction of Scottish Power Renewables wind farms East Anglia North One and East Anglia Two and subsequent energy projects connecting to the substations at Friston.

<https://infrastructure.planninginspectorate.gov.uk/document/EN010078-003527>

The virtual hearings have thwarted the community presenting their opinions creatively and personally. SEAS hopes this video goes someway to explaining the value of the area that will be blighted should the DCO be consented.

Thank you for your attention

The SEAS Team
