

DEADLINE 4 Submission

PINS ref: EA1N-EN010077 and EA2-EN010078

My Ref: 20023337 and 20023338

Dear Examining Authority,

I take issue with Scottish Power Renewables re Oral Case ISH 2 re Onshore Siting, Design and Construction where they argue that additional projects should not be included in their Cumulative Impact Assessment.

Please uphold your pledge to undertake both a full Cumulative Impact Assessment of all projects and also a rigorous examination of the Cumulative Impact Assessment itself.

The extra substations sites, the landfall site and the cable corridor should be included. It is unacceptable and uneconomic to dig up the cables multiple times to accommodate each piecemeal development.

May I remind you that the Primary Stakeholders in the examination insist that the effects of these projects and their impacts should be fully considered in this Examination.

Failure to bring SPR to account on this issue will result in a regrettable loss of confidence in the Examination,

yours sincerely,

Michael Laschet
