Dear K-J,

This is Video 1a to support the visit. I'll send Video 1b separately .

The location of the flooding is on the maps I've sent last week. This is approaching from [REDACTED] and Wardens, facing Westwards, and is around a 10 minute reasonably paced walk from there. As I've mentioned, it might be preferable to retrace one's steps. I've marked all accessible paths in the vicinity in the submission of last week to help the Panel find the shortest route around should that be necessary.

Best Regards,
Tessa.
