Dear 

Vattenfall - Norfolk Vanguard & Norfolk Boreas Offshore Wind Farms

Meeting to discuss potential impact on your Land - Reminder

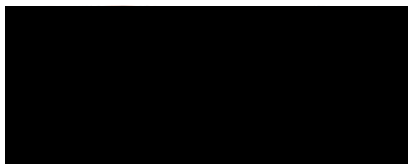

Further to our previous letter, as a landowner on the preferred cable route, we would like to remind you about the opportunity to meet with us to have a more focused conversation about the cable route and your land and land use.

As mentioned in our previous letter, Consents Solutions are working with Vattenfall to establish a cable route for the connection of their proposed wind farms to the National Grid. It is important that landowners and occupiers have an opportunity to comment on the preferred routing and we value your input and local knowledge into the project design. We will be able to supply plans of the proposed cable corridor in your area and look at a preferred cable route within that corridor, together with any access requirements, taking into account your land use.

If you would like to arrange a meeting, please contact our office on the telephone number shown below, or alternatively email on vattenfallinnorfolk@consentssolutions.com, to make an appointment at your convenience.

We look forward to hearing from you.

Yours sincerely

Bob McCarthy
Consents Solutions Ltd
On behalf of Vattenfall
