Dear inspectorate

I want to express my concern and sadness at the possibility that Graveney Marshes will be taken to an industrial solar sight. This will not be a farm. It will be an industrial sight that has no benefit to the community that could possibly outway the loss of landscape and richness of environment.

It is a precious and loved landscape in the increasingly overdeveloped southeast. To give it the go ahead would show utter contempt to the people and landscape of this area. When my mental health faltered some years ago it was walking here that healed it. Please Preserve this beautiful place from money grabbing industry.

Kind regards

Tracy Perret
