Dear Ms Williams,

Planning Act 2008

Ref: EN010092

Proposal: Flexible Generation Plant comprising gas reciprocating engines with electrical output totalling 600 MW; batteries with electrical output of 150 MW; gas and electricity connections; the creation of access roads and a causeway; and creation of habitat and exchange Common Land

Location: Thurrock Flexible Generation Plant Fort Road Tilbury

Deadline 6

Further to the above I write to you to provide a response to the points listed in the final examination timetable attached as Annex A from the Inspector's letter dated 9 June 2021 for Deadline 6.

- *Comments on responses submitted for Deadline 5;*

Following a review of the submissions made to Deadline 5 Thurrock Council has no comments to make to these representations.

- *Responses to ExA's additional written questions (ExQ3).*

Please see the enclosed/attached document providing Thurrock Council's responses to ExQ2.

- *Responses to Written Representations on accepted changes and proposed provisions.*

Following a review of the Written Representation on accepted changes and proposed provision Thurrock Council has no comments to make.

- *Comments on additional photography.*

Following a review of the additional photography Thurrock Council has no comments to make.

- *Any other information requested by the ExA for submission at Deadline 6.*

Nothing further to report.

I trust that this information is of assistance and should wish to contact me regarding the content of this letter then please use the email address provided.

Yours sincerely

Chris Purvis
Major Applications Manager
