North Lincolnshire Council Planning Application Reference: CON/2025/337

Proposal: Immingham OCGT – Non-Material Change

Location: VPI Power Station, Rosper Road, South Killingholme, DN40 3DZ

Officer: [REDACTED]

Thank you for your email dated 13th March 2025 giving North Lincolnshire Council (NLC) the opportunity to comment on Immingham OCGT – Non-Material Change

I can confirm that after consultation with our internal technical consultees that North Lincolnshire Council has the following comments to make-

Archaeology: I am please to confirm that the NMC will not result in any additional impact on cultural heritage or archaeological remains

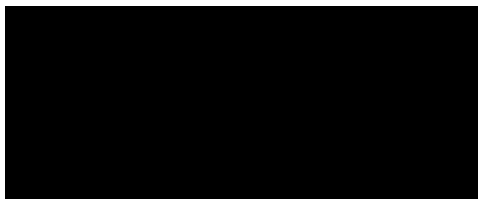

Highways: The proposed amendments are unlikely to have any impact on the highway network.

Ecology: The revised proposals appear to have the potential to an existing drain and bankside comments. I have no objections, provided that the works are carried out in accordance with Requirement 6 of The Immingham Open Cycle Gas Turbine Order 2020 (the DCO) which requires a biodiversity protection plan for each stage of the development.

Given the above comments North Lincolnshire Council have no concerns regarding the Non-Material Change other than to draw attention to the Ecology's comment that Requirement 6 of The Immingham Open Cycle Gas Turbine Order 2020 applies.

I trust that this response has provided the necessary clarification. Do not hesitate to contact me should you wish to discuss this matter further.

Kind Regards

Senior Planning Officer
North Lincolnshire Council
