

I live in Snailwell being a small but unique village outside Newmarket. The village has a lot of history with some lovely houses. It's unique qualities and infrastructure would be severely damaged including the road through the village if Sunnica were to get approval with their intentions given the large number of lorries that would be going through Snailwell for years to come. The serenity of Snailwell would be severely damaged and therefore I do sincerely hope the Sunnica intentions in this part of East Cambs and Suffolk is not given approval. Also the loss of agricultural land would be immense and never be recovered.

Please seriously consider the objections to Sunnica and their wishes and intentions in this area. Thank you. Michael Wallis
