

SUNNICA ENERGY FARM DCO EXAMINATION

POST HEARING SUBMISSION

ISSUE SPECIFIC HEARING 1 - NOVEMBER 2022

SAY NO TO SUNNICA ACTION GROUP LTD

11 NOVEMBER 2022

Post-hearing submission for ISH1 on the draft DCO following the hearing on 1 November 2022

1. The Say No to Sunnica Action Group Limited (SNTS) is an interested party (ID No 20031080) in the DCO examination.
2. This post-hearing submission follows the hearing on 1 November 2022. As Written Representations are due by the same deadline as this submission, we limit this document to those things specifically requested by the ExA.
3. As a preliminary point, SNTS maintains the views that it advanced in the summary submission submitted prior to the hearing **[REP1-047]**. The Written Representations due at the same time as this post-hearing submission will further flesh out these issues.
4. At the hearing, the ExA made two requests specifically to SNTS. The first was for its calculations which led to the conclusion that the scheme could include batteries up to 3,110 MWh of capacity. The document in which that calculation is undertaken is the expert report of Alex Dickinson (of Pebben Ltd) submitted with SNTS's written representations **Annex H**.
5. In addition, the ExA requested that SNTS clarify the 'early documentation' referred to in para 24 of **[REP1-047]**. This related to documents referencing a 500 MWp output for the PV portion of the scheme. This was SNTS referring to the Scoping Report¹ dated March 2019 which is cross-referenced in SNTS Written Representation **Annex F** – Carbon.
