Dear Sir/Madam

Thank you for your email advising of additional information following the Secretary of State's letter dated 27th July 2023.

Newmarket Horseman's Group has reviewed the documents as submitted and remain of the opinion that the application should be refused. We remain of the opinion that it is not an effective use of land but is an example of bad solar which causes disproportionate harm to the location, local economy, and local communities.

Yours faithfully

John Morrey
On behalf of Newmarket Horseman's Group

John Morrey

Director
