Subject: The Sunnica Energy Farm (Correction) Order 2024 (SI 2024/1154)
Date: 12 January 2026 13:55:32

I write regarding the application for a non-material change to The Sunnica Energy Farm Order 2024 (SI 2024/802), as per above reference, and to register my appeal, once more, against this scheme and extension of goal posts to swallow yet more of the original proposed boundary, on the grounds of this scheme not being fit for purpose based on mine and many other's previous reasons provided.

Considering the risk factors raised by local authorities, I am surprised this scheme was approved in the first place.

The [REDACTED] tactics of Sunnica towards residents and compulsory land [REDACTED] is unethical.

We live in beautiful countryside, and have a strong farming community. I will not stand by and watch all of this being destroyed, especially as the end result will be futile.

Yours faithfully
Coral Fuller
Local resident
