Dear Planning Inspectorate

My Reference number: [REDACTED]

Further to your December email, I submit comments regarding another of Sunnica's non material change requests.

There were several change requests, causing stops and starts creating discourse, so making a mockery of having stage deadlines of a far reaching National Infrastructure Planning Inspectorate Enquiry and DCO, WHICH RECOMMENDED REFUSAL OF SUNNICAs SCHEME!

These requests for changes outside of the NIPE, leads to a lessening of THE GENERAL PUBLIC SCRUTINY of the environmental impact, is unfair so should not be allowed.

*I mentioned previously, it is unlikely that Sunnica's scheme will achieve carbon neutrality during the expected lifetime of 40 years, and will NOT contribute to the UKs Net zero by 2050 aim or Clean energy by 2030 target. But will have a negative impact on the UKs Food Production!*

Peter Knowles
