The Awel y Môr Offshore Wind Farm Order 2023 (the Order)

Proposed application for a non-material change

Regulation 7(3) of the Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011 (the 2011 Regulations)

Dear [REDACTED]

Awel y Môr Offshore Wind Farm Limited ("Awel y Môr") as the undertaker under the above Order intends to apply for a non-material amendment in respect of Article 19 of the Order, for which development consent was granted by the Secretary of State on 19th September 2023.

If granted, the non-material amendment would amend Article 19 of the Order and extend the time limit for compulsory acquisition of land and rights in land from 5 years from the date of the Order to 7 years from the date of the Order.

As Awel y Môr will explain in the forthcoming application for a non-material amendment, the proposed application would not result in any change to the conclusions of the Environmental Statement (ES) or the Habitats Regulations Assessment (HRA) carried out as part of the original application for a development consent order (DCO). In addition, the application will also demonstrate that as there would be no change in significance of assessed impacts, there will be no material change to the effects on local businesses or residents.

Whilst an extension to the time limit for exercise of the compulsory acquisition powers under the Order will be sought under the application, no additional powers of compulsory acquisition will be sought over land which was not already subject to compulsory acquisition powers under the Order.

www.awelymor.cymru

Pursuant to regulation 7(2) of the 2011 Regulations, an applicant must consult specified parties about proposed non-material changes to a DCO, unless it has obtained written consent of the Secretary of State that it need not do so.

In advance of the proposed non-material amendment application, Awel y Môr hereby requests consent under regulation 7(3) of the 2011 Regulations to reduce the list of consultees to be consulted on the proposed application.

Given its narrow scope, Awel y Môr requests that the consultees for the non-material amendment application are limited to those land interests who would be directly affected by the proposed amendment, rather than all of the stakeholders who were, in accordance with section 56 of the Planning Act 2008, notified of the application for the development consent order.

The proposed list of consultees is contained in the enclosed document entitled '**Land Interests Schedule**' and is comprised of all those who fall within categories 1, 2 or 3 of section 44 of the Planning Act 2008, being:

- Category 1, those persons who are an owner, lessee, tenant (whatever the tenancy period) or occupier of the land.
- Category 2, those persons who have an interest in the land; or has power to sell and convey the land, or to release the land.
- Category 3, those persons who would or might be entitled to make a relevant claim.

The proposed consultees are those persons, therefore, who were described in the Book of Reference as category 1, 2 or 3 of section 44 of the Planning Act 2008, which accompanied the original application for development consent, as amended following diligent enquiry by Awel y Môr's appointed land agents. Those amendments are summarised in the enclosed '**Change Log**' document.

The rationale for consulting with a streamlined list of consultees is that the change sought as part of the application would relate solely to the land interests recorded in the Book of Reference (as amended) as being subject to the compulsory acquisition powers under the Order. The changes will have limited or no application or interest to those stakeholders not subject to compulsory acquisition powers, and as such, it is not considered necessary to consult all those persons, bodies or organisations notified of the acceptance of the original application to grant the Order under Section 56 of the Planning Act 2008.

Although Awel y Môr does not consider there to be any other persons who are required to be consulted, Awel y Môr intends to erect site notices where there are unknown land interests and

www.awelymor.cymru

will carry out the required publicity under regulation 6 of the 2011 Regulations to give other parties the opportunity to comment on the non-material amendment application.

I trust the preceding explanation and enclosed documents provide you with enough information to consider our request for a reduced list of consultees, but please feel free to make contact should there be anything further we can provide or clarify.

I look forward to hearing from you.

Yours sincerely,

Land Transaction Manager
Awel y Môr
