North Falls Offshore Wind Farm Limited

Your Ref:

Our Ref: EN010115

Date: 20 February 2025

Dear Sirs

The Infrastructure Planning (Examination Procedure) Rules 2010 (as amended) – Rule 17

Application by Five Estuaries Offshore Wind Farm Limited for an order granting development consent for the Five Estuaries Offshore Wind Farm project

Request for further information

In examining the above application, including the receiving of written and oral evidence from other interested parties it has become apparent to the Examining Authority (ExA) that you and Five Estuaries Offshore Wind Farm Limited (Five Estuaries) have formulated proposals for the proposed onshore substation zone that differ from each other.

The ExA considers it would be of assistance to its understanding of the differences in approach taken by the respective projects to the design for the proposed onshore substation zone if you submit to this examination any application document or documents for North Falls with similar topic coverage to the following Five Estuaries documents:

- Onshore Substation Design Principles Document - current Five Estuaries examination library reference [REP6-018]
- Outline Landscape and Ecological Management Plan - current Five Estuaries examination library reference [REP6-026]

You should submit any documents relating to this request for information, quoting their North Falls Examination Library reference numbers, by no later than Five Estuaries' examination **Deadline 7** (3 March 2025).

Yours faithfully

Grahame Gould
