Dear Sir/ Madam,

I write to request if the Examining Authority (ExA) would accept the submission of a representation from Anglian Water, following publication of documents for Deadline 8A and the Close of the Examination.

It is noted that Affinity Water has also made a representation on 17th March 2025 accepted at the discretion of the ExA and our representations would raise similar concerns over the Bespoke Protective Provisions (BPPs) and their content. This is due to late changes made by the Applicant. Whilst we have endeavoured to engage with them and clearly setting out why we would find it difficult to accept their amendments we had no response by Deadline 8A. It is only viewing the submissions made by them which were published on 18th March that we can see the changes remain within the BPPs.

As there was a 'tracked change's version of the BPP document being circulated between both parties, I have requested a copy of this from the Applicant so that our legal team can respond accordingly and to the ExA.

I should be grateful if you could please consider the above position and let me know if the ExA would accept a late representation on this occasion? Thank you.

Yours faithfully,
