Dear Sir/Madam,

I am writing to express our strong objection to the proposed North Lincolnshire Green Energy Park project. We believe that the development of this project, if it were to go through our business premises, would cause significant disruption to our daily operations.

We understand the importance of green energy initiatives, but we urge you to reconsider the project's location or find alternative solutions that would not negatively impact existing businesses.

Thank you for your time and consideration.

Sincerely,
Directors
