**Subject:** RE: EN010119 - North Falls Offshore Wind Farm Project - EIA Scoping Notification and Consultation [SG31821]

Our Ref: SG31821

Hi Tom

Please see below assessment:

The worst case scenario turbine dimensions of 229m to hub and 397m to tip have been used.

**Southern Turbines** - no impact expected

### **Northern Turbines**

Cromer - The turbines are expected to be visible

Debden - The turbines are expected to be visible approx 5% of the time

Kind regards

NATS Safeguarding

Hi Alasdair,

Further to your email below, please find attached a GIS shapefile and coordinates list for the North Falls offshore array areas. As raised in your email below, we have not yet identified individual turbine locations so the shapefile contains the site boundary only.

Please let me know if any further information is required in order for NATS to undertake an assessment of the proposed North Falls development.

Kind regards,  
Tom

WARNING: this email has originated from outside of the SSE Group. Please treat any links or attachments with caution.

---

Daniel,

Noting the deadline below NATS have been unable to fully assess the proposed development based on the details provided.

In order to complete our assessment we require more detail on the turbine locations. As we understand that at this stage exact turbine locations will not be available we are happy to use dummy locations if we have the boundary formally defined.

We have been unable to do this from the diagrams provided and would find it very useful if you were able to provide the boundary as a list of coordinates or in a standard GIS format.

Apologies for letting the deadline pass; the development got somewhat stuck in our system as we tried to extract the details we require.

Regards,

Alasdair

Dear Sir/ Madam

Please see attached correspondence on the proposed North Falls Offshore Wind Farm project.

Please note the deadline for consultation responses is **16 August 2021**, and is a statutory requirement that cannot be extended.

Kind regards  
Laura
