[REDACTED]
For attention of Wendy McKay

Good afternoon, Wendy

We have received the following communication regarding a letter notifying us of a Planning Inspectorate Accompanied Site Inspection (ASI), which will be conducted under Rule 16 of the Infrastructure Planning (Examination Procedure) Rules 2010.

The letter outlines arrangements for a site visit that appears to focus primarily on land-based inspection. However, there is no mention of any connection to the offshore cable route or the associated marine impact, which we are currently discussing with both the Planning Inspectorate and the Developer. Could you kindly confirm whether our attendance is required and, if so, in what capacity?

We would be pleased to host a visit from the Planning Inspectorate or the Panel of Examining Inspectors at Harwich Haven Authority. Additionally, if it would be beneficial for the Planning Inspectorate's understanding of operational conditions and constraints in this key navigation area, we would be happy to arrange a trip via a pilot launch to the Sunk. This would also be of particular relevance for the Planning Inspectorate team working on the Five Estuaries and National Grid Sealink projects, given the complexity of laying cables in this heavily trafficked shipping area.

Thank you for your time and assistance.

Kind regards

Will
