As a long term resident of this area ,living in Lytham St Annes,
I am appalled at the destructive nature of this terrible proposal
which for years will destroy a town and its rural surroundings.
There is no positive to this proposal.
Hopefully the next government will put an end to this nonsense.
When the wind doesn't blow, or blows too much,
No electricity is produced.
The only benefits are to the developers and their subsidies.
This is in addition to the overseas and Chinese manufacturers
who produce their products burning coal.
What a shambles
Dr Allan Calvert
