---

**Harbour Energy Response to Secretary of State consultation 4 dated 22 October 2025**

In his letter of 22 October, the Secretary of State invited all interested parties to comment on the information provided in response to his information request of 26 September 2025. Spirit Energy's response to the Secretary of State, dated 6 October 2025, incorrectly states in paragraph 2.10 that approval from the Offshore Petroleum Regulator for Environment & Decommissioning has not yet been granted in respect of the Calder decommissioning programme.

Harbour Energy advises that on 18<sup>th</sup> August 2025 in accordance with the Petroleum Act 1998 the Offshore Petroleum Regulator for Environment & Decommissioning confirmed that the Secretary of State for the Department of Energy Security & Net Zero provides approval in respect of the programme submitted in respect of the abandonment of the Calder Field Pipelines and the Calder Field Installations.

Harbour Energy has no further comments with respect to the Secretary of State's information requests up to and including Consultation 4 dated 26 September 2025.
