You don't often get email from @nature.scot. [Learn why this is important](#)

Daniel –

Thank you for contacting NatureScot directly, and for providing the MS Word extract of questions set out in the Second Round of Written Questions.

The NatureScot Marine Energy team is focussed on developments and statutory consultations within Scottish consenting regimes, as such we do not often have capacity to respond to PINS questions, particularly as these generally have very short deadlines.

However, I can advise you that we are meeting with Morecambe representatives on Tuesday 18 March to discuss the red-throated diver topic.

All the best

--

Malcolm Fraser  | **Marine Sustainability Manager**
