Subject: NSIP Oaklands - Non-material changes - Traffic Management

Good afternoon,

I note that Overseal Parish Council is not included in the Traffic Management Group. This is fine, so long as the stated traffic routes remain as published. However, should there be any consideration of possibly changing the route from the south, to take it further north on the A444 rather than leaving the A444 at Acresford, then Overseal would want to be involved in that discussion. To date, we have been repeatedly assured that Oaklands traffic would not be coming through our village and if that were to change we would have strong objections.

Regards,

Ann Hughes

Chair, Overseal Parish Council.
