Dear Sir/Madam,

Thank you for the opportunity to comment on this application.

We are satisfied that all solar panels will be sufficiently raised above the design flood event, including an appropriate freeboard. The applicant has shown that the site will remain operational during times of flooding and will be safe for the lifetime of the development. Therefore, our concerns have been addressed, and we are confident that the development will be resilient to future flood risk.

If you have any questions regarding our response, please contact

Yours sincerely,
