Good afternoon,

Many thanks for the invitation to attend ISH3. Unfortunately, due to staff annual leave we will not have anybody available that can attend the meeting. We are happy to answer any questions prior to the hearing (I have some already to respond to), one of the key areas of interest to us is Subject 5.4 - benthic compensation. Whilst this was not included in our relevant representation, the recent policy shift from the Government has raised this to the top of our list of concerns. We would appreciate any updates on this agenda item as it is not currently part of the discussions (SoCG) we are having with the applicant.

Many thanks,

Mike
