1 Book of Reference

1.1 Introduction

1. This Book of Reference is submitted by RWE Renewables UK Dogger Bank South (West) Limited (incorporated under company number 13656525) and RWE Renewables UK Dogger Bank South (East) Limited (incorporated under company number 13656240) who have their registered office at Windmill Hill Business Park, Whitehill Way, Swindon, Wiltshire, United Kingdom, SN5 6PB ("the Applicants") in relation to the development consent order ("DCO") under the Planning Act 2008 ("the 2008 Act") for the construction and operation of offshore energy generating stations and electrical connections comprising of the Dogger Bank South East ("DBS East") and Dogger Bank South West ("DBS West") offshore wind farms (together referred to as "Dogger Bank South Offshore Wind Farms" and "the Projects") as required by Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("the Regulations").
2. The land described in this Book of Reference, which is to be subject to powers of compulsory acquisition and/or temporary possession, is required to deliver the works comprising the Projects which are described in detail in Part 1 of Schedule 1 of Volume 3, Draft DCO (application ref: 005028758-04) and shown on Volume 2, Works Plans (application ref: 004525725-03). This Book of Reference is part of the application documents for the authorised project it should be read in conjunction with Volume 2, Land Plans (application ref: 005028746-03), Volume 2, Crown Land Plans (application ref: 005028748-02), Volume 4, Statement of Reasons (application ref: 005028760-04) and Volume 3, Draft DCO (application ref: 005028758-04).
3. Every parcel of land that is affected is identified on a plot-by-plot basis and a unique number has been ascribed to each plot. The plots are shown on the Land Plans which accompany the Draft DCO. For each plot it identifies whether the Applicants are seeking the power to acquire the freehold, the power to create and/or acquire permanent rights, or the power to create and/or acquire temporary rights of possession and use. It also lists the persons with land outside the order limits who may be entitled to make a relevant claim for compensation due to the effects of construction or when the authorised project is operational.
4. The draft DCO seeks powers to compulsorily acquire land and new rights (both temporary and permanent) for the purposes of the construction, operation, maintenance and decommissioning of the Projects. Some of the plots identified in Part 1 of the Book of Reference will be subject to acquisition of permanent rights (including restrictive covenants) pursuant to Article 22 (Compulsory acquisition of rights) and Schedule 7 (Land in which only new rights etc. may be required) of the draft DCO. These plots are shown coloured blue on the land plans.

5. Plots that are subject to powers of temporary possession only, such as for the purpose of access or areas only required during construction are listed in Schedule 9 of the Order and shown coloured yellow on the land plans.
6. The colours shown on the land plans indicate the type of acquisition sought as set out in the **Table 1-1** below:

Table 1-1 Land plan colours relating to acquisition

Colour of the plot on land plans	Description of acquisition sought in Book of Reference	Acquisition sought	Principal Relevant DCO Article(s)
Pink	“Acquisition of freehold”	Compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land)	
Blue	“Acquisition of new rights and imposition of restrictions” and “Acquisition of new rights”	Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants)	
Yellow	“Temporary possession”	Temporary possession and use of land, primarily during construction	

7. The Applicants have taken the cautious approach of seeking powers of compulsory acquisition (or rights of use) in respect of all plots of land required for the Projects even where it already holds an interest or presumes it holds an interest in the land. This approach has been taken to ensure that the Projects have the right to acquire the interests they need in the whole of the Order limits even where an unidentified owner later asserts an interest in land which the Applicants believe they own or have rights.

1.2 Rights which may be acquired

8. For plots in which rights are to be acquired or restrictive covenants are to be imposed, the rights sought for the Projects have been categorised as shown in the **Table 1-2** below. This means that where the entry in this Book of Reference specifies that 'all cable rights' are to be acquired, all of the rights shown in the cable rights line of table will be sought. Where only some of a category of rights is required, the specific rights sought will be listed for the relevant plot.
9. In some cases more than one category of rights will be sought in a single plot. For example cable rights to construct, install, operate, maintain and decommission the cable and restrictive covenants to protect the cable once it has been installed will be required on the cable route plots.

1.3 Structure of this book of reference

10. This Book of Reference is comprised of five Parts, in accordance with Regulation 7(1) of the Regulations, as follows:
- Part 1 contains the names and addresses of those who own, lease, occupy or have another interest in the land that will be affected by the authorised development and the rights contained in the draft DCO. A person is within Category 1 if the Applicants after making diligent inquiry, know that they are an owner, lessee, tenant, or occupier of the land. A person is within Category 2 if they are interested in the land or have the power to sell and convey or release the land. Parties recorded in Part 3 of this Book of Reference have also been included in Part 1;
 - Part 2 lists persons who may be entitled to make a relevant claim, also called category 3 persons. A person is within Category 3 if the Applicants believes that, if the Order were to be made and fully implemented, they would or might be entitled to make a relevant claim as defined in section 57(6) of the 2008 Act. A relevant claim is a claim under section 10 of the Compulsory Acquisition Act 1965, a claim under part 1 of the Land Compensation Act 1973, or a claim under section 152(3) of the 2008 Act. This part therefore contains the names and addresses of those who have an interest in the Order land and may be entitled to claim compensation for loss resulting from the implementation of the Order and use of the Projects. This part also contains the names and addresses of those without an interest in the draft DCO land, who may be entitled to claim compensation for loss resulting from the implementation of the Order and use of the authorised development;
 - Part 3 contains the names and addresses of those entitled to enjoy easements or other private rights which it is proposed may be extinguished, suspended or interfered with in connection with the authorised development, pursuant to the Order;
 - Part 4 identifies plots in which there is a Crown interest that will be affected by the authorised development and the rights contained in the Order; and
 - Part 5 identifies plots which constitute "special category land" for the purposes of section 132 of the 2008 Act that will be affected by the authorised development and the rights contained in the draft DCO. This is land –
 - the acquisition of which is subject to special parliamentary procedure;
 - which is special category land
 - which is replacement land

The Applicants believes that if the Order land listed within Part 5, when burdened with the Order right, will be no less advantageous than it was before to the following persons-

- the persons in whom it is vested,
- other persons, if any, entitled to rights of common or other rights, and
- the public.

The Applicants are therefore of the opinion that while it has identified open space within the Order Land, there is no requirement for the provision of replacement or exchange land.

1.4 Book of reference notes

11. Part 1 of this Book of Reference provides the area in square metres of all land included in the DCO. Areas have not been repeated in Parts 2 to 5 of this Book of Reference.
12. The term 'approximately' is used before all plot area measurements as these measurements are given in square metres and each measurement is rounded up to the nearest whole square metre.
13. The tracked version of the clean Book of Reference highlights the updates to land interest information since the previous submission of the Book of reference (APP-031):
 - a. Those entries struck through and highlighted in ~~red~~ have been removed
 - b. Those entries highlighted in green have been added; and
 - c. Those entries highlighted in orange have been updated, name, address or qualifier.
