1 Introduction

1.1 Background

1. The Application is for development consent for the Applicants to construct and operate the proposed Projects under the Planning Act 2008. Further description of the Projects is available in **Chapter 5 Project Description, Figure 5-1** [APP-072].
2. This Statement of Common Ground (SoCG) has been prepared between RWE Renewables UK Dogger Bank South (West) Ltd and RWE Renewables UK Dogger Bank South (East) Ltd, ('the Applicants') and National Gas Transmission Plc (NGT) to set out the areas of agreement and disagreement between the two parties in relation to the proposed Development Consent Order (DCO) application for the Dogger Bank South ('DBS') West Offshore Wind Farm and DBS East Offshore Wind Farm, collectively known as DBS Offshore Wind Farms (herein 'the Projects').
3. In drafting this SoCG, the Applicants have had regard to the Planning Act 2008: Examination stage for Nationally Significant Infrastructure Projects (Ministry of Housing, Communities and Local Government and Department for Levelling Up, Housing and Communities, 2024).
4. The need for a SoCG between the Applicants and NGT is set out within the Rule 6 letter dated 24th September 2024, issued by the Planning Inspectorate post-application of the Projects DCO.
5. This SoCG is intended to provide the Examining Authority (ExA) with a clear summary of discussions between the parties and has been structured to reflect topics which are of interest to NGT and which have been raised within the **NGT Relevant Representation** [RR-017] to the Dogger Bank South Offshore Wind Farm DCO that has been submitted to the Planning Inspectorate pursuant to the Planning Act 2008.
6. It is the intention that this document will facilitate further discussions between the Applicants and NGT and will provide the ExA with a clear overview of the level of common ground between both parties. This document will be updated throughout the Examination process.

1.2 Approach to SoCG

7. This SoCG has been developed during the pre-examination and examination phases of the Projects in accordance with discussions between the Applicants and NGT.
8. The structure of this SoCG is as follows:
 - **Introduction:** background to the development of the SoCG.
 - **Consultation:** a summary of consultation to date.
 - **Agreement Log:** a record of the Applicants' position alongside those of NGT relating to topics discussed between parties and the status of agreement on those topics.

2 Consultation and Engagement

2.1 Introduction

9. NGT owns and operates the high-pressure gas network (National Transmission System) in Great Britain and is a licensed gas transporter under the Gas Act 1986.
10. NGT owns and operates the gas National Transmission System (NTS) in Great Britain and has identified the following infrastructure within or in close proximity to the Order Limits for the Projects:
 - Feeder Main 6 – Burton Agnes to Paull; and
 - Feeder Main 29 – Ganstead to Asselby.
11. NGT has stated within its Relevant Representation that as a statutory undertaker, its primary concern is to meet its statutory obligations and ensure that any development does not impact in any adverse way upon those statutory obligations. As such, NGT has a duty to protect its position in relation to infrastructure and land which is within or in close proximity to the Order Limits.
12. NGT has been consulted on the Projects throughout the pre-application stage, as well as via non-statutory and statutory consultation under Section 42 of the Planning Act 2008.

2.2 Consultation and Engagement Summary

13. **Table 2-1** summarises the consultation that the Applicants have undertaken with NGT as statutory or non-statutory consultation during the pre-application and post-application phases.

3 Agreement Log

3.1 Overview

14. The following sections of this SoCG summarise the level of agreement between the parties for each relevant topic.
15. In order to easily identify whether a matter is 'agreed', 'not agreed' or 'under discussion', a colour coding system red, amber, green (RAG status) is used respectively within the 'status' column as set out in **Table 3-1**.

Table 3-1 - Agreement logs position status key

Position Status	Colour Code
The matter is considered to be agreed between the parties.	Agreed
The matter is neither 'agreed' or 'not agreed' and is a matter where further discussion is required between the parties, for example where relevant documents are being prepared or reviewed.	Under discussion
The matter is not agreed between the parties, however the outcome of the approach taken by either the Applicants or NGT is not considered to result in a material impact to the assessment conclusions. Discussions have concluded.	Not agreed – No material impact
The matter is not agreed between the parties and the outcome of the approach taken by either the Applicants or NGT is considered to result in a materially different outcome on the assessment conclusions.	Not agreed – material impact

3.2 General

Table 3-2 - General Topics agreed, in discussion or not agreed with NGT

SoCG ID	The Applicants' Position	NGT's Position	Position Status
Engagement			
1.	<p>The Applicants have adequately consulted with NGT throughout all stages of the Projects to date and the Summary of Consultation (section 2.2 of this SoCG) is a fair and accurate record of pre-application consultation.</p> <p>NGT did not raise any issues on this subject throughout discussion or within their Relevant Representation. It is therefore considered by the Applicants that the matter is agreed.</p>		
Asset Protection			
2.	<p>The Applicants have been engaged with NGT including their asset protection team throughout the pre-application stages of the Projects. Relevant safe working guidance provided during meetings have been fully considered and project design refinements made in accordance with advice.</p>	<p>Within their Relevant Representation [RR-017] NGT states that it will require appropriate protection for retained apparatus including compliance with relevant standards for works proposed within close proximity of its apparatus.</p>	

SoCG ID	The Applicants' Position	NGT's Position	Position Status
Protective Provisions			
3.	The Applicants have been provided with NGT's preferred form of Protective Provisions for consideration. The form of Protective Provisions are still under discussion. Engagement between the parties is ongoing and the Applicants will continue to work with NGT to reach agreement.	Within their Relevant Representation [RR-017] NGT states that it will require protective provisions to be included within the Draft Development Consent Order (the "Order") for the Project to ensure that its interests are adequately protected and to ensure compliance with relevant safety standards. NGT is liaising with the Applicants in relation to such protective provisions, along with any supplementary agreements which may be required.	

4 Summary

16. This SoCG has outlined the consultation and engagement that has taken place between the Applicants and NGT during the pre-application phases. The agreement logs present the position reached at the point of Deadline 4 between the Projects and NGT in relation to relevant matters.
17. This SoCG will be updated as discussions progress and made available to PINS as requested through the DCO examination phase.
