1 Explanatory Notes for the Land Rights Tracker (LRT)

1. The following notes are provided for additional context for the following trackers.

1.1 Part 1 – ‘CAT 1 Owners’

2. Part 1 of the LRT includes all Category 1 Owners or Reputed Owners identified within the **Book of Reference** [APP-031] where acquisition of land and rights is required, and the land interest is able to provide proof of title.
3. Part 1 of the LRT does include tenants, lessees and occupiers identified as Category 1 interests in the Book of Reference. The Applicant is requesting such interests be signatories to voluntary agreements with Category 1 Owners or Reputed Owners identified within the **Book of Reference** [APP-031].
4. The LRT does not include commentary with Category 3 interests identified in the **Book of Reference** [APP-031] as they are outside the Order Land and therefore not subject to any acquisition of land, rights nor temporary possession.
5. Where no interest has come forward declaring or proving ownership of unregistered plots, negotiations are not ongoing, and the plots have not been included in the LRT.

1.2 Part 2 – ‘CAT 2 Statutory Undertakers’

6. Part 2 of the LRT includes commentary in respect of voluntary agreements being sought with Category 2 Statutory Undertaker interests in the **Book of Reference** [APP-031] as having rights and/or apparatus within the Order Land.

1.3 Part 3 – ‘Crown Interests’

7. Part 3 of the LRT includes all Crown Interests identified within the **Book of Reference** [APP-031] where acquisition of land and rights is required, and the land interest is able to provide proof of title.

1.4 Section Notes

8. Each tracker includes five Sections, each with multiple columns.
9. Section A provides the name of the Affected Party as an individual land interest within the Order Land, their unique reference number and the name and company of their agent if they are represented professionally.
10. Section B provides the Examination Library references associated with any Relevant Representation, Written Representation or other document provided by the Affected Party.

11. Section C provides an overview of the status of any objection as well as a summary of any objection.
12. Section D provides more information in respect of the Affected Party's interest within the Order Land, including the description of rights sought of Book of Reference plots detailed within Section 6 of the **Draft DCO** [APP-027].
13. Section E provides an overview of the status of voluntary agreements as well as a summary of the negotiation status of agreements being sought.

DacLOUR Maclaren and the interests appointed land agent, Cundalls, have been actively engaging since this time on matters such as agreeing licences for surveys and progressing through non-statutory and statutory consultation.</p> <p>DacLOUR Maclaren and Cundalls have held a number of meetings throughout the last 2 years on 18th May 2022, 7th March 2023, 25th January 2024, 3rd May 2024 and 11th October 2024, to progress negotiations on the rights required for the projects and the impact on the landowners tenants.</p> <p>The Applicant's land agent issued a commercial offer to the owners appointed agent on 7th July 2024. The Applicant and appointed agent have been negotiating the terms and it is hopeful that the necessary land rights can be secured through a voluntary agreement. Heads of Terms for the cable corridor are now in an agreed form.</p> <p>Update - Deadline 1</p> <p>The Applicant's land agent met with Cundalls on 16th December to confirm the outstanding points on the Heads of Terms - Following the meeting and subsequent telephone calls on 17th December there is one outstanding point which each party is considering. Cundalls confirmed their position on 9th January 2025. On 28th January the parties agreed the commercial terms and are finalising the Heads of Terms prior to signature.</p> <p>Update - Deadline 3</p> <p>The Applicant's land agent have circulated a final draft of the heads of terms following further discussions between the parties. It is hopeful that heads of terms will be signed by end of March 2025 with Solicitors instructed shortly thereafter. An all parties call has been requested by the Interests land agent to bring this matter to a conclusion.</p> <p>Update - Deadline 4</p> <p>The Applicants notes that the parties are having productive discussions and are close to signing Heads of Terms for the Option Agreement but a couple of key commercial terms remain unresolved. However, there will be a need for further negotiations between respective legal representatives and detail to resolve at the Option Agreement stage. The Applicants noted Albanwise's position that the objection will be withdrawn subject to reaching agreement , but it is unlikely due to the complexity and commercial implications that an Option Agreement will be concluded by the end of examination.</p>

Dalcour Maclaren and the interest's appointed land agent (in house) have been actively engaging since this time on matters such as agreeing licences for surveys and progressing through non statutory and statutory consultation.</p> <p>The appointed agent is a member of the Land Interest Group (LIG) and was invited to further project update meetings on 19th May 2022, 2nd November 2022 and 10th February 2023. The LIG and Dalcour Maclaren have been negotiating the generic set of heads of terms from October 2023. During this time 5 face to face meetings were held with the LIG as a collective to negotiate the terms on 12th December 2023, 16th January 2024, 8th March 2024, 9th April 2024 and the 28th May 2024. The appointed agent was provided details and minutes from any meetings held which were not attended directly.</p> <p>Populated Terms were issues to Landowner and Agent on the 7th June 2024. Correspondence between the parties appointed agents have continued since this time.</p> <p>Update 1 - Deadline 1 The agent has committed to a meeting with the Applicant in early February where is expected final details of the voluntary agreement can be agreed and Heads of Terms signed. The Applicant shall continue to engage with the appointed agent and is hopeful that the necessary land rights can be secured through a voluntary agreement.</p> <p>Update - Deadline 3 The applicants agent met with the appointed agent on 6th February to discuss the Heads of Terms. The interest is further reviewing the Heads of Terms to provide commentary. The applicants continues to seek progression on this matter and is hopeful the necessary land rights can be secured through a voluntary agreement, however, is currently receiving limited engagement from the interest and their appointed agent.</p> <p>Update- Deadline 4 The Applicants and their agent have continued to engage with East Riding of Yorkshire Council to progress matters on the Heads of Terms sent on the 7 June 2024. Co-operation continues but there are resource constraints within the Council and focus on other priorities, with a multitude of projects affecting the Councils Estate. Although there is a willingness on both sides to negotiations on the Heads of Terms, it is unlikely that these will conclude prior to the end of examination.</p>

Dalcour Maclaren and the interest's appointed land agent, Dee Atkinson and Harrison, have been actively engaging since this time on matters such as agreeing licences for surveys and progressing through non-statutory and statutory consultation.</p> <p>The interest is an occupier of land required for the cable corridor and so there are no specific rights required from them. Notwithstanding this the Applicant and the appointed agent have been actively engaged and have meet on the 28th September 2022, 12th July 2023 and 15th January 2024.</p> <p>The appointed agent is a member of the Land Interest Group (LIG) who attended further project update meetings on 19th May 2022, 2nd November 2022 and 10th February 2023. The LIG and Dalcour Maclaren have been negotiating the generic set of heads of terms from October 2023 with the interest signing a specific heads of terms in August 2024. During this time 5 face to face meetings were held to negotiate the terms on 12th December 2023, 16th January 2024, 8th March 2024, 9th April 2024 and the 28th May 2024.</p> <p>Following the conclusion of the principle heads of terms for the landowner, the Applicants land agent issued generic heads of terms for the occupier's consent on 19th September 2024. The Applicant is hopeful that a Voluntary Agreement can be reached with this interest.</p> <p>Update - Deadline 1 The occupiers have instructed their legal representatives to review the commercial terms offered to understand any impact on their tenancy agreement. The Applicant has confirmed that all reasonable costs will be met. The Applicant is considering the request made by the agent for a different valuation methodology to be used and will respond in due course.</p> <p>Update - Deadline 3 Heads of terms are agreed in principle however negations are ongoing with the affected party regarding the commercial figures offered. The Applicant remains hopeful that the necessary land rights will be secured through a voluntary agreement prior to the end of examination. Both Parties agree that this matter can be progressed rapidly once the voluntary agreement with the landlord is concluded.</p> <p>Update - Deadline 4 The Applicants land agent has confirmed the position on the commercial offer for the tenants consent. The Applicant believes that there is a good chance that heads of terms can be agreed prior to the end of examination.</p>

The applicant's agent made initial contact with the appointed land agent, Brockthorpe Consultancy Ltd, on 22nd April 2022 to discuss the scheme. Dalcour Maclaren and the interests appointed land agent have been actively engaging since this time on matters such as agreeing licences for surveys and progressing through non-statutory and statutory consultation</p> <p>The Land Interest and their appointed agent attended one of Applicant's landowner engagement events on 2nd June 2023 prior to the start of consultation to provide a project update. The appointed agent provided written representations to the statutory consultation on the 17th July 2023. The appointed agent was not a member of the Land Interest Group but was kept aware of the generic Heads of Terms meetings being held. A face to face meeting was held between the land interest, their agent and the applicant's agent on the 30th January to discuss the scheme and drafting of Heads of Terms.</p> <p>Populated Heads of Terms were sent on 7th June 2024 to the land interest. Discussions continued on landowner specifics from this point, including a face to face meeting on 19 August 2024, with Heads of Terms agreed in late August 2024. The Applicant is in the process of drafting an option agreement to be issued to the Landowner's solicitor.</p> <p>Update - Deadline 3 Principle terms are agreed within the option agreement. In order to properly protect its undertaking Network Rail requires its standard form of protective provisions to be included in the final form of the Order	Category 1	Owner	13-014*	Acquisition of Rights	14A/B	Cable Corridor	Heads of Terms negotiations ongoing	<p>Following an initial letter sent out on 28th February 2023, by the applicant's land agent, Dalcour Maclaren, to the interest requesting completion of a Land Interest Questionnaire and a general scheme update. Communication was conducted directly with the land interest from this point by the applicant. During this period technical clearance was progressed with discussions on Heads of Terms and commercial agreement progressing from October 2023.</p> <p>The Applicant's land agent (internal) continued these discussions from April 2024 issuing initial Heads of Terms within the land interest's own format on 17th May 2024 and were agreed in August 2024 and the Applicant and land interest are progressing the option agreement through their solicitor.</p> <p>Update - Deadline 3 Drafting of the option agreement and deed of grant are ongoing, the Applicant continues to seek reasonable terms and wording within the deed of grant to allow delivery of the project through a voluntary agreement. Commercial position is agreed with the key issues outstanding being unfettered rights of termination of the easement by Network Rail and specific drafting introduced to the deed of grant.</p> <p>Update - Deadline 4 The Applicants and Network Rail are continuing to negotiate the form of Option Agreement and Deed of Easement with the Applicants seeking to reach voluntary agreement to enable the delivery of the Projects however there are some key outstanding points of disagreement which as currently drafted, the Applicants consider a significant risk to the deliverability of the Projects. Unless Network Rail is able to reconsider these points, which the Applicants consider unreasonable, it is unlikely that an Option agreement will be reached within examination</p> <p>- Termination of the Option agreement – Network Rail are requesting the inclusion of a right to terminate the Option agreement without there having been a breach. They have stated they need an ability to terminate at any time on 12 months notice, without any reason or caveats around that and terminate on 6 months' notice where they require the Easement Strip for their undertaking. This is unacceptable to the Applicants as this could prevent the delivery of the Projects.</p> <p>- Supply – In relation to the Deed of Easement, Network Rail are requesting the inclusion of an obligation on DBS to cease operating/cut off supply for such duration as Network Rail may require. The Applicants cannot agree to cease operating a nationally significant infrastructure project for such duration as Network Rail may require.</p> <p>- Termination of Easement - Where it is not possible for alterations/strengthening of the export cables located within Network property and Network Rail requires the easement strip back for carrying out repairs, or for carrying out substantial works of demolition, reconstruction or development then Network Rail may end the easement at any time on 6 months notice. This is not acceptable to the Applicants in the context and in relation to a nationally significant infrastructure project. The Projects cables will be installed a depth which the Applicants consider can co-exist with Network Rail infrastructure. Network Rail having an ability to terminate the easements risks prejudicing a nationally significant infrastructure project.</p> <p>The Applicants are accelerating detail design of the specific crossing of the Railway in order to satisfy the Network Rail of the proposed mitigation strategy and the parties will continue working on this with a view to reaching agreement by the close of the examination, however, due to the risk to the delivery of the Projects, unless Network Rail is able to reconsider these points, which the Applicants consider unreasonable, it is unlikely that agreement will be reached.</p>

The Applicant's agent made initial contact with the appointed land agent on 22nd April 2022 to discuss the scheme. Dalcour Maclaren and the interest's appointed land agent, Brockthorpe Consultancy Ltd, have been actively engaging since this time on matters such as agreeing licences for surveys and progressing through non-statutory and statutory consultation</p> <p>The appointed agent provided written representations to the statutory consultation on the 17th July 2023 The appointed agent was not a member of the Land Interest Group (LIG) but was kept aware of the generic Heads of Terms meetings being held. A face to face meeting was held between the land interest, their agent and the applicant's agent on the 30th January to discuss the scheme and drafting of Heads of Terms</p> <p>Populated Heads of Terms were sent on 7th June 2024 to the land interest, discussions continued on landowner specifics from this point, including a face to face meeting on 19 August 2024, with Heads of Terms agreed in late August 2024. The Applicant is in the process of drafting an option agreement to be issued to the Landowner's solicitor.</p> <p>Update - Deadline 3 Form of option agreement, deed of grant (and ancillary documents) being finalised between the parties.</p> <p>Update- Deadline 4 The Applicants and the Landowner are continuing to negotiate the form of Option Agreement and Deed of Easement with the Applicants seeking to reach voluntary agreement to enable the delivery of the Projects. The Landowner is jointly in discussions with a solar developer on land that interacts with the project which has added complications predominantly during constructions and asset protection. This has meant some key outstanding points are being reviewed for both projects to coexist concurrently. It is unlikely that an Option agreement will be reached within examination whilst additional side agreements are reviewed and agreed between the parties.</p>

The Applicant is hopeful that the necessary rights can be reached through a voluntary agreement.</p> <p>Update - Deadline 1 The Applicant has continued to endeavour to engage with the Interest and their Appointed agent to negotiate the commercial. The Applicants appointed agent has requested an update from WFAFP Limited and their appointed agent on 27th January 2025, 9th January 2025 and 16th December 2024. The Applicant and their appointed agent will continue to engage and are hopeful voluntary terms can be reached before the end of examination.</p> <p>Update - Deadline 3 The Applicant has continued to endeavour to engage with the Interest and their appointed agent to negotiate the commercial agreement. The Applicants appointed agent has requested an update from WFAFP Limited and their appointed agent on 3rd Feb 2025, 28th Feb 2025 (during in person meeting with the agent) and on 4th March 2025. The affected parties agent has confirmed that they will chase their client for a response.</p> <p>Update - Deadline 4 The Applicants and their appointed agent continues to engage with the landowners and understands that there are a number of other competing promoters seeking rights over this Interested Parties holding. Some of the other projects have been consented and are seeking entry to the land and so it is understood that those projects are the priority for the landowner. The Applicants believe that there is the willingness from both parties to reach a voluntary agreement however it is unlikely that Heads of Terms will be agreed prior to the end of examination.</p>

7310	Network Rail Infrastructure Limited	In house	RR-1o	Relevant Representation	Network Rail objects to any compulsory acquisition of rights over operational railway land until relevant agreements have been entered into. In order to properly protect its undertaking Network Rail requires its standard form of protective provisions to be included in the final form of the Order.	Category 2	Rights/Apparatus	13-014*, 13-015, 13-017, 15-006	Acquisition of Rights	14A/B	Cable Corridor	Negotiations are ongoing to agree an Option for Easement	Draft protective provisions for the benefit of Network Rail are included in Part 5 to Schedule 15 of the Draft Development Consent Order (APP-027), and the Applicants consider that these contain adequate protections for Network Rail relating to "railway property". The Applicants have been engaging with Network Rail throughout the pre-application stages of the Projects and agreed Heads of Terms with Network Rail in August 2024, for property rights required for the Projects to cross Network Rail's property. Negotiations are ongoing to agree an Option for Easement to provide property rights for the Projects with solicitors instructed. Update - Deadline 4 The Applicants and Network Rail are continuing to negotiate the form of Option Agreement and Deed of Easement with the Applicants seeking to reach voluntary agreement to enable the delivery of the Projects however there are some key outstanding points of disagreement which as currently drafted, the Applicants consider a significant risk to the deliverability of the Projects: - Termination of the Option agreement – Network Rail are requesting the inclusion of a right to terminate the Option agreement without there having been a breach. They have stated they need an ability to terminate at any time on 12 months notice, without any reason or caveats around that and terminate on 6 months' notice where they require the Easement Strip for their undertaking. This is unacceptable to the Applicants as this could prevent the delivery of the Projects. - Supply – In relation to the Deed of Easement, Network Rail are requesting the inclusion of an obligation on DBS to cease operating/cut off supply for such duration as Network Rail may require. The Applicants cannot agree to cease operating a nationally significant infrastructure project for such duration as Network Rail may require. - Termination of Easement - Where it is not possible for alterations/strengthening of the export cables located within Network property and Network Rail requires the easement strip back for carrying out repairs, or for carrying out substantial works of demolition, reconstruction or development then Network Rail may end the easement at any time on 6 months notice. This is not acceptable to the Applicants in the context and in relation to a nationally significant infrastructure project. The Projects cables will be installed a depth which the Applicants consider can co-exist with Network Rail infrastructure. Network Rail having an ability to terminate the easements risks prejudicing a nationally significant infrastructure project. The Applicants are accelerating detail design of the specific crossing of the Railway in order to satisfy the Network Rail of the proposed mitigation strategy and the parties will continue working on this with a view to reaching agreement by the close of the examination, however, due to the risk to the delivery of the Projects, unless Network Rail is able to reconsider these points, which the Applicants consider unreasonable, it is unlikely that agreement will be reached.
