| Asda Stores Limited              | Adam Cundale and Vicky Newsholme (ASDA)                   | Not required              | N/A                       | Not required  | N/A                     | N/A   | The Applicant began engaging with ASDA on the Proposed Scheme before statutory consultation commenced on 2 October 2023. This engagement involved phone calls, emails, and meetings, despite ASDA's sites being outside the red-line boundary of the Proposed Scheme. Although ASDA did not respond to the statutory consultation, the Applicant addressed some of ASDA's queries in a letter on 1 February 2024. The Applicant held meetings with ASDA on 4 March and 20 September 2024, primarily to provide updates on the Proposed Scheme, discuss possible impacts on the Norman Road spur road relevant to ASDA's operations, and explore the prospect of agreeing a Statement of Common Ground (SoCG).   | 18/10/2024                    | 1-028  | 2                             | Acquisition of new rights                         | 3  | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A  | -  | Not SU   | -                    | N/A            | N/A            | PDA-003               | N/A   |  |
|                                  |   |                           |                           |   |                         |   | The Applicant has issued a draft SoCG to ASDA and is seeking a meeting to discuss further.  | 26/11/2024                    |  |                               |   |  |  |  |  |  |                      |                |                |                       |   |  |
|                                  |   |                           |                           |   |                         |   | No further updates for Deadline 2.  | 13/12/2024                    |  |                               |   |  |  |  |  |  |                      |                |                |                       |   |  |
|                                  |   |                           |                           |   |                         |   | Following a change of personnel, the Applicant met with ASDA on 23 December 2024 to discuss the Proposed Scheme in the context of ASDA's operation and the SoCG previously issued to it. The Applicant subsequently re-issued an updated SoCG for ASDA to review and comments are awaited.  | 17/01/2025                    |  |                               |   |  |  |  |  |  |                      |                |                |                       |   |  |
|                                  |   |                           |                           |   |                         |   | The Applicant continues to seek comments from ASDA on the SoCG submitted to it in December 2024.  | 25/02/2025                    |  |                               |   |  |  |  |  |  |                      |                |                |                       |   |  |

| Aviva Life & Pensions UK Limited | Karen Millward (JLL) and Giles York (Aviva)               | Not required              | N/A                       | Not required  | N/A                     | N/A   | The Applicant initiated discussions with Aviva, through JLL, starting with a letter on 17 April 2023 and a liaison meeting on 19 May 2023. Subsequent meetings were held on 12 June 2023, 28 February 2024, and 30 April 2024. These discussions introduced the Proposed Scheme, provided updates on the DCO Application, allowed for non-intrusive ecology surveys, and covered the extent of Aviva's land interests and its River Works Licence relating to the now redundant Belvedere Power Station Jetty. The parties have discussed using DCO powers or a voluntary agreement to secure the land and rights the Applicant requires to deliver the Proposed Scheme, with the intention to record the preferred approach in a SoCG. The Applicant issued a SoCG to Aviva on 19 August 2024 and awaits its response. | 18/10/2024                    | 1-007  | 1, 2                          | Acquisition of new rights                         | 2, 4   | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A  | -  | Not SU   | -                    | N/A            | N/A            | PDA-006               | N/A   |  |

| Creek Side Developments (Kent) Limited | James McFetely (Edward Charles) and Jeff Hollis (Creek Side) | Draft under discussion | Not completed | Not required  | Outstanding   | N/A   | The Applicant began engaging with Creek Side on 17 April 2023, ahead of the statutory consultation on 18 October 2023. Engagement included phone calls, emails, and liaison meetings held on 12 September 2023 and 11 June 2024. These meetings focused on introducing the Proposed Scheme, explaining the Applicant's compulsory acquisition requirements in respect of Creek Side's land, discussing Creek Side's ambitions for its site, and exploring the possibility of a voluntary acquisition. The Applicant sent Heads of Terms to Creek Side on 23 September 2024 and is awaiting a response. The Applicant intends to seek further meetings to progress discussions with a view to reaching an agreement on the voluntary acquisition of Creek Side's site.  | 18/10/2024 | 1-012 | 1, 2                     | All interests and rights  | -   | Work No. 1E: Required for Carbon Capture Facility Supporting Plant<br>Work No. 6A: Required for Core Construction Compound   | N/A        | -                      | Not SU                              | - | RR-059 | N/A      | REP4-041  | AS-043 |

| Iron Mountain (UK) PLC | Troy Wilson and Cioly Hui (Iron Mountain) / Stephen Walker and Milan Chadha (CBRE) | Not required Draft under discussion | N/A Not completed | Not required | N/A           | N/A | The Applicant first engaged with Iron Mountain regarding the Proposed Scheme on 4 July 2023, prior to the commencement of statutory consultation. The Applicant first met Iron Mountain on-site on 4 October 2023, followed by further meetings online on 26 January 2024 and 4 June 2024, and another on-site meeting on 8 October 2024. These discussions introduced the Proposed Scheme and covered the rights being sought to remove the now redundant Belvedere Power Station Jetty, and the permanent rights being sought in connection with the construction, operation, maintenance and protection of the new jetty as part of the Applicant's Proposed Scheme, similar to those held by Aviva. The June meeting addressed written questions from Iron Mountain and its landlord (Really Income) about potential impacts on Iron Mountain's operations. Future meetings will continue to discuss land use, the rights being sought by the Applicant, and updates on the DCO Application while seeking agreement on a SoCG. | 18/10/2024 | 1-028 | 1, 2 | Acquisition of new rights | 3    | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A        | -                      | Not SU | - | RR-084 | N/A | REP3-019 | AS-043 |
|                        |  |                                     |                   |              |               |     | The parties have had several meetings, the last of which was on site on 8 October 2024. The parties remain in correspondence on the key issues, with the intention to capture these in a SoCG and at Iron Mountain's option an agreement. The Applicant has issued a draft SoCG to Iron Mountain for it to review and comment on.  | 26/11/2024 | 1-053 | 1, 2 | Acquisition of new rights | 3    | Required for construction, maintenance and decommissioning access  |            |                        |        |   |        |     |          |        |
|                        |  |                                     |                   |              |               |     | No further updates for Deadline 2.   | 13/12/2024 | 1-083 | 1, 2 | Acquisition of new rights | 3, 6 | Required for construction, maintenance and decommissioning access and undertaking construction, maintenance and decommissioning activities in relation to the Proposed Jetty<br><br>Work No. 6C: Required for Jetty Construction Compound  |            |                        |        |   |        |     |          |        |
|                        |  |                                     |                   |              |               |     | The parties are agreed on the form of a draft SoCG, which has been submitted at Deadline 3. The Applicant hopes to submit a signed form of SoCG into the Examination as soon as possible.  | 17/01/2025 | 1-092 | 1, 2 | Temporary possession      | -    | 4: Required to undertake Work No. 4: Work No. 6C: Required for Jetty Construction Compound   |            |                        |        |   |        |     |          |        |
|                        |  |                                     |                   |              |               |     | The Applicant provided Iron Mountain with draft Heads of Terms for a Land and Works Agreement on 31 January 2025. The Applicant received comments from Iron Mountain on 24 February 2025, which it is reviewing, and has since requested an in person meeting with Iron Mountain with a view to reaching an agreed position on the Heads of Terms.   | 25/02/2025 | 1-097 | 1, 2 | Temporary possession      | -    | Work No. 4A: Required for Modifications to or Removal of the Belvedere Power Station Jetty<br><br>Work No. 4B: Required for the Proposed Jetty<br><br>Work No. 6C: Required for Jetty Construction Compound  |            |                        |        |   |        |     |          |        |
|                        |  |                                     |                   |              |               |     | The Applicant returned a mark up of the Heads of Terms for a Land and Works Agreement on 7 March 2025, receipt of which has been acknowledged. The Applicant is awaiting comments on those and continues to seek an in person meeting with Iron Mountain with a view to reaching an agreed position on the Heads of Terms.   | 25/03/2025 |       |      |                           |      |  |            |                        |        |   |        |     |          |        |
|                        |  |                                     |                   |              |               |     | The parties have made good progress towards agreeing Heads of Terms for a Land and Works Agreement, which are now mostly agreed in principle and subject to Iron Mountain confirming its approval of the latest draft issued by the Applicant. The Applicant anticipates discussions continuing with a view to developing and agreeing the full legal agreement. The Applicant had previously submitted an agreed form of SoCG into the Examination at Deadline 3 (REP3-019). The parties have subsequently made good progress on and have agreed a revised form of SoCG, which the Applicant has included with its Deadline 7 submissions.  | 02/05/2025 |       |      |                           |      |  |            |                        |        |   |        |     |          |        |

| Landsul Limited            | Kelly Burns (Tozers)                         | Draft under discussion | Not completed | Not required | Outstanding   | N/A | The Applicant's engagement with Landsul and Munster Joinery commenced in advance of statutory consultation (that began on 18 October) on 29 March 2023 and has been undertaken through phone calls, the exchange of email correspondence and liaison meetings with representatives of Landsul and Munster Joinery on 11 September 2023, and 17 July 2024. The liaison meetings have primarily focussed on establishing a dialogue and introducing the Proposed Scheme, explaining the rationale for the Applicant's compulsory acquisition requirements as regards the Landsul owned site on Norman Road (that is part occupied by Munster Joinery). Landsul and Munster Joinery's position with regard to the potential relocation of the Munster Joinery operation, its relocation requirements and the Applicant's willingness to explore how relocation might work and how it could assist. The Applicant issued Heads of Terms on 24 September 2024, which Landsul via their representative subsequently confirmed that they had no interest in. Nevertheless, the Applicant will continue to seek engagement regarding the Applicant's compulsory acquisition requirements. Landsul and Munster Joinery also submitted a response to the Applicant's statutory consultation dated 28 November 2023 which included an objection to the proposed compulsory acquisition of its site, as well as raising concerns over and seeking clarity on site selection, design file for the Proposed Scheme, and the Applicant's case for the compulsory acquisition of the its site. The Applicant provided a formal response on 30 January 2024. | 18/10/2024 | 1-012 | 1, 2 | All interests and rights | -                      | Work No. 1E: Required for Carbon Capture Facility Supporting Plant<br>Work No. 6A: Required for Core Construction Compound   | N/A        | - | Not SU | - | RR-101 | REP1-059 | PDA-016, REP3-045, REP4-042, AS-089. | AS-043 |

|                            |  |                        |               |              |               |     | The Applicant met formally with representatives of Landsul and Munster Joinery on 8 January 2025 in order to discuss a draft Statement of Common Ground (SoCG) and to agree next steps. The parties are aiming to submit a SoCG on 24 January 2025.   | 17/01/2025 | 1-022 | 1, 2 | All interests and rights |                        | Work No. 1E: Required for Carbon Capture Facility Supporting Plant<br>Work No. 6A: Required for Core Construction Compound   |            |   |        |   |        |          |                                      |        |
|                            |  |                        |               |              |               |     | No further updates for Deadline 4.  | 25/02/2025 |       |      |                          |                        |  |            |   |        |   |        |          |                                      |        |
|                            |  |                        |               |              |               |     | No further updates for Deadline 5.  | 25/03/2025 |       |      |                          |                        |  |            |   |        |   |        |          |                                      |        |
|                            |  |                        |               |              |               |     | As set out in its Examination submissions, it was determined that given the nature of each party's submissions, no SoCG would be proceeded with between the parties. The Applicant remains willing to discuss an agreement and relocation assistance with Landsul.  | 02/05/2025 |       |      |                          |                        |  |            |   |        |   |        |          |                                      |        |
| Lidl Great Britain Limited | Douglas Symington and Sebastian Adams (Lidl) | Not required           | N/A           | Not required | N/A           | N/A | The Applicant has engaged Lidl through email correspondence and a liaison meeting on 14 June 2024. The liaison meeting provided Lidl with an overview of the Proposed Scheme, the programme of for the DCO Application, potential impacts on the Lidl site, and discussed the development of a SoCG. The Applicant subsequently issued a draft SoCG to Lidl on 13 August 2024, which it hopes to agree in the near future.  | 18/10/2024 | 2-001 | 1    | Temporary possession     | -                      | Work No. 4A: Required for Modifications to or Removal of the Belvedere Power Station Jetty   | N/A        | - | Not SU | - | N/A    | N/A      | PDA-007, AS-035, REP4-021.           | N/A    |

| London Power Networks plc | James Cole (UKPN) | Not required | N/A | PPs included in draft DCO. Comments awaited from Party. Side Agreement has been requested. | Outstanding | Protective Provisions included in the draft DCO for London Power Networks plc, and as yet no comments received.  | The Applicant has undertaken Land Referencing activities to establish and confirm the nature and extent of the interests held by London Power Networks plc within the red-line boundary for the Proposed Scheme. It is understood that London Power Networks plc may have utilities/assets within the red-line boundary for the Proposed Scheme. On 14 August 2024 the Applicant received an objection letter from London Power Networks to the making and confirmation of the DCO or to the relocation/establishment of rights and apparatus unless alternative land, rights and apparatus for those proposed to be acquired or temporarily used are in place. The Applicant subsequently acknowledged this letter and invited London Power Networks (through its parent organisation UKPN) to review the protective provisions included in the draft DCO and awaits further comments on those. The Applicant also intends to record the agreed position in a SoCG. | 18/10/2024                    | 1-003 | 1, 2 | All interests and rights  | - | Work No. 7: Required for Mitigation and Enhancement Area   | N/A        | -                                   | Party is SU and interest in plot is in respect of apparatus / access only | -   | N/A                    | N/A | N/A   | N/A |  |

| Munster Joinery (UK) Limited               | Kelly Burns (Tozers) / Tadhg Twomey (Munster Joinery) | None Drafted | Not completed | Not required  | Outstanding   | N/A  | The Applicant's engagement with Landsul and Munster Joinery commenced in advance of statutory consultation (that began on 18 October) on 29 March 2023 and has been undertaken through phone calls, the exchange of email correspondence and liaison meetings with representatives of Landsul and Munster Joinery on 11 September 2023, and 17 July 2024. The liaison meetings have primarily focussed on establishing a dialogue and introducing the Proposed Scheme, explaining the rationale for the Applicant's compulsory acquisition requirements as regards the Landsul owned site on Norman Road (that is part occupied by Munster Joinery). Landsul and Munster Joinery's position with regard to the potential relocation of the Munster Joinery operation, its relocation requirements and the Applicant's willingness to explore how relocation might work and how it could assist. The Applicant issued Heads of Terms on 24 September 2024, which Landsul via their representative subsequently confirmed that they had no interest in. Nevertheless, the Applicant will continue to seek engagement regarding the Applicant's compulsory acquisition requirements. Landsul and Munster Joinery also submitted a response to the Applicant's statutory consultation dated 28 November 2023 which included an objection to the proposed compulsory acquisition of its site, as well as raising concerns over and seeking clarity on site selection, design life for the Proposed Scheme, and the Applicant's case for the compulsory acquisition of the its site. The Applicant provided a formal response on 30 January 2024. | 18/10/2024 | 1-022 | 1                        | All interests and rights  | -  | Work No. 1E: Required for Carbon Capture Facility Supporting Plant<br><br>Work No. 6A: Required for Core Construction Compound   | N/A                    | -   | Not SU  | -   | RR-101 | REP1-060 | PDA-018, REP3-046, REP4-043, REP5-051, AS-089. | AS-043 |
|  |   |              |               |   |               |  | Following the Hearings, the Applicant has been engaging with Landsul and Munster Joinery to provide information it is able to share with these parties, to arrange discussions between experts and agree approach to forthcoming Examination deadlines.   | 26/11/2024 |       |                          |                           |  |  |                        |   |   |     |        |          |  |        |
|  |   |              |               |   |               |  | No further updates for Deadline 2.  | 13/12/2024 |       |                          |                           |  |  |                        |   |   |     |        |          |  |        |
|  |   |              |               |   |               |  | The Applicant met formally with representatives of Landsul and Munster Joinery on 8 January 2025 in order to discuss a draft Statement of Common Ground (SoCG) and to agree next steps. The parties are aiming to submit a SoCG on 24 January 2025.   | 17/01/2025 |       |                          |                           |  |  |                        |   |   |     |        |          |  |        |
|  |   |              |               |   |               |  | No further updates for Deadline 4.  | 25/02/2025 |       |                          |                           |  |  |                        |   |   |     |        |          |  |        |
|  |   |              |               |   |               |  | No further updates for Deadline 5.  | 25/03/2025 |       |                          |                           |  |  |                        |   |   |     |        |          |  |        |
|  |   |              |               |   |               |  | As set out in its Examination submissions, it was determined that given the nature of each party's submissions, no SoCG would be proceeded with between the parties. The Applicant remains willing to discuss an agreement and relocation assistance with Munster Joinery.  | 02/05/2025 |       |                          |                           |  |  |                        |   |   |     |        |          |  |        |
| National Grid Electricity Transmission plc | Tiffany Bate (NGET)                                   | Not required | N/A           | PPs included in draft DCO.                              | N/A           | The DCO contains protective provisions for electricity undertakers but following the Applicant's engagement with NGET in respect of its cable and associated rights from the generating station historically in plots 1-004, 1-017, 1-018, 1-020, 1-021, 1-022, and 1-025 NGET has confirmed the cable is decommissioned and redundant and therefore it will not seek specific protective provisions in respect of the decommissioned cable. The Applicant therefore does not consider further engagement is required with NGET at this stage. | 18/10/2024  | 1-004      | 1, 2  | All interests and rights | -                         | Work No. 7: Required for Mitigation and Enhancement Area | N/A  | -                      | Party is SU and interest in plot is in respect of apparatus / access only | -   | N/A | N/A    | N/A      | N/A  |        |

| Port of London Authority           | James Trimmer and Lucy Owen (PLA) / Vicky Fowler (Gowling) | Draft under discussion | Not completed | PPs included in DCO and under-standings discussions agreed with PLA. | Outstanding   | Numerous meetings have taken place with the PLA to present and discuss its protective provisions and relevant parts draft DCO that are of interest to it. The parties have worked together positively and the Applicant is confident it can resolve any outstanding concerns on the PLA related DCO drafting before capturing this in a SoCG.     | The Applicant has engaged with the PLA with a view to commencing negotiations to reach agreement on the land and works elements of the Proposed Scheme that concern the PLA's interests and statutory undertaking. The Applicant's engagement on this matter with the PLA commenced in advance of statutory consultation (that began on Wednesday 18 October 2023) on 22 July 2022 and has been undertaken through phone calls, the exchange of email correspondence and liaison meetings with representatives of the PLA between July 2022 and September 2024. In addition to protective provisions and extracts of the DCO relevant to the PLA's undertaking the parties have discussed the Proposed Scheme's compulsory acquisition requirements for its river-based infrastructure and will continue to progress discussions on terms with the PLA with a view to reaching an agreement. The Applicant issued draft terms to the PLA for the land and rights required for the Proposed Scheme on 16 October 2024 and the parties will meet to discuss further. | 18/10/2024   | 1-104  | 1            | Temporary possession     |  | 4: Required to undertake Work No. 4   | N/A        | -     | Party is SU and land is operational | -                         | RR-162  | REP1-039, REP1-040  | REP1-041, REP1-042, REP2-026, REP3-016, REP3-042, REP3-050, REP4-038, REP5-047, REP5-048 | AS-043 |        |   |        |     |          |        |
|                                    |  |                        |               |  |               | Negotiations with the PLA have progressed well in respect of the DCO drafting and protective provisions, with only a couple of points outstanding which are on track to be resolved. The Applicant notes the PLA still has concerns specifically about the drafting of article 7, but negotiations continue with a view to reaching a resolution. | The parties last formally met on 25 October 2024 and are in an ongoing exchange of correspondence over the terms of an agreement for the land and rights required by the Applicant.  | 26/11/2024   | 1-104A | 1            | All interests and rights |  | Work No. 4C: Required for Dredging  |            |       |                                     |                           |   |   |  |        |        |   |        |     |          |        |
|                                    |  |                        |               |  |               | No further updates for Deadline 2.  | No further updates for Deadline 2.   | 13/12/2024   | 1-107  | 1            | All interests and rights |  | Work No. 4A: Required for Modifications to or Removal of the Belvedere Power Station Jetty  |            |       |                                     |                           |   |   |  |        |        |   |        |     |          |        |
|                                    |  |                        |               |  |               | Following productive meetings between the parties, all DCO drafting matters (including Protective Provisions) are agreed between the parties, with the exception of the extent of PLA consultation in Requirement 7.  | The parties are due to meet to continue discussion over the terms of an agreement for the land and rights required by the Applicant (on 22 January 2025).  | 17/01/2025   | 1-110  | 1            | All interests and rights |  | Work No. 4A: Required for Modifications to or Removal of the Belvedere Power Station Jetty  |            |       |                                     |                           |   |   |  |        |        |   |        |     |          |        |
|                                    |  |                        |               |  |               | As reported on at Issue Specific Hearing 2, the parties are agreed on all matters concerning DCO drafting.  | Discussions continue between the parties over the land interests and rights being sought by the Applicant, and its sequencing, and the Applicant remains hopeful of reaching a negotiated agreement. Notwithstanding, the Applicant's discussions with the PLA should be seen in the context of the PLA's protective provisions (that are agreed). These state that the Applicant cannot use any land powers granted to under the draft DCO without the PLA's consent. As such, the PLA's position is protected regardless of whether an agreement is reached by the end of Examination.   | 25/02/2025   | 1-111  | 1            | All interests and rights |  | Work No. 4A: Required for Modifications to or Removal of the Belvedere Power Station Jetty  |            |       |                                     |                           |   |   |  |        |        |   |        |     |          |        |
|                                    |  |                        |               |  |               | The parties are agreed on all matters concerning DCO drafting and protective provisions.  | The parties are due to meet to continue discussion over the terms of an agreement for the land and rights required by the Applicant (on 1 April 2025).   | 25/03/2025   | 1-113  | 1            | All interests and rights |  | Work No. 4A: Required for Modifications to or Removal of the Belvedere Power Station Jetty  |            |       |                                     |                           |   |   |  |        |        |   |        |     |          |        |
|                                    |  |                        |               |  |               | No further updates for Deadline 7.  | The parties have agreed a SoCG, which was submitted into the Examination as an Additional Submission on 22 April 2025 (see Document Reference AS-087). The parties continue to discuss and are making good progress on terms for the land and rights required by the Applicant but both parties agree that this does not need to be completed before the end of Examination for the PLA to consider that its position is adequately protected given the provisions of the Protective Provisions, which are agreed between the parties.   | 02/05/2025   | 1-116  | 1            | Temporary possession     |  | 4: Required to provide working space to undertake Work No. 4  |            |       |                                     |                           |   |   |  |        |        |   |        |     |          |        |

These discussions introduced the Proposed Scheme and covered the rights being sought to remove the now redundant Belvedere Power Station Jetty, and the permanent rights being sought in connection with the construction, operation, maintenance and protection of the new jetty as part of the Applicant's Proposed Scheme, similar to those held by Aviva. The June meeting addressed written questions submitted jointly by Realty Income and Iron Mountain about potential impacts on Iron Mountain's operations. The Applicant will continue to seek engagement regarding the Applicant's land use proposals, the rights sought, and the impacts on the Iron Mountain site, and hopes to reach an agreement on a SoCG in conjunction with Iron Mountain. | 18/10/2024 | 1-023 | 1,2                                 | Acquisition of new rights | 2,4   | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road | N/A  | -      | Not SU | - | RR-164 | N/A | REP2-030 | AS-043 |

| Riverside Energy Park Limited | Cory Legal | None Drafted | N/A | PPs included in draft DCO. Comments awaited from Party. | N/A           | Protective Provisions are included in the draft DCO and yet no comments have been received by REPL. | REPL is an indirect subsidiary of the Applicant (Cory Environmental Holdings Limited), is in the same corporate group as the Applicant, and has the same management and ultimate ownership. REPL is constructing and will operate the Riverside 2 facility (once constructed) to be served by the Proposed Scheme and will enter into a number of agreements with the Applicant for the Proposed Scheme at the appropriate time in the future. The Applicant has kept REPL involved and informed of the development of the Proposed Scheme through regular internal briefings (noting shared management) and will continue to do so as it progresses further. REPL is aware of the land/property rights requirements of the Proposed Scheme and the Applicant and REPL have agreed that either new agreements or amendments to current agreements relating to land and access will be agreed for the benefit of REPL and the Proposed Scheme. | 18/10/2024                    | 1-002 | 1, 2 | Acquisition of new rights | 2, 4 | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road   | N/A | - | Not SU | - | N/A                    | N/A | N/A | N/A | N/A |  |  |  |  |  |  |  |

| Thames Water Utilities Limited | Nigel Warwick and Karen Sutton (Thames Water) / Harriet Ramsey (Barton Knowles) | Draft under discussion | Not completed | PPs included in draft DCO. Comments awaited from Party. | Outstanding | Protective Provisions are included in the draft DCO but as yet no comments have been received by Thames Water.   | The Applicant's engagement with Thames Water commenced on 5 April 2023 in advance of statutory consultation that began on Wednesday 18 October 2023 and has been undertaken through discussions, phone calls, the exchange of email correspondence, site visits, and formal liaison meetings with representatives of Thames Water between 5 April 2023 and 8 July 2024. The liaison meetings referred to above have covered introductions to the Proposed Scheme, Thames Water's land ownership, responsibility for the Crossness LNR and arrangements with its grazier, mitigation and enhancement opportunities and concepts on the Crossness LNR, statutory consultation, and the land and rights being sought by the Applicant in connection with the Proposed Scheme. The liaison meetings also provided the opportunity for the parties to discuss securing the mitigation and enhancement of the Crossness LNR through a tri-partite agreement with Peabody – the Applicant shared a draft skeletal legal framework with Peabody on 14 November 2023 for review, comment and further discussion but Thames Water elected not to be a part of this arrangement. Further, the parties have discussed the land and rights being sought by the Applicant and the Proposed Scheme's compulsory acquisition requirements as they affect Thames Water's land holding. The Applicant initially has shared draft Heads of Terms for an option agreement with Thames Water on 20 December 2023, and updated terms on 20 September 2024. It review comment and discussion, with a view to reaching a negotiated, voluntary acquisition. Thames Water has since provided comments on the terms and the Parties are meeting again on 21 October 2024 to discuss further. The Applicant also issued a draft SoCG for Thames Water to review and comment on on 9 October 2024, which will be discussed further on 21 October 2024. Thames Water also submitted a response to the Applicant's statutory consultation dated 27 November 2023 in which it raised concerns over and sought clarity on site selection, the proximity of the Proposed Scheme to its assets and water demand. The Applicant responded by formal letter on 5 January 2024. | 18/10/2024 | 1-002  | 1, 2 | Acquisition of new rights | 2, 4 | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A        | - | Party is SU and interest in plot is in respect of apparatus / access only | - | RR-195 | REP1-057, REP1-058 | AS-081, REP1-059a, REP2-032, REP3-043, REP3-048, REP4-045, REPS-005. | AS-043 |
|                                |   |                        |               |   |             | The draft Deed of Obligation which the Applicant seeks for TWUL to be party to was circulated to TWUL on 13 November 2024. Comments are awaited.   | The parties remain in an ongoing exchange of correspondence over the terms of an agreement for the land and rights required by the Applicant.  | 26/11/2024 | 1-005  |      | Acquisition of new rights | 2    | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A        |   |   |   |        |                    |  |        |
|                                |   |                        |               |   |             | The Applicant received initial comments from Thames Water on the draft Deed of Obligation on 12 December 2024. The Applicant is reviewing these with a view to holding an in person meeting to discuss further.  | The Applicant is seeking comments from Thames Water on the draft Heads of Terms with a view to holding an in person meeting to discuss further. On 12 December 2024 Thames Water responded with comments and amendments to the SoCG the Applicant issued to it on 9 October 2024, and the Applicant is considering its response to those.  | 13/12/2024 | 1-006  |      | All interests and rights  | -    | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road<br><br>Work No. 7: Required for Mitigation and Enhancement Area  | N/A        |   |   |   |        |                    |  |        |
|                                |   |                        |               |   |             | No further updates for Deadline 3.   | The parties met to discuss Thames Water's comments on the Heads of Terms on 14 January 2025. The Applicant is considering a response to Thames Water's comments following the meeting and the parties have agreed to meet again to discuss further (on 7 February 2025).   | 17/01/2025 | 1-007  |      | Acquisition of new rights | 2, 4 | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A        |   |   |   |        |                    |  |        |
|                                |   |                        |               |   |             | The Applicant received comments on the Applicant's responses to Thames Water's mark up of its protective provisions on 25 February 2025. The Applicant has also taken account of comments on the draft Deed of Obligation to the extent appropriate as part of the document updates required following the matters raised and discussed at Compulsory Acquisition Hearing 2 and Issue Specific Hearing 2.  | The Applicant returned a further iteration of the Heads of Terms for Thames Water's consideration ahead of the meeting held on 7 February 2025, at which the Applicant explained the principles and structure of the drafting. Comments on the Applicant's revised iteration are awaited and the Applicant has requested an in person meeting with Thames Water, with a view to agreeing the Heads of Terms.   | 25/02/2025 | 1-020  |      | All interests and rights  | -    | Work No. 7: Required for Mitigation and Enhancement Area   | N/A        |   | Party is SU and land is not operational                                   |   |        |                    |  |        |
|                                |   |                        |               |   |             | Discussions over the draft Deed of Obligation are still ongoing with further comments from TWUL awaited. The Applicant notes its Deadline 5 submissions will include updated drafting to the Deed of Obligation that TWUL and its representatives will not have seen (as linked to the Applicant's response to question 2.5.3 (please see response to question 2.16.6 for further details on this)). Separately, save for the two items discussed in the schedule of changes to the draft DCO submitted at Deadline 5, the protective provisions are agreed between the parties. | TWUL advised the Applicant on 11 March 2025 that it was still reviewing the detail of the Heads of Terms provided by the Applicant on 4 February 2025, but is doing so highlighted several key commercial points that needed to be addressed. The Applicant is still considering these and will revert as soon as possible.  | 25/03/2025 | 1-021  |      | All interests and rights  | -    | Work No. 7: Required for Mitigation and Enhancement Area   | Open Space |   |   |   |        |                    |  |        |
|                                |   |                        |               |   |             | The parties continue to discuss and make progress on the draft Deed of Obligation. Please see the Applicant's Deadline 7 submissions for the position on the Deed of Obligation relating to TWUL's land.   | The Applicant provided TWUL with improved commercial offers in response to the points raised by TWUL on 11 March 2025. The Applicant awaits TWUL's formal response but nevertheless intends to continue those discussions and make progress towards reaching an agreed position on the Heads of Terms.   | 02/05/2025 | 1-023  |      | Acquisition of new rights | 2, 4 | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A        |   | Party is SU and interest in plot is in respect of apparatus / access only |   |        |                    |  |        |

| The London Borough of Bexley | Ian Smith | Not required | N/A | Not required | Outstanding   | N/A | The Applicant's engagement with LBB commenced in advance of statutory consultation (that began on Wednesday 18 October 2023) in June 2022 and has been undertaken through discussions, the exchange of email correspondence, site visits, and formal liaison meetings held between then and to date. Engagement to date has focused on introducing the Proposed Scheme and the Section 35 Direction sought by the Applicant for it, the Scoping Report, and consultation matters, together with discussion over the technical elements of the Proposed Scheme as it has developed through to submission. Engagement has continued through pre-examination and will continue through the examination phase. Otherwise, no substantive discussions have taken place in respect of land holdings to date as LBB's land interests mainly relate to highways land, and there are numerous protections for LBB's benefit contained within the draft DCO in respect of that land. | 18/10/2024 | 1-001  | 1 | All interests and rights  | -    | Work No. 7: Required for Mitigation and Enhancement Area  | N/A        | - | Not SU  | -                      | RR-124 | REP1-032 | AS-034, AS-080, REP1-014, REP1-033, REP1-034, REP2-010, REP2-024, REP3-038, REP4-016, REP4-036, REP5-019, REP5-042, AS-096 | AS-043 |  |

| Tiffen Land Limited                    | Phil Askew, Desiree Shepherd and Terry Adams (Peabody and Tiffen) / Stephen Walker (CBRE) | Draft under discussion | Not completed | Not required  | Outstanding   | N/A   | The Applicant has engaged with Tiffen Land Limited and the Peabody Trust (as sole owner of Tiffen Land Limited). The Applicant's engagement with Peabody commenced in advance of statutory consultation (that began on Wednesday 18 October 2023) on 22 March 2023 and to date has been undertaken through discussions, phone calls, the exchange of email correspondence, site visits, and workshops and liaison meetings held between March 2023 and October 2024. The liaison meetings and workshops referred to above have covered introductions to the Proposed Scheme, the Applicant's land requirements and the potential use of the Norman Road Field and the former Thamesmead Golf Course for mitigation and enhancement of the Crossness LNR and/or BNG provision respectively (as well as opportunities for funding and delivery), statutory consultation updates and materials, and design approach workshops to establish the feasibility of the Thamesmead Golf Course accommodating the Applicant's BNG requirements. Discussions to date have also sought to understand the licence arrangements with Peabody's on-site grader (as part of Cory's engagement with it, Peabody arranged a site meeting with its grader to introduce the Cory team and discuss the Proposed Scheme). The liaison meetings on 26 April 2023 and 20 November 2023 also provided the opportunity for the parties to discuss securing the mitigation and enhancement of the Crossness LNR and Norman Road Field through a tripartite agreement with Thames Water – the Applicant shared a draft skeletal legal framework with Peabody on 7 November 2023 for review, comment and further discussion but Thames Water elected not to be a part of this arrangement. The Applicant provided Heads of Terms for a voluntary acquisition to Peabody on 20 September 2024, awaits a response, and will seek further engagement on this. The Parties have also worked positively together to design a scheme that will incorporate both Peabody's aspirations for the land on the former Thamesmead Golf Course and the Applicant's BNG requirements as a result of the Proposed Scheme. Details are still being finalised, and will continue to be through the Examination, but both Parties are confident the BNG requirements can be accommodated on the former Thamesmead Golf Course. Peabody also submitted a response to the Applicant's statutory consultation dated 28 November 2023 in which it commented on matters including but not limited to design principles, land-based infrastructure, environmental mitigation and enhancement opportunities, improving connectivity, and the use of compulsory acquisition powers; the Applicant responded by formal letter on 5 January 2024.<br><br>The parties are discussing the terms of a SoCG. Peabody's agent has acknowledged receipt of the Heads of Terms shared in respect of the Norman Road field and the Applicant awaits comments on those. The parties have continued their constructive engagement on the BNG opportunity area at the former Thamesmead Golf Course, with a feasibility report now prepared. This includes the Applicant sharing a draft of the Deed of Obligation relating to this area with them.<br><br>The parties are agreed on the form of a draft SoCG and the Applicant awaits comments on the draft Heads of Terms for the Norman Road field.<br><br>The parties have exchanged comments and correspondence on the draft Heads of Terms for the Norman Road Field. Discussions are ongoing. The parties continue to discuss the matters under discussion as SoCG Rev A (PDA-004), with a view to submitting a further revision into the Examination as soon as possible.<br><br>The Applicant has provided an undertaking to Peabody in respect of the Deed of Obligation, and it has received high level comments from Peabody on the Deed of Obligation in relation to approach, but no detailed comments as of yet. The Deed has been updated at Deadline 4 to account for the discussion at Issue Specific Hearing 2. The Applicant will continue to discuss the Deed with Peabody. Separately, the Applicant has requested an in person meeting with a view to agreeing the Heads of Terms for the voluntary acquisition of the Norman Road Field.<br><br>Peabody returned a further iteration of the Heads of Terms on the Norman Road Field on 12 March 2025. The Applicant is still considering the mark-up and will revert as soon as possible. The Applicant also intends to pursue an in-person meeting with Peabody and its representatives to progress discussions. The Applicant is awaiting comments from Peabody on the draft Deed of Obligation A and Tiffen (represented by the same agents and lawyers) on draft Deed of Obligation B.<br><br>The parties continue to discuss and make progress on the draft Deeds of Obligation (A and B). Please refer to the Applicant's related Deadline 7 submissions for further information on the current position between the parties. The parties also continue to discuss and make progress on the Heads of Terms for the voluntary acquisition of the Norman Road Field. | 18/10/2024 | 1-004      | 1      | All interests and rights  | -    | Work No. 7: Required for Mitigation and Enhancement Area   | N/A        | - | Not SU   | -                      | RR-197 | N/A | PDA-004, REP1-017, REP1-062, REP3-041, REP5-053 | AS-043 |

| UK Power Networks (Operations) Limited | James Cole and William Daniels (UKPN)   | Not required           | N/A           | PPNs included in draft DCO. Comments awaited from Party. Side Agreement has been requested. | N/A           | Protective Provisions included in the draft DCO for UKPN, and as yet no comments received.<br><br>No further updates for Deadline 1.<br><br>No further updates for Deadline 2.<br><br>No further updates for Deadline 3.<br><br>The parties are in the process of agreeing an undertaking to review the protective provisions.<br><br>UKPN has requested the Applicant enter into a side agreement, which the Applicant is engaging with. No amendments to the protective provisions have been put forward by UKPN.<br><br>The Applicant will continue discussions with UKPN on the related side agreements and land agreements recently sought by this party. However, UKPN has not objected to any of the Protective Provisions contained in the DCO, which are well precedented (including on Riverside 2). As such the Secretary of State can determine the DCO irrespective of whether those agreements are completed. | The Applicant has engaged with and is in correspondence with UKPN through phone calls, emails, and liaison meetings in respect of the Proposed Scheme. Through its engagement the Applicant has introduced the Proposed Scheme to UKPN and sought clarification over whether it requires amendment to its standard protective provisions provided for in the draft DCO (given the future interests and apparatus it will have in the vicinity of the Proposed Scheme in connection with the Riverside Energy Park project), and explained it would like to agree a SoCG to record the agreed position in this regard. The Applicant has prepared and issued a SoCG to UKPN (and has subsequently suggested it covers UKPN's group companies) on 9 July 2024 for it to review and comment on based on the engagement to date. UKPN is yet to respond but the Applicant hopes to agree the SoCG shortly.<br><br>The Applicant continues to chase comments from UKPN on the SoCG issued to it.<br><br>The Applicant continues to chase comments from UKPN on the SoCG issued to it.<br><br>The Applicant continues to chase comments from UKPN on the SoCG issued to it, and last met with UKPN on 13 January 2025 to seek further engagement from UKPN on its content.<br><br>The Applicant continues to seek comments from UKPN on the SoCG issued to it in July 2024.<br><br>The Applicant continues to seek comments from UKPN on the SoCG issued to it in July 2024.<br><br>No further updates for Deadline 7.   | 18/10/2024 | 1-002      | 1, 2   | Acquisition of new rights | 2, 4 | Work No. 3: Required for Utilities Connection Corridor and Site Access Works from Norman Road  | N/A        | - | Partly is SU and interest in plot is in respect of apparatus / access only | -                      | N/A    | N/A | PDA-005   | N/A    |

| Western Riverside Waste Authority | Interim General Manager (WRWA) | None Drafted | Not completed | Not required | Outstanding   | N/A                           | The Cory corporate group has a longstanding relationship with the WRWA and engages with them across multiple sites and projects. WRWA also holds a non-occupational interest in the Riverside 1 land and was issued with an LIQ and notice of the Applicant's statutory consultation for the Proposed Scheme. The Applicant received a response to the LIQ and issued a confirmation schedule to confirm information from WRWA. Cory corporate group companies have regular meetings with WRWA at which the Proposed Scheme has been raised on a number of occasions. Further, the Applicant has an ongoing business interface with WRWA and has corresponded and met on site at Riverside 1 and 2 to discuss the detail of how the Proposed Scheme will interact with and benefit Riverside 1, intends to continue this engagement, and seeks to reach agreement on the rights required. | 18/10/2024 | 1-052  | 1, 2                      | Acquisition of new rights | 1, 5  | Work No. 2B: Required for Flue Gas Supply Ductwork Connection<br><br>Work No. 5: Required for Above Ground LCO2 Pipelines to Work No. 4   | N/A | - | Not SU                 | - | RR-204 | REP1-043 | REP1-044, REP1-045, REP3-049, REPS-049. | AS-043 |
