1 Schedule of Changes to the Draft Development Consent Order

DCO Reference	Stakeholder	Comments from Stakeholder / Rationale for Change	Change Made	DCO Version
General				
General	ExA	The ExA has requested that the Draft DCO is updated to amend “shall” and “should” to avoid the potential for legislative ambiguity.	The Applicant has updated the Draft DCO to avoid the use of “shall” and “should” where appropriate throughout the Draft DCO.	5
General	Applicant	The Applicant has inserted a new Article 34 and therefore the numbering of previous articles 34 to 46 (now 35 to 47) has changed.	The Applicant has amended the numbering and cross-referencing throughout the Draft DCO.	5
General	Applicant	Following Issue Specific Hearing 1, in response to Action Point 2 (EV5-008) the Applicant has reviewed the use of the terms “authorised project” and “authorised development”	The Applicant has amended a number of instances of “authorised development” to “authorised project” throughout the draft DCO.	6

DCO Reference	Stakeholder	Comments from Stakeholder / Rationale for Change	Change Made	DCO Version
		throughout the draft DCO, and considers that there were a few instances where the terms were being used inconsistently in the drafting. In order to rectify the noted inconsistency, the Applicant has made a number of changes to the draft DCO to ensure the appropriate term is used consistently.		
Articles				
Article 2(1), definition of "land plans"	Applicant	In reviewing the Draft DCO, the Applicant identified an error in the definition of "land plans" and has corrected this.	<i>"land plans" means the plans certified as the land plans (onshore) and land plans (offshore) by the Secretary of State for the purposes of this Order under article 40 (certification of plans etc.)</i>	2
Article 2(1), definition of "special	Applicant	The Land Plans (document reference 2.5) have been updated to reflect the updated	<i>"special category land" means the land comprising plot(s) 01-001, 01-002, 01-003, 01-004, 01-005 and 17-001 shown on the land plans and described in the book of reference;</i>	2

category land"		position of the mean low and mean high water marks. As a result, plot 01-003 has been removed from the Order land.		
Article 2(1), definition of "onshore preparation works"	Applicant	Following Issue Specific Hearing 1, in response to Action Point 4 (EV5-008) the Applicant has reviewed the definition of onshore preparation works in the draft DCO, and following further consideration, has added footpath creation into the list of onshore preparation works.	<i>"onshore preparation works" means operations consisting of site clearance, pre-planting of landscaping works, vegetation clearance, archaeological investigations, environmental surveys, ecological mitigation, investigations for the purpose of assessing ground conditions, remedial work in respect of any contamination or other adverse ground conditions, diversion and laying of services, erection of any temporary means of enclosure, creation of site accesses, footpath creation and the temporary display of site notices or advertisements;</i>	6
Article 2(1), definition of "outline organic land protocol"	Applicant	In its response to the ExA's First Round of Written Questions (Q1 LU 1.19) (REP2-051) the Applicant confirmed that the Organic Land Protocol would be added as an appendix to the outline Code of	<i>"outline organic land protocol" means the document certified as the outline organic land protocol by the Secretary of State for the purposes of this Order under article 41 (certification of plans etc.);</i>	6

		Construction Practice. The Applicant has added an organic land protocol which must accord with the outline organic land protocol to Requirement 18(2) and has therefore provided a definition of “outline organic land protocol” to Article 2(1).		
Article 7 Application and modification of legislative provisions	Applicant	The Applicant has reviewed the Management of Hedgerows (England) Regulations 2024, and has amended article 7 to provide for the modification of Regulation 5(5) of the Management of Hedgerows (England) Regulations 2024 (“the 2024 Regulations”) so that the general maintenance	<i>(4) Regulation 5 of The Management of Hedgerows (England) Regulations 2024 is modified so as to read for the purposes of this Order only as if there were inserted after paragraph 5(e)— “(5)(f) activities authorised by an order granting development consent pursuant to the Planning Act 2008.”</i>	7

		requirements for important hedgerows (as such term is defined in the 2024 Regulations) do not apply to activities authorised by a development consent order made pursuant to the 2008 Act. The 2024 Regulations set out requirements to take all reasonable steps to establish and thereafter maintain green cover on land within two metres of the centre of an important hedgerow and not to cultivate or apply fertilisers or pesticides to land within two metres of the centre of an important hedgerow. The Applicant may

It is considered these activities could fall into the categories of activities which the 2024 Regulations prohibits. The exceptions do not currently include activities authorised by a development consent order and</p>

		therefore this modification is necessary to extend the exception to activities authorised by a development consent.		
Article 10, Application of the 1991 Act	Applicant	In reviewing the Draft DCO, the Applicant identified a minor formatting error in paragraph (1) and has corrected this.	“ (a)”	3
Article 12(7), Temporary stopping up of public rights of way	LCC	Following a request from LCC (REP1-053), the Applicant has amended the timeframe for consent to be deemed to be granted to 56 days.	<i>If a street authority fails to notify the undertaker of its decision within 28⁵⁶ days of receiving an application for consent under paragraph (5)(b) or refuses consent without giving reasons for that refusal, that street authority is deemed to have granted consent.</i>	5
Article 13(2), Access to works	LCC	Following a request from LCC (REP1-053), the Applicant has amended the timeframe for consent to be deemed to be granted to 56 days.	<i>If the relevant highway authority fails to notify the undertaker of its decision within 28⁵⁶ days of receiving an application for approval under paragraph (1)(b) that relevant highway authority is deemed to have granted approval.</i>	5

DCO Reference	Stakeholder	Comments from Stakeholder / Rationale for Change	Change Made	DCO Version
Article 15(5), Power to alter layout etc. of streets	LCC	Following a request from LCC (REP1-053), the Applicant has amended the timeframe for consent to be deemed to be granted to 56 days.	<i>If the street authority fails to notify the undertaker of its decision within 2856 days of receiving an application for consent under paragraph (3), the street authority is deemed to have given approval.</i>	5
Article 16(8), Traffic regulation	LCC	Following a request from LCC (REP1-053), the Applicant has amended the timeframe for consent to be deemed to be granted to 56 days.	<i>If the traffic authority fails to notify the undertaker of its decision within 2856 days of receiving an application for consent under paragraphs (1) and (2) the traffic authority is deemed to have granted consent.</i>	5
Article 19 (Removal of Human Remains)	Applicant	In reviewing the Draft DCO, the Applicant identified a minor formatting error in paragraph (6)(b) and has corrected this.	The text " <i>and that person must, as soon as reasonably practicable after such re-interment or cremation, provide to the undertaker a certificate for the purpose of enabling compliance with paragraph (11)</i> " has been moved so as to appear below sub-paragraphs (a) and (b) whereas it previously appeared as part of sub-paragraph (b) in error.	4
Article 19 (Removal of Human Remains)	Applicant	The Applicant has updated this Article based on precedent to ensure that appropriate treatment of human remains does not delay the implementation of	<i>(3) BeforeSubject to paragraph (12), before any such remains are removed from the specified land, the undertaker must give notice of the intended removal, describing the specified land and stating the general effect of the following provisions of this article, by— (a) publishing a notice once in each of two successive weeks in a newspaper circulating in the area of the authorised project; and (b) displaying a notice in a conspicuous place on or near to the specified land...</i>	5
