1 Schedule of Changes for Plans

1. This document presents a written summary of changes made to Plans since the submission of the DCO Application, and a change log table providing additional detail. This document will be updated and reissued alongside any updated Plans throughout the Examination.

1.1 Deadline 4a, Summary of Changes

2. 2.1 Works Plan Onshore and 2.2 Works Plan Offshore have been updated to reflect consistent wording across all legend work no. titles against 3.1 Draft Development Consent Order.
3. 2.10 Public Rights of Way Plan has been updated to reflect the changes to the arrangements for the management of paths CROF/276/2, 3, and 4, following engagement with the LCC PROW and Access team.

Diversions of CROF/276/2 & 3 have been avoided, and these are now an 'Open Managed Crossing'.

The diversion of CROF/276/4 has been reduced from 439m in length to 21m. The short diversion connects this path to the 'Open Managed Crossing' for CROF/276/2 & 3.

This was subject to a change notification submitted at DL3 (REP-4-123).

The King Charles III England Coast Path has been shown as 'open no impact' to clarify that the works will not have any impact upon this path.

4. 2.18 Onshore Crossing Plan has been updated to show the changes to the crossing managements arrangements to PROW CROF/276/2, 3, & 4, described above under 'Public Rights of Way Plan', following consultation with LCC.

The Onshore Crossing Plan has also been updated to show the Triton Knoll Offshore Wind Farm (TK) electrical cables following consultation with Equitix, the offshore transmission operator (OFTO). The TK cables are not crossed by the ODOW cables but are inside the order limits for an enabling access route.

1.2 Deadline 4, Summary of Changes

5. 2.5 Land Plans have been updated following review of unregistered drainage and works area rights, to reflect changes in ownership, occupation and persons who have rights. This has resulted in 5 plots being added and 4 plots being reshaped. This is due to changes in the extent of plot boundaries and has not resulted in any amendments to the Order Limits.
6. 2.18 Onshore Crossing Plan has been updated, following engagement with the RSPB. A water main, connecting a pumping station to the Frampton Marsh reserve has been added. The water main is used during the summer months to maintain water levels in the wetlands at the reserve.

1.3 Deadline 3, Summary of Changes

7. Following a His Majesty's Land Registry (HMLR) Refresh, the Land Plans have been updated to reflect changes in ownership, occupation and persons who have rights. This has resulted in two plots being added and two plots being reshaped. This is due to changes in the extents of plot boundaries and has not resulted in any amendments to the Order Limits.

1.4 Deadline 2, Summary of Changes

8. The Land Plans (document 2.5, version 5) have been updated to reflect changes in occupation and persons who have rights. This has resulted in plots being added and reshaped. This has not resulted in any amendments to the Order Limits.
9. The previous versions of the Onshore Crossing Plan (PD1-021) and Public Rights of Way Plan (PD1-013) included five proposed PROWs which the Applicant understood were being promoted by Lincolnshire County Council as identified by their Boston Borough Council planning application reference numbers, along with the indicative routes for diversions. Following consultation, Lincolnshire Country Council has since confirmed that these proposed PROWs have not reached the point of being considered for promotion and therefore both plans have been updated to remove these PROWs and the proposed diversions.

1.5 Deadline 1, Summary of Changes

10. Following a His Majesty's Land Registry (HMLR) Refresh, the Land Plans have been updated to reflect changes in ownership, occupation and persons who have rights. This has resulted in plots being added, removed or reshaped. This is due to changes in the extents of plot boundaries and has not resulted in any amendments to the Order Limits.

1.6 Response to Rule 17 Letter Dated 31 July 2024, Summary of Changes

11. All Plans submitted as part of the Application (documents 2.1 – 2.20 inclusive) have been updated and new versions have been submitted as part of the 19th of September Procedural Deadline submission.
12. The offshore and onshore plans have been amended to capture the following:
 - The introduction of an Offshore Restricted Build Area (ORBA).
 - The refinement of the offshore Export Cable Corridor (ECC) to remove the northern route option between the western extent of the Inner Dowsing, Race Bank and North Ridge SAC and Wolla Bank. This has consequently resulted in the removal of the northern Offshore Reactive Compensation Platform (ORCP) area. A minor amendment was also made to the ORCP area within the southern route to exclude an area at the eastern extent, within which it would not be technically feasible to install the structures whilst meeting the minimum bend radii requirements for the offshore export cables.

- The removal of some enabling and permanent accesses onshore, that are no longer required following ongoing design work.
- The removal of a small amount of planting at the Onshore Substation (OnSS) and a reduction in planting to the west of the OnSS.
- A change in rights sought in respect of the access to the OnSS from freehold acquisition to permanent rights.
- A change in rights sought in respect of the bellmouth off Roman Bank from freehold acquisition to permanent rights.

13. The Onshore Works Plan (document 2.1) has been updated to capture the following:

- A small area has been amended to replace previously included screening with drainage rights (Work No. 23 to Work No. 24) east of the A16 at Surfleet Bank, to accommodate new development plans by the landowner. This amendment will have no material impact on the conclusions of the LVIA assessment (APP-083) and as such the effectiveness of the mitigation planting, nor will it have a material impact on the conclusions of the BNG assessment (AS1-014). The Applicant can confirm this will also not result in a change in the assessment conclusions of the Environmental Statement (ES) for any other environmental topics.
- A reduction in the width of screen planting from 10m to 6m west of the A16.

The 4m strip has been removed from the Eastern side of the planting strip and will be replaced with drainage rights, to accommodate access for drain maintenance. The 4m strip previously shown as Work No. 23 is now shown as Work No. 24. This amendment will have no material impact on the conclusions of the LVIA assessment (APP-083) and as such the effectiveness of the mitigation planting, nor will it have a material impact on the conclusions of the BNG assessment (AS1-014). The Applicant can confirm this will also not result in a change in the assessment conclusions of the Environmental Statement (ES) for any other environmental topics.

14. The Onshore Crossing Plan (document 2.18) has been updated following consultation with National Gas Transmission to include a pipeline that was not shown previously and which was not on the utilities dataset used for Application. This has been added to both the Onshore Crossing Plan (Sheet 49) and the associated Crossing Schedule as UUX-250a (document reference 6.3.3.2) updated for this deadline.

15. The Onshore Crossing Plan (2.18) and Public Rights of Way Plan (2.10) have been updated to show proposed new public rights of way (PRoWs) identified through consultation with Lincolnshire County Council (identified by their Boston Borough Council planning application reference numbers), along with the indicative routes for diversions. These proposed new PRoWs have also been included in the associated Crossing Schedule (6.3.3.2). The proposed new PRoWs and associated diversions (as appropriate) are shown on the following sheets of the Onshore Crossing Plan by reference to the crossing (PRX) or diversion reference (PRDX) and on the Public Rights of Way Plan by reference to the planning application reference number:

Plan number	sheet	Crossing Reference (Plan 2.18)	Plan	PROW Plan Reference (Plan 2.10)
31		PRX-20a		OMC B/24/0191 between points OMC36 and OMC 37
32		PRDX-4		Diversion between points CTD9 and CTD10
32		PRX-20b		CTD B/24/0197 between points CTD9 and CTD10
32		PRDX-5		Diversion between points CTD11 to CTD12
32		PRX-20c		CTD B/24/0197 between points CTD11 and CTD12 and OMC B/24/0197 between points OMC38 and OMC39
33		PRX-20d		OMC B/24/0198 between points OMC40 and OMC41
33		PRX-20e		CTD B/24/0198 between points CTD13 and CTD14 and OMC B/24/0198 between points OMC42 and OMC43
33		PRDX-6		Diversion between points CTD13 and CTD14

1.7 Response to Section 51 Advice Submission, Summary of Changes

16. All Plans submitted as part of the Application (documents 2.1 – 2.20 inclusive) have been updated and new versions have been submitted as part of the Response to Section 51 Advice.
17. The project's annual renewal of Ordnance Survey MasterMap data occurred after the submission of the DCO Application, which identified changes in the Mean High Water Springs (MHWS) and Mean Low Water Springs (MLWS) dataset. All plans have been updated to reflect this change to the datasets recently issued by Ordnance Survey MasterMap, which has resulted in changes to both onshore and offshore Order Limits.
18. All onshore plans have been updated to reflect further minor onshore Order Limit reductions as a result of ongoing design refinement and works to refine land plots, which resulted in the removal of unnecessary plots associated with Temporary Works Areas/Compounds, and enabling access routes. These refinements result in no changes to assessment conclusions presented in the Application and are shown in Appendix 1 Changes to Order Limits, Response to Section 51 Advice, 31 July .
19. The following plans were updated based on Section 51 Advice received as detailed in Table 2.1: Change Log detailing Plan amendments and revisions.
 - 2.1 Onshore Works Plan,
 - 2.2 Offshore Works Plan,
 - 2.5 Land Plans,
 - 2.6 Crown Land Plans Onshore, 2.9 Access to Works Plan,
 - 2.10 Public Rights of Way Plan,
 - 2.11 Streets Plan,
 - 2.12 Special Category Land Onshore,
 - 2.13 Historic Environment Plan Onshore,

- 2.15 Statutory and Non-Statutory Nature Conservation Sites Plan Onshore,
- 2.16 Statutory and Non-Statutory Nature Conservation Sites Plan Offshore,
- 2.17 Important Hedgerows and Tree Preservation Order Plan,
- 2.18 Onshore Crossing Plan and
- 2.20 Traffic Regulation Order Plan.

					of this split, plot area has been reduced from 2011m ² to 1134m ² .
2.5	22-029a	February 2025	V7	Plot Added	Due to ongoing due diligence, new plot required following confirmation of unregistered land ownership within extent of plot 22-029.
2.18 Onshore Crossing Plan					
2.18	N/a	February 2025	V5	RSPB pipe crossing added, Ref UUX-178a and UUX-178b.	Following ongoing engagement, a water pipe belonging to the RSPB, used for environmental management at the Frampton Marsh reserve has been added.
Deadline 3					
2.5 Land Plans					
2.5	26-003	December 2024	V6	Plot Reshaped	Following HMLR registration of LL430719 which is adjacent to this plot, plot extent of unregistered plot 26-003 has been reduced from 758m ² to 566m ²
2.5	26-003a	December 2024	V6	Plot added	Plot 26-005 was previously unregistered. Ongoing due diligence has identified, following the HMLR registration of the title LL430719, that the registered title extends further than previous plot extent and overlaps with publicly maintained highway on eastern title boundary. New plot created to account for this overlap by splitting adjacent unregistered plot 26-003.
2.5	26-005a	December 2024	V6	Plot added	Plot 26-005 was previously unregistered. Ongoing due diligence has identified, following the HMLR registration of the title LL430719, that the registered title extends further than previous plot extent and overlaps with publicly maintained highway on western title boundary. New plot

Deadline 1					
2.5 Land Plans					
2.5	01-009	October 2024	V4	Plot Reshaped	Following HMLR registration of LL428985 which is adjacent to this plot, plot extent of unregistered plot 01-009 has been reduced from 2521m ² to 2157m ² .
2.5	01-010	October 2024	V4	Plot Reshaped	Following HMLR registration of LL428985 which is adjacent to this plot, plot extent of unregistered plot 01-010 has been reduced from 2154m ² to 2138m ² .
2.5	01-013	October 2024	V4	Plot Reshaped	Plot 01-013 was previously unregistered, ongoing due diligence has identified following the HMLR registration of the title LL428985, the plot extent has increased from 22897m ² to 22918m ² .
2.5	02-001	October 2024	V4	Plot Reshaped	Plot 02-001 was previously unregistered, ongoing due diligence has identified following the HMLR registration of the title LL428985, the plot extent has been increased from 26863m ² to 26938m ² .
2.5	02-002	October 2024	V4	Plot Reshaped	Following HMLR registration of LL428985 which is adjacent to this plot, plot extent of unregistered plot 02-002 has been reduced from 13744m ² to 13669m ² .
2.5	02-003	October 2024	V4	Plot Reshaped	Following HMLR registration of LL428985 which is adjacent to this plot, plot extent of unregistered plot 02-003 has been reduced from 719m ² to 663m ² .
2.5	02-004	October 2024	V4	Plot Reshaped	Plot 02-004 was previously unregistered, ongoing due diligence has identified following the HMLR

Plan Reference Numbers	Plot Number(s) if appropriate	Date of Change	Revision Change	Change Made	Reasons for Change
					registration of the title LL428985, the plot extent has been increased from 2278m ² to 2335m ²
2.5	09-004	October 2024	V4	Plot Reshaped	Following HMLR registration of LL427705, plot 09-004 continues to be part of the HMLR title LL49713. Plot extent reduced from 59860m ² to 7465m ² .
2.5	09-004a	October 2024	V4	Plot Added	Following HMLR registration of LL427705, plot has been created by splitting plot 09-004.
2.5	09-004b	October 2024	V4	Plot Added	Following HMLR registration of LL427705, plot 09-004b is part of the HMLR LL49713. Plot has been created by splitting plot 09-004.
2.5	09-005	October 2024	V4	Plot Reshaped	Following HMLR registration of LL427705, plot 09-005 continues to be part of the title LL49713. Plot extent reduced from 9375m ² to 1710m ² .
2.5	09-005a	October 2024	V4	Plot Added	Following HMLR registration of LL427705, plot has been created by splitting plot 09-005.
2.5	09-005b	October 2024	V4	Plot Added	Following HMLR registration of LL427705, plot 09-005b is part of the title LL49713. Plot has been created from 09-005 following the HMLR boundary provided for the title LL427705.
2.5	09-005c	October 2024	V4	Plot Added	Following HMLR registration of LL427705, plot has been created by splitting plot 09-005.
2.5	09-018a	October 2024	V4	Plot Added	Following HMLR registration of LL425262 which is adjacent to this plot, plot has been created to cover land that remains unregistered.
2.5	09-022	October 2024	V4	Plot Reshaped	Plot 09-022 was previously unregistered, ongoing due diligence has identified following the HMLR registration of the title LL425262, the plot extent has been reduced from 16419m ² to 16370m ² .
